SOUTH WAIRARAPA DISTRICT COUNCIL

14-16 MAY 2018

AGENDA ITEM 5

SUBMISSIONS ON THE CONSULTATION DOCUMENT LONG TERM PLAN 2018/28 PROPOSALS REPORT

Purpose of Report

To present the 2018/28 Long Term Plan Submissions and summary of submissions for consideration.

Recommendations

Officers recommend that the Council:

- 1. Receive the Submissions on the Consultation Document Long Term Plan 2018/28 Proposals Report.
- 2. Consider the submissions and make resolutions and changes to the 2018/28 Long Term Plan as necessary.

1. Executive Summary

The proposed Long Term Plan for the 2018/28 financial years was released for public consultation on 22 March 2018. A total of 181 submissions have been received (see previously circulated booklet and detail on Stellar), resulting in approximately 760 individual requests for comments.

The submissions have been summarised and are presented as Appendix 2. Officers have reviewed the submissions and made comments against individual requests.

Council must now hear members of the public who wish to present their submission in person and then decide whether any changes will be made to the Long Term Plan before it is adopted on 27 June 2018.

A spreadsheet outlining grant applications for 2018/19 and 2017/18 and prior grants and is attached as Appendix 3.

Appendix 4 contains the responses to the specific questions asked in the Consultation Document.

2. Consultation Document Proposal Analysis

	Councils Preferred Option	Incorporated into Rates
Future Growth and Development (preparation of spatial plan)	Option 1	Yes
Youth Training and Development	Option 1	Yes
Promoting and Enhancing our District	Option 1	Yes
Infrastructure for Visitors	Option 1	Yes
Sports Coordination	Option 2	No
Reducing Waste going to Landfills	NA	No
Water Conservation	Option 2	No

Council consulted the community on the following proposals:

Submitters responded to the above proposals, but also provided feedback on other items not consulted on.

Submissions have been split into items **<u>consulted on</u>** and items <u>**not**</u> **<u>consulted on</u>**. Items in the 'not consulted on spreadsheet' fall into two categories: those seeking funding under the EC&C budget, with the consulted on budget set at \$157,380 and those suggesting changes to Council's programme of work that we were not seeking feedback on.

Council previously agreed to set aside some unallocated grant budget to cover any mid-year requests for grants. Council need to decide how much this 'buffer' for future grant applications should be.

There is also a proposal to put in place Youth grants as part of this LTP. The total proposed for Youth related grants is \$75,000.

Councillors need to be mindful that feedback provided by submitters may include suggestions that Council has not consulted all ratepayers on. In some cases, particularly where budgetary changes are required, the only action that can be taken by Council is to refer the suggestion to officers for investigation (financial impact and consultation requirements). Councillors may direct officers to action requests where there is clearly no financial impact, need for consultation or further analysis.

2.1 General comments:

- 29 submissions were received from the commercial/non-ratepayer groups and include submissions from industry and special interest organisations. These submissions have lifted the overall outcome for all proposals consulted on.
- Submissions with properties in two rating zones capture votes for both rating zones (29, 35, 169). One submission was not entered as it was submitted with no name or contact details, and could have been a duplicate submission.
- The waste reduction totals were calculated by taking all those who had responded 'yes' to an option divided by only those submissions

who had ticked at least one 'yes' or 'no' box in this section. Submitters who skipped this question were not included in the final calculation.

The following tables provide some basic analysis of the responses received.

Rates Affordability													
Category	Agrees with level of rates Increase	Disagrees with level of Rates Increase	Percent Agree with % increase										
Urban	22	22	50%										
Rural	21	22	49%										
Commercial/Non- ratepayer	4	3	57%										
All submitters	46	46	50%										

2.2 Rates Affordability

*Note: The 'All submitters' total may not equal the sum of responses as submitters 29, 35 and 169 had their choices recorded once in the all submitters results, however the submission indicates they own property in more than one category (e.g. urban and commercial), so their votes were counted for each category.

