What is a RAPID number?
RAPID stands for Rural Address Property Identification and is a rural road number allocated to ensure emergency services and couriers can find your property. Numbers are based on the distance your property is from the beginning of the road on which it is located. Once a number is allocated the appropriate authorities will be notified (e.g. emergency services).

Fee: *$50 per RAPID number; $5 per additional numbers on the same title and on the same order. There is a small charge for replacement plates. Numbers will be allocated as soon as possible after payment is received.*
