

# SOUTH WAIRARAPA DISTRICT COUNCIL

12 DECEMBER 2018

## AGENDA ITEM C1

### APPLICATION FOR GRANT FUNDING

---

#### **Purpose of Report**

To present an application for funding from Healthy Homes for funding consideration.

#### **Recommendations**

Officers recommend that the Council:

1. *Receive the Application for Grant Funding Report.*
2. *Receive and consider the application for funding from Healthy Homes for \$5,000 and either approve grant funding at the requested level, at a partially funded level, or decline funding.*

#### **1. Executive Summary**

A funding application has been received from Healthy Homes (Appendix 1).

Council are requested to consider the application on its merit and fit with the community outcomes as included in the Long Term Plan (Appendix 2) and Council's Grant Policy (Appendix 3).

#### **2. Discussion**

Every year as part of the annual plan or long term plan (LTP) process Council considers applications for funding at the time that submissions to the plans are considered. Historically all funding put aside for the purpose of grants is allocated; no discretionary funding is available for applications received during the year.

Councillors elected to put aside a contingency in the Long Term Plan 18/28 so funding was available should midterm applications with merit be received.

#### **3. Financial Implications**

There would be no budgetary financial implications should a decision be made to fund Healthy Homes to the full amount requested.

Appendix 4 provides an outline of all grants given to date for the 18/19 financial year.

A \$12,642 contingency amount is available should Council elect to fund the applicant.

#### **4. Appendices**

Appendix 3 - Council's Grant Policy

#### When was the organisation formed and what are its aims and objectives?

Formed in 2004, this steering committee has, over the last 14 years, raised and coordinated community funding that has enabled the leveraging of EECA/Government funding for the retrofitting of insulation in the homes of low income and high health-needs Wairarapa people. The combined subsidies have generally made the work done, free to the home-owners. Some 2,583 homes have had retrofit insulation installed through the WHH scheme to 30 June 2018.

The WHH committee has representatives of the three Wairarapa Councils, the DHB, Trust House and WINZ. The objectives of the Committee have been to improve the health and productivity of Wairarapa people by ensuring they live in warm and dry homes. Cold, damp and poorly insulated homes are a major factor in poor health which directly impacts peoples quality of life, work and children's education.

Using the Government's EECA subsidies, the WHH community funding has enabled beneficial outcomes for all residents of the homes where work has been done.

## 2. PROJECT OVERVIEW

**Specific reason for grant application (e.g. upgrade to facilities/purchase of equipment/one-off event):**

The Warmer Kiwi Homes programme was launched by EECA in July 2018. The WHH provider, EnergySmart has secured a contract with EECA to deliver 140 insulation retrofits in the Wairarapa before 30 June 2019. The EECA subsidy is 67%, but requires a level of community funding to support the low income home owners.

The community funding (including your Council's grant) will be combined with a manufacturer's subsidy to pay the balance of the costs of the work – making it free to the home-owners.

Criteria for home-owners to qualify include, community services card or Super Gold Combo card or home located in a Quintile 5 area (deprivation index 9 or 10).

Work to be carried out: ceiling insulation, underfloor insulation, ground vapour barrier, foil removal.

**Where and when will the activity/event take place or what is the anticipated completion date of the project (please note funds cannot be allocated retrospectively)?**

Warmer kiwi Homes is a 4 year programme, but funding being sought for is currently only for this year (to 30 June 2019).

**Why should South Wairarapa District Council (SWDC) support this project/event?**

There remain many homes in the Wairarapa still to be properly insulated and many of those are in the SWDC area. Between 2012 and 2016 192 (18%) of the 1,044 homes subsidised were in the SWDC area.

**Who will benefit from these funds and in what way?**

Home owners and residents in the homes being insulated will benefit, with warmer, drier and healthier homes to live in.

**Would you like to speak in support of your application at a meeting of the South Wairarapa District Council?** Bob Francis is available to speak to this submission if required.