The district is split on whether the rates increases are acceptable or too high. Suggestions for alternative rises ranged from 0%-5%.

Category	Option One: Agrees with the proposal to prepare a Spatial Plan	Option Two: Status quo	Percent in support of Option One		
Urban	34	10	77%		
Rural	38	7	84%		
Commercial/Non- ratepayer	18	1	95%		
All submitters	88	17	84%		

2.3 Future Growth and Development

*Note: The "All submitters" total may not equal the sum of responses as submitters 29, 35 and 169 had their choices recorded once in the all submitters results, however the submission indicates they own property in more than one category, so their votes were counted for each category.

Council's proposal to prepare a spatial plan for the South Wairarapa was strongly supported by all ratepayer groups, however the commercial/nonratepayer groups with social, sporting, community and other specific interests had the effect of lifting the overall support. Many submitters expressed a desire to be consulted and be involved in the spatial planning exercise.

Youth Training and Development												
Category	Option One: Agrees with the proposal to set aside \$75k for grants	Option Two: Status quo	Percent in support of Option One									
Urban	25	20	56%									
Rural	27	20	57%									
Commercial/Non- ratepayer	16	3	84%									
All submitters	67	41	62%									

2.4 Youth Training and Development

*Note: The "All submitters" total may not equal the sum of responses as submitters 29, 35 and 169 had their choices recorded once in the all submitters results, however the submission indicates they own property in more than one category, so their votes were counted for each category.

Council's proposal to set aside \$75,000 per annum for grants to support youth training, development and recreational activities was supported by all sector groups, however commercial/non-ratepayer groups with social, sporting, community and other specific interests had the effect of lifting the overall support up reasonably significantly. Those not in favour of supporting this proposal generally felt it was not Council's role to do so.

Promoting and Enhancing our District														
Category	Option One: Agrees with proposal to spend \$300k	Option Two: Status quo	Option Three: Proceed with spend at different level	Percent in support of Option One										
Urban	20	15	9	45%										
Rural	21	22	4	45%										
Commercial/Non- ratepayer	11	4	3	61%										
All submitters	51	40	15	48%										

2.5 Promoting and Enhancing our District

*Note: The "All submitters" total may not equal the sum of responses as submitters 29, 35 and 169 had their choices recorded once in the all submitters results, however the submission indicates they own property in more than one category, so their votes were counted for each category.

Council's proposal to spend \$300,000 over the next 10 years to promote and enhance the district has failed to get support from urban and rural ratepayers. Reasons why this was not supported varied however in general terms it was felt that it was well promoted already, growth was not always positive and there was concern that infrastructure was not adequate to cope with resulting visitor growth. Some submitters proposed a lesser amount be spent; range \$10,000 - \$250,000. There was some support for Council's website to be updated.

Commercial/non-ratepayer groups with social, sporting, community and other specific interests had the effect of lifting the overall support up for this proposal.

2.6 Infrastructure for Visitors

Infrastructure for Visitors													
Category	Option One: Agrees with the proposal to set aside \$75k for grants	Option Two: Status quo	Percent in support of Option One										
Urban	35	10	78%										
Rural	37	9	80%										
Commercial/Non- ratepayer	17	3	85%										
All submitters	86	22	80%										

*Note: The "All submitters" total may not equal the sum of responses as submitters 29, 35 and 169 had their choices recorded once in the all submitters results, however the submission indicates they own property in more than one category, so their votes were counted for each category.

Council's proposal to invest \$50,000 per annum over the next 5 years was strongly supported by all ratepayer groups.

2.7 Sports Coordination

Sports Coordination													
Category	Option One: Support cost to fund a coordinator	Option Two: Status quo (preferred option)	Percent in support of Option Two (preferred option)										
Urban	7	36	84%										
Rural	13	34	72%										
Commercial/Non- ratepayer	6	7	54%										
All submitters	26	74	74%										

*Note: The "All submitters" total may not equal the sum of responses as submitters 29, 35 and 169 had their choices recorded once in the all submitters results, however the submission indicates they own property in more than one category, so their votes were counted for each category.

