Page 2: Discussion Topic 1: Water Supply and Water Resilience

Q1 Do you agree that the water supply should be Council's main focus next year? **Yes**

Q2 Do you think it's important for Council to develop a Water Conservation Action Plan? **Yes**

Q3 Do you support any of the proposed water resilience actions (as detailed on page 3 of the Consultation Document)? Tick all that you support otherwise leave all blank

Reducing the water allowance per property,
Offering subsidised water tanks, at cost, paid back over a period of time
 ,
Requiring new builds to have their own water storage solution

Q4 Do you have any other comments you would like to make on the actions proposed above or have any other ideas for the Action Plan? **Respondent skipped this question**

Page 3: Discussion Topic 2A: Continue extended hours for swimming pools

Q5 Do you agree that we should continue to trial extended swimming pool hours next summer (i.e. longer hours in evenings and on weekends)? Current year's opening hours are available here <https://www.swdc.govt.nz/swimming-pools>. **Yes**

Q6 Why is this?

So the whole community has access.

Page 4: Discussion Topic 2B: Greytown Sports and Recreation Hub

Q7 Do you think that the Council should provide more space for sports and recreation in Greytown? **Yes**

Q8 Do you support funding for the Greytown Sports and Recreation Hub proposal (as detailed on page 4 of the Consultation Document)? **Yes**

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9 Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal
Greytown despartely needs facilites

Page 6: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q10 As you selected 'Partial' because you support funding for parts of the proposal, but not all, tick all the parts that you support **Respondent skipped this question**

Q11 Why is this? **Respondent skipped this question**

Page 7: Discussion Topic 3: Land Transport

Q12 What do you think about Council's proposals for land transport (page 5 of the Consultation Document)? Should we be doing more to promote walking and cycling in the district? **Respondent skipped this question**

Page 8: Discussion Topic 4: Waste Minimisation

Q13 Do you think it is important for Council to develop a Waste Minimisation Action Plan? **Yes**

Q14 Do you support any of the waste minimisation ideas proposed (as detailed on page 6 of the Consultation Document)? Tick all that you support otherwise leave all blank
Providing recycling station in urban areas,
Encouraging food composting,
Reducing the availability of Council agendas and papers at meetings

Q15 Do you have any other comments you would like to make on the proposed ideas above or any other ideas about what Council could do to help the district send less waste to landfill? **Respondent skipped this question**

Page 2: Discussion Topic 1: Water Supply and Water Resilience

Q1 Do you agree that the water supply should be Council's main focus next year? **Yes**

Q2 Do you think it's important for Council to develop a Water Conservation Action Plan? **Yes**

Q3 Do you support any of the proposed water resilience actions (as detailed on page 3 of the Consultation Document)? Tick all that you support otherwise leave all blank

Removing the Water by Meter Write-off Policy,
Offering subsidised water tanks, at cost, paid back over a period of time
 ,
Requiring new builds to have their own water storage solution
 ,
Installing smart meters to monitor water consumption and leaks

Q4 Do you have any other comments you would like to make on the actions proposed above or have any other ideas for the Action Plan?

Consideration needs to be given to HOW the supply is delivered as well - water infrastructure in the towns will start to struggle to deliver the volumes required in times to come.

Page 3: Discussion Topic 2A: Continue extended hours for swimming pools

Q5 Do you agree that we should continue to trial extended swimming pool hours next summer (i.e. longer hours in evenings and on weekends)? Current year's opening hours are available here <https://www.swdc.govt.nz/swimming-pools>. **Yes**

Q6 Why is this?

More time for families to enjoy the facilities after work or weekend activities

Page 4: Discussion Topic 2B: Greytown Sports and Recreation Hub

Q7 Do you think that the Council should provide more space for sports and recreation in Greytown? **Yes**

Q8 Do you support funding for the Greytown Sports and Recreation Hub proposal (as detailed on page 4 of the Consultation Document)? **Yes**

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9 Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

We need to be able to have space for adults and children to play or practice sports, or just to have space to exercise or run around. If the rugby grounds and bowls club lose their spaces, then we lose a large amount of green space, in addition to then not having enough space to house / play all sports.

Page 6: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q10 As you selected 'Partial' because you support funding for parts of the proposal, but not all, tick all the parts that you support **Respondent skipped this question**

Q11 Why is this? **Respondent skipped this question**

Page 7: Discussion Topic 3: Land Transport

Q12 What do you think about Council's proposals for land transport (page 5 of the Consultation Document)? Should we be doing more to promote walking and cycling in the district?

More consideration should be given to where cyclists are able to ride, due to the narrow carriageway, and windy nature of a lot of our roads, there is often not enough space to safely pass cyclists

Page 8: Discussion Topic 4: Waste Minimisation

Q13 Do you think it is important for Council to develop a Waste Minimisation Action Plan? **Yes**

Q14 Do you support any of the waste minimisation ideas proposed (as detailed on page 6 of the Consultation Document)? Tick all that you support otherwise leave all blank

Providing a wheelie bin for general rubbish, paid for through rates

,

Providing recycling station in urban areas,

Encouraging food composting,

Reducing the availability of Council agendas and papers at meetings

Q15 Do you have any other comments you would like to make on the proposed ideas above or any other ideas about what Council could do to help the district send less waste to landfill?

Having lived in an area that had council wheelie bins, there were obvious benefits - mostly to do with limiting the spread of rubbish by animals / wind when people place council bags out the night before. Also reduces the chance of council waste staff contacting things from the bags, vs a direct empty into a truck via an articulated arm

Page 9: Discussion Topic 5: Building Capability

Q16 What do you think about Council's proposal to build the organisation's capability and improve delivery of services?

Given the time to process some building related paperwork and compliance currently, there definitely needs to be improvement here.

Offering subsidised water tanks, at cost, paid back over a period of time
 ,
Requiring new builds to have their own water storage solution

Q4 Do you have any other comments you would like to make on the actions proposed above or have any other ideas for the Action Plan?

Build the water storage dams so that Wairarapa can be more resilient and produce a wider range of food year-round. Every house should have water storage and there should be an encouragement to plant less lawn and more trees for heat, habitat and less water consumption.

Page 3: Discussion Topic 2A: Continue extended hours for swimming pools

Q5 Do you agree that we should continue to trial extended swimming pool hours next summer (i.e. longer hours in evenings and on weekends)? Current year's opening hours are available here <https://www.swdc.govt.nz/swimming-pools>. **Yes**

Q6 Why is this?

It's a great asset that the whole community enjoys and it makes sense to have it open in the early evening when it's still very warm.

Page 4: Discussion Topic 2B: Greytown Sports and Recreation Hub

Q7 Do you think that the Council should provide more space for sports and recreation in Greytown? **Yes**

Q8 Do you support funding for the Greytown Sports and Recreation Hub proposal (as detailed on page 4 of the Consultation Document)? **Yes**

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9 Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

Because we don't need more urban sprawl we need more services to support the population that's here now and as we expand. There is other land that is better suited and more central to Greytown. For example the block between Wood, Mole, Kuratawhiti and West Streets.

Page 6: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Allows parents who work during the day to take their kids to the pools after work.

Page 4: Discussion Topic 2B: Greytown Sports and Recreation Hub

Q7 Do you think that the Council should provide more space for sports and recreation in Greytown? **Yes**

Q8 Do you support funding for the Greytown Sports and Recreation Hub proposal (as detailed on page 4 of the Consultation Document)? **Partial**

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9 Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal **Respondent skipped this question**

Page 6: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q10 As you selected 'Partial' because you support funding for parts of the proposal, but not all, tick all the parts that you support

Contribution to the Kuranui College gymnasium replacement

Purchase of the Rugby Club land

Q11 Why is this?

Bowling club is a user pays facility not a public place. The money saved on the purchase of this land could be spent optimising the 'rugby' ground facilities. Making it a truely special community place.

Page 7: Discussion Topic 3: Land Transport

Q12 What do you think about Council's proposals for land transport (page 5 of the Consultation Document)? Should we be doing more to promote walking and cycling in the district?

Unsure

Page 8: Discussion Topic 4: Waste Minimisation

Q13 Do you think it is important for Council to develop a Waste Minimisation Action Plan? **Respondent skipped this question**

Q14 Do you support any of the waste minimisation ideas proposed (as detailed on page 6 of the Consultation Document)? Tick all that you support otherwise leave all blank

Providing a wheelie bin for general rubbish, paid for through rates

Q15 Do you have any other comments you would like to make on the proposed ideas above or any other ideas about what Council could do to help the district send less waste to landfill?

Respondent skipped this question

Page 9: Discussion Topic 5: Building Capability

Q16 What do you think about Council's proposal to build the organisation's capability and improve delivery of services?

Unsure

Page 2: Discussion Topic 1: Water Supply and Water Resilience

Q1 Do you agree that the water supply should be Council's main focus next year? **Yes**

Q2 Do you think it's important for Council to develop a Water Conservation Action Plan? **Yes**

Q3 Do you support any of the proposed water resilience actions (as detailed on page 3 of the Consultation Document)? Tick all that you support otherwise leave all blank

Offering subsidised water tanks, at cost, paid back over a period of time

Requiring new builds to have their own water storage solution

Q4 Do you have any other comments you would like to make on the actions proposed above or have any other ideas for the Action Plan? **Respondent skipped this question**

Page 3: Discussion Topic 2A: Continue extended hours for swimming pools

Q5 Do you agree that we should continue to trial extended swimming pool hours next summer (i.e. longer hours in evenings and on weekends)? Current year's opening hours are available here <https://www.swdc.govt.nz/swimming-pools>. **No**

Q6 Why is this?

Not enough use at the extended time for the cost involved in employing lifeguards

Page 4: Discussion Topic 2B: Greytown Sports and Recreation Hub

Q7 Do you think that the Council should provide more space for sports and recreation in Greytown? **No**

Q8 Do you support funding for the Greytown Sports and Recreation Hub proposal (as detailed on page 4 of the Consultation Document)? **No**

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9 Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

The greytown sports hub is a ridiculously frivolous idea in light of all the collective sports space we already have in the south wairarapa area. A much more feasible option and one requiring less money no doubt would be to utilise and maximize existing fields. Featherston has a fantastic sports ground that could benefit many for instance if a small amount was spent on parking areas (this could even be integrated with expanding the carpark at the train station there as they are next door to each other). I think in times like these - where many will be facing hardship- it is a really dumb idea to make families travel even further to be able to play sport at a hub that will benefit the - mostly wealthy elite in the greytown area. This hub idea seems counterintuitive to the current national thinking around making sports accessible, fun and less competitive for kids and families - especially those who dont have the means to travel to other towns on a regular basis. It would be a tragedy for south wairarapa and the sporting communities outside greytown if this was to go ahead as it would mean that sport and community clubs are no longer accessible for many in the community. I am very against any purchase of land by the council for the purpose of a hub - we already have land suitable in other south wairarapa towns if the council proposes a hub approach - why this would be pushed in greytown as the preferred option when there is currently no suitable land is beyond me. It really smacks of someone's grand legacy or ego trip - where they expect ratepayers to blindly jump on board with it.

Q13 Do you think it is important for Council to develop a Waste Minimisation Action Plan? **Yes**

Q14 Do you support any of the waste minimisation ideas proposed (as detailed on page 6 of the Consultation Document)? Tick all that you support otherwise leave all blank

- Providing a wheelie bin for general rubbish, paid for through rates**
- Encouraging food composting,**
- Reducing the availability of Council agendas and papers at meetings**

Q15 Do you have any other comments you would like to make on the proposed ideas above or any other ideas about what Council could do to help the district send less waste to landfill?

Composting in the answer. Education about it, and maybe workshops. Making it really easy at schools and work places. Letting people collect buckets of food waste from cafes and restaurants. I believe that currently that's not allowed. That's crazy, forcing food waste into landfill when that waste can be used for animal feed or compost.

Page 9: Discussion Topic 5: Building Capability

Q16 What do you think about Council's proposal to build the organisation's capability and improve delivery of services?

Unsure.

Page 10: Other Feedback

Q17 Do you have any other feedback for the Annual Plan 2020/21?

The SWDC has a reputation for being heavy handed. Almost every person I have discussed the SWDC with has had a horror story. Maybe have a look inwards.

Q1 Do you agree that the water supply should be Council's main focus next year?

Respondent skipped this question

Q2 Do you think it's important for Council to develop a Water Conservation Action Plan?

Yes

Q3 Do you support any of the proposed water resilience actions (as detailed on page 3 of the Consultation Document)? Tick all that you support otherwise leave all blank

Offering subsidised water tanks, at cost, paid back over a period of time

,

Requiring new builds to have their own water storage solution

,

Installing smart meters to monitor water consumption and leaks

Q4 Do you have any other comments you would like to make on the actions proposed above or have any other ideas for the Action Plan?

Whilst it gets the jump on \$, I'm not sure it would be correct to reduce the water allowance per property without installing smart meters first - so you can measure how much water is actually being used (and where potential leaks may be).

 Page 3: Discussion Topic 2A: Continue extended hours for swimming pools

Q5 Do you agree that we should continue to trial extended swimming pool hours next summer (i.e. longer hours in evenings and on weekends)? Current year's opening hours are available here <https://www.swdc.govt.nz/swimming-pools>.

Yes

Q6 Why is this?

Our summers are hot. Adults and children need to have a place where they can learn to swim and have water confidence. We want an active and healthy community, so make it easier for people.

Page 4: Discussion Topic 2B: Greytown Sports and Recreation Hub

Q7 Do you think that the Council should provide more space for sports and recreation in Greytown? **Yes**

Q8 Do you support funding for the Greytown Sports and Recreation Hub proposal (as detailed on page 4 of the Consultation Document)? **Yes**

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9 Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

The community is growing in population. Sports are heavily subscribed to currently. It supports an active and healthy community. Multi-purpose venues tend to be heavily used, contributing to building community spirit. Land for sports and recreation in central locations is rare - this is the only opportunity we're likely to get, considering Greytown's growth in recent years.

Page 6: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q10 As you selected 'Partial' because you support funding for parts of the proposal, but not all, tick all the parts that you support **Respondent skipped this question**

Q11 Why is this? **Respondent skipped this question**

Page 7: Discussion Topic 3: Land Transport

Q12 What do you think about Council's proposals for land transport (page 5 of the Consultation Document)? Should we be doing more to promote walking and cycling in the district?

Absolutely promote more walking and cycling in the district - BUT - the infrastructure needs to be there. It needs to be safe for pedestrians and cyclists.

Page 8: Discussion Topic 4: Waste Minimisation

Q13 Do you think it is important for Council to develop a Waste Minimisation Action Plan? **Yes**

Q14 Do you support any of the waste minimisation ideas proposed (as detailed on page 6 of the Consultation Document)? Tick all that you support otherwise leave all blank

Moving to a more user pays model, i.e. increasing the cost of council rubbish bags

Providing recycling station in urban areas,

Encouraging food composting,

Reducing the availability of Council agendas and papers at meetings

Q15 Do you have any other comments you would like to make on the proposed ideas above or any other ideas about what Council could do to help the district send less waste to landfill?

It's great to promote composting - why not also offer discounted compost bins for people's gardens.

I don't think you should provide wheelie bins for general rubbish - it may have the opposite effect with people trying to fill it each week. Be absolutely crystal clear about which plastics can be recycled and which cannot.

Page 9: Discussion Topic 5: Building Capability

Q16 What do you think about Council's proposal to build the organisation's capability and improve delivery of services?

I support ensuring Council leadership and organisation capability should be built - particularly in this fast-changing, regulated world. I don't support the funding proposal put forward. Given a substantial increase for capability building last year, putting up the same funding this year seems a little rich. Looking at the finance pie chart, Governance leadership and advocacy is 7% of expenditure, compared to a mere 3% for economic, cultural and community development - this looks out of whack. It infers building up the capability of the Council is more important than the community itself. ?

Page 10: Other Feedback

Q17 Do you have any other feedback for the Annual Plan 2020/21?

Just on cycle and walk ways, it would be great if you can put consideration into safely connecting South Wairarapa and Carterton districts with a walk/cycle way. Living where we are (somewhat biased), we are closely connected to the Greytown community, but must take a vehicle to get there, even though it is just across the river (we can literally see it).

Q1 Do you agree that the water supply should be Council's main focus next year? **No**

Q2 Do you think it's important for Council to develop a Water Conservation Action Plan? **Yes**

Q3 Do you support any of the proposed water resilience actions (as detailed on page 3 of the Consultation Document)? Tick all that you support otherwise leave all blank

Offering subsidised water tanks, at cost, paid back over a period of time

Requiring new builds to have their own water storage solution

Q4 Do you have any other comments you would like to make on the actions proposed above or have any other ideas for the Action Plan? **Respondent skipped this question**

Page 3: Discussion Topic 2A: Continue extended hours for swimming pools

Q5 Do you agree that we should continue to trial extended swimming pool hours next summer (i.e. longer hours in evenings and on weekends)? Current year's opening hours are available here <https://www.swdc.govt.nz/swimming-pools>. **Yes**

Q6 Why is this?

good use of community facilities

Page 4: Discussion Topic 2B: Greytown Sports and Recreation Hub

Q7 Do you think that the Council should provide more space for sports and recreation in Greytown? **Yes**

Q8 Do you support funding for the Greytown Sports and Recreation Hub proposal (as detailed on page 4 of the Consultation Document)? **Yes**

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9 Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

Kuranui College should be seen as a community resource plus it is the ideal focus for the proposed hub. I have seen this model in a small Victorian town a few years ago. It was a model that allowed the schools to use it during the school day and the community in the evening and weekends.

Page 6: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q6 Why is this?

Another year will give further data on whether this should be extended permanently.

Page 4: Discussion Topic 2B: Greytown Sports and Recreation Hub

Q7 Do you think that the Council should provide more space for sports and recreation in Greytown? **Yes**

Q8 Do you support funding for the Greytown Sports and Recreation Hub proposal (as detailed on page 4 of the Consultation Document)? **Yes**

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9 Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

Sports and recreation are a huge part of our community's lives. Making use, and enhancing the spaces we currently have will support the growth of the greytown community.

Although I agree with the proposal I would say that the \$1.9m for the rugby club is steep. However, if this is what has to be paid to secure the grounds and provide the hub then I support it.

Page 6: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q11 Why is this? **Respondent skipped this question**

Page 7: Discussion Topic 3: Land Transport

Q12 What do you think about Council's proposals for land transport (page 5 of the Consultation Document)? Should we be doing more to promote walking and cycling in the district?

Yes, more initiatives to promote walking and cycling should be encouraged in urban areas.

However, rural roads in particular close to urban boundaries need to be more regularly maintained. Fabians Road is often used as a back road to Martinborough, and with the high usage of trucks taking metal from the river, the road deteriorates extremely quickly and becomes a highly dangerous road to navigate.

Page 8: Discussion Topic 4: Waste Minimisation

Q13 Do you think it is important for Council to develop a Waste Minimisation Action Plan? **Yes**

Q14 Do you support any of the waste minimisation ideas proposed (as detailed on page 6 of the Consultation Document)? Tick all that you support otherwise leave all blank **Providing recycling station in urban areas,**
Encouraging food composting,
Reducing the availability of Council agendas and papers at meetings

Q15 Do you have any other comments you would like to make on the proposed ideas above or any other ideas about what Council could do to help the district send less waste to landfill?

Encourage businesses And sports clubs to have waste minimization action plans as well as continued education for the general plan on how we can reduce our waste to landfill.

Page 9: Discussion Topic 5: Building Capability

Q16 What do you think about Council's proposal to build the organisation's capability and improve delivery of services?

Good news

Respondent skipped this question

Page 3: Discussion Topic 2A: Continue extended hours for swimming pools

Q5 Do you agree that we should continue to trial extended swimming pool hours next summer (i.e. longer hours in evenings and on weekends)? Current year's opening hours are available here <https://www.swdc.govt.nz/swimming-pools>.

Yes

Q6 Why is this?

We are a maritime nation - everyone should be encouraged to learn how to swim. The more opportunities to learn the better.

Page 4: Discussion Topic 2B: Greytown Sports and Recreation Hub

Q7 Do you think that the Council should provide more space for sports and recreation in Greytown?

Yes

Q8 Do you support funding for the Greytown Sports and Recreation Hub proposal (as detailed on page 4 of the Consultation Document)? **Yes**

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9 Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

I support this Proposal because I strongly believe the vibrant community I want to reside must have the opportunity for it's population, youth especially, to participate in as wide a range of Sports as it is possible to provide .

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9 Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

I few there would be more benefit in putting money into Kuranui College would benefit several communities rather than a rugby club that plays minimal games there and no one uses in the off season. The bowls club has always been an issue on having enough numbers, seems like a waste of money to save this.

Q5 Do you agree that we should continue to trial extended swimming pool hours next summer (i.e. longer hours in evenings and on weekends)? Current year's opening hours are available here <https://www.swdc.govt.nz/swimming-pools>. **Yes**

Q6 Why is this?

Because it offers you much more availability and with lanes it means you can actually get to swim when theres not so many people in the pool. Weekends would be great to open earlier so you can have a swim in the morning when theres hardly anyone there rather than later in the evening.

 Page 4: Discussion Topic 2B: Greytown Sports and Recreation Hub

Q7 Do you think that the Council should provide more space for sports and recreation in Greytown? **Yes**

Q8 Do you support funding for the Greytown Sports and Recreation Hub proposal (as detailed on page 4 of the Consultation Document)? **Yes**

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9 Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

We have an ever increasing population and we do not have the space or facilities like other towns. We need to have a central place so all ages can use these facilities. We do not have skate/wheel parks like all the other towns and this is so needed especially with the adolescents as when the pool is open a lot of the kids are there but there is no where for the kids during the other seasons. Having a central place for all can then be a great social thing, which is something none of us will take for granted after our lockdown is over.

Q9 Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

Our children & community desperately need the space to be able to play sports etc. All 3 of my children play sport for Greytown & go to school in Greytown and all current sporting clubs deserve a helping hand. It would benefit the community & bring more people to move into our community as a drawcard for the area.

Q11 Why is this? **Respondent skipped this question**

Page 7: Discussion Topic 3: Land Transport

Q12 What do you think about Council's proposals for land transport (page 5 of the Consultation Document)? Should we be doing more to promote walking and cycling in the district?

No. We have more urgent priorities at the moment.

Page 8: Discussion Topic 4: Waste Minimisation

Q13 Do you think it is important for Council to develop a Waste Minimisation Action Plan? **Yes**

Q14 Do you support any of the waste minimisation ideas proposed (as detailed on page 6 of the Consultation Document)? Tick all that you support otherwise leave all blank

- Providing a wheelie bin for general rubbish, paid for through rates**
- Encouraging food composting,**
- Reducing the availability of Council agendas and papers at meetings**

Q15 Do you have any other comments you would like to make on the proposed ideas above or any other ideas about what Council could do to help the district send less waste to landfill?

I am happy to pay for a one off general rubbish wheelie bin to be collected weekly, like the plastic bag is collected now. If I pay for the bin (one off payment for the physical bin to the council) I can't see that it costs any more for the council to empty a bin I've paid for, than pick up a rubbish bag. Same truck and same number of people required. No more plastic rubbish bags, no more council cashing in on people having to buy bags, and way less reduction of plastic bags in landfill.

Page 9: Discussion Topic 5: Building Capability

Q16 What do you think about Council's proposal to build the organisation's capability and improve delivery of services?

Your proposals are built on how life was two years ago. You need to be responsive and empathetic to the new normal and living with covid19. As the responsible body for many people you need to put our lives and needs first. Without knowing it this is why we elected you.

Page 10: Other Feedback

Q17 Do you have any other feedback for the Annual Plan 2020/21?

Individually each and every one of you promised to do your best for the Wairarapa. Individually that's why we voted for you, based on those promises. Now is the time for you to shine and make us proud we voted as we did.

 Page 2: Discussion Topic 1: Water Supply and Water Resilience

Q1 Do you agree that the water supply should be Council's main focus next year? **Yes**

Q2 Do you think it's important for Council to develop a Water Conservation Action Plan? **Yes**

Q3 Do you support any of the proposed water resilience actions (as detailed on page 3 of the Consultation Document)? Tick all that you support otherwise leave all blank

Requiring new builds to have their own water storage solution
 ,
Installing smart meters to monitor water consumption and leaks

Q4 Do you have any other comments you would like to make on the actions proposed above or have any other ideas for the Action Plan? **Respondent skipped this question**

Page 3: Discussion Topic 2A: Continue extended hours for swimming pools

Q5 Do you agree that we should continue to trial extended swimming pool hours next summer (i.e. longer hours in evenings and on weekends)? Current year's opening hours are available here <https://www.swdc.govt.nz/swimming-pools>. **Yes**

Q6 Why is this?

U will get locals using them and it is good for People trying to exercise

Page 4: Discussion Topic 2B: Greytown Sports and Recreation Hub

Q7 Do you think that the Council should provide more space for sports and recreation in Greytown? **No**

Q8 Do you support funding for the Greytown Sports and Recreation Hub proposal (as detailed on page 4 of the Consultation Document)? **Partial**

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9 Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal **Respondent skipped this question**

Page 6: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q10 As you selected 'Partial' because you support funding for parts of the proposal, but not all, tick all the parts that you support

Contribution to the Kuranui College gymnasium replacement
,

Purchase of the Rugby Club land,
Purchase of the Bowling Club land

Q11 Why is this?

Both clubs would be profitable based on numbers in the after match activity's

Page 7: Discussion Topic 3: Land Transport

Q12 What do you think about Council's proposals for land transport (page 5 of the Consultation Document)? Should we be doing more to promote walking and cycling in the district?

No I already think most people over here like to do these activities

Page 8: Discussion Topic 4: Waste Minimisation

Q13 Do you think it is important for Council to develop a Waste Minimisation Action Plan? **Yes**

Q14 Do you support any of the waste minimisation ideas proposed (as detailed on page 6 of the Consultation Document)? Tick all that you support otherwise leave all blank

Providing a wheelie bin for general rubbish, paid for through rates
,

Encouraging food composting

Q15 Do you have any other comments you would like to make on the proposed ideas above or any other ideas about what Council could do to help the district send less waste to landfill?

