

## Cape Palliser Road Closure

### At Kupes Sail

Cape Palliser Rd at Kupes Sail (route position 35.15km) is closed to vehicle access for emergency repair for approximately 2 weeks, works are expected to be substantially completed on 27 November 2015 subject to weather conditions over the period. The location affects vehicle access from Mangatoetoe to the lighthouse. Pedestrian access will be maintained, with vehicle parking available nearby.

The Concrete structure was damaged during a storm event in June 2015 with limited access since then. Road works are taking place to ensure safety and full access will be achieved prior to the Christmas holiday period and beyond.