Council's proposal not to fund a sports coordinator was the preferred option across all sectors. Submitters did not see this initiative as Council's role.

2.8 Water Conservation

Water Conservation													
Category	Option One: Support cost to undertake study	Option Two: Status quo (preferred option)	Option Three: Consider other options	Percent in support of Option One	Percent in support of either Option One or Option Three								
Urban	12	28	6	26%	39%								
Rural	21	18	9	44%	63%								
Commercial/Non- ratepayer	6	5	6	35%	71%								
All submitters	38	50	20	35%	54%								

*Note: The 'All submitters" total may not equal the sum of responses as submitters 29, 35 and 169 had their choices recorded once in the all submitters results, however the submission indicates they own property in more than one category, so their votes were counted for each category.

Although a feasibility study to investigate ways in which we can reduce water usage has failed to get support from any sector, there was rural and non-ratepayer support for Council to initiate further water conservation (options 1 and options 3) methods. Many supporters noted that Council was already ahead of other councils in this area as South Wairarapa already has water meters, and many others suggested personal capture or re-use options as the best way to move forward.

Reducing Waste Going to Landfill Percent in Support													
Category	Food Collection	240L bins	e-waste	Recycling Centre									
Urban	28%	43%	80%	76%									
Rural	28%	52%	85%	80%									
Commercial/Non- ratepayer	56%	72%	67%	72%									
All submitters	34%	50%	79%	77%									

2.9 Reducing Waste Going to Landfill

*Note: The "All submitters" total may not equal the sum of responses as submitters 29, 35 and 169 had their choices recorded once in the all submitters results, however the submission indicates they own property in more than one category, so their votes were counted for each category.

The waste reduction percent in favour totals were calculated by taking all those who had responded 'yes' to an option divided by only those submissions who had ticked at least one 'yes' or 'no' box in this section. Submitters who skipped this question were not included in the final calculation.

The two proposals with the most support was the e-waste proposal followed by the recycling centre. The introduction of 240l bins received mixed feedback and was only highly supported by the commercial/non-ratepayer group. Many submitters suggested food composting at home was preferable to an organised collection.