Teaching the kids/youth through there schools how to compost there food waste and less in the rubbish bins

Q5 Do you agree that we should continue to trial extended swimming pool hours next summer (i.e. longer hours in evenings and on weekends)? Current year's opening hours are available here <https://www.swdc.govt.nz/swimming-pools>. **Yes**

Q6 Why is this?

Any change takes a while to be adopted. Anecdotally, there were quite a few people that I spoke to throughout the summer who did not realise that the pools were free of charge. This also provides valuable summer time recreation for the many struggling families in our region.

Page 4: Discussion Topic 2B: Greytown Sports and Recreation Hub

Q7 Do you think that the Council should provide more space for sports and recreation in Greytown? **Yes**

Q8 Do you support funding for the Greytown Sports and Recreation Hub proposal (as detailed on page 4 of the Consultation Document)? **No**

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9 Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

The council has essential infrastructure projects that need to be the focus of spending. Allocating upwards of \$5 million dollars into sports facilities that benefit only a small part of the region is irresponsible. The council's current model for funding recreation amenities seems to be "do as little as possible" in all other respects. Existing buildings and grounds are given very little in the way of maintenance and upkeep and in many cases, basic maintenance and any improvements are paid for by the community completely out of their own pocket. I agree with providing more space for recreation in Greytown however, the council's role in this should be commensurate with their investment in Martinborough and Featherston. Purchase land using funds already set aside by council, perhaps in conjunction with some of the funding sources outlined in the Greytown Sports Hub proposal and then let the Greytown community come together and establish their own facilities. Some of the rationale for council to provide the bulk of the funding for the proposal was that "it would be more expensive for new facilities to be built". This assumes that Council would be the one building the facilities. This does not need to be the case.

Page 6: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q10 As you selected 'Partial' because you support funding for parts of the proposal, but not all, tick all the parts that you support **Respondent skipped this question**

Q11 Why is this? **Respondent skipped this question**

Page 7: Discussion Topic 3: Land Transport

Q12 What do you think about Council's proposals for land transport (page 5 of the Consultation Document)? Should we be doing more to promote walking and cycling in the district?

1)I would like to ask if Council is lobbying government to recognise native tree plantations alongside pine and if the council would consider replacing pine plantations with natives when tree replacement is required. 2) Funds allocated to the planting and upkeep of urban trees need to be split evenly across the region. Upkeep should only be funded by the council if the tree is on Council property (i.e. road berms, parks etc.). Council should partner with communities where possible to include locals in the tree planting and maintenance process. We need many, many more trees than we currently have and this is an area where local communities can help. 3)I agree with the council spending money on essential infrastructure. Roading maintenance, sidewalk improvement etc. is essential.

Page 8: Discussion Topic 4: Waste Minimisation

Q13 Do you think it is important for Council to develop a Waste Minimisation Action Plan? **Yes**

Q14 Do you support any of the waste minimisation ideas proposed (as detailed on page 6 of the Consultation Document)? Tick all that you support otherwise leave all blank

Providing recycling station in urban areas,
Encouraging food composting,
Reducing the availability of Council agendas and papers at meetings

Q15 Do you have any other comments you would like to make on the proposed ideas above or any other ideas about what Council could do to help the district send less waste to landfill?

Raising the cost of waste disposal will simply lead to more people dumping rubbish on the roadside. Please do not raise the cost of waste disposal. Make it easier for people to produce less waste and then to dispose of it correctly.

Page 9: Discussion Topic 5: Building Capability

Q16 What do you think about Council's proposal to build the organisation's capability and improve delivery of services?

A correct level of staffing is essential, and I believe that many of the staffing decisions made in the last 2 years have been positive. In terms of council headquarters I'd just like to encourage council to carefully consider and reflect upon what their real need is in regards to buildings, especially in light of the benefits that can be gained from staff partially working from home as has been demonstrated recently in level 4 lockdown.

Page 10: Other Feedback

Q17 Do you have any other feedback for the Annual Plan 2020/21?

I would just like to reiterate that Council's main role should be providing and maintaining vital infrastructure. I would like to see council funds used primarily for providing essential services and secondarily, for maintaining and upgrading the facilities we currently have. Once these things can be accomplished in a fiscally and socially responsible manner then the "trophy projects" can be considered.

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9 Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

Greytown is growing. Currently, the only council-owned land that can facilitate team sport is Memorial Park which is not enough space to facilitate Cricket, Football, Rugby, and Baseball. The purchase of the East Street site will create stability, and enable multiple sports in Greytown to have a permanent home. It would also give baseball somewhere to play in the summer (as we are outgrowing Kuranui College due to children getting older and field dimensions getting larger). It will allow baseball to host teams of all ages from across the Wellington region, and country. At the moment, our U 16s travel every weekend as there is nowhere at 'home' for them to play.

Once that space is gone to houses, it's gone forever. The Greenspace issue remains, and it gets larger. The population is getting larger, and we need to have a plan that supports the recreational needs of the current population, and future growth.

Q4 Do you have any other comments you would like to make on the actions proposed above or have any other ideas for the Action Plan?

Investment into water storage infrastructure out by the town water tank/pump station would be beneficial.

Page 3: Discussion Topic 2A: Continue extended hours for swimming pools

Q5 Do you agree that we should continue to trial extended swimming pool hours next summer (i.e. longer hours in evenings and on weekends)? Current year's opening hours are available here <https://www.swdc.govt.nz/swimming-pools>. **Yes**

Q6 Why is this?

Good for children and the wider community. In Greytown there isn't a lot for children to do, particularly intermediate aged teens. A swimming pool open for longer provides increased access to an affordable leisure activity for all ages.

Page 4: Discussion Topic 2B: Greytown Sports and Recreation Hub

Q7 Do you think that the Council should provide more space for sports and recreation in Greytown? **Yes**

Q8 Do you support funding for the Greytown Sports and Recreation Hub proposal (as detailed on page 4 of the Consultation Document)? **Yes**

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9 Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

Greytown is growing rapidly. Well designed/preplanned areas of greenspace will help maintain the beauty of the township, encourage community participation, offset increased urbanisation, and benefit the township as a whole. I support partial funding. I am however uneasy about providing funding via rates to Kuranui College.

Page 6: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q10 As you selected 'Partial' because you support funding for parts of the proposal, but not all, tick all the parts that you support **Respondent skipped this question**

Q11 Why is this? **Respondent skipped this question**

Page 7: Discussion Topic 3: Land Transport

Q12 What do you think about Council's proposals for land transport (page 5 of the Consultation Document)? Should we be doing more to promote walking and cycling in the district?

Yes, promoting safer cycling and the removal of barriers to access to pavements for those with limited mobility would be great. Cycling with children through Greytown can be quite unnerving at times given the lack of cycle ways. Perhaps developing Main St pavements with a cycle way would be beneficial.

Page 8: Discussion Topic 4: Waste Minimisation

Q13 Do you think it is important for Council to develop a Waste Minimisation Action Plan? **Yes**

Q14 Do you support any of the waste minimisation ideas proposed (as detailed on page 6 of the Consultation Document)? Tick all that you support otherwise leave all blank

Providing a wheelie bin for general rubbish, paid for through rates

Reducing the availability of Council agendas and papers at meetings

Q15 Do you have any other comments you would like to make on the proposed ideas above or any other ideas about what Council could do to help the district send less waste to landfill?

Increasing the cost of bags may encourage those on limited incomes to dump illegally instead.

Wheellie bins are a great alternative however rate payers on fixed incomes may struggle to afford the increase.

Recycling stations would help to a degree but may only be utilized by those who already recycle.

Education of composting, while great, doesn't always translate to increased practical action (as evidenced by a study we undertook at VUW). Council provided composting services similar to Christchurch could help reduce food waste going to the landfill. This in turn would reduce methane outputs from the landfill which in turn would reduce district emissions and increase air quality.

Page 9: Discussion Topic 5: Building Capability

Q16 What do you think about Council's proposal to build the organisation's capability and improve delivery of services?

Good idea but only if there are clear KPIs that can show an increased benefit to the community from the increased expenditure

Page 10: Other Feedback

Q17 Do you have any other feedback for the Annual Plan 2020/21?

More focus on young people would be encouraging. As someone who has worked as a youth worker in a variety of communities I am concerned about the ongoing lack of activities for adolescents given the increasing number of children in the township.

 Page 2: Discussion Topic 1: Water Supply and Water Resilience

Q1 Do you agree that the water supply should be Council's main focus next year? **Yes**

Q2 Do you think it's important for Council to develop a Water Conservation Action Plan? **Yes**

Q3 Do you support any of the proposed water resilience actions (as detailed on page 3 of the Consultation Document)? Tick all that you support otherwise leave all blank

Reducing the water allowance per property,
Offering subsidised water tanks, at cost, paid back over a period of time
 ,
Requiring new builds to have their own water storage solution
 ,
Installing smart meters to monitor water consumption and leaks

Q4 Do you have any other comments you would like to make on the actions proposed above or have any other ideas for the Action Plan?

Water is life. There is nothing without water and shelter.

 Page 3: Discussion Topic 2A: Continue extended hours for swimming pools

Q5 Do you agree that we should continue to trial extended swimming pool hours next summer (i.e. longer hours in evenings and on weekends)? Current year's opening hours are available here <https://www.swdc.govt.nz/swimming-pools>. **Yes**

Q6 Why is this?

Clever use of existing assets keeps the community fit and safe.

Page 4: Discussion Topic 2B: Greytown Sports and Recreation Hub

Q7 Do you think that the Council should provide more space for sports and recreation in Greytown? **No**

Q8 Do you support funding for the Greytown Sports and Recreation Hub proposal (as detailed on page 4 of the Consultation Document)? **No**

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9 Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

Extraneous, unnecessary cost on all South Wairarapa taxpayers when ample space and facilities exist already. Focus on the water, sanitation and infrastructure. Absolutely no need for this be built in Greytown when other facilities across the region suffice and are not operating at capacity. Not all towns have or should have the same profile, and taxpayer funds should not be used to increase one town at the expense of others.

Page 6: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q10 As you selected 'Partial' because you support funding for parts of the proposal, but not all, tick all the parts that you support **Respondent skipped this question**

Q11 Why is this? **Respondent skipped this question**

Page 7: Discussion Topic 3: Land Transport

Q12 What do you think about Council's proposals for land transport (page 5 of the Consultation Document)? Should we be doing more to promote walking and cycling in the district?

Maintenance of urban trees is not a priority and may be slashed. Walking and Cycling Plan investment is good; the Council can be bold in this regard and invest in cycling routes inside towns, as well as between towns on SH53/Underhil Road (connecting Featherston-to-Greytown). Road funding has always been poor and won't be fixed by an extra \$600k in the annual plan, please slash this.

Page 8: Discussion Topic 4: Waste Minimisation

Q13 Do you think it is important for Council to develop a Waste Minimisation Action Plan? **Yes**

Q14 Do you support any of the waste minimisation ideas proposed (as detailed on page 6 of the Consultation Document)? Tick all that you support otherwise leave all blank

Moving to a more user pays model, i.e. increasing the cost of council rubbish bags

Providing recycling station in urban areas,

Encouraging food composting,

Reducing the availability of Council agendas and papers at meetings

Q15 Do you have any other comments you would like to make on the proposed ideas above or any other ideas about what Council could do to help the district send less waste to landfill?

More more more promotion; more support for Jo Dean; more education and working in with schools and communities to reduce waste through active participation; whereas a carrot works for domestic rubbish, bring out the stick for industrial and agricultural waste to really bash in a new way of thinking. SWDC has the opportunity to take the lead here and we are well-placed to have the space/time/luxury to really handle and process waste materials (like composting, secondary farming practices, etc)

Page 9: Discussion Topic 5: Building Capability

Q16 What do you think about Council's proposal to build the organisation's capability and improve delivery of services?

I do not see value for money being demonstrated in this domain and do not believe further investment would yield improvement.

Page 10: Other Feedback

Q17 Do you have any other feedback for the Annual Plan 2020/21?

Just circling back to the absolute shocker of a decision the corrupt insider trading of sports domains with the Greytown Land Cartel would be. There is no need to adhere to a previous Council's corruption and we have elected you to make difficult changes like axing this in what are life-and-death circumstances for many in this impoverished lower-decile district.

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9 Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

Greytown has a sports field in Kuratawhiti St owned by SWDC and already has swimming football tennis courts. Kuranui has extensive sports grounds and facilities. The purchase and creation of more sports grounds in Greytown is wholly unnecessary and as a Featherston ratepayer, I object to my rates going to this scheme rather than to better fund necessary vital infrastructure such as water

Page 6: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q4 Do you have any other comments you would like to make on the actions proposed above or have any other ideas for the Action Plan?

The Moroa water race still is an essential asset for the Greytown and wider region. More care is needed to manage this asset given land where it runs through is now often owned by landowners (lifestyle block owners) who do not actively manage their section of water race.

 Page 3: Discussion Topic 2A: Continue extended hours for swimming pools

Q5 Do you agree that we should continue to trial extended swimming pool hours next summer (i.e. longer hours in evenings and on weekends)? Current year's opening hours are available here <https://www.swdc.govt.nz/swimming-pools>. **Yes**

Page 3: Discussion Topic 2A: Continue extended hours for swimming pools

Q5 Do you agree that we should continue to trial extended swimming pool hours next summer (i.e. longer hours in evenings and on weekends)? Current year's opening hours are available here <https://www.swdc.govt.nz/swimming-pools>. **Yes**

Q6 Why is this?

Every time we went to the pools they were busy with people of all ages, especially young people. There aren't a lot of recreational options for older kids in our town (Featherston), and it was nice seeing the kids be physical away from screens. I know many parents of young children enjoyed being able to tire them out on hot days. Having the pool open for longer means people are able to enjoy it more, and I think for the cost it is worth it.

Page 4: Discussion Topic 2B: Greytown Sports and Recreation Hub

Q7 Do you think that the Council should provide more space for sports and recreation in Greytown? **No**

Q8 Do you support funding for the Greytown Sports and Recreation Hub proposal (as detailed on page 4 of the Consultation Document)? **No**

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9 Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

I feel like in these times that upgrading the Greytown Sports and recreational hub is not a priority. I feel like it should be put on the back bench for a year or 2, until the economy is more stable, and we can see noticeable improvements in basic infrastructure like roads and water supply.

Page 6: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Offering subsidised water tanks, at cost, paid back over a period of time

Requiring new builds to have their own water storage solution

Q4 Do you have any other comments you would like to make on the actions proposed above or have any other ideas for the Action Plan?

Water should be the main priority by the South Wairarapa District Council at this point. Over the summer we were on severe water restrictions due to lack of water being stored and due to an much longer drought period. We need to focus on having access to safe clean water as it is a necessity of life. We have had several incidences of losing access to water around town, not to mention the severe restrictions that were in place which included having to limit showers, washing hands (which had to be lifted due to coronavirus and the need to wash hands for a minimum of 20 seconds), being unable to flush toilets, being unable to keep vegetables growing in the garden for the household alive, having to limit using the washing machine (which in a household of 10 with twin one year olds and a severely disabled 20 year old is extremely difficult to do, when the usual amount of loads in our house is 4 loads a day).

This doesn't even take in to account the water issues facing martinborough over the lack of clean safe drinking water, including last year's martinborough fair where workers had to bring their own water in, and large signs were placed everywhere saying don't drink the water, and then this year martinborough having to supply water trucked in specifically so people had safe clean water to drink.

Water is needed to sustain life, so therefore our focus needs to be on reliably providing safe clean water to every household, and having plans in place to help us through droughts.

Page 3: Discussion Topic 2A: Continue extended hours for swimming pools

Q5 Do you agree that we should continue to trial extended swimming pool hours next summer (i.e. longer hours in evenings and on weekends)? Current year's opening hours are available here <https://www.swdc.govt.nz/swimming-pools>. **Yes**

Q6 Why is this?

Due to the heat over the summer months here in the wairarapa, we should be able to access swimming facilities to help us and our children keep our body temperatures down. Pools over in the hutt and in Masterton are open from early in the morning and can be open till fairly late at night, but for years we've only had access to our pools for only a couple of hours each day. I moved over from Tawa to Featherston back in 2000, when I was 15 and was shocked to have very limited access to the pools, where I was used to heading in at 9am and not leaving till well after 6pm, I did eventually get used to it, but can't believe it has taken nearly 20 years for this to change.

Page 4: Discussion Topic 2B: Greytown Sports and Recreation Hub

Q7 Do you think that the Council should provide more space for sports and recreation in Greytown? **No**

Q8 Do you support funding for the Greytown Sports and Recreation Hub proposal (as detailed on page 4 of the Consultation Document)? **No**

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9 Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

I think that Greytown sports clubs should fundraise for the facilities they want to see in their town, just like featherston and martinborough have had to all these years. I don't think that rate payer money should be used for this, as rate payer money should be used primarily for upgrading and maintaining vital services like water, dealing with the horrible sidewalks that make it extremely hard to push wheelchairs and prams on (which we have been complaining about for 15 years) and basic infrastructure around town. Since there is a plan to develop a tiny house village on the outskirts of featherston, then upgrading our current infrastructure which currently can't cope with our towns number of residents NEEDS to be a priority, especially as the point of building a tiny home area is to bring in more residents to the town. If the infrastructure can't cope right now, how is it going to cope with a town expansion?

Q13 Do you think it is important for Council to develop a Waste Minimisation Action Plan? **Yes**

Q14 Do you support any of the waste minimisation ideas proposed (as detailed on page 6 of the Consultation Document)? Tick all that you support otherwise leave all blank

Providing a wheelie bin for general rubbish, paid for through rates
Providing recycling station in urban areas,
Encouraging food composting

Q15 Do you have any other comments you would like to make on the proposed ideas above or any other ideas about what Council could do to help the district send less waste to landfill?

I think there needs to be more done about the re-using portion of the re-use, reduce, recycle part of the mantra. I think something like a Menz Shed but with broken electronics would be fantastic, so instead of old fridges washing machines etc being dumped at the tip, it could be dropped off at a central location where those with the know-how and time can strip them down, get them working again and they can then be given to those who need them, anyone who is interested can learn from those who know how to do this, and this could work towards giving our youth some skills as well as keeping them off the streets and out of trouble. If it was a council-led initiative, run by locals in our communities, it would be a great way to upskill, reduce our electronic waste and be a way to give back to the community, instead of spending money to send it to the landfill where it will sit for decades. There could easily be workshops run from the community rooms on reusing items that would otherwise be recycled, like plastic bottle can be used to create mini herb gardens at home, canning classes where people find out how to make their own jam reusing glass jars, etc, all the things that used to be taught in schools in home ec, or that our grandparents might've once taught us, but due to modern life we've lost the time to do.

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9 Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

Greytown has a population that is increasing so we need to increase the amount of fields etc for children and adults to do sports and recreation pursuits. With the current pandemic situation, it has highlighted the very real need to have green space to walk and get fresh air. Sport and recreation are essential for the health and wellbeing of the community. Sport in NZ is our social connection with our community well being.

Q8 Do you support funding for the Greytown Sports and Recreation Hub proposal (as detailed on page 4 of the Consultation Document)? **Yes**

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9 Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

That piece of land has been used for sport and recreation for over 100 years. It is close to town and there is not much if any land that close to town for similar activities. The town can expand easily with surrounding land however it is almost impossible to keep a recreational ground like this close to everyone in town. Keep it where it is!

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9 Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

I am supportive as I wish to see green-spaces available for recreational purposes. Surely the current COVID-19 crisis demonstrates the need for places to walk, revitalize etc. Open green spaces are part of Greytown's charm (not infilled housing).

Page 6: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Page 9: Discussion Topic 5: Building Capability

Q16 What do you think about Council's proposal to build the organisation's capability and improve delivery of services?

I do not support a further increase in this aspect of funding - if the councilors etc. are not already skilled in this area of their job they should step down or re-train (at their expense).

Q9 Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

Greytown has far less council supplied land than Featherston & Martinborough and we cannot afford to lose Residential Greenspace in Greytown.

We also need to ensure we provide recreational opportunities for our growing community and support our struggling local sports clubs.

Q25 Organisation (only if authorised to submit on behalf of an organisation, one submission per organisation)

Greytown Rugby Football Club

2 June 2020

Alex Beijen
Major
South Wairarapa District Council

Dear Alex,

RE: SUPPORT FOR GREYTOWN SPORTS AND RECREATION HUB IN 2020/21 ANNUAL PLAN

This letter is to provide NZ Rugby's support to the proposal in your 2020/21 Annual Plan for the Council to purchase the Greytown Rugby Club land for a Sports and Recreation Hub.

Rugby like many sports, is going through a period of great change, one that will only be accelerated by Covid-19. Participants are expecting sport to be responsive and adaptable to their needs and lifestyles. To respond to this rugby now offers several different versions of the game, with Provincial Unions and Clubs reshaping how they deliver these to their communities.

Important to this is facilities and grounds that are accessible, safe, and welcoming to all New Zealanders. Clubs need to be close to their communities so that sport can be easily integrated with other parts of people's busy lives, with facilities and clubrooms that are of a standard that meets health and safety requirements and is open and attractive to participants of both genders, all ages and nationalities. There is an increasing trend for rugby to work with other sports so that resources can be used efficiently to provide this level of amenity and we have seen examples in other parts of New Zealand, which involve rugby clubs, that have helped secure the future viability of sport in those communities.

Viable sports facilities are an asset to communities and an important facilitator of community health and wellbeing. Accordingly, we offer our support for the proposal to purchase the Greytown Rugby Club grounds so that the development of the Greytown Sports and Recreation Hub can proceed. The Greytown Rugby Club is one of the oldest in New Zealand and the ability for them to continue to contribute to the vibrancy of Greytown in the future depends on this initiative being given this support from Council.

Yours sincerely,
Steve Lancaster
General Manager Participation & Development

2 June 2020

Alex Beijen
Major
South Wairarapa District Council

Dear Alex,

RE: SUPPORT FOR GREYTOWN SPORTS AND RECREATION HUB IN 2020/21 ANNUAL PLAN

This letter is to provide our support in your 2020/21 Annual Plan for the Council to purchase the land or enter into negotiations with all parties to maintain the rent and terms of conditions at the previous levels.

Greytown Rugby Club is one of the oldest rugby clubs in New Zealand and is an integral part of the Wairarapa Bush Rugby Union. The social and financial rewards Greytown Rugby have put into the community cannot be calculated, but it is fair to say their contribution is "immense".

The increase of rental charges and the corresponding removal of the funding grants makes it difficult for any non-profit or sporting organisation to remain financially viable. The council has a clear strategy plan, to ensure the well-being of the community.

The proposal to purchase the land and the council's commitment to part fund this year is commendable, however we also support further negotiations between all parties with a rent freeze being put in place until all matters are resolved. The Community Sports Hub is also a positive step forward.

Post Covid-19, the sporting environment will change. In a recent meeting I attended with representatives from all three councils, health and social agencies representatives, it was agreed, sport and recreational organisations will be a key plank in getting the Wairarapa and the New Zealand community reconnected again.

With all sporting organisations, including Greytown Rugby Club, they are run by passionate unpaid volunteers. Our responsibility is to ensure we make their roles easier not harder.

Yours sincerely,

Tony Hargood
Chief Executive
Wairarapa Bush Rugby Union

Q3 Do you support any of the proposed water resilience actions (as detailed on page 3 of the Consultation Document)? Tick all that you support otherwise leave all blank **Installing smart meters to monitor water consumption and leaks**

Q4 Do you have any other comments you would like to make on the actions proposed above or have any other ideas for the Action Plan?

Make farmers use less water. Or responsible use of water ie not irrigating at peak sun. Don't care that it's bore water it's still water which is our resource

 Page 3: Discussion Topic 2A: Continue extended hours for swimming pools

Q5 Do you agree that we should continue to trial extended swimming pool hours next summer (i.e. longer hours in evenings and on weekends)? Current year's opening hours are available here **Yes**
<https://www.swdc.govt.nz/swimming-pools>.

Q6 Why is this?

Just a bit earlier on weekends please

 Page 4: Discussion Topic 2B: Greytown Sports and Recreation Hub

Q7 Do you think that the Council should provide more space for sports and recreation in Greytown? **Yes**

Q8 Do you support funding for the Greytown Sports and Recreation Hub proposal (as detailed on page 4 of the Consultation Document)? **Partial**

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9 Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal **Respondent skipped this question**

Page 6: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q10 As you selected 'Partial' because you support funding for parts of the proposal, but not all, tick all the parts that you support **Purchase of the Bowling Club land**

Q11 Why is this?

Not used to a satisfactory capacity, new orchards development opening a lawn bowls club opened to the town

Page 7: Discussion Topic 3: Land Transport

Q12 What do you think about Council's proposals for land transport (page 5 of the Consultation Document)? Should we be doing more to promote walking and cycling in the district?

Na

Page 8: Discussion Topic 4: Waste Minimisation

Q13 Do you think it is important for Council to develop a Waste Minimisation Action Plan? **Yes**

Q14 Do you support any of the waste minimisation ideas proposed (as detailed on page 6 of the Consultation Document)? Tick all that you support otherwise leave all blank

Providing a wheelie bin for general rubbish, paid for through rates

Encouraging food composting,

Reducing the availability of Council agendas and papers at meetings

Q15 Do you have any other comments you would like to make on the proposed ideas above or any other ideas about what Council could do to help the district send less waste to landfill?

Respondent skipped this question

Page 9: Discussion Topic 5: Building Capability

Q16 What do you think about Council's proposal to build the organisation's capability and improve delivery of services?

Any improvement to how swdc processes anything is a plus. No one enjoys dealing with the local council. The building process is a shambles. Carterton is way ahead here

Q2 Do you think it's important for Council to develop a Water Conservation Action Plan? **Yes**

Q3 Do you support any of the proposed water resilience actions (as detailed on page 3 of the Consultation Document)? Tick all that you support otherwise leave all blank

Offering subsidised water tanks, at cost, paid back over a period of time

Requiring new builds to have their own water storage solution

Q4 Do you have any other comments you would like to make on the actions proposed above or have any other ideas for the Action Plan?

The capacity of the Tararuas to go on providing enough water given the unrestrained new building that is going on is a critical issue. Has capacity been measured?

