

# **SOUTH WAIRARAPA DISTRICT COUNCIL**

**20 FEBRUARY 2019**

---

## **AGENDA ITEM D6**

### **LTP ACTION ITEMS**

---

#### **Purpose of Report**

To provide an update on actions from 2018/28 Long Term Plan, and 2017/18 Annual Plan

#### **Recommendations**

Officers recommend that the Council:

1. *Receive the LTP Action Items Report.*

## **1. Executive Summary**

Annual Plan and Long Term Plan actions continue to be advanced.

Some action items, for example Spatial Planning, take more than one year to complete and as such remain open for some time.

Action items from Long Term Plan's and Annual Plans are summarized onto a database to ensure matters do not "drop off". These databased are reviewed monthly to ensure progress is made as quickly as possible.

## **2. Discussion**

### **2.1 2017/18 Annual Plan**

The Annual Report consultation process generated 432 matters that required action.

Of these 7 are still listed as "open". These 17 continue to be advanced.

### **2.2 2018/19 Long Term Plan**

The Long Term Plan consultation process generated 757 matters that required action – or multiple actions

Of these, 112 remain open.

In terms of individual matters however the number is somewhat less than 112, for example 16 of the 112 relate to the spatial planning process, and for example, 10 of the individual matters relate to the District Plan review.

### **3. Summary**

In general terms, Annual Plan and Long Term Plan action items are cleared in a timely manner.

Some actions do take some time to action however.

Action items are reviewed regularly to ensure priority items are completed first.