71	1	1		Agree because can afford it, but realise there are people who struggle to pay 1	b	because they happen to live there or does the new rate only apply to land under a certain size?	1	Like Reuben Tipoki's take on promoting skills and values for Maori and Pakeha	1		Promotion is great but can the area tolerate the huge influx of residents/visitors?	1	\$50k sounds too light to imrpove facilities for expeted numbers of visiters, suggests \$200k. The natural environment must be the focus for a	1		1	1	A. sounds messy, B. encourages people to put all waste including recyclables into the bin. Could we pay people 1 to sort recyclables by hand?	1		this. There is a lot of talent in our area and we should start using this. 'Some winter water to use in summer'	
72	1	1	1 3%	An 11% increase in 2 years is disgraceful. Not many businesse could stand that sort of cost increase and get away with it. Proposals are airy fairy. 1	c d	Council should have the skills to deal with challenges as they come up. Planning can date quickly, think on your fee and make responsible decisions	1	YETE fully supports this proposal and is encouraged Cournil is willing to invest in the future of its younger residents	1		Don't need promotion and logos. A lot of marketing can be done cleverly with low cost. If you do the basics of Council's jobs (roads, rubbish) the promotio of our area will take care of itself	1 n 1	healthy future for the towns Should be providing enough and as needed	1	Stick to the basics, maybe some funding input as required. Pirinoa sports have no council input yet are run successfully. Doesn't want to pay for someone ekes wish list when we have to work hard to maintain our own facilities			Stick to basics. Do what needs to be done as efficiently as possible. Leave the value added to private business		1	Leave to GWRC. Building dams is expensive compared to bores.	
77	1	1		1		Consistent and coherent approach to spatial management is essential		Good initiative and would like to see a focus on activities for girls recreation	1			1	Consider alternative funding such as a tourist bed tax. Look at ways to obtain funding from visitors	. 1	Assume there is coordination of sporting facilities by SWDC to ensure best use of facilities. Supports free swimming	1	1	Existing recycle bins are ok, kerbside food is good if composted and sold back to residents. E-waste is good but the user should pay	1		Still a lot of garden watering happening. Household tanks should be encouraged for emergency or dry weather capacity. Is water pipe leaks an issue? Include water efficient design for building consents	
78	1				u k a	Why must growth happen at all? The ultimate population of the district must be known/agreed, then we can work backwards and plan for it. Make a spatial plan but only after the intended population is known.	1			1 10,00	Clarity, unity and confidence benefits are nebulous, growth is arguably not a benefit, service in the shape of updating website is only thing supported.	1	Supported with proviso that cycle trails not be provided next to roads. The roads are fine for cycling and the Western Lake Rd trail is a disaster		Greytown already has sports coordination funded by Greytown Trust Lands		1	a. Instead encourage residents to compost their own food waste b. wheelie bins encourage recycling which is the last and least effective strategy in waste 1 minimisation. Instead promote reduction and re-use		1	Limit the growth of new subdivisions which place increasing demand on existing water supply and other services	
80	1		1	No further increases until Council show frugal spending. No more spending on Waihinga Centre		Neither option, and no more spending until community are properly consulted	1		1		No further projects until community are engaged	1	Facilities are a disgrace at the moment	1		1	1			1		
82	1		1 3%	Biggest concern is increase in rates over next 2 years. The cost of living in Mba is increasing excessively. Spend less on water conservation, youth development, sports coordination, areas of waste.	n	The priority and will identify the demographic needs of the community and infrastructure needs.		No clear indication in the plan where this money will be spent. Council needs to work with NGO sector and take a collaborate approach		1	Council technology does need to improve but members of the community need educating to use that technology. No evidence to suggest that the we will be used more if upgraded as members of the community are not tech savvy and tourists are more likely to use i-site website. More research should be done		Put on hold until a spatial plan done. Not sure how community/ratepayers will benefit from having more facilities. As it is tourism is increasing prices to the point many members of the community can no longer enjoy eating out or having a drink in a local bar. Business owners are benefitting from tourism but avg ratepayer is not		More collaborative discussions need to happen before decision to spend and a spatial plan may provide priorities			Complete spatial plan first. View is that most people compost their food waste or use for animals, don't see visitors using food bin. Wheelie bins nice to have on windy days but the problem is the waste bags left by weekend visitors that get torn by animals and scavenged by rates. Recycling is main priority.		1		
83	1		1 5%			Mixed views, not sure this is the best tool	1	Very important	1		Unnecessary, it sells itself. We need to slow growth a farmling land is disappearing including the ability to feed ourselves	1	Definitely overdue	1	Not a council role	1	1 1	No need for a food waste collection as long as subdivisions have yards for compost		1	Plant for clean water, restore wetlands to ensure good filtring systems	