 Page 3: Discussion Topic 2A: Continue extended hours for swimming pools

Q5 Do you agree that we should continue to trial extended swimming pool hours next summer (i.e. longer hours in evenings and on weekends)? Current year's opening hours are available here <https://www.swdc.govt.nz/swimming-pools>. **Yes**

Q6 Why is this?

So that this important facility is available during our hot summers and to accommodate more and more users given the development going on.

 Page 4: Discussion Topic 2B: Greytown Sports and Recreation Hub

Q7 Do you think that the Council should provide more space for sports and recreation in Greytown? **Yes**

Q8 Do you support funding for the Greytown Sports and Recreation Hub proposal (as detailed on page 4 of the Consultation Document)? **Yes**

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9 Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

I totally support the Greytown Sports and Recreation Hub. I am still very annoyed that Council agreed a deal with the proposed retirement home not to pay into the reserves fund. 1/4 million was not chicken feed. It is a great pity that the SWDC did not consider either what is now known as Tararua Junction and part of Murphy's orchard as excellent sites to develop more sporting facilities. If council continued to allow so much development of Greytown on smaller and smaller sections then sporting facilities within easy reach are crucial.

Page 6: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q10 As you selected 'Partial' because you support funding for parts of the proposal, but not all, tick all the parts that you support **Respondent skipped this question**

Q11 Why is this? **Respondent skipped this question**

Page 7: Discussion Topic 3: Land Transport

Q12 What do you think about Council's proposals for land transport (page 5 of the Consultation Document)? Should we be doing more to promote walking and cycling in the district?

Yes we should be doing more to promote walking and cycling and support for the bridge over the Taukerenikau from Council would be a good idea. The lockdown has demonstrated just how much the rail trail is used for cycling and walking. We need to find ways to support children walking/cycling to school safely without the need for parents to transport them.

Page 8: Discussion Topic 4: Waste Minimisation

Q13 Do you think it is important for Council to develop a Waste Minimisation Action Plan? **Yes**

Q14 Do you support any of the waste minimisation ideas proposed (as detailed on page 6 of the Consultation Document)? Tick all that you support otherwise leave all blank **Providing recycling station in urban areas, Encouraging food composting**

Q15 Do you have any other comments you would like to make on the proposed ideas above or any other ideas about what Council could do to help the district send less waste to landfill?

Work with industry to reduce packaging and plastic. or make industry pay a levy if they do so. Encourage buy back for glass and other recycling materials.

Page 7: Discussion Topic 3: Land Transport

Q12 What do you think about Council's proposals for land transport (page 5 of the Consultation Document)? Should we be doing more to promote walking and cycling in the district?

Making it safer to cycle on main roads would be good for cyclists and drivers

Page 8: Discussion Topic 4: Waste Minimisation

Q13 Do you think it is important for Council to develop a Waste Minimisation Action Plan? **Yes**

Q14 Do you support any of the waste minimisation ideas proposed (as detailed on page 6 of the Consultation Document)? Tick all that you support otherwise leave all blank

Moving to a more user pays model, i.e. increasing the cost of council rubbish bags
,

Providing recycling station in urban areas,

Encouraging food composting

Q15 Do you have any other comments you would like to make on the proposed ideas above or any other ideas about what Council could do to help the district send less waste to landfill?

Would be great if councils provided a bin as this would reduce animals getting into the bags and reduce plastic. But maybe with limited collections to try and get people to reduce amount they are putting in their bins.

Q9 Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

Wholly support it. The population of SW is growing and a sports hub will provide space for a growing number of kids to play in a safe and healthy environment. Sports and recreation is important for the physical and mental health of people of all ages. The whole population will benefit from modern and well thought out facilities that can cater for multiple codes.

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9 Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

I do support keeping the green spaces that are the bowling and rugby club. They are irreplaceable, once they are gone - they are gone forever. Sure, we could have a space somewhere else but these have an important history, not only in Greytown and generations of local Wairarapa families, but as part of New Zealand history. The Rugby club is the epitome of Kiwi grassroots rugby from the past and it continues to instill it in children and adults today in 2020. There's plenty of subdivisions here which is great but lets preserve these two little spaces which are of far more value to the community! They are an asset and what makes Greytown special is it's history, not to mention green spaces , the huge trees and nature. If we lose these things, we're just another town making a mistake, losing irreplaceable spaces - getting out with the old and in with a handful of new houses?!... From a young local family with a 6 year old that loves his club, where his uncle, cousins and friends play.

Q1 Do you agree that the water supply should be Council's main focus next year? **No**

Q2 Do you think it's important for Council to develop a Water Conservation Action Plan? **Yes**

Q3 Do you support any of the proposed water resilience actions (as detailed on page 3 of the Consultation Document)? Tick all that you support otherwise leave all blank

Offering subsidised water tanks, at cost, paid back over a period of time

,

Requiring new builds to have their own water storage solution

,

Installing smart meters to monitor water consumption and leaks

Q4 Do you have any other comments you would like to make on the actions proposed above or have any other ideas for the Action Plan?

No

Page 3: Discussion Topic 2A: Continue extended hours for swimming pools

Q5 Do you agree that we should continue to trial extended swimming pool hours next summer (i.e. longer hours in evenings and on weekends)? Current year's opening hours are available here <https://www.swdc.govt.nz/swimming-pools>. **Yes**

Q6 Why is this?

To provide recreational opportunities for as many people as possible.

Page 4: Discussion Topic 2B: Greytown Sports and Recreation Hub

Q7 Do you think that the Council should provide more space for sports and recreation in Greytown? **Yes**

Q8 Do you support funding for the Greytown Sports and Recreation Hub proposal (as detailed on page 4 of the Consultation Document)? **Yes**

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9 Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

It is an inequitable situation at the moment as the residents of both Featherston and Martinborough have a lot more recreational space per head of population compared with Greytown residents; and Greytown is growing at a faster rate than these other 2 towns. Where is sport going to take place in the town if the recreation hub does not proceed? We need to bite the bullet and get on with it. One of the areas of land, the ground in East Street, is an historic green area and the town can ill afford to lose it. At the moment it is very under used and a lot more could be done with it (it's a "blank canvas" in it's present state).

Page 6: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q10 As you selected 'Partial' because you support funding for parts of the proposal, but not all, tick all the parts that you support **Respondent skipped this question**

Page 7: Discussion Topic 3: Land Transport

Q12 What do you think about Council's proposals for land transport (page 5 of the Consultation Document)? Should we be doing more to promote walking and cycling in the district?

There's a lot going on already e.g. Greytown Railtrail extension. Non residents tend to use these more than locals. The Sports hub is more important.

Page 8: Discussion Topic 4: Waste Minimisation

Q13 Do you think it is important for Council to develop a Waste Minimisation Action Plan? **Yes**

Q14 Do you support any of the waste minimisation ideas proposed (as detailed on page 6 of the Consultation Document)? Tick all that you support otherwise leave all blank

Providing recycling station in urban areas,
Encouraging food composting,
Reducing the availability of Council agendas and papers at meetings

Q15 Do you have any other comments you would like to make on the proposed ideas above or any other ideas about what Council could do to help the district send less waste to landfill?

Have a day when residents can put things that they don't want out on the roadside so that others can take them away and use them.

Page 9: Discussion Topic 5: Building Capability

Q16 What do you think about Council's proposal to build the organisation's capability and improve delivery of services?

As long as it doesn't result in the employment of even more staff.

Page 10: Other Feedback

Q6 Why is this?

It takes pressure of our rivers for swimming and associated rubbish and toilet facilities, and it's good for the community in terms of exercise during summer and natural cooling during hot days

 Page 4: Discussion Topic 2B: Greytown Sports and Recreation Hub

Q7 Do you think that the Council should provide more space for sports and recreation in Greytown? **No**

Q8 Do you support funding for the Greytown Sports and Recreation Hub proposal (as detailed on page 4 of the Consultation Document)? **No**

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9 Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

Main issue appears to be to find homes for the Greytown Rugby and Bowling Clubs, who are forced to pay commercial rates by Greytown Trust lands Trust, for the land they have used since the beginning of their existence.

This is totally unrelated to the Sports Hub. Kuranui College already gets money from MOE for a gym to new MOE guidelines. Based on current usage of similar facilities in the district, there does not appear the need for a new facility, despite what the feasibility report says. Also why should ratepayers pay towards MOE property. We'd better re-evaluate in a few years if indoor sports can be facilitated in an upgraded, SWDC owned, South Wairarapa Stadium in Featherston, where in the past sports were played by teams from all around the district.

Page 6: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q11 Why is this? **Respondent skipped this question**

Page 7: Discussion Topic 3: Land Transport

Q12 What do you think about Council's proposals for land transport (page 5 of the Consultation Document)? Should we be doing more to promote walking and cycling in the district?

Yes, but in a way that all transports is considered.

Would be really great if safe cycle paths could be created to reach schools, so kids can cycle or walk to school.

Also would be great to encourage people walking to and from shopping areas by creating parking areas around the peripheries of these, and reducing parking in the shopping street itself. This would allow for cyclepaths and more landscaping in the main street and slow motorised traffic down

Page 8: Discussion Topic 4: Waste Minimisation

Q13 Do you think it is important for Council to develop a Waste Minimisation Action Plan? **Yes**

Q14 Do you support any of the waste minimisation ideas proposed (as detailed on page 6 of the Consultation Document)? Tick all that you support otherwise leave all blank

**Providing recycling station in urban areas,
Encouraging food composting**

Q15 Do you have any other comments you would like to make on the proposed ideas above or any other ideas about what Council could do to help the district send less waste to landfill?

Respondent skipped this question

Page 9: Discussion Topic 5: Building Capability

Q16 What do you think about Council's proposal to build the organisation's capability and improve delivery of services?

All for efficiencies, as long as its not at the expense of ratepayers and level of services

Page 10: Other Feedback

Q17 Do you have any other feedback for the Annual Plan 2020/21?

With a recession looming and potentially much higher unemployment and private investment, focus on essential services; water, sewerage, and roading. Not the time for 'nice to have projects' like the Greytown Sports Hub, particularly since we have a stadium in the South Wairarapa already which can be developed without the time pressures associated with the proposed Greytown hub.

Q8 Do you support funding for the Greytown Sports and Recreation Hub proposal (as detailed on page 4 of the Consultation Document)? **Yes**

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9 Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

The existing Rugby club (for example)is a cultural,historical and practical part of this community. It has provided the community with a social ,sporting,educational and introduction network for over 100 yrs. It totally represents an amazing essence and culture that is uniquely Greytown....not to mention the need for these green spaces to be retained...For the next generation to thrive on...It's hard enough nowadays to get young people out and playing sport...Let alone if these venues are destroyed. This must remain the green healthy friendly society Greytown is known for.. Without these clubs and networks Greytown will loose apart of its natural charm and appeal...Besides..Our neighboring towns have these spaces owned and managed by the SWDC...So should Greytown.

Q2 Do you think it's important for Council to develop a Water Conservation Action Plan? **Yes**

Q3 Do you support any of the proposed water resilience actions (as detailed on page 3 of the Consultation Document)? Tick all that you support otherwise leave all blank

Reducing the water allowance per property,
Offering subsidised water tanks, at cost, paid back over a period of time
 ,
Requiring new builds to have their own water storage solution

Q4 Do you have any other comments you would like to make on the actions proposed above or have any other ideas for the Action Plan? **Respondent skipped this question**

 Page 3: Discussion Topic 2A: Continue extended hours for swimming pools

Q5 Do you agree that we should continue to trial extended swimming pool hours next summer (i.e. longer hours in evenings and on weekends)? Current year's opening hours are available here <https://www.swdc.govt.nz/swimming-pools>. **Yes**

Q6 Why is this?

Our local pools are an asset to the Wairarapa. They should also have free entry like Carterton. The more exercise locals get, the better.

 Page 4: Discussion Topic 2B: Greytown Sports and Recreation Hub

Q7 Do you think that the Council should provide more space for sports and recreation in Greytown? **Yes**

Page 6: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q10 As you selected 'Partial' because you support funding for parts of the proposal, but not all, tick all the parts that you support

Contribution to the Kuranui College gymnasium replacement

Purchase of the Rugby Club land,

Purchase of the Bowling Club land

Q11 Why is this?

Because Kuranui needs help with new gym and the rugby and bowling clubs have been shafted by Trustlands Trust. If the council didn't step in, Greytown would lose valuable green space as these clubs would be financially unsustainable.

Q6 Why is this?

Its a great community service that is appreciated by a lot of people- particularly the younger ones

Page 4: Discussion Topic 2B: Greytown Sports and Recreation Hub

Q7 Do you think that the Council should provide more space for sports and recreation in Greytown? **Yes**

Q8 Do you support funding for the Greytown Sports and Recreation Hub proposal (as detailed on page 4 of the Consultation Document)? **Yes**

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9 Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

All sport in Greytown is at risk if grounds are not secured for the future. This will have a major impact on both junior and senior sports meaning it will be very difficult of kids football and rugby to go ahead and well as adults sports. This will have major flow impacts to the whole region and put further pressure on the facilities in the rest of the region. The new proposal not only resovles these issues but provides a great opportunity to provide an excellent community asset for the future

Page 6: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q10 As you selected 'Partial' because you support funding for parts of the proposal, but not all, tick all the parts that you support **Respondent skipped this question**

Q11 Why is this? **Respondent skipped this question**

Page 7: Discussion Topic 3: Land Transport

Q12 What do you think about Council's proposals for land transport (page 5 of the Consultation Document)? Should we be doing more to promote walking and cycling in the district?

No, the region is large and geographically dispersed for walking and cycling to be practicle

Page 8: Discussion Topic 4: Waste Minimisation

Q13 Do you think it is important for Council to develop a Waste Minimisation Action Plan? **No**

Q14 Do you support any of the waste minimisation ideas proposed (as detailed on page 6 of the Consultation Document)? Tick all that you support otherwise leave all blank **Respondent skipped this question**

Q15 Do you have any other comments you would like to make on the proposed ideas above or any other ideas about what Council could do to help the district send less waste to landfill? **Respondent skipped this question**

Q8 Do you support funding for the Greytown Sports and Recreation Hub proposal (as detailed on page 4 of the Consultation Document)? **Yes**

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9 Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

Two of our sporting Clubs, Bowls and Rugby have been in existence for more than a century.

It is appalling that actions by the Lands Board Trust in no longer funding the grants made to these Organisations in mitigation of rent charged could see the demise of both Clubs.

Greytown's green and recreational space is below that of it's

neighbouring towns. Council's purchasing of the land (Bowls & Rugby) would address that issue and also secure the future of those Clubs, which do exist for the benefit of the Community in general.

Q3 Do you support any of the proposed water resilience actions (as detailed on page 3 of the Consultation Document)? Tick all that you support otherwise leave all blank

Reducing the water allowance per property,
Offering subsidised water tanks, at cost, paid back over a period of time
 ,
Requiring new builds to have their own water storage solution

Q4 Do you have any other comments you would like to make on the actions proposed above or have any other ideas for the Action Plan?

No

Page 3: Discussion Topic 2A: Continue extended hours for swimming pools

Q5 Do you agree that we should continue to trial extended swimming pool hours next summer (i.e. longer hours in evenings and on weekends)? Current year's opening hours are available here <https://www.swdc.govt.nz/swimming-pools>. **Yes**

Q6 Why is this?

To ensure good data is collated to allow an informed decision on any permanent changes to hours

Page 4: Discussion Topic 2B: Greytown Sports and Recreation Hub

Q7 Do you think that the Council should provide more space for sports and recreation in Greytown? **Yes**

Q8 Do you support funding for the Greytown Sports and Recreation Hub proposal (as detailed on page 4 of the Consultation Document)? **Yes**

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9 Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

I think this will be a valuable and much needed asset for our growing community. A shared facility will allow economies of scale for sports clubs as well as providing a central location for the community to gather. Hopefully user sports clubs will also contribute to the running costs and maintenance of the facilities as they do now for facilities at Soldiers Memorial Park.

Page 6: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q11 Why is this? **Respondent skipped this question**

Page 7: Discussion Topic 3: Land Transport

Q12 What do you think about Council's proposals for land transport (page 5 of the Consultation Document)? Should we be doing more to promote walking and cycling in the district?

My assumption is that these trails will run between or outside our towns rather than within them. Therefore are more likely to be for recreational purposes rather than "transport" so I can't see them reducing car use. However they will provide another great recreational option and perhaps tourism benefits which would be great for the region, so I'm in favour.

Page 8: Discussion Topic 4: Waste Minimisation

Q13 Do you think it is important for Council to develop a Waste Minimisation Action Plan? **Yes**

Q14 Do you support any of the waste minimisation ideas proposed (as detailed on page 6 of the Consultation Document)? Tick all that you support otherwise leave all blank

Moving to a more user pays model, i.e. increasing the cost of council rubbish bags

Providing recycling station in urban areas,

Encouraging food composting,

Reducing the availability of Council agendas and papers at meetings

Q15 Do you have any other comments you would like to make on the proposed ideas above or any other ideas about what Council could do to help the district send less waste to landfill?

I would prefer increasing rubbish bag costs to encourage people to change their habits. Providing wheelie bins costs all ratepayers, not targeted users, so does nothing to encourage a change of habit.

Page 9: Discussion Topic 5: Building Capability

Q16 What do you think about Council's proposal to build the organisation's capability and improve delivery of services?

Investment in efficient systems and in good people will create efficiency and save money in the longer term so I'm in favour

Q8 Do you support funding for the Greytown Sports and Recreation Hub proposal (as detailed on page 4 of the Consultation Document)? **Yes**

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9 Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

I support wholeheartedly as Greytown needs the space for recreation and there is very little other green space available in the town. Sport (adults and kids) is essential to any thriving community and Greytown is no different. A sports and recreation hub in a central location will benefit generations to come.

Q1 Do you agree that the water supply should be Council's main focus next year?

Respondent skipped this question

Q2 Do you think it's important for Council to develop a Water Conservation Action Plan?

No

Q3 Do you support any of the proposed water resilience actions (as detailed on page 3 of the Consultation Document)? Tick all that you support otherwise leave all blank

Requiring new builds to have their own water storage solution

Q4 Do you have any other comments you would like to make on the actions proposed above or have any other ideas for the Action Plan?

Remove all willow trees from river banks, as the volume of water they drink is massive. Their rotting leaves and debris also cause pollution to the waterways.

Page 3: Discussion Topic 2A: Continue extended hours for swimming pools

Q5 Do you agree that we should continue to trial extended swimming pool hours next summer (i.e. longer hours in evenings and on weekends)? Current year's opening hours are available here <https://www.swdc.govt.nz/swimming-pools>.

Yes

Q6 Why is this?

Because it keeps people, especially the children, occupied and active. Open earlier in the season, as when I was growing up in Greytown the pools opened at Labour weekend without fail. Also earlier in the weekends, especially from a December onwards.

Page 4: Discussion Topic 2B: Greytown Sports and Recreation Hub

Q7 Do you think that the Council should provide more space for sports and recreation in Greytown?

Yes

Q8 Do you support funding for the Greytown Sports and Recreation Hub proposal (as detailed on page 4 of the Consultation Document)? **Yes**

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9 Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

It's our future and sport is great for both mind and body. Greytown rugby grounds need to be keep due to location and great lack of replacement land in such a great location.

Page 6: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q10 As you selected 'Partial' because you support funding for parts of the proposal, but not all, tick all the parts that you support **Respondent skipped this question**

Q11 Why is this? **Respondent skipped this question**

Page 7: Discussion Topic 3: Land Transport

Q12 What do you think about Council's proposals for land transport (page 5 of the Consultation Document)? Should we be doing more to promote walking and cycling in the district?

No, it's a waste of money, as there is plenty of opportunity out there now and if people want to bike or walk then they can think for themselves and just do it. Money should be put into sports grounds and team sports that are struggling.

Page 8: Discussion Topic 4: Waste Minimisation

Q13 Do you think it is important for Council to develop a Waste Minimisation Action Plan? **Yes**

Q14 Do you support any of the waste minimisation ideas proposed (as detailed on page 6 of the Consultation Document)? Tick all that you support otherwise leave all blank

Providing a wheelie bin for general rubbish, paid for through rates

Providing recycling station in urban areas

Q15 Do you have any other comments you would like to make on the proposed ideas above or any other ideas about what Council could do to help the district send less waste to landfill?

Personally I think NZ needs to look into rubbish burning power stations. The thought of all that rubbish getting dumped in a hillside to leach, or at least risk leaching, into our water system is terrible.

Page 9: Discussion Topic 5: Building Capability

Q16 What do you think about Council's proposal to build the organisation's capability and improve delivery of services?

Great.... this councils people skills are down right disgusting and the consent process to get anything done is the worst in the country sort it out.

Page 10: Other Feedback

Q17 Do you have any other feedback for the Annual Plan 2020/21?

Contractors doing work for council contracts should be held accountable for work quality, especially roaring contractors. Also when contracts are given out, price should not be of highest priority, quality workmanship should be. Also large nation wide companies should be over looked, and truely local Wairarapa companies should be given priority, so as profits stay in the Wairarapa rather than going to the likes of Auckland or even overseas.

Q9 Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

I absolutely support the Greytown Sports and Recreation Hub proposal. This town would not be the same without the Current grounds, both Rugby and Bowls facilities and we need to provide these for the current and future generations. They are both community institutions and we cannot lose them to development.

 Page 2: Discussion Topic 1: Water Supply and Water Resilience

Q1 Do you agree that the water supply should be Council's main focus next year? **Yes**

Q2 Do you think it's important for Council to develop a Water Conservation Action Plan? **Yes**

Q3 Do you support any of the proposed water resilience actions (as detailed on page 3 of the Consultation Document)? Tick all that you support otherwise leave all blank

Offering subsidised water tanks, at cost, paid back over a period of time
,

Installing smart meters to monitor water consumption and leaks

Q4 Do you have any other comments you would like to make on the actions proposed above or have any other ideas for the Action Plan? **Respondent skipped this question**

Page 3: Discussion Topic 2A: Continue extended hours for swimming pools

Q5 Do you agree that we should continue to trial extended swimming pool hours next summer (i.e. longer hours in evenings and on weekends)? Current year's opening hours are available here <https://www.swdc.govt.nz/swimming-pools>. **Yes**

Q6 Why is this?

With the increasing warmer weather, provide wider opportunity for families to access the pools

Page 4: Discussion Topic 2B: Greytown Sports and Recreation Hub

Q7 Do you think that the Council should provide more space for sports and recreation in Greytown? **Yes**

Q8 Do you support funding for the Greytown Sports and Recreation Hub proposal (as detailed on page 4 of the Consultation Document)? **Yes**

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9 Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

It is important that as much sport and recreation area as possible is retained in Greytown. As a resident of Greytown for over 30 years I have seen the face of the town change. Mostly for the positive. But it is important to get the balance right. There is a need to encourage sport and recreation and you can't do that if you have got rid of all your greenspace.

Page 6: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q10 As you selected 'Partial' because you support funding for parts of the proposal, but not all, tick all the parts that you support **Respondent skipped this question**

Q11 Why is this? **Respondent skipped this question**

Page 7: Discussion Topic 3: Land Transport

Q12 What do you think about Council's proposals for land transport (page 5 of the Consultation Document)? Should we be doing more to promote walking and cycling in the district? **Respondent skipped this question**

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9 Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

If the trust sells the current East Street land to property developers then this will make it extremely difficult for Greytown rugby to survive. This cannot happen and needs SWDC support to prevent this.

Page 6: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q4 Do you have any other comments you would like to make on the actions proposed above or have any other ideas for the Action Plan?

The main point of a Water Meter is to reduce consumption! Why not charge per cu meter used and remove the "Water Rate/350cu meter use age"? That way people will only use what they need and not think to use the 350cu meters??

Page 3: Discussion Topic 2A: Continue extended hours for swimming pools

Q6 Why is this?

Encourage locals to use the town pool rather than install their own.

Make it available to people who can't access the pool during normal working hours

Page 4: Discussion Topic 2B: Greytown Sports and Recreation Hub

Q7 Do you think that the Council should provide more space for sports and recreation in Greytown? **Yes**

Q8 Do you support funding for the Greytown Sports and Recreation Hub proposal (as detailed on page 4 of the Consultation Document)? **Yes**

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9 Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

I have moved here from Wellington and Kapiti Coast. During COVID-19 lockdown it has been really clear that there is almost nowhere to go off roads for sport or recreation. We need to ensure that we keep the few spaces that we have and work to extend shared spaces

Page 6: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q11 Why is this? **Respondent skipped this question**

Page 7: Discussion Topic 3: Land Transport

Q12 What do you think about Council's proposals for land transport (page 5 of the Consultation Document)? Should we be doing more to promote walking and cycling in the district?

The council should definitely be doing more to promote walking and cycling. There are very limited off-road walks close to the towns. There are no dog bins provided in Greytown for the numerous dog walkers. And there is no way to get between towns without driving. I would love to see the development of a cycleway between Featherston and Masterton to make it safer and more enjoyable to get between towns. The amount of people on the Kapiti Coast utilising the new cycleway is a great example

Page 8: Discussion Topic 4: Waste Minimisation

Q13 Do you think it is important for Council to develop a Waste Minimisation Action Plan? **Yes**

Q14 Do you support any of the waste minimisation ideas proposed (as detailed on page 6 of the Consultation Document)? Tick all that you support otherwise leave all blank

Providing a wheelie bin for general rubbish, paid for through rates

,

Providing recycling station in urban areas,

Encouraging food composting,

Reducing the availability of Council agendas and papers at meetings

Q15 Do you have any other comments you would like to make on the proposed ideas above or any other ideas about what Council could do to help the district send less waste to landfill?

A lot of the waste issue is the fault of our supermarkets. It there was more incentive for them to reduce packaging there would be less waste

Page 9: Discussion Topic 5: Building Capability

Q16 What do you think about Council's proposal to build the organisation's capability and improve delivery of services?

Good

Greytown does not need a sports hub!!!!!!

 Page 3: Discussion Topic 2A: Continue extended hours for swimming pools

Q5 Do you agree that we should continue to trial extended swimming pool hours next summer (i.e. longer hours in evenings and on weekends)? Current year's opening hours are available here <https://www.swdc.govt.nz/swimming-pools>. **Yes**

Q6 Why is this?

