

## Potential use of beautifications funds 2018 (all prices are EX GST)

1. Water fountain for new park and playground
  - a. \$2684.99 + Installation, drainage and water supply  
(Total TBC – estimated at \$17500)

Like this picture but with water bubbler on top – includes bottle fill and drinking fountain

## 2. Rubbish Bins

- a. Rainless litter bin      \$1727 each x 6 = \$10,362 + installation  
(prevents a lot of rain entering bin)

NOTES:      There are currently 4 plastic green bins in the square beside the tables - we could replace some or all of them.  
                 We need 6 bins for the Waiyinga Centre Park and Playground

3. Seating – 2 in square, 4 in WC

- a. Timber bench seats (various combinations of seat back)  
\$1835 each x 6 = 11,010 + installation

Location in square – reference the plan – can chose from any of the “2” locations marked on the plan below... Would be best to choose 1 entrance point and locate 1 seat either side of it. Then we can add seats to the other entrance points in the future. There are 12 seats indicated in the Square Development Plan.

Location in Park – TBC when plans are finalised

# PROMENADE

Improving pedestrian use and enjoyment of the Square

Section elevation through promenade showing seating.

- 1 Footpath to be upgraded with asphalt and brick consistent with other footpaths in town.
- 2 Seating adjacent to main pedestrian entry points and set back from promenade.
- 3 Pedestrian crossing paved using same treatment as promenade to visually draw people into the square. Annuals will be planted at each pedestrian crossing.
- 4 Small specimen trees located at either side of the entrances to the square act to emphasise the main axis through the Square.
- 5 One native tree will be planted in each quadrant of Soldiers Memorial Park, with a plaque for each to commemorate the four original Martinborough settlers.

2018 03 08: REPORT to be tabled at MCB meeting 2018 03 12.

**UPDATE on POWER BOX PAINTING in the SQUARE:**

Following approval of the 'poppy design', Allison Hudson purchased the materials required for painting the power box and commenced work on February 13<sup>th</sup> with the priming and undercoat applications.

The background was finished by the 15<sup>th</sup>, and artwork commenced on the 16<sup>th</sup> February. A strong wind made this task difficult. The original design was completed by February 24<sup>th</sup>; and Allison decided to make a few small additions to the original draft in order to create a more balanced painting.

The painting was completed on the 27<sup>th</sup> of February. A plastic protection cover was placed over the power box for the March Fair day; to prevent any damage before the varnish coats could be applied.

The first of six coats of varnish was applied on March 6<sup>th</sup>. Varnish is applied with a roller and takes 24hours to dry and cure between coats. Allison plans to apply a coat every fine day, which also need to be reasonably sunny, as the box has to be washed down and dry in between each coat.

Progress photos have been taken during the time. Photos attached are of the 'front' and south side of the box.

Allison has retained receipts for materials purchase: expenses (forwarded by email) are as follows:

Gordon Harris (Speciality Spray Paints/Stencil Film & Knife/Adhesive etc)	\$270.75
M10 (Bucket/brush/roller/plastic sheets/masking tape, sugar soap etc)	\$87.18
M10 (High grade outdoor polyurethane varnish/applicable roller and extra green spray paint)	\$63.04

Allison was able to use her staff discount at Mitre 10, so saved a bit on the two purchases from there.

Total expenses: \$420.97.

The budgeted figure arranged was \$500.00 for materials; Allison agreed to complete the artwork for no charge.

I would like to RECOMMEND that she be reimbursed for the total amount of \$500, as the painting took many hours of Allison's time.

Maree Roy.