84	1		1	Inflation adjusted rating only, suggest consolidation of proposed work streams to ensure more efficient and affordable service purchase and delivery 1	d c a	Agree on understanding that future development is consistent with the natural character of the region and does not impose any loss of amenity values to residents or entail unexpected expenditure by Council as a consequence of defaults in terms of RMA responsibilities	1	Supports that investment be directed at facilities rather than direct funding of individual clubs/teams	1				Should be a medium term priority. Numbers, frequency of use, demands on facilities, impact on roading are poorly provided for in plan. There is catching up to do with waste collection and isposal at coastal location. Visitor activity has surged ahead of Council provision and we should pause to get teh management settings right before encouraging more of the same		Investment should be of facilities and maintenance of them		1	Sees evidence of local fly tipping because Council makes it difficult and expensive to dispose of refuse. The transfer station on Lake Ferry Road is not accessible at times when coastal residents and weekend visitors are travelling to and from the coast. The refuse collection from the villages from Whatarang it to Mangatoetoe is being componised by the amount of residential waste and whiteware being disposed of in wheelle bins at the Ngavi camping site. Commercial users have been freeloading the bins provided for the use of campers. The refuse disposal situation is literally a mess- and it needs a well executed response in order to have an efficient disposal and removal service. I do support e-waste disposal -by way of a central collection points and well advertised quarterly drop-offs in Piriona, Featherston and Marithorough. Council should investigate the sale of e-waste to off-set the service costs or tender to an e-waste business.		1		
85	1		1	No rates increases. No money for Wairarapa water project or Wgth Airport. Money spent more efficiently. Already spend more money on rates than Wgth	b c V si if	Limited options. Supports spatial planning but only if done with the other 2 Wairarapa councils and GWRC for most aspects and Wgm councils for others. Spatial planning should be regional Can get value for money if we work together. S300k over 10 years will get us nothing of value.		Support, but money should be from cost savings in other areas and not a rates increase.			Option 4 - Improved promotion at no rates increase. Limited options. A clear vision for unity, growth and service can be gained by engaging with the public for little cost. Should be included in Council's role and no require increase. The only specific project listed is for the website and	ot	LED lights should be used throughout district, not just Mba. Budget for maintenance of the Western Lake Road cycle trail, why is this not mentioned in the LTP when the Greytown tail and Fstn to Mstn trail are? Cycle strategies are for us first towists second and safe routes to school are a priority.		Support need, but support should be found through cost savings in other areas and not rates increase		1	Most urban lots can compost onsite. Expecting everyone to kerbside compist is unrealistic		1	Investigation and investment in underground	
87	1	1		1	1	Spend the \$300,000 on jumpstarting the Fstn	1			1 50,00	logo update, the cost seems high, surely this could be done for less			1		1 1	1 1	1	1		infrastructure to reduce water loss through leaking pipes	
88	1	1		1		Spend the \$300,000 on jumpstarting the Fstn town centre	1		1			1	Fstn Info Centre should be funded fulltime and	1	Money better spent elsewhere	1	1 1	1	1			
89	1		1 3%	Inflation only. Development of Waihinga Centre, mayors travel 1	a b	Council needs to modernise, attract new staff and recognise that people who live in area but commute are important eg pool opening hours. Better pool hours	1		1		As the gateway and larger populaton centre, Fstn should be the hub for South Wairarapa.	1	rson into Centre should be funded buildine and volunteer system reviewed. Locals should be encouraged to park on side streets and not Main St. Block off Revans Rd and divert all Mba traffic through the centre of Fstn	1	Locking the gate to Fstn Rugby Park and refusing a key is a breach of Health and Safety at Work Act, an amublance had to be called recently and it couldn't get onto grounds		1	Neds to be a container at Mba Transfer Station where people can put things for upcycling. People should be allowed to take stuff, not a health and safety issue.		1	Farmer restrictions on watering during the day. Why do we need to study everything, just ask another Council what they have done. Fix leaks in a timely manner.	Consent fees are outragious
90	1	1		1	s s	Support initiative to increase residential space in Mba from New York St. Believe the special rural area Punutanaga Rd/Toods Rd should be able to suddivde into lifestyle blocks where R is not suitable for viticulture.	1		1			1		1		1	1	1	1		Examples given make sense, but doesn't want a	
93	1	1		1	1		1	Developing youth driven initiatives and allowing		1 50,00	The only tangible item listed is the website upgrade and logo/branding, think the about being spent on that is too high	1		1		1 1	1 1	1	1		dam built in the name of conserving water. Very anti-dams that might aid and encourage dairy expansion	
96	1	1		1	1		1	Developing youth anven initiatives and allowing them spaces new industries (digital development, design/graphics, innovative industries) will enhance the region and promote alternative business	1			1		1		1	1 1	There are other alternatives that could be explored with community partnership. The Trust is exploring Precious Plastics concept for Boundary Rd site - collecting and repurposing plastic waste into sale-able items	1			
97	1	1		1	1		1		1		Do not support expenditure on change of logo, requests they are done inhouse with existing funding	1	Option is inadequately scoped. We are not investing in physical infrastrucure for the growing tourist market, and no regulation exists around bikes. Requests pavement for walkers/bikes along Princes Street North to Huangarua Rd and urgent plan for cycle ways where there are no pavements or formed road edges to address safety				1	1		1	Provide incentives to store rain water without huge compliance costs. Water is a basic right and usage is best managed by pricing