Gives young people something to do

 Page 4: Discussion Topic 2B: Greytown Sports and Recreation Hub

Q7 Do you think that the Council should provide more space for sports and recreation in Greytown? **No**

Q8 Do you support funding for the Greytown Sports and Recreation Hub proposal (as detailed on page 4 of the Consultation Document)? **No**

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9 Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal
Kuranui has ample sports ground therefore utilise them

Page 6: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q10 As you selected 'Partial' because you support funding for parts of the proposal, but not all, tick all the parts that you support **Respondent skipped this question**

Q11 Why is this? **Respondent skipped this question**

Page 7: Discussion Topic 3: Land Transport

Q12 What do you think about Council's proposals for land transport (page 5 of the Consultation Document)? Should we be doing more to promote walking and cycling in the district? **Respondent skipped this question**

Page 8: Discussion Topic 4: Waste Minimisation

Q13 Do you think it is important for Council to develop a Waste Minimisation Action Plan? **Yes**

Q14 Do you support any of the waste minimisation ideas proposed (as detailed on page 6 of the Consultation Document)? Tick all that you support otherwise leave all blank **Encouraging food composting**

Q15 Do you have any other comments you would like to make on the proposed ideas above or any other ideas about what Council could do to help the district send less waste to landfill? **Respondent skipped this question**

Page 9: Discussion Topic 5: Building Capability

Q16 What do you think about Council's proposal to build the organisation's capability and improve delivery of services? **Respondent skipped this question**

Page 10: Other Feedback

Q17 Do you have any other feedback for the Annual Plan 2020/21?

Utilise what kuranui have and or utilise what Featherston have to offer! Featherston is always getting the leftovers and overlooked

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9 Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

Land needs to be acquired for sport and recreation as there is large population growth and not enough sports facilities for the population. There are already enough residential developments in the town without any more.
Facilities will not service the growing population.

 Page 3: Discussion Topic 2A: Continue extended hours for swimming pools

Q5 Do you agree that we should continue to trial extended swimming pool hours next summer (i.e. longer hours in evenings and on weekends)? Current year's opening hours are available here <https://www.swdc.govt.nz/swimming-pools>. **Yes**

Q6 Why is this?

Shows good community focus, additionally it has been forecast that extended periods of intense temperature and extended dry periods are expected. Having extended hours will ensure families have greater access to those facilities in such events

 Page 4: Discussion Topic 2B: Greytown Sports and Recreation Hub

Q7 Do you think that the Council should provide more space for sports and recreation in Greytown? **Yes**

Q8 Do you support funding for the Greytown Sports and Recreation Hub proposal (as detailed on page 4 of the Consultation Document)? **Partial**

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Page 6: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q10 As you selected 'Partial' because you support funding for parts of the proposal, but not all, tick all the parts that you support **Contribution to the Kuranui College gymnasium replacement**

Q11 Why is this?

Ensures variety and options for younger generation.

Page 7: Discussion Topic 3: Land Transport

Q12 What do you think about Council's proposals for land transport (page 5 of the Consultation Document)? Should we be doing more to promote walking and cycling in the district?

I don't think so, the question should be what are the main commuter routes and would cycling and walking be a realistic option. However having cycling routes and designated walking track are very worthy investments to provide recreational options. Especially if you consider its another attraction to appeal to encourage greater visitors to the region

Page 8: Discussion Topic 4: Waste Minimisation

Q13 Do you think it is important for Council to develop a Waste Minimisation Action Plan? **Yes**

Q14 Do you support any of the waste minimisation ideas proposed (as detailed on page 6 of the Consultation Document)? Tick all that you support otherwise leave all blank

- Providing a wheelie bin for general rubbish, paid for through rates**
- Providing recycling station in urban areas,**
- Encouraging food composting,**
- Reducing the availability of Council agendas and papers at meetings**

Q15 Do you have any other comments you would like to make on the proposed ideas above or any other ideas about what Council could do to help the district send less waste to landfill?

Greater education and ease for being able to recycle

Page 9: Discussion Topic 5: Building Capability

Q16 What do you think about Council's proposal to build the organisation's capability and improve delivery of services?

I think its a good thing, more positive interaction by council in spaces like this are important, and build community confidence

Page 10: Other Feedback

Q17 Do you have any other feedback for the Annual Plan 2020/21?

I would like to see environmental action on the agenda. Recent subdivision lack of any foresight to greening and increasing canopy coverage so question of sustainability, things need to change but difficult to see any if the same processes are being followed, greater leadership is required in this area.

Q3 Do you support any of the proposed water resilience actions (as detailed on page 3 of the Consultation Document)? Tick all that you support otherwise leave all blank

Offering subsidised water tanks, at cost, paid back over a period of time

Installing smart meters to monitor water consumption and leaks

Q4 Do you have any other comments you would like to make on the actions proposed above or have any other ideas for the Action Plan?

For the region to have a reservoir and share this facility with the whole region (Carterton & Masterton)

Page 3: Discussion Topic 2A: Continue extended hours for swimming pools

Q5 Do you agree that we should continue to trial extended swimming pool hours next summer (i.e. longer hours in evenings and on weekends)? Current year's opening hours are available here <https://www.swdc.govt.nz/swimming-pools>. **Yes**

Q6 Why is this?

Allow workers to take their children after work.

Page 4: Discussion Topic 2B: Greytown Sports and Recreation Hub

Q7 Do you think that the Council should provide more space for sports and recreation in Greytown? **Yes**

Q8 Do you support funding for the Greytown Sports and Recreation Hub proposal (as detailed on page 4 of the Consultation Document)? **Yes**

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9 Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

There should be a community hub for sport. Greytown is a growing area with young families and there needs to be a long term plan in place.

Page 6: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q10 As you selected 'Partial' because you support funding for parts of the proposal, but not all, tick all the parts that you support **Respondent skipped this question**

Q11 Why is this? **Respondent skipped this question**

Page 7: Discussion Topic 3: Land Transport

Q12 What do you think about Council's proposals for land transport (page 5 of the Consultation Document)? Should we be doing more to promote walking and cycling in the district?

Definitely. There should be tracks and walk ways through farm land. There isn't sufficient walkways around the region. There's only 1 walk way in Greytown which is great but there's only a certain number of times you can use or before it becomes mind numbing. Having tracks through the district and connecting up would encourage exercise and increase spending within the region.

Page 8: Discussion Topic 4: Waste Minimisation

Q13 Do you think it is important for Council to develop a Waste Minimisation Action Plan? **Yes**

Q14 Do you support any of the waste minimisation ideas proposed (as detailed on page 6 of the Consultation Document)? Tick all that you support otherwise leave all blank

Moving to a more user pays model, i.e. increasing the cost of council rubbish bags
Providing recycling station in urban areas,
Reducing the availability of Council agendas and papers at meetings

Q15 Do you have any other comments you would like to make on the proposed ideas above or any other ideas about what Council could do to help the district send less waste to landfill?

Respondent skipped this question

Page 9: Discussion Topic 5: Building Capability

Q16 What do you think about Council's proposal to build the organisation's capability and improve delivery of services?

Agree with their principles

Page 10: Other Feedback

Q17 Do you have any other feedback for the Annual Plan 2020/21?

Think long term. Don't create initiatives that look great now but are not relevant in 3 years time. Build a plan that will leave a legacy for the next generation.

 Page 2: Discussion Topic 1: Water Supply and Water Resilience

Q1 Do you agree that the water supply should be Council's main focus next year? **Yes**

Q2 Do you think it's important for Council to develop a Water Conservation Action Plan? **Yes**

Q3 Do you support any of the proposed water resilience actions (as detailed on page 3 of the Consultation Document)? Tick all that you support otherwise leave all blank

Reducing the water allowance per property,
Offering subsidised water tanks, at cost, paid back over a period of time
 ,
Requiring new builds to have their own water storage solution
 ,
Installing smart meters to monitor water consumption and leaks

Q4 Do you have any other comments you would like to make on the actions proposed above or have any other ideas for the Action Plan?

On hot summer days i see water races and are amazed they're still in use. Inefficient dinosaurs. I also see spray irrigation going on whereby 90% of water is probably evaporating before it hits the ground. I am saddened when i see the river running well out of the hills and then stagnant by SH2 and SH53 bridges. Farmers need to adapt to the changing climate and greater demand on water usage.

 Page 3: Discussion Topic 2A: Continue extended hours for swimming pools

Q5 Do you agree that we should continue to trial extended swimming pool hours next summer (i.e. longer hours in evenings and on weekends)? Current year's opening hours are available here <https://www.swdc.govt.nz/swimming-pools>. **Yes**

Q6 Why is this?

It's a much needed social focal point. Especially for younger people. The featherston pool needs an upgrade. At present it looks like an equine washing facility

Page 4: Discussion Topic 2B: Greytown Sports and Recreation Hub

Q7 Do you think that the Council should provide more space for sports and recreation in Greytown? **No**

Q8 Do you support funding for the Greytown Sports and Recreation Hub proposal (as detailed on page 4 of the Consultation Document)? **Partial**

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9 Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal **Respondent skipped this question**

Page 6: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q10 As you selected 'Partial' because you support funding for parts of the proposal, but not all, tick all the parts that you support **Contribution to the Kuranui College gymnasium replacement**

Q11 Why is this?

I think bowling club land is prime real estate and would cost too much. If you look at most models around New Zealand sporting hubs are located on fringes, not CBDs

Page 7: Discussion Topic 3: Land Transport

Q12 What do you think about Council's proposals for land transport (page 5 of the Consultation Document)? Should we be doing more to promote walking and cycling in the district?

#1 road maintenance on Bucks rd is poor. I challenge anyone to find a busier metal rd in the summer months. The campsite is advertised on various sites including being named on camper website as one of top ten best kept secrets in nz. Yet is serviced by one of worst roads in district. Perhaps rd surveys could be conducted over summer peak days and not just mid week in winter.

#2 the tree removal around fstn in past 12 months has been alarming. We had a 40 Year old kanuka dropped on our fenceline with no consultation. This provided shade for parked car on hot summer days and could have been topped and still served its purpose. Also indiscriminate tordon spraying on our property including ten metres into a paddock with horses in it. Treescape workers wearing nil ppe. Wild west stuff.

Page 8: Discussion Topic 4: Waste Minimisation

Q13 Do you think it is important for Council to develop a Waste Minimisation Action Plan? **Yes**

Q14 Do you support any of the waste minimisation ideas proposed (as detailed on page 6 of the Consultation Document)? Tick all that you support otherwise leave all blank

Moving to a more user pays model, i.e. increasing the cost of council rubbish bags

Encouraging food composting,

Reducing the availability of Council agendas and papers at meetings

Q15 Do you have any other comments you would like to make on the proposed ideas above or any other ideas about what Council could do to help the district send less waste to landfill?

I think there needs to be a receptacle for yellow rubbish bags at recycling centre that can be dropped off on a designated day. Perhaps change day from thurs to fri for recycling centre and rubbish truck makes pickup part of their round. Expecting rural residents to drive 60km to drop off one bag is untenable.

You should talk to UHCC in regards to fly tipping at their recycling centre

Page 9: Discussion Topic 5: Building Capability

Q16 What do you think about Council's proposal to build the organisation's capability and improve delivery of services?

I assume by 'council accommodation' you mean community housing? It could read as accommodation for councillors(hotels) or council staff.

Page 10: Other Feedback

Q17 Do you have any other feedback for the Annual Plan 2020/21?

Could be more effort put into community event. Outdoor concert or fairs in summer season. A family friendly event in park after christmas parade or something.

Q5 Do you agree that we should continue to trial extended swimming pool hours next summer (i.e. longer hours in evenings and on weekends)? Current year's opening hours are available here <https://www.swdc.govt.nz/swimming-pools>. **Yes**

Q6 Why is this?

These facilities are part of the community and they enable the community to come together. They also provide good health options for all age groups.

Page 4: Discussion Topic 2B: Greytown Sports and Recreation Hub

Q7 Do you think that the Council should provide more space for sports and recreation in Greytown? **Yes**

Q8 Do you support funding for the Greytown Sports and Recreation Hub proposal (as detailed on page 4 of the Consultation Document)? **Yes**

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9 Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

These facilities are about community and need to be available for health and social purposes. There is currently too much domestic development in Greytown, and we need more community based thinking. Future domestic development should be closer to Woodside where the land is less usable for orchards, market gardens, etc. We are currently destroying food production for house production; which is just stupid.

Page 6: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q10 As you selected 'Partial' because you support funding for parts of the proposal, but not all, tick all the parts that you support **Respondent skipped this question**

Q11 Why is this? **Respondent skipped this question**

Page 7: Discussion Topic 3: Land Transport

Q12 What do you think about Council's proposals for land transport (page 5 of the Consultation Document)? Should we be doing more to promote walking and cycling in the district?

Our roads are dreadful and need to be better. SH2 is in completely the wrong place, it should be shifted east to bypass all the domestic areas in the Wairarapa and become a real highway.

The constant rumble of logging trucks can be heard on SH2 from the early hours of the morning, and it continues throughout the day. SH2 was never designed for this.

Ambulances and other emergency vehicles need to get between Masterton hospital and other parts of the Wairarapa constantly, yet our roads do not enable them to move around quickly and freely, there is simply too much traffic. Time for a rethink.

Page 8: Discussion Topic 4: Waste Minimisation

Q13 Do you think it is important for Council to develop a Waste Minimisation Action Plan? **Yes**

Q14 Do you support any of the waste minimisation ideas proposed (as detailed on page 6 of the Consultation Document)? Tick all that you support otherwise leave all blank

Providing a wheelie bin for general rubbish, paid for through rates
Providing recycling station in urban areas,
Encouraging food composting

Q15 Do you have any other comments you would like to make on the proposed ideas above or any other ideas about what Council could do to help the district send less waste to landfill?

The only real way to reduce waste, it to make the production of waste user pays. Add the cost of removing the waste to the purchase price of the product, don't add it at the end. Council can do this by increasing the rates charged to businesses, who can then pass it on to their customers, as it is unlikely central government would adopt this approach.

Page 9: Discussion Topic 5: Building Capability

Q16 What do you think about Council's proposal to build the organisation's capability and improve delivery of services?

Building capability is sensible. However, having worked half my 45 years in the public service, it is very easy for people in bureaucratic to think there is something "special" in the way they do things. This is generally not the case at all, and is more to do with limited vision and thinking.

So, building capability does not mean building new all the time. In fact in most cases there is always a tool or product out there, and sharing with others is often a more sensible and productive way of using funds.

Page 10: Other Feedback

Q17 Do you have any other feedback for the Annual Plan 2020/21?

Think different. Think about the next generations first.

In a post COVID19 world, people will eventually realise that cities built along traditional lines are failures. Especially in NZ where they are a seismic risk as well as pandemic risk. Eventually people will start to move over the hill at a greater and greater rate as space becomes important. Council needs a long term plan for managing this future growth.

Q5 Do you agree that we should continue to trial extended swimming pool hours next summer (i.e. longer hours in evenings and on weekends)? Current year's opening hours are available here <https://www.swdc.govt.nz/swimming-pools>. **Yes**

Q6 Why is this?

Many seniors prefer to exercise earlier in the morning when their energy levels are at peak.

Page 4: Discussion Topic 2B: Greytown Sports and Recreation Hub

Q7 Do you think that the Council should provide more space for sports and recreation in Greytown? **No**

Q8 Do you support funding for the Greytown Sports and Recreation Hub proposal (as detailed on page 4 of the Consultation Document)? **No**

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9 Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

Greytown already has a greater focus from the Council than Featherston. Ditto Martinborough. We do really need SWDC to take heed of Featherston's position as the gateway to the Wairarapa. If you invest in our little slice of paradise, people will want to come here, or linger here on their way through.

Page 6: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q10 As you selected 'Partial' because you support funding for parts of the proposal, but not all, tick all the parts that you support **Respondent skipped this question**

Q11 Why is this? **Respondent skipped this question**

Page 7: Discussion Topic 3: Land Transport

Q12 What do you think about Council's proposals for land transport (page 5 of the Consultation Document)? Should we be doing more to promote walking and cycling in the district?

More trains between the Wairarapa and Wellington are urgently needed. We have to make our region more accessible for Wellingtonians wanting a day in the country. Cycle- and walk-ways ought to be screened from road traffic, for safety.

Page 8: Discussion Topic 4: Waste Minimisation

Q13 Do you think it is important for Council to develop a Waste Minimisation Action Plan? **Yes**

Q14 Do you support any of the waste minimisation ideas proposed (as detailed on page 6 of the Consultation Document)? Tick all that you support otherwise leave all blank

Providing recycling station in urban areas,
Encouraging food composting,

Respondent skipped this question

Page 9: Discussion Topic 5: Building Capability

Q16 What do you think about Council's proposal to build the organisation's capability and improve delivery of services?

Fully in agreement of this. SWDC moves at a glacial rate at the moment.

Page 10: Other Feedback

Q17 Do you have any other feedback for the Annual Plan 2020/21?

The most important issue is the viability of public transport between the Wairarapa and Wellington. If we make it easier for people to be able to commute to work in the city, it might mean an influx of people, therefore capturing their rates and contribution to local economy.

Q9 Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

This would provide a valuable resource for all ages and cater for many different groups. It protects the greenspace that Greytown is known for and provides a gym for the college as well as protecting two much loved Greytown sports clubs. It will also provide new opportunities for different, currently unavailable, sporting and recreational activities to be offered in the area.

Respondent skipped this question

Q11 Why is this?

Respondent skipped this question

Page 7: Discussion Topic 3: Land Transport

Q12 What do you think about Council's proposals for land transport (page 5 of the Consultation Document)? Should we be doing more to promote walking and cycling in the district?

Walking and cycling promotion should be an essential and urgent focus. Having bike tracks and walking tracks will bring major financial benefits to the South Wairarapa. It not only encourages local people to get into the outdoors but it is a major attraction for visitors of all ages.

Page 8: Discussion Topic 4: Waste Minimisation

Q13 Do you think it is important for Council to develop a Waste Minimisation Action Plan?

Yes

Q14 Do you support any of the waste minimisation ideas proposed (as detailed on page 6 of the Consultation Document)? Tick all that you support otherwise leave all blank

Providing recycling station in urban areas,
Encouraging food composting,
Reducing the availability of Council agendas and papers at meetings

Q15 Do you have any other comments you would like to make on the proposed ideas above or any other ideas about what Council could do to help the district send less waste to landfill?

Respondent skipped this question

Q1 Do you agree that the water supply should be Council's main focus next year? **Yes**

Q2 Do you think it's important for Council to develop a Water Conservation Action Plan? **Yes**

Q3 Do you support any of the proposed water resilience actions (as detailed on page 3 of the Consultation Document)? Tick all that you support otherwise leave all blank **Installing smart meters to monitor water consumption and leaks**

Q4 Do you have any other comments you would like to make on the actions proposed above or have any other ideas for the Action Plan?

no

Page 3: Discussion Topic 2A: Continue extended hours for swimming pools

Q5 Do you agree that we should continue to trial extended swimming pool hours next summer (i.e. longer hours in evenings and on weekends)? Current year's opening hours are available here <https://www.swdc.govt.nz/swimming-pools>. **Yes**

Q6 Why is this?

Very warm summers

Page 4: Discussion Topic 2B: Greytown Sports and Recreation Hub

Q7 Do you think that the Council should provide more space for sports and recreation in Greytown? **Yes**

Q8 Do you support funding for the Greytown Sports and Recreation Hub proposal (as detailed on page 4 of the Consultation Document)? **Yes**

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9 Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal even though i am retired, i see the growth in population across the Wairarapa, and Greytown has an ideal opportunity. Well worth the investment.

Page 6: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q1 Do you agree that the water supply should be Council's main focus next year? **Yes**

Q2 Do you think it's important for Council to develop a Water Conservation Action Plan? **Yes**

Q3 Do you support any of the proposed water resilience actions (as detailed on page 3 of the Consultation Document)? Tick all that you support otherwise leave all blank

Reducing the water allowance per property,
Offering subsidised water tanks, at cost, paid back over a period of time
 ,
Requiring new builds to have their own water storage solution
 ,
Installing smart meters to monitor water consumption and leaks

Q4 Do you have any other comments you would like to make on the actions proposed above or have any other ideas for the Action Plan?

An observation. We had Wellington water dig up and "fix" the same leak outside our workplace late last year. I hop council is holding their contractors to account.

Also in the interest of transparency, a public disclosure of how council is getting on implementing the "suggested "improvements set out in the lutra report is probably past due.

 Page 3: Discussion Topic 2A: Continue extended hours for swimming pools

Q5 Do you agree that we should continue to trial extended swimming pool hours next summer (i.e. longer hours in evenings and on weekends)? Current year's opening hours are available here <https://www.swdc.govt.nz/swimming-pools>. **Yes**

Q6 Why is this?

Its good to try and maximize the use of existing amenities.
From what i heard it was well supported

Page 4: Discussion Topic 2B: Greytown Sports and Recreation Hub

Q7 Do you think that the Council should provide more space for sports and recreation in Greytown? **No**

Q8 Do you support funding for the Greytown Sports and Recreation Hub proposal (as detailed on page 4 of the Consultation Document)? **No**

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9 Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

In the current climate council spending should be focused on the must haves. Not the nice to have vanity projects that have littered martinborough and greytown in the past. To the detriment of core services like drinking water and collapsed waste water pipes

Page 6: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q10 As you selected 'Partial' because you support funding for parts of the proposal, but not all, tick all the parts that you support **Respondent skipped this question**

Q11 Why is this? **Respondent skipped this question**

Page 7: Discussion Topic 3: Land Transport

Q12 What do you think about Council's proposals for land transport (page 5 of the Consultation Document)? Should we be doing more to promote walking and cycling in the district?

Honestly the current covid situation has shown that tourism is a fickle beast. The money should be spent helping get new businesses into the region. Opening up land for commercial development . Or pressuring absent landlords to upgrade or relinquish derelict commercial properties

Page 8: Discussion Topic 4: Waste Minimisation

Q13 Do you think it is important for Council to develop a Waste Minimisation Action Plan? **Yes**

Q14 Do you support any of the waste minimisation ideas proposed (as detailed on page 6 of the Consultation Document)? Tick all that you support otherwise leave all blank

Providing recycling station in urban areas,
Encouraging food composting,
Reducing the availability of Council agendas and papers at meetings

Q15 Do you have any other comments you would like to make on the proposed ideas above or any other ideas about what Council could do to help the district send less waste to landfill?

Recycling...! The new system is convoluted and confusing. Along with the fact that people have lost confidence that it dosent all end up in the tip anyway.

Offer rates rebate to any company who can come up with a way to reduce their waste production...

Page 9: Discussion Topic 5: Building Capability

Q16 What do you think about Council's proposal to build the organisation's capability and improve delivery of services?

Respondent skipped this question

Page 10: Other Feedback

Q17 Do you have any other feedback for the Annual Plan 2020/21?

Water is an important resource. We need to make sure the stuff we drink is safe, that what is collected is not wasted because of poor or no maintenance of infrastructure. And that what is released back to nature is as clean and safe as possible.

Q10 As you selected 'Partial' because you support funding for parts of the proposal, but not all, tick all the parts that you support **Purchase of the Bowling Club land**

Q11 Why is this?

Rugby and Kuranui College are associated with businesses/govt agencies that should be providing assistance with facilities. The social construct of the SWD means that bowling is a major activity however it does not have access to organisational funds thus needs assistance from the wider community.

Page 7: Discussion Topic 3: Land Transport

Q12 What do you think about Council's proposals for land transport (page 5 of the Consultation Document)? Should we be doing more to promote walking and cycling in the district?

Current actions seem appropriate to encourage physical activity.

Page 8: Discussion Topic 4: Waste Minimisation

Q13 Do you think it is important for Council to develop a Waste Minimisation Action Plan? **Yes**

Q14 Do you support any of the waste minimisation ideas proposed (as detailed on page 6 of the Consultation Document)? Tick all that you support otherwise leave all blank

Moving to a more user pays model, i.e. increasing the cost of council rubbish bags

,

Providing a wheelie bin for general rubbish, paid for through rates

,

Providing recycling station in urban areas,

Encouraging food composting,

Reducing the availability of Council agendas and papers at meetings

Q15 Do you have any other comments you would like to make on the proposed ideas above or any other ideas about what Council could do to help the district send less waste to landfill?

Respondent skipped this question

Page 9: Discussion Topic 5: Building Capability

Q16 What do you think about Council's proposal to build the organisation's capability and improve delivery of services?

Council must focus on its outcomes, primarily delivering key infrastructure and its maintenance, and customer service. To achieve this, planning, implementation and review of the Community's objectives is required. Of course leadership and committed staff are essential.

Page 10: Other Feedback

Q17 Do you have any other feedback for the Annual Plan 2020/21?

Keep it simple and achievable.

Q5 Do you agree that we should continue to trial extended swimming pool hours next summer (i.e. longer hours in evenings and on weekends)? Current year's opening hours are available here <https://www.swdc.govt.nz/swimming-pools>. **Respondent skipped this question**

Q6 Why is this? **Respondent skipped this question**

 Page 4: Discussion Topic 2B: Greytown Sports and Recreation Hub

Q7 Do you think that the Council should provide more space for sports and recreation in Greytown? **Yes**

Q8 Do you support funding for the Greytown Sports and Recreation Hub proposal (as detailed on page 4 of the Consultation Document)? **Yes**

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9 Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

Vital for health and wellbeing and community spirit to have sports facilities and clubs thriving. This is especially true for a community that is growing. I think Kuranui is College is doing great things for their students but sports facilities are holding them back. The sports hub would be great for young people and hence the future.

Q9 Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

I support it because it is absolutely essential that we make the most of the green space opportunities that are available for the community as a whole. Timing is crucial and the opportunity cost of not acting expediently is too great to consider.

The nature of a multi-use facility and grounds at the heart of our community will have a positive flow-on effect for the health and well-being of a multitude of interest groups for years to come.

What a tremendously positive move.