**W AIRARAPA H EALTHY H OMES - PROJECT FUNDING FOR 2018-19**

Wairarapa Healthy Homes steering committee (WHH) is a group of funding agencies in the Wairarapa who have supported government-funded insulation programmes since 2004. EECA has been channeling government funding to assist Kiwis to upgrade their homes to be warmer and drier. The health and productivity benefits of their programmes are well documented. Additional community funding has enabled low income and high health needs families to have the retrofit work done at little or no cost.

WHH has gathered and applied that community funding, based on low income and health needs criteria. The period from June 2016 to June 2018 has seen reduced EECA subsidies, less take up of the programmes and less value gained from the community funding. That has changed under the new government, with a new programme now underway.

The new EECA funding scheme ‘**Warmer Kiwi Homes**’ has been through a tender round and the Terra Lana Ltd subsidiary EnergySmart has been awarded contracts in a number of areas of the country, including the Wairarapa. Part of the EECA criteria is that there is a level of community funding to add to their funding of 67% of the costs. They have opened up the criteria to qualify for the work to include homes in decile 9 & 10 areas.

EnergySmart have a Wairarapa branch and are now ready to roll out the Warmer Kiwi Homes programme. We expect it will re-invigorate our objective of making the homes of the people in the Wairarapa warmer and healthier. The increased level of EECA funding and the broadening of the criteria to allow more homes to qualify for the subsidy are both huge positives for our region.

The WHH group of funders have included South Wairarapa District Council over most of the past 14 years and we ask that the Council again contributes to the community funding that means low income home owners have warmer, drier, healthier homes.

The attached financial report has previously been provided, but is included again for completeness of this application. Masterton District Council continue to be support the programme and have committed their carried over funding. Carterton have agreed to a contribution of \$5,000 in 2018/19. The Wairarapa DHB is very supportive and have confirmed verbally that they will provide funding again.

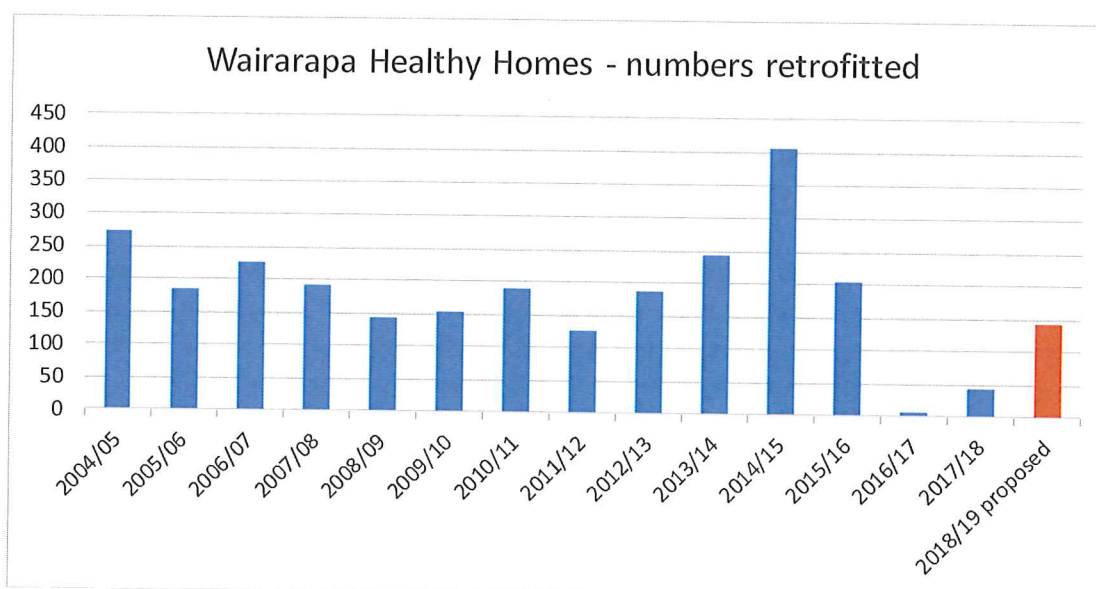

The table below shows analysis of homes completed in the SWDC area over the 4 year period when the WHH scheme was being fully implemented. The last two years have had a lower level of activity and no SWDC funding. EnergySmart staff work with health providers and other agencies to identify homes that are in need of the retrofit work and qualify under the criteria. There remain many homes in the SWDC area in need of the retrofit work.