Would benefit the culinary and hospitality communities of the region				1	1	premium.		1	levels to dangerously low levels.	
<u>155</u> 155	1		1 55	Councils need to look at share service more aggressively. Savings would allow investmen % in other activities in the region	it	However insufficient detail provided re: budget, savings, benefits.	1	Though youth development important, we do not see this as a essential council capability.	1		Should only be approved if the infrastructure for Visitors is approved.	1	This is critical if the council proceeds with promoting nad enhancing the district.	1	This is not Council function.				None: Recommend deeper study into what has been done overseas to reduce waste production.	1			Do not support increases in Building and Hygiene fees. Need to be benchmarked against other councils. Recommend full review. Do not support increase in Pensioner Rentals. Needs significantly more detail as to why this is necessary.
157		1				Spatial plan is an appropriate mechanism to look at the resources and pressures in the district, provide a long-term strategic view and consider infrastructure requirements. GW would appreciate opportunity to be involved to help plan public transport services and infrastructure to effectively meet community needs.										1	1 1	1		1		GW commends Council for including issue of water conservation	
158 1			1 35	Spend less on "nice to have" ar concentrate of core facilities Make it easier to use/book th facilities already available eg squircle, Anzac Hall. These facilities should be free for \$ schools and educational group	id 2	Does not see towns as growing in unstructured way. Except Featherston which is stymied by Council action/intaction. Stop viewing towns as Historic (Greytown), Tourist (Martinborough) and Industrial (Featherston). This Is holding Featherston back. with more support Featherston could be welcoming gate to the Wairarapa.	st	Not a core responsibility.	1		Though do need to update very un-user-friendly website. Logo is fine, 'don't change what ain't broken' Perhaps If you allowed development to go ahead on Featherstor atMain Street, would'n tened a rate increase to promote and enhance the district.		1 We already have these facilities.	1	not Council's job to become involved in sports beyond providing and maintaining sports grounds.		1	1	Encourage ratepayers to compost - those who do should not have to subsidise others' laziness. No to bigger rubbish bins - this encourages more rubbish. Provide e-waste at Featherston Transfer Station in addition to recycling options currently available there. If other areas: choose to bring e-waste to Featherston it will save need for facility in martinborough etc. Should be no charge for e-waste facility. Supports provision of recycling/recovery centre at local transfer stations.			Do we need a feasibility study - if other areas have already done similar studies, can't we hook into their outcomes paying (presumably) a lesser amount? Otherwise, Option Two.	I agree rates should not subsidise these.
159	1	1			1		1		1			1		1	I have been part of this initial group to try and get something in place in regards to this. I would welcome the council continuing with this initiative as its long term benefits would be great for our community. The value of sport to help keep people and communities healthy is well documented. need go coordination, communication, processes so people want to be part of sports clubs. Long term planning should be done across sports so that facility utilisation is maximised. The model is out there, we just need to extend it across the district.		1 1	1			1		
161		1			1	Critically important Council thinks carefully about the best way of involving the community in the development of this plan, and ensures meaningful, authentic ways of gaining the input of a diverse cross section of the community. This includes children and young people.	f									1		1	Support initiatives to reduce waste to landfill, including kerbside food waste collection, recycling and a recycling/recovery centre. Urge Council to ensure there are secured long term options for where this waste will go SWDC could draw on learning of Auckland Council and other councils for implementing these initiatives. Need to promote education programme.			Supports an emphasis on water conservation education and highlight the role Enviroschools can take in meeting water conservation goals. Would be interested in working with Council to maximise the outcomes of water conservation education.	