The timing

Page 3: Discussion Topic 2A: Continue extended hours for swimming pools

Q5 Do you agree that we should continue to trial extended swimming pool hours next summer (i.e. longer hours in evenings and on weekends)? Current year's opening hours are available here <https://www.swdc.govt.nz/swimming-pools>. **Yes**

Q6 Why is this?

Swimming is an important activity for wellbeing. As many people are commuters increasing the time and encouraging whanau participation may take time but will produce good result long term.

Page 4: Discussion Topic 2B: Greytown Sports and Recreation Hub

Q7 Do you think that the Council should provide more space for sports and recreation in Greytown? **Yes**

Q8 Do you support funding for the Greytown Sports and Recreation Hub proposal (as detailed on page 4 of the Consultation Document)? **No**

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9 Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

I think the plan and suggestion it is for all SWDC is not true. These facilities exist and why replicate in Greytown and then suggest we all travel there. I believe that is fiscally irresponsible. Card Reserve has basketball indoors and outdoors on turf available. Not funded by Council but community funded. I will note that many people are commuters and this places another burden on parents. Card Reserve also has good lighting on the turf and the rugby grounds with the athletics club well placed with very good coaches and facilities done. Out Bowling Club owns their grounds and buildings so replicating that seems again fiscally irresponsible. I do believe that Council should purchase the rugby and bowling clubs from Trust Lands Trust and that the clubs then raise their own money to manage their buildings and grounds although maintenance such as mowing of rugby could and should be done by Council. I am also concerned Council is taking on the responsibility of Central Government. Funding a new gym for Kuranui should not be the ratepayers burden. Kuranui should be looking to the community to help them to apply for funding and seek community fund raising activities as we have done elsewhere in South Wairarapa. I would suggest this is an appropriate time to be seeking funds from Govt. This is really an unnecessary spend and poorly thought out this is trophy project.

Page 6: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q10 As you selected 'Partial' because you support funding for parts of the proposal, but not all, tick all the parts that you support **Respondent skipped this question**

Q11 Why is this? **Respondent skipped this question**

Page 7: Discussion Topic 3: Land Transport

Q12 What do you think about Council's proposals for land transport (page 5 of the Consultation Document)? Should we be doing more to promote walking and cycling in the district?

I am comfortable with Council's promotion of these activities and note that Covid 19 has accelerated this activity.

Page 8: Discussion Topic 4: Waste Minimisation

Q13 Do you think it is important for Council to develop a Waste Minimisation Action Plan? **Yes**

Q14 Do you support any of the waste minimisation ideas proposed (as detailed on page 6 of the Consultation Document)? Tick all that you support otherwise leave all blank

Providing recycling station in urban areas,
Encouraging food composting,
Reducing the availability of Council agendas and papers at meetings

Q15 Do you have any other comments you would like to make on the proposed ideas above or any other ideas about what Council could do to help the district send less waste to landfill?

I think Council should improve access to the recycling sites and encourage everyone to take their recycling to the site. Currently much of the recycling blows down the road from the bins and creates a worse outcome. If we permanently employed people at Featherston and Greytown and to take their rubbish for recycling including food composting similar to green waste we could lower the contracting costs with only the collection for rubbish that cannot be recycled. I also believe we must explore recycling e-waste. I understand the treatment for e-waste is now being undertaken in NZ so that could really improve outcomes for us all.

Page 9: Discussion Topic 5: Building Capability

Q16 What do you think about Council's proposal to build the organisation's capability and improve delivery of services?

I believe the Council should be working with the other two TLA and GW on improving the capability and capacity through shared services. Currently at the two service centres the librarians do much more than their real role should do. It would be useful if Council had dedicated staff who respond to all other enquiries such as dog registration rate payments etc. Much of the small consent work could be down using Zoom technology with experts or within the service centres specific times to be set for relevant staff to attend the service centres.

Page 10: Other Feedback

Q17 Do you have any other feedback for the Annual Plan 2020/21?

I agree that we are in uncertain times and it is especially important a solid foundation for Wairarapa is laid. Therefore economic development should be somewhere in the Councils thinking aiding business to grown and encouraging manufacturing and business growth is important. The service delivery therefore is vital and the promoting of a business friendly environment is essential. This Council is not known for it's proactive approach and I look forward to the culture change that must occur. Good luck.

Page 7: Discussion Topic 3: Land Transport

Q12 What do you think about Council's proposals for land transport (page 5 of the Consultation Document)? Should we be doing more to promote walking and cycling in the district?

Yes, to look at South Wairarapa as a whole. Martinborough wine region, Greytown retail, Featherston sports and recreation. Tie this in with investing and upgrading card reserve and pool are key to this.

Page 8: Discussion Topic 4: Waste Minimisation

Q13 Do you think it is important for Council to develop a Waste Minimisation Action Plan? **Yes**

Q14 Do you support any of the waste minimisation ideas proposed (as detailed on page 6 of the Consultation Document)? Tick all that you support otherwise leave all blank

- Moving to a more user pays model, i.e. increasing the cost of council rubbish bags**
- ,
- Providing a wheelie bin for general rubbish, paid for through rates**
- ,
- Providing recycling station in urban areas,**
- Encouraging food composting**

Q15 Do you have any other comments you would like to make on the proposed ideas above or any other ideas about what Council could do to help the district send less waste to landfill?

Providing each household with a food waste bin. Happens in the UK, Scotland in particular and has made a huge impact on waster going to landfill

Page 9: Discussion Topic 5: Building Capability

Q16 What do you think about Council's proposal to build the organisation's capability and improve delivery of services?

I think focus needs to be on towns and services first. In light of the the recent raahui and restrictions to travelling there has been an increase in people 'working smarter' from home, this includes council employees. Could this be seen as a smarter way to work in the future?

Page 10: Other Feedback

Q17 Do you have any other feedback for the Annual Plan 2020/21?

Investment in the biggest town, Featherston, needs to be seen. With the most stable and growing population it is time that Featherston is shown the same level of interest and investment as the other towns within the South Wairarapa Region. Ensuring that urgent and must have issues, water, waste etc are seen to first is key and utilising areas that already exist (card reserve) instead of creating new and in my opinion unnecessary hubs (Greytown project)

Q8 Do you support funding for the Greytown Sports and Recreation Hub proposal (as detailed on page 4 of the Consultation Document)? **Yes**

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9 Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

At present Greytown residents are at a disadvantage compared with those from Featherston and Martinborough as they don't have enough SWDC owned grounds - the Hub will address this inequity. It will also accommodate the forecast growth in the population of Greytown.

Sports connects our communities through communication, teamwork and enjoyment. It also helps to keep people physically and mentally fit and healthy.

Both the Bowling club land the Recreation Ground in East Street are historic green areas that the town can ill afford to lose. The town will be worse off without them.

Page 6: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q10 As you selected 'Partial' because you support funding for parts of the proposal, but not all, tick all the parts that you support **Respondent skipped this question**

Q11 Why is this? **Respondent skipped this question**

Page 7: Discussion Topic 3: Land Transport

Q12 What do you think about Council's proposals for land transport (page 5 of the Consultation Document)? Should we be doing more to promote walking and cycling in the district?

Yes. A walking track could be put round the exterior of the recreation Ground in East Street just like Carrington Park in Carterton.

Page 8: Discussion Topic 4: Waste Minimisation

Q13 Do you think it is important for Council to develop a Waste Minimisation Action Plan? **Yes**

Q14 Do you support any of the waste minimisation ideas proposed (as detailed on page 6 of the Consultation Document)? Tick all that you support otherwise leave all blank

Providing a wheelie bin for general rubbish, paid for through rates

Providing recycling station in urban areas,

Encouraging food composting,

Reducing the availability of Council agendas and papers at meetings

Q15 Do you have any other comments you would like to make on the proposed ideas above or any other ideas about what Council could do to help the district send less waste to landfill?

Replacing rubbish bags with general rubbish wheelie bins would put an end to rural residents dumping rubbish bags in the towns - there is a lot of this going on.

Page 9: Discussion Topic 5: Building Capability

Q16 What do you think about Council's proposal to build the organisation's capability and improve delivery of services?

Yes this is necessary - should be phased in.

Page 10: Other Feedback

Q17 Do you have any other feedback for the Annual Plan 2020/21?

No

Q8 Do you support funding for the Greytown Sports and Recreation Hub proposal (as detailed on page 4 of the Consultation Document)? **Yes**

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9 Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

The rugby and bowling clubs are integral to the Greytown community and their presence in the heart of the community is a big part of their ongoing success. The history that both clubs hold and the passion of those involved with running them would be severely impacted by the loss of their grounds, potentially leading to their ultimate demise.

Page 6: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q11 Why is this? **Respondent skipped this question**

Page 7: Discussion Topic 3: Land Transport

Q12 What do you think about Council's proposals for land transport (page 5 of the Consultation Document)? Should we be doing more to promote walking and cycling in the district?

Promoting walking and cycling tracks is really important, most of our roads are open highways which often aren't great for walking/cycling particularly for young children. The success of the Greytown railway trail is a good example of what can be achieved.

Page 8: Discussion Topic 4: Waste Minimisation

Q13 Do you think it is important for Council to develop a Waste Minimisation Action Plan? **Yes**

Q14 Do you support any of the waste minimisation ideas proposed (as detailed on page 6 of the Consultation Document)? Tick all that you support otherwise leave all blank

Page 7: Discussion Topic 3: Land Transport

Q12 What do you think about Council's proposals for land transport (page 5 of the Consultation Document)? Should we be doing more to promote walking and cycling in the district?

Separate walking/cycling areas is a positive initiative from both a recreation, and health/safety standpoint. Increase in funding for roading maintenance is a must in my view, along with a review of the contractors who undertake the work as they seem to operate slowly and ineffectively often having to return multiple times for the same piece of maintenance, for example recent damage repairs on Fabians Road

Page 8: Discussion Topic 4: Waste Minimisation

Page 9: Discussion Topic 5: Building Capability

Q16 What do you think about Council's proposal to build the organisation's capability and improve delivery of services?

I believe the council should be disbanded and the three towns given right to self determination. The SWDC does not work and has never fulfilled the promises made by Central Government in 1989. It is a bureaucratic nightmare and some of the senior staff seem to lack judgement. The Community boards are a toothless tiger and a waste of ratepayer funds. Get back to local solutions for local problems, ignore the UN mandates for water etc that are always held as reasons for expensive purchase and many make no difference to our daily life. Look at the Featherston/Greytown water project at Woodside, a total waste of money, which future generations of rate payers will continue to pay for.

Page 10: Other Feedback

Q17 Do you have any other feedback for the Annual Plan 2020/21?

Disestablish the South Wairarapa District Council and allow each town in loose co operation to determine their own direction. Slash numbers and wages of officials and no more rate rises, this cannot go on much longer.

Q8 Do you support funding for the Greytown Sports and Recreation Hub proposal (as detailed on page 4 of the Consultation Document)? **Yes**

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9 Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

I FULLY SUPPORT funding for the Greytown Sports and Recreation Hub, for a number of reasons:

- i) Greytown has less green space per head of population than other Sth Wairarapa towns.
- ii) The demand for more housing will not go away as NZ's population increases. I believe councils across NZ need to start looking at higher density housing models, rather than urban sprawl. We cannot simply continue to build OUT - we must build UP and IN. This means in-fill housing - for example, loosening subdivision regulations so that sections can be subdivided into smaller plots than currently allowable (e.g - min. size 400sqm rather than the current 500sqm per dwelling?). Also, we need to encourage smaller and multi-dwelling developments such as 2 and 3 level townhouses, small blocks of flats and so on. So, rather than housing take up another huge swathe of land - let's dedicate that land to sports and recreation, and let housing build up and in.
- iii) What this CODIV-19 pandemic has shown us is the true value of social interaction and human contact (once the virus has gone!). Sports fields are a place for community - a place of gathering - a place where we come together to be members of society; something this lockdown has taught us we need in greater measure than ever before.
- iv) You can build UP with housing, but sports fields need flat, open space, on ground level. Research has shown that sports and recreation facilities need to be located centrally and within about 15 mins walking distance for everybody for them to be full utilised - there is no point building a facility outside of town, or in a neighbouring town if people can't easily access it. This makes this location perfect.
- v) It's a once in a lifetime opportunity for Greytown - please don't let this opportunity pass.

Q1 Do you agree that the water supply should be Council's main focus next year? **Yes**

Q2 Do you think it's important for Council to develop a Water Conservation Action Plan? **Yes**

Q3 Do you support any of the proposed water resilience actions (as detailed on page 3 of the Consultation Document)? Tick all that you support otherwise leave all blank

Reducing the water allowance per property,
Removing the Water by Meter Write-off Policy,
Offering subsidised water tanks, at cost, paid back over a period of time
 ,
Requiring new builds to have their own water storage solution
 ,
Installing smart meters to monitor water consumption and leaks

Q4 Do you have any other comments you would like to make on the actions proposed above or have any other ideas for the Action Plan? **Respondent skipped this question**

Page 3: Discussion Topic 2A: Continue extended hours for swimming pools

Q5 Do you agree that we should continue to trial extended swimming pool hours next summer (i.e. longer hours in evenings and on weekends)? Current year's opening hours are available here <https://www.swdc.govt.nz/swimming-pools>. **Yes**

Q6 Why is this?

Due to water pollution rivers are not as safe to swim in as they once were. Having many private pools requires higher levels of community water usage, which is not what is desired. Therefore ensuring that public pools are available as much as possible makes sense. In addition as a commuter to Wellington I really appreciate having the chance to swim in the pools with my family after work during the summer months.

Page 4: Discussion Topic 2B: Greytown Sports and Recreation Hub

Q7 Do you think that the Council should provide more space for sports and recreation in Greytown? **Yes**

Q8 Do you support funding for the Greytown Sports and Recreation Hub proposal (as detailed on page 4 of the Consultation Document)? **Yes**

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9 Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

I support funding for this proposal for a number of reasons:

- Saving valuable, heritage organisations. Our sports clubs are part of the fabric of our community. They have touched the lives of people from Greytown and the South Wairarapa going back to the days of early European settlers and are truly part of Greytown's Heritage. Our clubs bring people together across race, wealth, generation and gender divides and create a social environment that supports a healthy community.
- Improved mental health for community members. Sport and recreation are both positive factors in mental health, something that I know from personal experience. Our suicide rate is alarming and things that improve mental health will have a positive impact here. The positive sense of belonging to sports team and club and contributing to a cause larger than yourself is uplifting and is needed more than ever when times are stressful due to the impact of COVID-19.
- Parity with other wards. Greytown has much less council-provided green space for sports and recreation per resident than Featherston and Martinborough, and that is even without taking into account the Martinborough golf course and Featherston bike trail. This hasn't been much of an issue in the past due to Greytown Trust Lands Trust holding sports and recreational green space but if that land is lost to housing it will become an enormous issue for the town and far more expensive issue for SWDC to rectify. Land will only get more expensive over time so if the current land is lost then it is highly unlikely that SWDC will ever be able to replace it.
- Benefit for the wider South Wairarapa District. What benefits Kuranui benefits the South Wairarapa. An investment in the quality of resources at our only local college will positively impact on a large number of the descendants of current and future ratepayers. Many of the children who attend Kuranui will go on to be future South Wairarapa ratepayers and will be scattered across not just Greytown but the other wards too. In addition our sports clubs bring people together from across the wards to watch and participate in sports together and against one another. This serves to foster a wider sense of community beyond that of just each town.

Q11 Why is this?

Respondent skipped this question

Page 7: Discussion Topic 3: Land Transport

Q12 What do you think about Council's proposals for land transport (page 5 of the Consultation Document)? Should we be doing more to promote walking and cycling in the district?

We should definitely be promoting more walking and cycling in the district. During the lockdown it has been fantastic to see many members from the community enjoying the health benefits of walking and cycling instead of driving and leaving the car at home. We have a very picturesque district and there are great green, healthy tourism benefits for us to reap from an increased investment in opening up more of the region for safe exploration by foot and bike.

Page 8: Discussion Topic 4: Waste Minimisation

Q13 Do you think it is important for Council to develop a Waste Minimisation Action Plan?

Yes

Q14 Do you support any of the waste minimisation ideas proposed (as detailed on page 6 of the Consultation Document)? Tick all that you support otherwise leave all blank

Providing a wheelie bin for general rubbish, paid for through rates

Q8 Do you support funding for the Greytown Sports and Recreation Hub proposal (as detailed on page 4 of the Consultation Document)? **No**

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9 Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

The cost of purchase and maintenance is high, and likely community usage is uncertain. There are more urgent priorities in this area such as water supply and storage, stormwater management, replacement of old water pipes and roading repairs particularly within the immediate township to ensure we can continue to attract and provide services to visitors in the future. Hard choices, but current circumstances demand prioritisation of resources.

Page 6: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q10 As you selected 'Partial' because you support funding for parts of the proposal, but not all, tick all the parts that you support **Respondent skipped this question**

Q11 Why is this? **Respondent skipped this question**

Page 7: Discussion Topic 3: Land Transport

Q12 What do you think about Council's proposals for land transport (page 5 of the Consultation Document)? Should we be doing more to promote walking and cycling in the district?

Yes of course, but this needs to be considered in conjunction with funding for other major infrastructure projects - water, stormwater, roading etc.

Page 8: Discussion Topic 4: Waste Minimisation

Q13 Do you think it is important for Council to develop a Waste Minimisation Action Plan? **Yes**

Q14 Do you support any of the waste minimisation ideas proposed (as detailed on page 6 of the Consultation Document)? Tick all that you support otherwise leave all blank

Providing a wheelie bin for general rubbish, paid for through rates

Providing recycling station in urban areas,

Encouraging food composting,

Reducing the availability of Council agendas and papers at meetings

Q15 Do you have any other comments you would like to make on the proposed ideas above or any other ideas about what Council could do to help the district send less waste to landfill?

Can not understand why we already have a recycling bin and not a general waste bin. This is surely a more sustainable and cost effective option.

Page 9: Discussion Topic 5: Building Capability

Q16 What do you think about Council's proposal to build the organisation's capability and improve delivery of services?

General support, but there is not a lot of detail on what this additional cost would cover and what benefits it would deliver to Council services or performance.

Page 10: Other Feedback

Q17 Do you have any other feedback for the Annual Plan 2020/21?

Section 1 - strongly support a focus on water supply, waste and stormwater management. The proposed budget for stormwater management seems totally inadequate given flooding at key intersections every time it rains.

Section 3 - strongly endorse funding for road maintenance and renew and extending footpaths.

General - in relation to both points above the state of water pipes in Martinborough is at a critical risk point. Major road work is needed on the Eastern side of Dublin street to repair damage and reduce flooding. Road camber contributes to flooding problem and stormwater drainage does not work at peak times.

 Page 2: Discussion Topic 1: Water Supply and Water Resilience

Q1 Do you agree that the water supply should be Council's main focus next year? **Yes**

Q2 Do you think it's important for Council to develop a Water Conservation Action Plan? **Yes**

Q3 Do you support any of the proposed water resilience actions (as detailed on page 3 of the Consultation Document)? Tick all that you support otherwise leave all blank

Reducing the water allowance per property,
Offering subsidised water tanks, at cost, paid back over a period of time
 ,
Requiring new builds to have their own water storage solution
 ,
Installing smart meters to monitor water consumption and leaks

Q4 Do you have any other comments you would like to make on the actions proposed above or have any other ideas for the Action Plan?

Make it easier and cheaper to recycle water & connect rainwater at home. It'd be great if we could (re)use rainwater and grey water eg to flush our toilets but the cost of installing this & consenting is too much for us

 Page 3: Discussion Topic 2A: Continue extended hours for swimming pools

Q5 Do you agree that we should continue to trial extended swimming pool hours next summer (i.e. longer hours in evenings and on weekends)? Current year's opening hours are available here <https://www.swdc.govt.nz/swimming-pools>. **Yes**

Q6 Why is this?

Yes assuming you have had a look at when the pools are used most.. Are there hours that are not busy that the pool can close to save cost? There's not enough information on visitors numbers at different times to answer this question

Page 4: Discussion Topic 2B: Greytown Sports and Recreation Hub

Q7 Do you think that the Council should provide more space for sports and recreation in Greytown? **No**

Q8 Do you support funding for the Greytown Sports and Recreation Hub proposal (as detailed on page 4 of the Consultation Document)? **No**

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9 Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

Its not that i dont support it, just not sure if this should be a priority for such a big investment right now. Investments that support businesses and create jobs in the region should go first

Page 6: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q10 As you selected 'Partial' because you support funding for parts of the proposal, but not all, tick all the parts that you support **Respondent skipped this question**

Q11 Why is this? **Respondent skipped this question**

Page 7: Discussion Topic 3: Land Transport

Q12 What do you think about Council's proposals for land transport (page 5 of the Consultation Document)? Should we be doing more to promote walking and cycling in the district?

yes. The construction & maintenance will provide for jobs, the exercise will keep residents happy & healthy and good tracks will attract visitors. Cycle tracks are needed to keep cyclists off dangerous highways, AND it promotes less cars

Page 8: Discussion Topic 4: Waste Minimisation

Q13 Do you think it is important for Council to develop a Waste Minimisation Action Plan? **Yes**

Q14 Do you support any of the waste minimisation ideas proposed (as detailed on page 6 of the Consultation Document)? Tick all that you support otherwise leave all blank

Moving to a more user pays model, i.e. increasing the cost of council rubbish bags

Providing recycling station in urban areas,

Encouraging food composting,

Reducing the availability of Council agendas and papers at meetings

Q15 Do you have any other comments you would like to make on the proposed ideas above or any other ideas about what Council could do to help the district send less waste to landfill?

Can you please introduce a different size rubbish bag. The current bags are too big for us but in summer we put them out every week to avoid bad smells. It is tempting just to fill them up. We'd happily pay \$1 for a smaller sized bag, and then you can offer the current larger size at e.g. \$1.50

Page 9: Discussion Topic 5: Building Capability

Q16 What do you think about Council's proposal to build the organisation's capability and improve delivery of services?

No, likely the main part of that amount will go to expensive consultants that will write fancy unspecific reports that will be stored in a messy document repository. There are very cost effective ways to provide good training programmes to staff, and work on process improvements internally. Surely lots of money can be saved just by tidying up processes, removing double handling etc

No

Q6 Why is this?

I think we can better utilise this money

Page 4: Discussion Topic 2B: Greytown Sports and Recreation Hub

Q7 Do you think that the Council should provide more space for sports and recreation in Greytown?

Yes

Q8 Do you support funding for the Greytown Sports and Recreation Hub proposal (as detailed on page 4 of the Consultation Document)? **Yes**

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9 Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

I whole heartedly support this funding. Losing that green space and sports ground to residential housing would be a huge loss to the community.

Greytown is growing exponentially with new housing popping up everywhere and with one of our major orchards being turned into a retirement village we are running out of green spaces.

Also if we were to lose a major part of our sporting community it would be absolutely devastating.

Page 6: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q4 Do you have any other comments you would like to make on the actions proposed above or have any other ideas for the Action Plan?

Before the expense of metering ratepayers, the council should be improving it's water infrastructure in line with the Three Waters policy. I don't know if our individual consumption is conservative or wasteful.

This is a great community service.

 Page 4: Discussion Topic 2B: Greytown Sports and Recreation Hub

Q7 Do you think that the Council should provide more space for sports and recreation in Greytown? **No**

Q8 Do you support funding for the Greytown Sports and Recreation Hub proposal (as detailed on page 4 of the Consultation Document)? **Partial**

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9 Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal **Respondent skipped this question**

Page 6: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q10 As you selected 'Partial' because you support funding for parts of the proposal, but not all, tick all the parts that you support **Contribution to the Kuranui College gymnasium replacement**

Q11 Why is this?

This is not the time for council to spend on land.
There are adequate sports grounds elsewhere in South Wairarapa.
The Gymnasium is a facility that can be used by many groups throughout Wairarapa.
I understand the the Orchard retirement village will have community recreation facilities available to residents.

Page 7: Discussion Topic 3: Land Transport

Q12 What do you think about Council's proposals for land transport (page 5 of the Consultation Document)? Should we be doing more to promote walking and cycling in the district?

This is not about getting vehicles off the road. It is about recreation. Good walking tracks would be great.

Page 8: Discussion Topic 4: Waste Minimisation

Q13 Do you think it is important for Council to develop a Waste Minimisation Action Plan? **Yes**

Q14 Do you support any of the waste minimisation ideas proposed (as detailed on page 6 of the Consultation Document)? Tick all that you support otherwise leave all blank

Providing a wheelie bin for general rubbish, paid for through rates
,

Providing recycling station in urban areas,

Reducing the availability of Council agendas and papers at meetings

Q15 Do you have any other comments you would like to make on the proposed ideas above or any other ideas about what Council could do to help the district send less waste to landfill?

Recycling options 7 days per week would be great.

Page 9: Discussion Topic 5: Building Capability

Q16 What do you think about Council's proposal to build the organisation's capability and improve delivery of services?

Every business wants to improve capability and service delivery.

The biggest improvement will be a shift to a customer focus which doesn't always require money.

I think the council should explore alternatives to increased office space in this covid 19 world.

Page 10: Other Feedback

Q17 Do you have any other feedback for the Annual Plan 2020/21?

There are two priorities for the council.

1. To implement the three waters strategies
 2. To support ratepayers/businesses as much as possible to manage the impacts of covid 19

Page 2: Discussion Topic 1: Water Supply and Water Resilience

Q1 Do you agree that the water supply should be Council's main focus next year? **Yes**

Q2 Do you think it's important for Council to develop a Water Conservation Action Plan? **Yes**

Q3 Do you support any of the proposed water resilience actions (as detailed on page 3 of the Consultation Document)? Tick all that you support otherwise leave all blank

Offering subsidised water tanks, at cost, paid back over a period of time

Requiring new builds to have their own water storage solution

Q4 Do you have any other comments you would like to make on the actions proposed above or have any other ideas for the Action Plan?

We need water infrastructure sorted out first- that is where Council dollars need to go.

We should not need such draconian water restrictions each summer.