Together they will enable Council to achieve this vision. Council has a role in achieving the community outcomes via significant activities.

# **Appendix 3 - Council's Grant Policy**

# GRANTS POLICY

## 1. INTRODUCTION

The purpose of the Grants Policy is the consistent allocation and management of contestable and discretionary community grants awarded at the local or regional level ensuring fairness to all. These grants support the delivery of a wide range of outcomes identified in the South Wairarapa Long Term Plan, Annual Plan, and other key strategic documents.

South Wairarapa District Council's commitment to the provision of grants is one aspect of the Council's overall support function within the community. The total amount of annual funding to be allocated for the purpose of community grants will be decided upon through the Council's Long Term Plan (LTP) and subsequent annual plans (APs). A Community Grant is a 100% rate-funded form of donation to a not-for-profit organisation.

It is recognised that Local Authorities are one of the few organisations that can levy a tax, and in this context we are receiving revenue from the ratepayer who has little choice and transferring it to another person or group.

The Policy will ensure that the allocation and distribution of grant funding:

- Is clear on who can apply and for what
- Occurs in a consistent, efficient, effective manner
- Is transparent, equitable, fair and accountable
- Supports the direction outlined in the LTP/AP
- Best meets Community Outcome objectives
- Contributes to the social, cultural and environmental well-being of the community
- Contributes to Council's vision, mission, values and strategic plan
- Assists in strengthening the community and developing self-reliance
- Allows Council and/or its community partners to target areas of highest need.

Throughout this policy "Council" means:

- South Wairarapa District Council (SWDC)
- Community Boards, Committees and Sub-Committees of SWDC

Council's policy seeks to support and resource initiatives that meet identified community needs, which contribute to community empowerment and strengthen communities. Community grants are primarily for the benefit of the district's residents.

Grants will be allocated to organisations which contribute to the community in at least one of the following areas:

- Social
- Environmental
- Recreational
- Cultural
- Arts
- Sport
- Heritage Preservation
- Maori
- Economic Development
- Events

The activities must benefit the South Wairarapa District, or, at the discretion of the Council, the Wairarapa region. Regional funding will be considered on a per capita basis and must show a tangible direct or indirect benefit to South Wairarapa.

## 2.1 Eligibility

- 2.1.1 Organisations and groups making an application must be not-for-profit, and not involved with any commercial activity. They must be South Wairarapa based or with a distinct activity in the District and be in line with the objectives and community outcomes of the South Wairarapa District Council.

## 2.2 Concession for Charitable and like community organisations and groups

Services and Facilities for which a Concession may be given.

### 2.2.1. Planning and Regulatory.

2.2.1.1 Applications for Resource, Building or Plumbing Consents and Licences and Bylaws Permits are not eligible for a concession, either monetarily or otherwise. However, affected organisations may seek a grant from the Council in accordance with its policies and practices in respect to grants.

2.2.1.2 Road closures for street days or other fund-raising activities are eligible for a concession of up to 50% of the cost of any related advertising that is placed by the Council.

2.2.2.2 Deposits or bonds required against due performance may not receive a concession.

## 2.3 Annual Grants

As part of the Long term Plan or Annual Plan process Council nominates funds to support Community organisations delivering against Council objectives. These funds can be applied for through the Long Term Plan and Annual Plan submission process. Applicants need to complete a grant application form and provide an accountability form once the grant has been allocated. Copies of these forms can be found on SWDCs website.

## 2.5 Special Grants

### 2.5.1 Creative Communities Grant

The Creative Communities Scheme supports and encourages local communities to create and present diverse opportunities for accessing and participating in arts activities within the South Wairarapa. The scheme is a partnership between Creative NZ and the Council who administer the scheme. Recipients must show that the proposed project meets one or more of the funding criteria: Broad community involvement, diversity and/or young people. . Individuals may apply for these grants.

Applications are considered 2-4 times per year by the Local Assessment Committee.

Individuals may not apply for these grants.

Applications are considered annually by the Local Assessment Committee.