163	1		1	I'm ok with any necessary rate increase but am not ok with exactly how you are proposing spend it, so this seems an impossible question to answe	s	This should have happened already. Support spatial plan done by competent professionals. First priority must be given to Featherston's broken commercial centre. Squircle, shinge pit and carpark all taking up valuable commercial land. Need robust consultation on proposed actions. Need a planning team who say 'how can we make it happen together' and have flexible and positive attludes.		This funding could be partially or fully managed in Featherston by Fab Feathy's co-ordinator/s	1	1	Only initiative seems to be upgrading website and this should not cost \$300,000 over ten years. Want to be able to fil in forms online. Interms of promoting and enhancing district, Featherston needs to be weighted equally in newsletters, press releases, social media using positive language. Promote all attractions/activities/facilities as venues etc. Support Featherston information centre financially to cover annual running costs.	1	Inclusing Featherston's Lake Domain and surrounds to support growth on Remutaka Cycle Trail	1	Not something Council needs to do.		1		Rather than large bins, would prefer more education on taking recycling to transfer station plus a recycling/recovery centre at EACM transfer station.	1			fees for schools/community groups/public meetings using council buildings should be scrapped. Lower fees for other uses will encourage more use and more money in long run.
164		1			1	Supports investment in Spatial Plan. Shared insights as to how \$300,000 earmarked for project is to be spent would be useful to assure community that it is an effective and efficient use of their rates.		Youth training and development: Would not support \$75,000 planned expenditure without further information. Any initiative needs to be done in consultation with business community.	1		Would recommend a higher investment than \$300,000 as that is very conservative compared to what other regions are doing in the promotional space.	1	Supports SWDC's plans to invest \$50,000 per annum over next 5 years, however question whether it's enough considering cost of building. In Tekapo a public block of toilets cost the Mackenzie district council \$800,000. Also, better use the Government's \$25 million Tourism Infrastructure Fund.										
165		1					1	Strongly support and feel this would be a great support for our interest and spirations to establish waka ama and mau rákau here in the South.	1		Encourage council to support efforts to repatriate the famous waka Te heke Rangatira back to Onoke where it can be house in a 'whare taonga'/information centre' to promote local history. Also working on idea of having a 'star compast' from which to tell our stories and boost tourism.		See promoting and Enhancing our District.	1	this will support our effort to establish waka ama and mau rakau in the south. Excellent initiatives to engage rangatahi Māori and Pākehā.	1			Support kerbside food waste collection. Surely other districts have good systems for recycling we could take guidnace from.			Support installation of water tanks on all new properties and suggest considering catching water from larger buildings also	
166		1	1	Papawai Marae currently do n pay rates (services only) as w are exempt. Hoever we envisic that any increase will effect the marae as we curently pay for ti use of the sewage line. We an currently looking at other way we can cut this cost out and w be consulting our papawai whanau.	e e e s s II	Would like to see a list of consents being directed to Papwai Marae as sometimes consultation needs to be wider than the Maori Standing Committee and we would like to be able to help.	1	The youth are our future, and Papawai would like to support in this capacity too, we have Papawai whanau that work with Youth everyday that will be able to support our Papawai whanau in filling that gap that we see effects our or uri.	1		Papawai marae are currently going through process with Heritage NZ to be recognised for the Maori Parliament, this is also in the Ngati Kahungunu Treaty Settlement. We would like to be a part of this growth.	1	Would like to see priority around recycling and waste. Papawai have the whanau capability to support this initiative.	1	With the rates increases in some areas, it is important to lower them in others.	1	1 1	1				No point increasing rates with just a feasibility. Need for better water usage especially in farming industry. Every new house should have a water tank there should be grey water for sewage usage rather than fresh water being flushed down the toilet. Education on how to conserve water.	
168	1		1 39	%	1		1	Use the Maraes as a training base	1		Unnecessary, we are growing so fast no need attract people.	1		1	Not council business		1	1				Conserving wetlands create natural filters that manage water effectively. Do not put in storage that is not council role.