Page 3: Discussion Topic 2A: Continue extended hours for swimming pools

Q5 Do you agree that we should continue to trial extended swimming pool hours next summer (i.e. longer hours in evenings and on weekends)? Current year's opening hours are available here <https://www.swdc.govt.nz/swimming-pools>. **Yes**

Q6 Why is this? **Respondent skipped this question**

Page 4: Discussion Topic 2B: Greytown Sports and Recreation Hub

Q7 Do you think that the Council should provide more space for sports and recreation in Greytown? **No**

Q8 Do you support funding for the Greytown Sports and Recreation Hub proposal (as detailed on page 4 of the Consultation Document)? **Partial**

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Page 6: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q10 As you selected 'Partial' because you support funding for parts of the proposal, but not all, tick all the parts that you support **Contribution to the Kuranui College gymnasium replacement**

Q11 Why is this?

Would consider adding to MOE funds for gym. the south Wairarapa community can use the grounds and gym. There are more pressing issues to attend to now, rather than this hub.

Page 7: Discussion Topic 3: Land Transport

Q12 What do you think about Council's proposals for land transport (page 5 of the Consultation Document)? Should we be doing more to promote walking and cycling in the district?

After covid 19 we don't need to spend in this area. To be looked at at a later date.

Page 8: Discussion Topic 4: Waste Minimisation

Q13 Do you think it is important for Council to develop a Waste Minimisation Action Plan? **Yes**

Q14 Do you support any of the waste minimisation ideas proposed (as detailed on page 6 of the Consultation Document)? Tick all that you support otherwise leave all blank

Providing a wheelie bin for general rubbish, paid for through rates
 ,
Providing recycling station in urban areas,
Encouraging food composting,
Reducing the availability of Council agendas and papers at meetings

Q15 Do you have any other comments you would like to make on the proposed ideas above or any other ideas about what Council could do to help the district send less waste to landfill?

Keep plastic out of landfills.

Page 9: Discussion Topic 5: Building Capability

Q16 What do you think about Council's proposal to build the organisation's capability and improve delivery of services?

Many firms now have staff working from home this is a practice that will increase. SWDC should look at this and other cost efficiencies.

Page 10: Other Feedback

Q17 Do you have any other feedback for the Annual Plan 2020/21?

I would like to see the major focus being water, water and water.

Council should e

 Page 2: Discussion Topic 1: Water Supply and Water Resilience

Q1 Do you agree that the water supply should be Council's main focus next year? **Yes**

Q2 Do you think it's important for Council to develop a Water Conservation Action Plan? **Yes**

Q3 Do you support any of the proposed water resilience actions (as detailed on page 3 of the Consultation Document)? Tick all that you support otherwise leave all blank

Reducing the water allowance per property,
Requiring new builds to have their own water storage solution
 ,
Installing smart meters to monitor water consumption and leaks

Q4 Do you have any other comments you would like to make on the actions proposed above or have any other ideas for the Action Plan?

All of the ideas in the Annual Plan are mere band aids. I have had a house in Greytown for over 10 years. There has not been a single summer that I can recall where we have not had water restrictions and, of course, recently we have endured water bans. There is plenty of water but insufficient water storage to deal with an increase in population. In my view it is the height of irresponsibility to allow ANY additional development in Greytown until there is an increase in water storage which is sufficient to see the desire for growth.

The Council needs to face up to its responsibility in this regard. We hear endless assurances about so-called "sustainable growth." Is anyone telling the buyers of the 20 plus new sections on Kuratawhiti Street and Wood Street that after the build their million dollar houses they can look forward to watching the gardens die each summer? This is real - look at what has happened on the Kapiti Coast where greed has outstripped available resources. If we cannot afford a proper water storage scheme to see us through the summer months then we cannot afford a single additional house anywhere in Greytown.

 Page 3: Discussion Topic 2A: Continue extended hours for swimming pools

Q5 Do you agree that we should continue to trial extended swimming pool hours next summer (i.e. longer hours in evenings and on weekends)? Current year's opening hours are available here <https://www.swdc.govt.nz/swimming-pools>. **Yes**

Q6 Why is this?

The facility is a good one and should be used.

Page 4: Discussion Topic 2B: Greytown Sports and Recreation Hub

Q7 Do you think that the Council should provide more space for sports and recreation in Greytown? **Yes**

Q8 Do you support funding for the Greytown Sports and Recreation Hub proposal (as detailed on page 4 of the Consultation Document)? **Yes**

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9 Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

Insofar as I can determine from several readings of the Plan and supporting documents, the development of the sporting hub will be of limited use to the older members of the community. I currently use the Community Gym regularly and I cannot for the life of me see where the new sports hub will incorporate a fitness/weight training area which will be available to the community. Perhaps it is included in the "outside school hours" which for most people will be too restrictive to provide much benefit.

Having said that, I support anything which will preserve green spaces and provide additional sports facilities for our youth.

Page 6: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q10 As you selected 'Partial' because you support funding for parts of the proposal, but not all, tick all the parts that you support **Respondent skipped this question**

Q11 Why is this? **Respondent skipped this question**

Page 7: Discussion Topic 3: Land Transport

Q12 What do you think about Council's proposals for land transport (page 5 of the Consultation Document)? Should we be doing more to promote walking and cycling in the district?

The Plan seems sensible although very light on detail.

Page 8: Discussion Topic 4: Waste Minimisation

Q13 Do you think it is important for Council to develop a Waste Minimisation Action Plan? **Yes**

Q14 Do you support any of the waste minimisation ideas proposed (as detailed on page 6 of the Consultation Document)? Tick all that you support otherwise leave all blank

Moving to a more user pays model, i.e. increasing the cost of council rubbish bags

,

Providing a wheelie bin for general rubbish, paid for through rates

,

Encouraging food composting

Q15 Do you have any other comments you would like to make on the proposed ideas above or any other ideas about what Council could do to help the district send less waste to landfill?

I would support the elimination of plastic rubbish bags entirely. I see no reason why households should not pay a reasonable amount for the use of recycling bins which are far more environmentally friendly.

Page 9: Discussion Topic 5: Building Capability

Q16 What do you think about Council's proposal to build the organisation's capability and improve delivery of services?

The principles outlined are worthy of support but without any detail as to what needs to be done and why it is difficult to comment or give meaningful support.

Page 10: Other Feedback

Q17 Do you have any other feedback for the Annual Plan 2020/21?

Only to reiterate my initial point. The single most important issue facing the Council is water - until there is a responsible solution to the provision of a reasonable water supply 12 months per year it is unfair the residents and unfair to people joining to community to allow any further housing to be built. Growth simply for the sake of growth without regard to the infrastructure will ultimately destroy this area. If the answer is that we cannot provide enough water, then the only responsible thing to do is to accept that we have reached the limit of how far we can grow.

 Page 3: Discussion Topic 2A: Continue extended hours for swimming pools

Q5 Do you agree that we should continue to trial extended swimming pool hours next summer (i.e. longer hours in evenings and on weekends)? Current year's opening hours are available here <https://www.swdc.govt.nz/swimming-pools>.

Yes

Q6 Why is this?

Water confidence and learning how to keep themselves safe in and around water is extremely important. The more chance our children have to be exposed to water the better

 Page 4: Discussion Topic 2B: Greytown Sports and Recreation Hub

Q7 Do you think that the Council should provide more space for sports and recreation in Greytown?

Yes

 Page 2: Discussion Topic 1: Water Supply and Water Resilience

Q1 Do you agree that the water supply should be Council's main focus next year? **Yes**

Q2 Do you think it's important for Council to develop a Water Conservation Action Plan? **Yes**

Q3 Do you support any of the proposed water resilience actions (as detailed on page 3 of the Consultation Document)? Tick all that you support otherwise leave all blank

Reducing the water allowance per property,
Requiring new builds to have their own water storage solution
 ,
Installing smart meters to monitor water consumption and leaks

Q4 Do you have any other comments you would like to make on the actions proposed above or have any other ideas for the Action Plan?

I think it's important to be clearer about what a water conservation action plan would entail, and what benefits the plan would deliver over and above the specific actions proposed in the consultation document.

My support for the development of a plan is therefore conditional on Council's judgement that a range of actions - beyond those currently proposed in the annual plan - will indeed be necessary to address the issue of water conservation.

Page 3: Discussion Topic 2A: Continue extended hours for swimming pools

Q5 Do you agree that we should continue to trial extended swimming pool hours next summer (i.e. longer hours in evenings and on weekends)? Current year's opening hours are available here <https://www.swdc.govt.nz/swimming-pools>. **No**

Q6 Why is this?

There are two reasons:

- 1) The extended hours have not resulted in a substantial increase in visits (about 3% by my reckoning).
 - 2) At a time of financial hardship, Council should look to minimise non-essential expenditure in order to reduce the rates burden on property-owners. In this context, extended hours feel like a nice-to-have, rather than a must-have.
-

Page 4: Discussion Topic 2B: Greytown Sports and Recreation Hub

Q7 Do you think that the Council should provide more space for sports and recreation in Greytown? **No**

Q8 Do you support funding for the Greytown Sports and Recreation Hub proposal (as detailed on page 4 of the Consultation Document)? **No**

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9 Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

I am concerned about an increase in the rates burden during a time of financial hardship.

I am also unconvinced by the argument that it is necessary to act now in order to secure land.

Given the size of the economic shock we are facing - and the reliance of the district on tourism - it seems far more likely that land prices will fall over the coming years.

Again, as with the proposal to extend pool hours, this feels like 'nice-to-have' expenditure, rather than 'must-have' expenditure.

Page 6: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q11 Why is this? **Respondent skipped this question**

Page 7: Discussion Topic 3: Land Transport

Q12 What do you think about Council's proposals for land transport (page 5 of the Consultation Document)? Should we be doing more to promote walking and cycling in the district?

I support measures to consolidate and develop tracks and trails.

I do not support promotional activity, such as advertising, unless Council has good evidence that it is effective in changing behaviour.

Page 8: Discussion Topic 4: Waste Minimisation

Q13 Do you think it is important for Council to develop a Waste Minimisation Action Plan? **No**

Q14 Do you support any of the waste minimisation ideas proposed (as detailed on page 6 of the Consultation Document)? Tick all that you support otherwise leave all blank

Moving to a more user pays model, i.e. increasing the cost of council rubbish bags

Reducing the availability of Council agendas and papers at meetings

Q15 Do you have any other comments you would like to make on the proposed ideas above or any other ideas about what Council could do to help the district send less waste to landfill?

Council should rely on price signals to drive behaviour. I support measures to increase user fees and charges.

Conversely, I do not support measures that spread costs across the general population, irrespective of the quantity of waste generated by each ratepayer.

I do not support promotional activity, such as advertising, unless Council has good evidence that is effective in changing behaviour.

Page 9: Discussion Topic 5: Building Capability

Q16 What do you think about Council's proposal to build the organisation's capability and improve delivery of services?

In light of the economic shock associated with the COVID-19 outbreak, and the resulting hardship for many ratepayers, I would expect Council to minimise spending on non-core activities.

I would therefore like to have a clearer sense of the extent to which the proposed expenditure is considered to be necessary or unavoidable (for example, in the case of building improvements).

I would also expect to see Council demonstrate restraint in respect of pay and remuneration.

Page 10: Other Feedback

Q17 Do you have any other feedback for the Annual Plan 2020/21?

I have two broad sets of comments:

1) The consultation materials do not adequately grapple with the impact of the COVID outbreak. The COVID outbreak represents a devastating economic shock that will impose hardship on many ratepayers. I understand that the consultation materials were probably finalised before the full size of the shock became clear. Nonetheless, on the basis of these documents, it is not clear that Council is acknowledging the size of the shock and the impact on the District's people. This is still very much a business-as-usual Annual Plan. I think Council needs to think much harder about how it can minimise the economic burden on the District's people and businesses (including renters, tenants and lessees, who will also experience rates increases through the form of higher rent payments).

2) The consultation materials are, in general, too high-level. I understand that Council is trying to reach a broad audience through the consultation process. However, the consultation materials really do need to provide more detailed information about the nature, costs and benefits of the proposed actions or investments. In the absence of this information, it is difficult to make a judgement about the merits of many of the proposals in the consultation materials.

 Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)
Q9 Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

The Greytown Sport & Leisure Society fully supports SWDC approving the Sports & Recreation Hub proposal. As per our working group recommendations with Greytown Ward Councillors, The Mayor & finance team we believe that the potential to lose these central greenspaces to possible housing developments and missing out on a full sized court indoor facility would be detrimental to the community. The immediate threat to two clubs that have been in existence for over 120 years is also a concern with Soldiers Memorial Park at ground capacity. With well-being and social connectedness needing more attention in light of effects of Covid19 and lockdown measures this proposal is a step in the right direction. We also believe with reserve contributions held now and future collections and the LTP budget for increasing recreational land in Greytown, will go a long way to reducing some of the debt incurred. We fully understand SWDC has three towns to provide for but the imbalance in recreational space versus population in each town can not afford to get any higher. While we may not be gaining any additional space it will be more fully utilised between various sporting & leisure groups and has the potential to be managed jointly with our Society's governance model and relationships with the SWDC facilities team.

Page 2: Discussion Topic 1: Water Supply and Water Resilience

Q1 Do you agree that the water supply should be Council's main focus next year? **Yes**

Q2 Do you think it's important for Council to develop a Water Conservation Action Plan? **Yes**

Q3 Do you support any of the proposed water resilience actions (as detailed on page 3 of the Consultation Document)? Tick all that you support otherwise leave all blank

Offering subsidised water tanks, at cost, paid back over a period of time

,

Requiring new builds to have their own water storage solution

,

Installing smart meters to monitor water consumption and leaks

Q4 Do you have any other comments you would like to make on the actions proposed above or have any other ideas for the Action Plan?

n/a

Page 3: Discussion Topic 2A: Continue extended hours for swimming pools

Q5 Do you agree that we should continue to trial extended swimming pool hours next summer (i.e. longer hours in evenings and on weekends)? Current year's opening hours are available here <https://www.swdc.govt.nz/swimming-pools>. **Yes**

Q6 Why is this?

To allow a wider range of age groups to access the pool. People commuting find it difficult to access the pool currently.

Page 4: Discussion Topic 2B: Greytown Sports and Recreation Hub

Q7 Do you think that the Council should provide more space for sports and recreation in Greytown? **Yes**

Q8 Do you support funding for the Greytown Sports and Recreation Hub proposal (as detailed on page 4 of the Consultation Document)? **Yes**

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9 Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

I believe that additional green space should be provided for the residents of Greytown. There is little space provided currently apart from the Soldiers Memorial Park.

Page 6: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q8 Do you support funding for the Greytown Sports and Recreation Hub proposal (as detailed on page 4 of the Consultation Document)? **Yes**

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9 Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

I support this hub because it has the potential to bring together multiple clubs and age groups to a centralised location. It makes sense to have something like this located in Greytown as it is central to all areas of Wairarapa. A quick drive from Featherston or Martinborough for teams to train or play together, or even from Carterton and Masterton
 It's also well located for the aged community to get there for events that might be focused on them
 And provides a great opportunity for us to do something great in terms of an offering for our Youth.
 There isn't a lot for youth in our community as a whole so to have a hub and possibly provide an area to safely hold events that are age appropriate would give our youth something to do instead of drink

Respondent skipped this question

Page 8: Discussion Topic 4: Waste Minimisation

Q13 Do you think it is important for Council to develop a Waste Minimisation Action Plan?

Yes

Q14 Do you support any of the waste minimisation ideas proposed (as detailed on page 6 of the Consultation Document)? Tick all that you support otherwise leave all blank

Moving to a more user pays model, i.e. increasing the cost of council rubbish bags
 ,
Providing recycling station in urban areas,
Encouraging food composting,
Reducing the availability of Council agendas and papers at meetings

Q15 Do you have any other comments you would like to make on the proposed ideas above or any other ideas about what Council could do to help the district send less waste to landfill?

We should be encouraging recycling and reduction of rubbish. If we pay for rubbish collection in our rates it doesn't incentivize renters to reduce rubbish. User pays should be the way forward so the costs of dumping is on thw owner of that rubbish.

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9 Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

With an increasing number of people living in Greytown and in surrounding towns there is a need to have recreation and sporting facilities that can cope with this and means locals don't have to travel such long distances for quality recreation and sporting facilities. Our local sporting and recreation teams can become even more competitive and the physical, mental and emotional health of everyone improves, which isn't that a great thing for everyone.

Page 2: Discussion Topic 1: Water Supply and Water Resilience

Q1 Do you agree that the water supply should be Council's main focus next year? **Yes**

Q2 Do you think it's important for Council to develop a Water Conservation Action Plan? **Yes**

Q3 Do you support any of the proposed water resilience actions (as detailed on page 3 of the Consultation Document)? Tick all that you support otherwise leave all blank

Offering subsidised water tanks, at cost, paid back over a period of time

,

Requiring new builds to have their own water storage solution

,

Installing smart meters to monitor water consumption and leaks

Q4 Do you have any other comments you would like to make on the actions proposed above or have any other ideas for the Action Plan? **Respondent skipped this question**

Page 3: Discussion Topic 2A: Continue extended hours for swimming pools

Q5 Do you agree that we should continue to trial extended swimming pool hours next summer (i.e. longer hours in evenings and on weekends)? Current year's opening hours are available here <https://www.swdc.govt.nz/swimming-pools>. **Yes**

Q6 Why is this? **Respondent skipped this question**

Page 4: Discussion Topic 2B: Greytown Sports and Recreation Hub

Q7 Do you think that the Council should provide more space for sports and recreation in Greytown? **No**

Q8 Do you support funding for the Greytown Sports and Recreation Hub proposal (as detailed on page 4 of the Consultation Document)? **No**

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9 Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

I do not see why my rates should be used on sports hub for Greytown when I live in Featherston, and would never use it. I use the sports facilities here in Featherston which were paid for by the Community.

Page 6: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q10 As you selected 'Partial' because you support funding for parts of the proposal, but not all, tick all the parts that you support **Respondent skipped this question**

Page 10: Other Feedback

Q17 Do you have any other feedback for the Annual Plan 2020/21?

I find myself disappointed that yet again Featherston seems to have been forgotten. Greytown and Martinborough look to get all available funding and Featherston is forgotten as if it is the awkward cousin that no one wants to acknowledge.

We live in amazing town, that with investment, would be outstanding. It is the gateway to the Wairarapa, so the Council should be making every effort to allow Featherston to fulfill it's true potential.

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9 Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

The Greytown Volunteer Fire Brigade (GVFB) supports the purchase of the Greytown Rugby Club Land, under section 2B of the annual plan consultation document.

In the last 5 years the GVFB has attended 40 medical calls, a number of these requiring the establishment of a Helicopter Landing Zone. (HLZ)

The rugby club grounds are used by the GVFB, Wellington Free Ambulance, and the Life Flight Rescue Helicopter to establish a safe HLZ, required for the transition and transport of patients with life-threatening conditions from Greytown to Wellington. The grounds are one of only two spaces in Greytown that provide a SAFE area that emergency services can EASILY ACCESS at these times. The Rugby grounds are the preferred location over Memorial Park, due to the number of trees and position of power lines.

If the Land is no longer available, this will reduce the options we have available in Urban Greytown for the safe transfer of these patients.

Thank you for considering our submission.

Steve Meyrick

Chief Fire Officer

On Behalf of the Officers and Members of the Greytown Volunteer Fire Brigade.

Q2 Do you think it's important for Council to develop a Water Conservation Action Plan? **Yes**

Q3 Do you support any of the proposed water resilience actions (as detailed on page 3 of the Consultation Document)? Tick all that you support otherwise leave all blank

Reducing the water allowance per property,
Offering subsidised water tanks, at cost, paid back over a period of time
 ,
Requiring new builds to have their own water storage solution
 ,
Installing smart meters to monitor water consumption and leaks

Q4 Do you have any other comments you would like to make on the actions proposed above or have any other ideas for the Action Plan?

Water quality and protection should be the SWC main focus for any spending

Page 3: Discussion Topic 2A: Continue extended hours for swimming pools

Q5 Do you agree that we should continue to trial extended swimming pool hours next summer (i.e. longer hours in evenings and on weekends)? Current year's opening hours are available here <https://www.swdc.govt.nz/swimming-pools>. **Yes**

Q6 Why is this?

Because ensuring more access for families is a good thing. Exercise is key to healthy living and everyone should know how to swim

Page 4: Discussion Topic 2B: Greytown Sports and Recreation Hub

Q7 Do you think that the Council should provide more space for sports and recreation in Greytown? **No**

Q8 Do you support funding for the Greytown Sports and Recreation Hub proposal (as detailed on page 4 of the Consultation Document)? **No**

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9 Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

The council cannot afford any spending of this nature. We need to focus on providing / protecting our water supply. Also any decision on the Greytown Sports and Recreation Hub should be delayed until well after this Co-vid 19 pandemic is under control. It maybe that social distancing requirements will severely affect sports and sports meetings for some time.

Page 6: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Page 7: Discussion Topic 3: Land Transport

Q12 What do you think about Council's proposals for land transport (page 5 of the Consultation Document)? Should we be doing more to promote walking and cycling in the district?

Yes absolutely - even with social distancing requirements - people can do this safely

Page 8: Discussion Topic 4: Waste Minimisation

Q13 Do you think it is important for Council to develop a Waste Minimisation Action Plan? **Yes**

Q14 Do you support any of the waste minimisation ideas proposed (as detailed on page 6 of the Consultation Document)? Tick all that you support otherwise leave all blank **Providing recycling station in urban areas, Encouraging food composting**

Q15 Do you have any other comments you would like to make on the proposed ideas above or any other ideas about what Council could do to help the district send less waste to landfill?

Respondent skipped this question

Page 9: Discussion Topic 5: Building Capability

Q16 What do you think about Council's proposal to build the organisation's capability and improve delivery of services?

I think the problem is we have too many councils anyway in the Wairarapa generally.

Page 10: Other Feedback

Q17 Do you have any other feedback for the Annual Plan 2020/21?

The council needs to be responsible for ratepayer funds. We cannot afford the investment in the Greytown Sports and Recreation Hub. We already have a Featherston sports field with all weather tennis courts.

Page 7: Discussion Topic 3: Land Transport

Q12 What do you think about Council's proposals for land transport (page 5 of the Consultation Document)? Should we be doing more to promote walking and cycling in the district?

Absolutely. More footpaths required for one along semi-rural roads

Page 8: Discussion Topic 4: Waste Minimisation

Q13 Do you think it is important for Council to develop a Waste Minimisation Action Plan? **Yes**

Q14 Do you support any of the waste minimisation ideas proposed (as detailed on page 6 of the Consultation Document)? Tick all that you support otherwise leave all blank

Moving to a more user pays model, i.e. increasing the cost of council rubbish bags
 ,
Providing recycling station in urban areas,
Encouraging food composting

Q15 Do you have any other comments you would like to make on the proposed ideas above or any other ideas about what Council could do to help the district send less waste to landfill?

Definitely composting / green waste solutions. Such a large component of household waste. Or perhaps subsidising home compost bins?

Page 9: Discussion Topic 5: Building Capability

Q16 What do you think about Council's proposal to build the organisation's capability and improve delivery of services?

Sure, sounds good

Q2 Do you think it's important for Council to develop a Water Conservation Action Plan? **Yes**

Q3 Do you support any of the proposed water resilience actions (as detailed on page 3 of the Consultation Document)? Tick all that you support otherwise leave all blank

Offering subsidised water tanks, at cost, paid back over a period of time

Requiring new builds to have their own water storage solution

Q4 Do you have any other comments you would like to make on the actions proposed above or have any other ideas for the Action Plan? **Respondent skipped this question**

Page 3: Discussion Topic 2A: Continue extended hours for swimming pools

Q5 Do you agree that we should continue to trial extended swimming pool hours next summer (i.e. longer hours in evenings and on weekends)? Current year's opening hours are available here <https://www.swdc.govt.nz/swimming-pools>. **Yes**

Q6 Why is this?

Maximise recreational opportunity

Page 4: Discussion Topic 2B: Greytown Sports and Recreation Hub

Q7 Do you think that the Council should provide more space for sports and recreation in Greytown? **Yes**

Q8 Do you support funding for the Greytown Sports and Recreation Hub proposal (as detailed on page 4 of the Consultation Document)? **Yes**

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9 Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

Minimise housing density near the middle of the town and make community recreational space available

Page 6: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q10 As you selected 'Partial' because you support funding for parts of the proposal, but not all, tick all the parts that you support **Respondent skipped this question**

Q11 Why is this? **Respondent skipped this question**

Page 7: Discussion Topic 3: Land Transport

Q12 What do you think about Council's proposals for land transport (page 5 of the Consultation Document)? Should we be doing more to promote walking and cycling in the district?

Retain the rural experience - do not introduce more footpaths as this encourages higher speeding vehicles

Page 8: Discussion Topic 4: Waste Minimisation

Q13 Do you think it is important for Council to develop a Waste Minimisation Action Plan? **Yes**

Q14 Do you support any of the waste minimisation ideas proposed (as detailed on page 6 of the Consultation Document)? Tick all that you support otherwise leave all blank **Providing recycling station in urban areas**

Q15 Do you have any other comments you would like to make on the proposed ideas above or any other ideas about what Council could do to help the district send less waste to landfill?

Promote green waste collection at the gate

Page 9: Discussion Topic 5: Building Capability

Q16 What do you think about Council's proposal to build the organisation's capability and improve delivery of services?

Make your council consenting processes more facilitative and less obstructionist. Be reasonable in the application of the Building Code

Page 10: Other Feedback

Q1 Do you agree that the water supply should be Council's main focus next year? **Yes**

Q2 Do you think it's important for Council to develop a Water Conservation Action Plan? **Yes**

Q3 Do you support any of the proposed water resilience actions (as detailed on page 3 of the Consultation Document)? Tick all that you support otherwise leave all blank **Requiring new builds to have their own water storage solution**

Q4 Do you have any other comments you would like to make on the actions proposed above or have any other ideas for the Action Plan?

No more developments until water quality and supply issues solved. More developments only build problems for the future

Page 3: Discussion Topic 2A: Continue extended hours for swimming pools

Q5 Do you agree that we should continue to trial extended swimming pool hours next summer (i.e. longer hours in evenings and on weekends)? Current year's opening hours are available here <https://www.swdc.govt.nz/swimming-pools>. **No**

Q6 Why is this?