169	1	1			We definitely need a proper plan. A spatial plan of the entire Featherston commercial zone and Clifford Square, Cherry Tree Park et was recommended by planning staff at SWDC prior to the promotion of the Council preferred initiative of a town square but was denied. This major mistake has resulted in a lot of wasted money and an unusable piece of what should be prime retail land.	1			1	Yes please to the enhancement of SWDC website to make it more user friendly. No to wasting money on changing the council logo. John'tike the one we have- it isn't important enough to waste time and money on. Definitely improve rail link to Wairarapa - more frequent, also on weekends.	1			1	1	1	1		1			
170	1		1	1		1	Would like to see Council support waka ama and mau rakau	1		Maori culture needs to be more visible in district. Be proactive in initiating a korero with Maori leaders. Supports construction of a star compass.		Don't support usual facilities, think outside the box to make the most of our visitors	1	Support to give hakinakina Maori promotion and equal importance	1 1	1	1 1	Definitely need food waste collection and larger recycle vins	1		Undecided about study but strongly in favour of catching water in tanks. New subdivisions should have to put in water tanks.	
172		1	1	Ratepayer base is small, restrict activity to core services. Providing core services immaculately and creatively within budget promotes the district. Sadly means that projects such as youth development and sports management are not affordable in our district.	If needed at a district level then should be budgeted to fall within the provision of planning and consenting services. Could this be done as part of a district plan review? Growth shouldn't be unstructured. If district is only growing by 1,000 over 10 years then 1 no support for spending \$300k	1	Other organisations such as Ministry for Education and Ministry of Social Development provide for this	1		Make the district attractive by providing well managed infrastructure within baseline		Make the district attractive by providing well managed infrastructure within baseline. Funding provided to Destination Wairarapa		The Sports Council and other organisations provide ample grants for this already. Council already supports some sports through annual grant funding 1 as do the community boards			a	supports none. These are not a priority at a time when re facing 7.2% rates rise in Fstn. Consider in 3 years ime. Central gover vlaso promoes waste reduction.		1	Council is ahead of many districts by utilising water	By encouraging new development the number of ratepayers increases and the fees burden is shared. Consider the net benefit of these fee hikes and consider a no fees policy to encourage more new homes to be built
175		1																		1	It is essential for long term reliability of water for urban, rural and environment that Water Wairarapa is supported by SWDC. We would like to be involved in the discussion.	
177	1	1	1	1	L Economic growth is Itd when there is a lack of housing to buy or rent, initiatives to prepare plans to accommodate growth are supported		Add to making SW a great place to live and play for youth. Creates a sense of pride and loyalty for the region.	1		Will ensure SW maximises future opportunities for growth, economic development and employment for residents		Will support the increase in visitors to the region and create a positive impact for district	1		1 1	1	1		1			
179	1		1	Rises should be tagged to CPI plus 1.25%. Don't spend on Waihinga Centre, employment of people who don't place value on customers 1	Planning is essential but as a rural area we need to place greater value on protecting our productive land and stop urbanisation of our best land (Greytown)		Council is not a social development organisation, stick to core services and provide excellence in those areas		1	Support for existing Wairarapa wide promotional activities	1			1	1 1	1	1			1	All properties install water tanks to reduce the need for increased water resources supplied by Council. Council could provide tanks to ratepayers at a low margin and over spread payments over 5 years.