If residents fail to be attracted by current opening hours, why extend them.

Costs of labour will increase exponentially due to a need for overtime. Also, where are the additional trained lifeguards coming from.

Page 4: Discussion Topic 2B: Greytown Sports and Recreation Hub

Q7 Do you think that the Council should provide more space for sports and recreation in Greytown? **Yes**

Q8 Do you support funding for the Greytown Sports and Recreation Hub proposal (as detailed on page 4 of the Consultation Document)? **Yes**

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9 Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

Greytown sport benefits whole community, health and mental well being.

Page 6: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Page 7: Discussion Topic 3: Land Transport

Q12 What do you think about Council's proposals for land transport (page 5 of the Consultation Document)? Should we be doing more to promote walking and cycling in the district?

Improvements can only benefit residents and tourism. But we don't need the PC solutions of Masterton or Wellington's Oriental Parade.

Page 8: Discussion Topic 4: Waste Minimisation

Q13 Do you think it is important for Council to develop a Waste Minimisation Action Plan? **Yes**

Q14 Do you support any of the waste minimisation ideas proposed (as detailed on page 6 of the Consultation Document)? Tick all that you support otherwise leave all blank

- Moving to a more user pays model, i.e. increasing the cost of council rubbish bags**
- ,
- Providing a wheelie bin for general rubbish, paid for through rates**
- ,
- Providing recycling station in urban areas,**
- Encouraging food composting**

Q15 Do you have any other comments you would like to make on the proposed ideas above or any other ideas about what Council could do to help the district send less waste to landfill?

With composting, residents need some council guidance. cf John Rhodes letter to the Wairarapa Times Age.

Page 9: Discussion Topic 5: Building Capability

Q16 What do you think about Council's proposal to build the organisation's capability and improve delivery of services?

Council needs to do a cost benefit analysis of all the services

Page 10: Other Feedback

Q17 Do you have any other feedback for the Annual Plan 2020/21?

Legislate (If possible) that all new developments should be responsible for all service infrastructures before plots sold. Cannot see why developers should not finance all wastewater and sewage plants themselves or pay council to expand the Wellington Water plants to cover the increased demand. This is what happens in the UK.

Submission to Annual Plan

On 19 February 2020 I made a submission to the meeting of the Assets and Services Committee of the SWDC, regarding the issue of water shortage in The Wairarapa as a problem that is only going to get worse with the increasing numbers of people moving to our region. I submitted a proposal that all new builds and major renovations to existing builds have a requirement, as part of the building consent process, that they must install and connect to their own water tanks and grey water systems. This is in direct response to this summer, just gone, with the need to restrict water to existing houses in the whole of the Wairarapa.

While my submission was to the South Wairarapa District Council Services and Assets Committee, I believe this is an issue that does and will continue to affect the whole of the Wairarapa.

The response to my submission appeared to be that this could not be legislated but that it could be addressed using the Resource Consent process. This is what I understood from the Councilors at the meeting of the Services and Assets Committee of the South Wairarapa District Council.

As water is the most important resource we have and supply has already become an issue with current population numbers in the South Wairarapa, I would like to know what action has been taken regarding this issue. (I am aware that we have had the Covid-19 issue to deal with. The meeting on 8 April 2020 was cancelled as a result of the Covid-19. However, Covid-19 was not an issue at the time I made the submission, and did not come into effect until a little while after the meeting.)

Through discussing this idea with other members of the community, I have discovered that Kāpiti Coast District Council has had both water tanks and grey water systems implemented as necessary items for all new developments. This shows that in order to solve the issue of water shortage, it is not necessary for South Wairarapa District Council to “re-invent the wheel”. By simply looking to how other communities have approached similar issues we can see what has been able to be implemented and what strategies have worked.

Please see below, excerpts from the Kāpiti Coast District Councils requirements for new developments from their website, along with the URLs that they came from.

<https://www.kapiticoast.govt.nz/your-council/planning/building/building-consent-guidelines/>

Water Management

Council requires all new homes to install a greywater system and/or a rainwater storage tank. Rainwater would be used for toilet flushing and outdoor water uses while greywater from the washing machine and bathroom would be used for outdoor irrigation. Council developed the Rainwater and Greywater Guidelines to help residents, building industry and real estate industry understand the rainwater and greywater requirements when building (or selling) a new compliant home.

To access the document, go [here](#)

Tank options:

Council has developed performance standards for two acceptable water management solutions:

1. 10,000 litre tank connected to toilet and outdoors

Suitable for properties with plants suited to Kāpiti conditions and want water to wash the house and car.

2. 4000 litre rain tank and greywater diversion

A greywater system provides a constant supply of water for outdoor irrigation - Council only permit's systems that allow outdoor irrigation.

<https://www.kapiticoast.govt.nz/services/a-z-council-services-and-facilities/water/water-conservation/water-retrofit-service/>

Water retrofit service

Helping make saving water affordable

During the summer months, outdoor water use (washing cars or boats, watering the garden or lawn) puts a lot of demand on our water supplies.

Kāpiti Coast District Council supports the use of rainwater and greywater for outdoor irrigation. If enough households use on-site water sources for outdoor irrigation, our current supplies will meet the needs of our growing communities for years to come.

In 2008, Council required new households in urban areas to install on-site supplies for toilet flushing and outdoor uses. However, for homes built before 2008, there has been low uptake of on-site systems (rainwater or greywater systems). One reason is the upfront cost, the other is there is no financial benefit for them to do so. A house that invests in an on-site system has to pay the same water rates as an existing household with no system.

To address the cost barrier Council offers the Water Retrofit Service to help make installing an on-site non-potable supply more affordable.

Households eligible for funding

The funding is available for households on the Kāpiti Coast where the house:

- in urban areas was built before February 2008
- receives unrestricted potable water
- has a good rate payment history.

The applicant must be the registered property owner - named on the Title.

Application process

Council will visit your property, explain how the funding works and the responsibilities - yours and ours. A copy of the application form is available for download or print below.

Q6 Why is this? **Respondent skipped this question**

 Page 4: Discussion Topic 2B: Greytown Sports and Recreation Hub

Q7 Do you think that the Council should provide more space for sports and recreation in Greytown? **Yes**

Q8 Do you support funding for the Greytown Sports and Recreation Hub proposal (as detailed on page 4 of the Consultation Document)? **Yes**

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9 Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

The Wairarapa Spitfires Baseball Club Incorporated (The Spitfires) support the funding for the Greytown Sports and Recreation Hub proposal, under section 2B of the annual plan consultation document.

Over the last three (3) years, The Spitfires has established a new Code for the youth of the Wairarapa. The game of baseball is played on fields of varying size depending on the age of the players. Due to the lack of Council owned land in Greytown with the space we require and Memorial Park being used by other codes in the summer months, The Spitfires have made a temporary home at Kuranui College. However, the space allocated at Kuranui is no longer adequate and unsafe for our members as they get older and move through the age grades. Currently we are unable to host teams in the Wellington Baseball U16 competition and our Members travel to Wellington or Levin every Sunday.

FYI, all grades under 13 and below use a softball sized diamond and outfield (60ft (18m) base paths and outfield fence up to 250ft (75-80m), whereas players aged 14 and older use a full size baseball diamond and outfield (90ft (27-28m) base paths and outfield fence up to 400ft(121m). Having the extra ground and the ability to build a decent facility will give the club a more sustainable base, by providing the sport at every level from beginner through to adult.

To be able to play baseball for any age group over 13 years old, we need 11,000 Sqm of land for a full size diamond and field. We also need to be able to erect proper netting, backstops and safety nets to protect players, spectators and passing vehicles from flying, hard baseballs.

The Rugby Club grounds is the perfect location for The Spitfires to set up a permanent home for our members. It will enable us to grow our club. It will enable us to Host clubs from other regions. Combined with our Kuranui Field it would enable us to Host National tournaments, and bring people into our community.

We also recognise that once this space is gone and it is lost forever, our need for an increased space will not go away, and regardless of the outcome we will need the help of the SWDC to identify and provide space for us to play that meets the needs and requirements of the game we have introduced to our community.

Thankyou for considering our submission

Q9 Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

The gym at Kuranui is not full size so, not only is it not adequate for basketball training and games, but all other courts within it are also too small as well eg badminton, volleyball and futsal - all new emerging sports in which there is increased popularity and need. Having everything in one area would be fantastic and the community would benefit from extra and better competitions that a larger gym and sports fields would allow.

Q9 Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

I would hate to see our valuable recreational spaces become more properties that our current town infrastructure cannot support. While I see merit in exploring all the avenues, its our job as parents and locals to make sure our children, and ourselves, have accessible recreational space.

Page 7: Discussion Topic 3: Land Transport

Q12 What do you think about Council's proposals for land transport (page 5 of the Consultation Document)? Should we be doing more to promote walking and cycling in the district?

Given you already pay for 2 people to be working towards better trails throughout the wairarapa, yes, let them do their jobs well, and show what our region can have, v's talking a lot about what would be "nice to have"

Page 8: Discussion Topic 4: Waste Minimisation

Q13 Do you think it is important for Council to develop a Waste Minimisation Action Plan? **Yes**

Q14 Do you support any of the waste minimisation ideas proposed (as detailed on page 6 of the Consultation Document)? Tick all that you support otherwise leave all blank

- Moving to a more user pays model, i.e. increasing the cost of council rubbish bags**
- Providing recycling station in urban areas,**
- Encouraging food composting,**
- Reducing the availability of Council agendas and papers at meetings**

Q15 Do you have any other comments you would like to make on the proposed ideas above or any other ideas about what Council could do to help the district send less waste to landfill?

How about really thinking outside the square and making some money - by starting a commercial composting centre, rather than having to have it sent to Wellington - the initial set up cost would be more than outweighed by the carbon saved by not transporting commercially compostable waste, the flow on effect, and potential circular economy is incredible.. If a stadium in Auckland can make it work, a District should be able to make it work, and pay for its self too! (also ties in nicely with having our fabulous Climate Change coordinator.)

Page 9: Discussion Topic 5: Building Capability

Q16 What do you think about Council's proposal to build the organisation's capability and improve delivery of services?

I think, if a comparison was done across all 3 Wairarapa Councils, the capability and services of SWDC would be well below Masterton, and without doubt, very much below Carterton.

Anything you can do to improve your very slack, dated, bureaucracy driven services where its never anyone's responsibility - and even once its found out who's it is, they can very easily pretend it doesn't exist because no one is checking up on them, would be welcomed by every rate payer, who has ever had to deal with many of your workforce.

Page 10: Other Feedback

Q17 Do you have any other feedback for the Annual Plan 2020/21?

I don't think given your current state of service doubling your building and planning fees is going to be taken well, with double the cost, there had best be a quicker turn around, a person responsible, and someone to go to when they let the rate payer down.

 Page 2: Discussion Topic 1: Water Supply and Water Resilience

Q1 Do you agree that the water supply should be Council's main focus next year? **Yes**

Q2 Do you think it's important for Council to develop a Water Conservation Action Plan? **Yes**

Q3 Do you support any of the proposed water resilience actions (as detailed on page 3 of the Consultation Document)? Tick all that you support otherwise leave all blank

Reducing the water allowance per property,
Offering subsidised water tanks, at cost, paid back over a period of time
 ,
Requiring new builds to have their own water storage solution
 ,
Installing smart meters to monitor water consumption and leaks

Q4 Do you have any other comments you would like to make on the actions proposed above or have any other ideas for the Action Plan?

Regarding new builds - there needs to be a minimum sized water tank requirement LARGER than the 200L. Just need to get on with the Featherston WWTP Consent - make it happen. DO NOT get rid of the meter leakage write-off policy.

 Page 3: Discussion Topic 2A: Continue extended hours for swimming pools

Q5 Do you agree that we should continue to trial extended swimming pool hours next summer (i.e. longer hours in evenings and on weekends)? Current year's opening hours are available here <https://www.swdc.govt.nz/swimming-pools>. **Yes**

Q6 Why is this?

Great facility for community which fits better with the trains.

Page 4: Discussion Topic 2B: Greytown Sports and Recreation Hub

Q7 Do you think that the Council should provide more space for sports and recreation in Greytown? **No**

Q8 Do you support funding for the Greytown Sports and Recreation Hub proposal (as detailed on page 4 of the Consultation Document)? **No**

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9 Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

College gym is MoE responsibility NOT local council - we cannot afford this with such a small rate base. Greytown does not need multiple sporting complexes, council needs to funnel their funding/resource into getting maximum output from their existing assets. This needs to have rigorous review against all sporting facilities in the SWDC NOT just Greytown. Featherston, for example, has more young families that would benefit from an upgraded facility. Greytown demographics no longer suit the need for so many sporting facilities. Council NEEDS to ensure appropriate maintenance funding for their existing facilities AND NOT let these drop into disrepair.

Page 6: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q10 As you selected 'Partial' because you support funding for parts of the proposal, but not all, tick all the parts that you support **Respondent skipped this question**

Q11 Why is this? **Respondent skipped this question**

Page 7: Discussion Topic 3: Land Transport

Q12 What do you think about Council's proposals for land transport (page 5 of the Consultation Document)? Should we be doing more to promote walking and cycling in the district?

SWDC needs to promote these better

Page 8: Discussion Topic 4: Waste Minimisation

Q13 Do you think it is important for Council to develop a Waste Minimisation Action Plan? **Yes**

Q14 Do you support any of the waste minimisation ideas proposed (as detailed on page 6 of the Consultation Document)? Tick all that you support otherwise leave all blank

Moving to a more user pays model, i.e. increasing the cost of council rubbish bags

Providing recycling station in urban areas,

Reducing the availability of Council agendas and papers at meetings

Q15 Do you have any other comments you would like to make on the proposed ideas above or any other ideas about what Council could do to help the district send less waste to landfill?

Council needs an educational package (on website?) to educate ratepayers on waste minimalisation; recycling, rubbish and composting. This could also consist of annual community workshops (well promoted) and flyers etc. Unsure how to deal with the private companies offering 'cheap' rubbish wheelie bins which are becoming popular in community BUT they encourage increased rubbish/waste.

Page 9: Discussion Topic 5: Building Capability

Q16 What do you think about Council's proposal to build the organisation's capability and improve delivery of services?

Wellington Water was the best thing SWDC have done to work towards water services improvement. SWDC does need a new building that promotes its vision, leads by example, environmentally and energy efficient, iwi and culturally relevant.

Page 10: Other Feedback

Q17 Do you have any other feedback for the Annual Plan 2020/21?

Our household supports justified areas where rates are required to be increased, even with Covid-19. Council however does need to be mindful that some households may find it difficult to keep up with the payment of their rates and develop a couple of simple strategies to deal with this.

Q4 Do you have any other comments you would like to make on the actions proposed above or have any other ideas for the Action Plan?

This needs to be our main focus, as the South Wairarapa is growing. The more people we have the more we need amenities to be upgraded and maintained.

 Page 3: Discussion Topic 2A: Continue extended hours for swimming pools

Q5 Do you agree that we should continue to trial extended swimming pool hours next summer (i.e. longer hours in evenings and on weekends)? Current year's opening hours are available here <https://www.swdc.govt.nz/swimming-pools>. **Yes**

Q6 Why is this?

Great for the health and well being of our community and it is a lot hotter in the evenings during summer months.

Page 4: Discussion Topic 2B: Greytown Sports and Recreation Hub

Q7 Do you think that the Council should provide more space for sports and recreation in Greytown? **No**

Q8 Do you support funding for the Greytown Sports and Recreation Hub proposal (as detailed on page 4 of the Consultation Document)? **No**

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9 Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

When the South Wairarapa Councils amalgamated the reason for this was to save costs, thereby sharing facilities. There is a South Wairarapa Stadium in Featherston, which needs to be maintained and is good enough to be shared with other South Wairarapa towns. This facility was used in the past for basketball, volleyball, badminton, football and netball training. There is no reason the SWDC cannot fix this facility up to be used again today. We would love to see the floor in this stadium fixed to suit playing sports and a netball court marked out with netball posts for training. This would be used by the senior and juniors for training. This would save a lot of cost. The Featherston Rugby Club are currently setting up a Sports Hub which includes, rugby, netball, cricket, football, athletics and there is more codes to be involved. Due to the lockdown they were not able to hold any fundraisers this year, but they have been fundraising during November & December 2019 and January to early March 2020. There were also booked events at the Featherston Sports Hub for 2020 e.g., Booktown x 3 events, The Robert Algie Memorial Trust fundraiser and bookings for special occasions.

There is no reason that Greytown Rugby Club and Greytown Bowling Club have not fundraised in the years they knew that the Greytown Trust was going to sell off the green spaces. I believe every town needs sports but not at the cost of the rate payer. Featherston Sports Hub has not asked SWDC for any money to setting up their hub, as they have continued to fundraise for their hub. At the end of the day you would feel a lot better knowing you worked for what you want and not asked for a hand out.

The other issue is the Tararua Junction Reserve was sold a few years ago by SWDC for \$1.5 million, which belonged to Greytown, what has happened to that money? This should go towards the buying of the rugby fields in Greytown or their sports hub and the rest can come from the Parks & Reserves funding. The Reserves which belong to Featherston and Martinborough are owned by Featherston and Martinborough, the Borough Councils were clever and kept the reserves, however Greytown did not foresee the future of retail and decided to sell their green space. That is not the fault of the other two towns.

In the meantime Greytown Rugby and Bowling had better start fundraising or better still take the Greytown Trust to task over this.

I also believe that there are more important costs for SWDC, which is the water. COVID-19 is a huge issue and people have lost jobs, had decreased wages/salaries.

I think you need to sort these matters before a sports hub.

Page 6: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q10 As you selected 'Partial' because you support funding for parts of the proposal, but not all, tick all the parts that you support **Respondent skipped this question**

Q11 Why is this? **Respondent skipped this question**

Page 7: Discussion Topic 3: Land Transport

Q12 What do you think about Council's proposals for land transport (page 5 of the Consultation Document)? Should we be doing more to promote walking and cycling in the district?

I am all for walking and cycling but we also need to consider the motorists as well as the pedestrians on the footpaths. As for the cycle paths I wouldn't take my bike on these they are uneven and too dangerous. Cyclists don't always follow the rules to bike in a line. This makes it even harder.

Page 8: Discussion Topic 4: Waste Minimisation

Q13 Do you think it is important for Council to develop a Waste Minimisation Action Plan? **Yes**

Q14 Do you support any of the waste minimisation ideas proposed (as detailed on page 6 of the Consultation Document)? Tick all that you support otherwise leave all blank **Providing recycling station in urban areas, Encouraging food composting**

Q15 Do you have any other comments you would like to make on the proposed ideas above or any other ideas about what Council could do to help the district send less waste to landfill?

I truly think that the cost of dumping rubbish is far too expensive, hence the reason there is people dumping their rubbish anywhere and not at the tip. Need to encourage people to dump rubbish at the tip and if it is too costly they will not be able to afford this. Some say it is either food on the table or dump rubbish? Not sure how this could be done.

Page 9: Discussion Topic 5: Building Capability

Q16 What do you think about Council's proposal to build the organisation's capability and improve delivery of services?

Highly needed

Page 7: Discussion Topic 3: Land Transport

Q12 What do you think about Council's proposals for land transport (page 5 of the Consultation Document)? Should we be doing more to promote walking and cycling in the district?

Yes, in particular walking. Many roads are too narrow and dangerous for increased biking.

Foot paths in Greytown are not in great condition. When paths are damaged by new building etc those responsible should be made to pay for that damage. There are many instances of this. Cracked and broken paths after building.

Page 8: Discussion Topic 4: Waste Minimisation

 Page 4: Discussion Topic 2B: Greytown Sports and Recreation Hub

Q7 Do you think that the Council should provide more space for sports and recreation in Greytown? **Yes**

Q8 Do you support funding for the Greytown Sports and Recreation Hub proposal (as detailed on page 4 of the Consultation Document)? **Yes**

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9 Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

There is a shortage of recreation space, and this will provide more opportunity for people to engage in a greater range of sport and recreation. Not only is this good for people's physical health, but also their mental wellbeing and connection to one another within the community.

Page 6: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q10 As you selected 'Partial' because you support funding for parts of the proposal, but not all, tick all the parts that you support

Respondent skipped this question

Q11 Why is this?

Q5 Do you agree that we should continue to trial extended swimming pool hours next summer (i.e. longer hours in evenings and on weekends)? Current year's opening hours are available here <https://www.swdc.govt.nz/swimming-pools>. **Yes**

Q6 Why is this?

Because it's so popular with young and old, and the good weather lasts so much longer than the current opening times.

Page 4: Discussion Topic 2B: Greytown Sports and Recreation Hub

Q7 Do you think that the Council should provide more space for sports and recreation in Greytown? **Yes**

Q8 Do you support funding for the Greytown Sports and Recreation Hub proposal (as detailed on page 4 of the Consultation Document)? **Yes**

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9 Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

Because Greytown lacks what it needs for sport and recreation - as an independent town and in comparison to other towns in the South Wairarapa.

The proposal means the current rugby club land will be open for general community use in the same way that Soldiers' Memorial Park is used.

For the land and facilities that the rugby club currently uses. Junior Football will be able to use this for festivals, the Skills Centre and have a permanent home with storage. Greytown Football Club will be able to use the lights to train during the winter. Baseball will use it in the summer and be able to extend to have adult competitions. The community gym will be housed in the facility. Netball and hockey can use it as clubrooms. Then there is the development for seniors recreation, the potential for a skate park and outdoor exercise equipment. Furthermore the club rooms will be able to be used for hosting community events and running fitness classes for all age groups.

Under council ownership it will now mean the whole community can use the spaces and multiple clubs will benefit. It will be run on the same basis that the pavilion is run for football swimming and cricket.

It's a win for the short term and the long-term in Greytown and the South Wairarapa.

Page 2: Discussion Topic 1: Water Supply and Water Resilience

Q1 Do you agree that the water supply should be Council's main focus next year? **No**

Q2 Do you think it's important for Council to develop a Water Conservation Action Plan? **No**

Q3 Do you support any of the proposed water resilience actions (as detailed on page 3 of the Consultation Document)? Tick all that you support otherwise leave all blank

Requiring new builds to have their own water storage solution
Installing smart meters to monitor water consumption and leaks

Q4 Do you have any other comments you would like to make on the actions proposed above or have any other ideas for the Action Plan? **Respondent skipped this question**

Page 3: Discussion Topic 2A: Continue extended hours for swimming pools

Q5 Do you agree that we should continue to trial extended swimming pool hours next summer (i.e. longer hours in evenings and on weekends)? Current year's opening hours are available here <https://www.swdc.govt.nz/swimming-pools>. **Yes**

Q6 Why is this?

Lovely for families and everyone in the community to be able to make the most out of our stunning summers.

Page 4: Discussion Topic 2B: Greytown Sports and Recreation Hub

Q7 Do you think that the Council should provide more space for sports and recreation in Greytown? **No**

Q8 Do you support funding for the Greytown Sports and Recreation Hub proposal (as detailed on page 4 of the Consultation Document)? **Yes**

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9 Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

Sport is such an amazing part of every community. I can't imagine a town without it, it's a place community come together as one to support and encourage one another. Why would you want to end that?

Page 6: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q10 As you selected 'Partial' because you support funding for parts of the proposal, but not all, tick all the parts that you support **Respondent skipped this question**

Q11 Why is this? **Respondent skipped this question**

Q4 Do you have any other comments you would like to make on the actions proposed above or have any other ideas for the Action Plan?

This is good idea for better water supply, is it going to be better for you health wise. Another question ,why is it that Greytown, Carterton, Masterton & Martinborough, have all been done up cafe's ,bar's ,hotel's, restaurant's, etc when the gateway to the Wairarapa from the Rimutaka has had nothing done to it ...shame ..it seem's like the forgotten ghost town. Come on council wake up.

Page 7: Discussion Topic 3: Land Transport

Q12 What do you think about Council's proposals for land transport (page 5 of the Consultation Document)? Should we be doing more to promote walking and cycling in the district?

The current proposal is adequate but we don't need to do any more than that.

Page 8: Discussion Topic 4: Waste Minimisation

Q13 Do you think it is important for Council to develop a Waste Minimisation Action Plan? **Yes**

Q14 Do you support any of the waste minimisation ideas proposed (as detailed on page 6 of the Consultation Document)? Tick all that you support otherwise leave all blank

Moving to a more user pays model, i.e. increasing the cost of council rubbish bags
,

Providing recycling station in urban areas,

Reducing the availability of Council agendas and papers at meetings

Q15 Do you have any other comments you would like to make on the proposed ideas above or any other ideas about what Council could do to help the district send less waste to landfill?

Please make this a user pays system and include as little possible in rates. It's not fair for some to subsidise others. It's the same deal as water usage, make that as much user pays as is practical.

Page 9: Discussion Topic 5: Building Capability

Q16 What do you think about Council's proposal to build the organisation's capability and improve delivery of services?

Good

Page 10: Other Feedback

Q17 Do you have any other feedback for the Annual Plan 2020/21?

Keen to see further emphasis on user pays systems to further incentivise behaviour change.

No

Page 3: Discussion Topic 2A: Continue extended hours for swimming pools

Q5 Do you agree that we should continue to trial extended swimming pool hours next summer (i.e. longer hours in evenings and on weekends)? Current year's opening hours are available here <https://www.swdc.govt.nz/swimming-pools>. **Yes**

Q6 Why is this?

More people may use it

Page 4: Discussion Topic 2B: Greytown Sports and Recreation Hub

Q7 Do you think that the Council should provide more space for sports and recreation in Greytown? **Yes**

Q8 Do you support funding for the Greytown Sports and Recreation Hub proposal (as detailed on page 4 of the Consultation Document)? **Yes**

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9 Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

It is important to retain the land that community groups use.

Page 6: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q10 As you selected 'Partial' because you support funding for parts of the proposal, but not all, tick all the parts that you support **Respondent skipped this question**

Q11 Why is this? **Respondent skipped this question**

Page 7: Discussion Topic 3: Land Transport

Q12 What do you think about Council's proposals for land transport (page 5 of the Consultation Document)? Should we be doing more to promote walking and cycling in the district?

Ok

Page 8: Discussion Topic 4: Waste Minimisation

Q13 Do you think it is important for Council to develop a Waste Minimisation Action Plan? **Yes**

Q14 Do you support any of the waste minimisation ideas proposed (as detailed on page 6 of the Consultation Document)? Tick all that you support otherwise leave all blank **Moving to a more user pays model, i.e. increasing the cost of council rubbish bags**, **Encouraging food composting**

Q15 Do you have any other comments you would like to make on the proposed ideas above or any other ideas about what Council could do to help the district send less waste to landfill?

No

Page 9: Discussion Topic 5: Building Capability

Q16 What do you think about Council's proposal to build the organisation's capability and improve delivery of services?

Good

Page 10: Other Feedback

Q17 Do you have any other feedback for the Annual Plan 2020/21?

No

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9 Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

Why would you take away something that is truly LOCAL FOR LOCALS , families and children for housing?? Build houses for people but no where for them to exercise or play sport! That is not what greytown is about. We are about community. The rugby club is a back bone of that! For generations. Keep the rugby club. We are a town/ village... lets keep it this way... we are not Wellington! We are for locals.

Page 6: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9 Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal **Respondent skipped this question**

Page 6: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q10 As you selected 'Partial' because you support funding for parts of the proposal, but not all, tick all the parts that you support **Purchase of the Rugby Club land, Purchase of the Bowling Club land**

Q11 Why is this?

The Government should be paying to upgrade the School not the ratepayers. As a previous ratepayer in Masterton I remember the building of a huge new Hall at Wairarapa College being sold as a community facility, available for all to use, and therefore getting funding because of this. In reality whenever the hall was required for an outside group it was always not available, or only for part of the time as the Schools needs always took priority, especially for straight after School bookings. The money will be taken, promises made and then it won't work out as thought. It is not the ratepayers job to improve the School and I strongly believe it can not become a full Fit for purpose facility as suggested. The Rugby Club is the second oldest in NZ and has so much history in East Street, the Council should utilise the funds from selling the land now known as Tararua Junction along with Parks and Recreational contributions it has collected from many recent subdivisions in Greytown and purchase the Rugby Club grounds. Provide something for generations to come, and carry on the history. Schools are Schools not the place for rugby clubs, along with the celebrations and moderate alcohol consumption and smoking that go hand in hand with this.

The Council has robbed the town of a fabulous green space by selling the land known as Tararua Junction, let's do something to put some of this unfortunate deal right in the town.

Once the rugby and bowling club land is sold there is no getting a green space back central to the town. A lot of people walk to the rugby club grounds, putting it at the South End of town would create more congestion, on a main thoroughfare to Martinborough. The Five Rivers Medical Facility is also right by the College.

We have a wonderful opportunity to enhance our town and keep some of its History intact, is this not partly what we sell Greytown as a draw card for tourists??

Page 7: Discussion Topic 3: Land Transport

Q12 What do you think about Council's proposals for land transport (page 5 of the Consultation Document)? Should we be doing more to promote walking and cycling in the district?

There are more and more cycles using the Rail Trail for example, the path is not wide enough to accomodate this so better planning, and maybe two separate paths need to be made. There is all this use this facility advertising but the reality is they have not been designed the the volumes of people now using them. Once the bridge goes over the River this will compound the issue more. The town centre has no bike racks..... why not?

Page 8: Discussion Topic 4: Waste Minimisation

Q13 Do you think it is important for Council to develop a Waste Minimisation Action Plan? **No**

Q14 Do you support any of the waste minimisation ideas proposed (as detailed on page 6 of the Consultation Document)? Tick all that you support otherwise leave all blank **Moving to a more user pays model, i.e. increasing the cost of council rubbish bags**

Q15 Do you have any other comments you would like to make on the proposed ideas above or any other ideas about what Council could do to help the district send less waste to landfill?

The transfer station in Cotter Street needs to be used as what it was intended for a transfer station. The green waste is left to build up there for so long it turns to soil. It stinks. There are often rats and rabbits visible running out and across 5e rail trail path. The stench and flies on hot days is quite strong. All this whilst selling the rail trail as a fantastic destination. Let's finish some of these projects and do them well. The town needs a transfer station but look after it better, vermin is not a good look, never mind the smell. Perhaps it is also time to look at moving the transfer station to somewhere not so public and given that it is busier with the increase in population, so more stuff being dumped??

Page 9: Discussion Topic 5: Building Capability

Q16 What do you think about Council's proposal to build the organisation's capability and improve delivery of services?

They need to be transparent as promised by so many in their election advertising. Stand up for what you were voted in for, some of gone with the status quo or lost their voice now around the Council table

Page 10: Other Feedback

Q17 Do you have any other feedback for the Annual Plan 2020/21?

Let your ratepayers have a say of more than 5 minutes, and give the Community Board a stronger voice, and listen to them.

Q1 Do you agree that the water supply should be Council's main focus next year? **No**

Q2 Do you think it's important for Council to develop a Water Conservation Action Plan? **Yes**

Q3 Do you support any of the proposed water resilience actions (as detailed on page 3 of the Consultation Document)? Tick all that you support otherwise leave all blank

Offering subsidised water tanks, at cost, paid back over a period of time

Installing smart meters to monitor water consumption and leaks

Q4 Do you have any other comments you would like to make on the actions proposed above or have any other ideas for the Action Plan? **Respondent skipped this question**

Page 3: Discussion Topic 2A: Continue extended hours for swimming pools

Q5 Do you agree that we should continue to trial extended swimming pool hours next summer (i.e. longer hours in evenings and on weekends)? Current year's opening hours are available here <https://www.swdc.govt.nz/swimming-pools>. **Yes**

Q6 Why is this?

The facility is well used and provides somewhere for our youth to come together safely to spend their summer break

Page 4: Discussion Topic 2B: Greytown Sports and Recreation Hub

Q7 Do you think that the Council should provide more space for sports and recreation in Greytown? **Yes**

Q8 Do you support funding for the Greytown Sports and Recreation Hub proposal (as detailed on page 4 of the Consultation Document)? **Yes**

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9 Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

Just like the town pool everyone but especially our young people need to be encouraged to play sports to be healthy physically and mentally and having well maintained and safe facilities is essential for this.

Page 6: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q10 As you selected 'Partial' because you support funding for parts of the proposal, but not all, tick all the parts that you support **Respondent skipped this question**

Q11 Why is this? **Respondent skipped this question**

Page 7: Discussion Topic 3: Land Transport

Q12 What do you think about Council's proposals for land transport (page 5 of the Consultation Document)? Should we be doing more to promote walking and cycling in the district?

Yes

Page 8: Discussion Topic 4: Waste Minimisation

Q13 Do you think it is important for Council to develop a Waste Minimisation Action Plan? **Yes**

Q14 Do you support any of the waste minimisation ideas proposed (as detailed on page 6 of the Consultation Document)? Tick all that you support otherwise leave all blank

- Providing a wheelie bin for general rubbish, paid for through rates**
- Providing recycling station in urban areas,**
- Encouraging food composting,**
- Reducing the availability of Council agendas and papers at meetings**

Q15 Do you have any other comments you would like to make on the proposed ideas above or any other ideas about what Council could do to help the district send less waste to landfill?

When we lived in Canada our local council provided a fortnightly compost recycling bin which worked well to reduce household waste as it was easy to use

Page 9: Discussion Topic 5: Building Capability

 Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)
Q9 Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

I support this funding as it will continue to grow the ability of Greytown residents, both young and old, to have sustainable access to a wide range of sporting activities within the town they live. In these days of trying to ensure that children have as much easy access to sporting activities to keep them active and participating in local society, it is imperative we take every opportunity available to us to future proof that access. If Greytown Trust Lands continues down the path of selling off the greenspace i.e. Greytown Rugby grounds and the Bowling Club, it will be a sad day for both the generations who have gone before us and our future. Sport and leisure within our town is paramount to growing a socially linked and supportive community. Selling off community assets within our town is not the be all end all of our community. Thriving in a supportive, active society is !!!

 Page 2: Discussion Topic 1: Water Supply and Water Resilience

Q1 Do you agree that the water supply should be Council's main focus next year? **Yes**

Q2 Do you think it's important for Council to develop a Water Conservation Action Plan? **Yes**

Q3 Do you support any of the proposed water resilience actions (as detailed on page 3 of the Consultation Document)? Tick all that you support otherwise leave all blank

Offering subsidised water tanks, at cost, paid back over a period of time

Requiring new builds to have their own water storage solution

Q4 Do you have any other comments you would like to make on the actions proposed above or have any other ideas for the Action Plan?

For Martinborough, please do go and physically visit the old site up Dry River Road as a back up supply. All new builds to have a water tank installed.

 Page 3: Discussion Topic 2A: Continue extended hours for swimming pools

Q5 Do you agree that we should continue to trial extended swimming pool hours next summer (i.e. longer hours in evenings and on weekends)? Current year's opening hours are available here <https://www.swdc.govt.nz/swimming-pools>. **Yes**

Q6 Why is this?

its a great initiative and a family friendly activity

 Page 4: Discussion Topic 2B: Greytown Sports and Recreation Hub

Q7 Do you think that the Council should provide more space for sports and recreation in Greytown?

Respondent skipped this question

Q8 Do you support funding for the Greytown Sports and Recreation Hub proposal (as detailed on page 4 of the Consultation Document)?

Partial

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9 Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

Respondent skipped this question

Page 6: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q10 As you selected 'Partial' because you support funding for parts of the proposal, but not all, tick all the parts that you support

Respondent skipped this question

Q11 Why is this?

up tho grey town residents to decide what they want in their town, will support their decisions

Page 7: Discussion Topic 3: Land Transport

Q12 What do you think about Council's proposals for land transport (page 5 of the Consultation Document)? Should we be doing more to promote walking and cycling in the district?

Need to maintain the roads, the rural roads have had no maintenance on their water tables since Warren Buckridge passed away. The grader is not a substitute for a bucket....

Don't think that money needs to be wasted on promotion when people can make their own decisions where to walk and cycle , besides green cycle jerseys are doing the job for you

Page 8: Discussion Topic 4: Waste Minimisation

Q13 Do you think it is important for Council to develop a Waste Minimisation Action Plan?

Yes

Q14 Do you support any of the waste minimisation ideas proposed (as detailed on page 6 of the Consultation Document)? Tick all that you support otherwise leave all blank

Providing recycling station in urban areas

Q15 Do you have any other comments you would like to make on the proposed ideas above or any other ideas about what Council could do to help the district send less waste to landfill?

As per our previous submissions, create a recycling empire, example Wanaka waste busters and if the neighbouring councils won't come on board, take a leadership role and do it ourselves, obviously we have a problem. All you need is some shipping containers and a workforce and to really make it a success OPEN everyday.

Page 9: Discussion Topic 5: Building Capability

Q16 What do you think about Council's proposal to build the organisation's capability and improve delivery of services? **Respondent skipped this question**

Page 10: Other Feedback

Q17 Do you have any other feedback for the Annual Plan 2020/21?

Rural reserves need attention. Rural ratepayer pay for reserves and while we acknowledge that the square in martinborough is mowed and kept tidy the same cannot be said for our local reserves.

Q3 Do you support any of the proposed water resilience actions (as detailed on page 3 of the Consultation Document)? Tick all that you support otherwise leave all blank

Offering subsidised water tanks, at cost, paid back over a period of time

,

Installing smart meters to monitor water consumption and leaks

Q4 Do you have any other comments you would like to make on the actions proposed above or have any other ideas for the Action Plan?

A reduction in household water allowance should result in a cost reduction.

Page 3: Discussion Topic 2A: Continue extended hours for swimming pools

Q5 Do you agree that we should continue to trial extended swimming pool hours next summer (i.e. longer hours in evenings and on weekends)? Current year's opening hours are available here <https://www.swdc.govt.nz/swimming-pools>. **Yes**

Q6 Why is this?

Fits in with working families

Page 4: Discussion Topic 2B: Greytown Sports and Recreation Hub

Q7 Do you think that the Council should provide more space for sports and recreation in Greytown? **No**

Q8 Do you support funding for the Greytown Sports and Recreation Hub proposal (as detailed on page 4 of the Consultation Document)? **No**

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9 Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

It is not an essential service

Page 6: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q10 As you selected 'Partial' because you support funding for parts of the proposal, but not all, tick all the parts that you support **Respondent skipped this question**

Q11 Why is this? **Respondent skipped this question**

Page 2: Discussion Topic 1: Water Supply and Water Resilience

Q1 Do you agree that the water supply should be Council's main focus next year? **Yes**

Q2 Do you think it's important for Council to develop a Water Conservation Action Plan? **Yes**

Q3 Do you support any of the proposed water resilience actions (as detailed on page 3 of the Consultation Document)? Tick all that you support otherwise leave all blank **Respondent skipped this question**

Q4 Do you have any other comments you would like to make on the actions proposed above or have any other ideas for the Action Plan?

Dairy farmers should not be allowed to take as much as they currently do to the detriment of our waterways

Page 3: Discussion Topic 2A: Continue extended hours for swimming pools

Q5 Do you agree that we should continue to trial extended swimming pool hours next summer (i.e. longer hours in evenings and on weekends)? Current year's opening hours are available here <https://www.swdc.govt.nz/swimming-pools>. **Yes**

Q6 Why is this?

To gain better data and therefore a more informed decision

Page 4: Discussion Topic 2B: Greytown Sports and Recreation Hub

Q7 Do you think that the Council should provide more space for sports and recreation in Greytown? **Yes**

Q8 Do you support funding for the Greytown Sports and Recreation Hub proposal (as detailed on page 4 of the Consultation Document)? **Yes**

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9 Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal
Greytown is a unique place and sports grounds and recreational areas are an important part of rural life and well being

Page 6: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q10 As you selected 'Partial' because you support funding for parts of the proposal, but not all, tick all the parts that you support **Respondent skipped this question**

Q2 Do you think it's important for Council to develop a Water Conservation Action Plan? **Yes**

Q3 Do you support any of the proposed water resilience actions (as detailed on page 3 of the Consultation Document)? Tick all that you support otherwise leave all blank

Offering subsidised water tanks, at cost, paid back over a period of time

Requiring new builds to have their own water storage solution

Q4 Do you have any other comments you would like to make on the actions proposed above or have any other ideas for the Action Plan? **Respondent skipped this question**

Page 3: Discussion Topic 2A: Continue extended hours for swimming pools

Q5 Do you agree that we should continue to trial extended swimming pool hours next summer (i.e. longer hours in evenings and on weekends)? Current year's opening hours are available here <https://www.swdc.govt.nz/swimming-pools>. **Yes**

Q6 Why is this?

A lot of locals work out of the area so if opened later then that gives more opportunities for use.

Page 4: Discussion Topic 2B: Greytown Sports and Recreation Hub

Q7 Do you think that the Council should provide more space for sports and recreation in Greytown? **No**

Q8 Do you support funding for the Greytown Sports and Recreation Hub proposal (as detailed on page 4 of the Consultation Document)? **No**

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9 Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

I think the council should be focusing on infrastructure and trying to keep rate costs down. Maybe Greytown should be helping themselves, like fundraising like Featherston did for their grounds. How does grounds in Greytown help residents of Featherston and Martinborough?

Page 6: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q5 Do you agree that we should continue to trial extended swimming pool hours next summer (i.e. longer hours in evenings and on weekends)? Current year's opening hours are available here <https://www.swdc.govt.nz/swimming-pools>. **Yes**

Q6 Why is this?

People enjoy social gathering at pool brings communities together

 Page 4: Discussion Topic 2B: Greytown Sports and Recreation Hub

Q7 Do you think that the Council should provide more space for sports and recreation in Greytown? **Yes**

Q8 Do you support funding for the Greytown Sports and Recreation Hub proposal (as detailed on page 4 of the Consultation Document)? **No**

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9 Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

Because all sports do not belong together. Rugby club has been the rugby club for over 100 years. It is better to stay that way

Page 6: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q10 As you selected 'Partial' because you support funding for parts of the proposal, but not all, tick all the parts that you support **Respondent skipped this question**

Q11 Why is this? **Respondent skipped this question**

Page 7: Discussion Topic 3: Land Transport

Q12 What do you think about Council's proposals for land transport (page 5 of the Consultation Document)? Should we be doing more to promote walking and cycling in the district?

No we already have that in most towns . Greytown rail trail . Featherston one tree hill etc

Page 8: Discussion Topic 4: Waste Minimisation

Q13 Do you think it is important for Council to develop a Waste Minimisation Action Plan? **Yes**

Q14 Do you support any of the waste minimisation ideas proposed (as detailed on page 6 of the Consultation Document)? Tick all that you support otherwise leave all blank

- Moving to a more user pays model, i.e. increasing the cost of council rubbish bags**
- ,
- Providing a wheelie bin for general rubbish, paid for through rates**
- ,
- Providing recycling station in urban areas,**
- Encouraging food composting**

Q15 Do you have any other comments you would like to make on the proposed ideas above or any other ideas about what Council could do to help the district send less waste to landfill?

Compost bin sales for payback weekly and info on how to compost

Page 9: Discussion Topic 5: Building Capability

Q16 What do you think about Council's proposal to build the organisation's capability and improve delivery of services?

Crap

Page 10: Other Feedback

Q17 Do you have any other feedback for the Annual Plan 2020/21?

No

Page 2: Discussion Topic 1: Water Supply and Water Resilience

Q1 Do you agree that the water supply should be Council's main focus next year? **Yes**

Q2 Do you think it's important for Council to develop a Water Conservation Action Plan? **Yes**

Q3 Do you support any of the proposed water resilience actions (as detailed on page 3 of the Consultation Document)? Tick all that you support otherwise leave all blank

Offering subsidised water tanks, at cost, paid back over a period of time

Requiring new builds to have their own water storage solution

Q4 Do you have any other comments you would like to make on the actions proposed above or have any other ideas for the Action Plan? **Respondent skipped this question**

Page 3: Discussion Topic 2A: Continue extended hours for swimming pools

Q5 Do you agree that we should continue to trial extended swimming pool hours next summer (i.e. longer hours in evenings and on weekends)? Current year's opening hours are available here <https://www.swdc.govt.nz/swimming-pools>. **Yes**

Q6 Why is this?

Daylight saving gives better use at later hours

Page 4: Discussion Topic 2B: Greytown Sports and Recreation Hub

Q7 Do you think that the Council should provide more space for sports and recreation in Greytown? **Yes**

Q8 Do you support funding for the Greytown Sports and Recreation Hub proposal (as detailed on page 4 of the Consultation Document)? **Yes**

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9 Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

You fund every other town but Greytown. If Greytown doesn't receive funding the historic rugby grounds will be lost.

Page 6: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q10 As you selected 'Partial' because you support funding for parts of the proposal, but not all, tick all the parts that you support **Respondent skipped this question**

Q11 Why is this? **Respondent skipped this question**

Page 7: Discussion Topic 3: Land Transport

Q12 What do you think about Council's proposals for land transport (page 5 of the Consultation Document)? Should we be doing more to promote walking and cycling in the district?

Cycling tracks needed

Page 8: Discussion Topic 4: Waste Minimisation

Q13 Do you think it is important for Council to develop a Waste Minimisation Action Plan? **Yes**

Q14 Do you support any of the waste minimisation ideas proposed (as detailed on page 6 of the Consultation Document)? Tick all that you support otherwise leave all blank

Providing a wheelie bin for general rubbish, paid for through rates
Providing recycling station in urban areas,
Encouraging food composting

Q15 Do you have any other comments you would like to make on the proposed ideas above or any other ideas about what Council could do to help the district send less waste to landfill? **Respondent skipped this question**

Page 9: Discussion Topic 5: Building Capability

Q16 What do you think about Council's proposal to build the organisation's capability and improve delivery of services?

Good idea

 Page 2: Discussion Topic 1: Water Supply and Water Resilience

Q1 Do you agree that the water supply should be Council's main focus next year? **Yes**

Q2 Do you think it's important for Council to develop a Water Conservation Action Plan? **Yes**

Q3 Do you support any of the proposed water resilience actions (as detailed on page 3 of the Consultation Document)? Tick all that you support otherwise leave all blank

Reducing the water allowance per property,
Removing the Water by Meter Write-off Policy,
Offering subsidised water tanks, at cost, paid back over a period of time
 ,
Requiring new builds to have their own water storage solution

Q4 Do you have any other comments you would like to make on the actions proposed above or have any other ideas for the Action Plan?

Water should be a key focus of the council next year and the thinking around some of the above ideas is sound

 Page 3: Discussion Topic 2A: Continue extended hours for swimming pools

Q5 Do you agree that we should continue to trial extended swimming pool hours next summer (i.e. longer hours in evenings and on weekends)? Current year's opening hours are available here <https://www.swdc.govt.nz/swimming-pools>. **Yes**

Q6 Why is this?

We need to continue to offer things to do for our children over the summer and keep kids active. The pool is such a good activity and brings people together so I think it is worth the cost to increase opening hours

 Page 4: Discussion Topic 2B: Greytown Sports and Recreation Hub

Q7 Do you think that the Council should provide more space for sports and recreation in Greytown? **Yes**

Q8 Do you support funding for the Greytown Sports and Recreation Hub proposal (as detailed on page 4 of the Consultation Document)? **Yes**

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9 Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

Sth Wairarapa population is increasing and we have insufficient sports facilities and rounds to accommodate sport. The opportunity to invest in the Kuranui gym is a once in a lifetime one which will see rate payers and community benefit at relatively low investment from council. The development of the hub at the rugby club enables the council to secure future sport and recreation needs of their community

Page 6: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q10 As you selected 'Partial' because you support funding for parts of the proposal, but not all, tick all the parts that you support **Respondent skipped this question**

Q11 Why is this? **Respondent skipped this question**

Page 7: Discussion Topic 3: Land Transport

Q12 What do you think about Council's proposals for land transport (page 5 of the Consultation Document)? Should we be doing more to promote walking and cycling in the district?

Clearly this is a nationwide issue but yes any initiatives that promote walking and cycling and the obvious benefits eg less cars, less pollution and a more active and healthy community , is positive

Page 8: Discussion Topic 4: Waste Minimisation

Q13 Do you think it is important for Council to develop a Waste Minimisation Action Plan? **Yes**

Q14 Do you support any of the waste minimisation ideas proposed (as detailed on page 6 of the Consultation Document)? Tick all that you support otherwise leave all blank

Moving to a more user pays model, i.e. increasing the cost of council rubbish bags

Encouraging food composting,

Reducing the availability of Council agendas and papers at meetings

Q15 Do you have any other comments you would like to make on the proposed ideas above or any other ideas about what Council could do to help the district send less waste to landfill?

Respondent skipped this question

Page 9: Discussion Topic 5: Building Capability

Q16 What do you think about Council's proposal to build the organisation's capability and improve delivery of services?

Yes it is a good idea as it's necessary to continue to improve delivery of services

Page 7: Discussion Topic 3: Land Transport

Q12 What do you think about Council's proposals for land transport (page 5 of the Consultation Document)? Should we be doing more to promote walking and cycling in the district?

I agree with it, especially the walking and cycling plan. Yes, we should.

Page 8: Discussion Topic 4: Waste Minimisation

Q13 Do you think it is important for Council to develop a Waste Minimisation Action Plan? **Yes**

Q14 Do you support any of the waste minimisation ideas proposed (as detailed on page 6 of the Consultation Document)? Tick all that you support otherwise leave all blank

- Providing a wheelie bin for general rubbish, paid for through rates**
- Providing recycling station in urban areas,**
- Encouraging food composting,**
- Reducing the availability of Council agendas and papers at meetings**

Q15 Do you have any other comments you would like to make on the proposed ideas above or any other ideas about what Council could do to help the district send less waste to landfill?

The user pays model is one I disagree with - this could have a negative affect and force people that can't afford in to ditching rubbish. The wheelie bin for general rubbish, paid for through rates would be best.

Page 9: Discussion Topic 5: Building Capability

Q3 Do you support any of the proposed water resilience actions (as detailed on page 3 of the Consultation Document)? Tick all that you support otherwise leave all blank **Respondent skipped this question**

Q4 Do you have any other comments you would like to make on the actions proposed above or have any other ideas for the Action Plan? **Respondent skipped this question**

 Page 3: Discussion Topic 2A: Continue extended hours for swimming pools

Q5 Do you agree that we should continue to trial extended swimming pool hours next summer (i.e. longer hours in evenings and on weekends)? Current year's opening hours are available here <https://www.swdc.govt.nz/swimming-pools>. **Yes**

Q6 Why is this?

More families used the pool during these times

 Page 4: Discussion Topic 2B: Greytown Sports and Recreation Hub

Q7 Do you think that the Council should provide more space for sports and recreation in Greytown? **Yes**

Q8 Do you support funding for the Greytown Sports and Recreation Hub proposal (as detailed on page 4 of the Consultation Document)? **Yes**

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9 Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

Not enough green spaces already in Greytown and with an increasing population this will only be more of an issue

Page 6: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q10 As you selected 'Partial' because you support funding for parts of the proposal, but not all, tick all the parts that you support **Respondent skipped this question**

Q11 Why is this? **Respondent skipped this question**

Page 7: Discussion Topic 3: Land Transport

Q12 What do you think about Council's proposals for land transport (page 5 of the Consultation Document)? Should we be doing more to promote walking and cycling in the district?

Yes especially the next bridge and route from Greytown to Featherston

Page 8: Discussion Topic 4: Waste Minimisation

Q13 Do you think it is important for Council to develop a Waste Minimisation Action Plan? **Respondent skipped this question**

Q14 Do you support any of the waste minimisation ideas proposed (as detailed on page 6 of the Consultation Document)? Tick all that you support otherwise leave all blank **Providing recycling station in urban areas**

Q15 Do you have any other comments you would like to make on the proposed ideas above or any other ideas about what Council could do to help the district send less waste to landfill? **Respondent skipped this question**

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9 Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

I totally support the Greytown Sports & Recreation Hub.

Kuranui's gym is well overdue for an upgrade. A multi-sport facility makes complete sense. It will be a great enhancement to sport available at the college, hopefully enabling them to host more inter-college fixtures. A joint arrangement with the community is a practical use of this resource, benefiting both the College & the South Wairarapa Community.

Greytown's Green space needs protecting from over development. With more and more open space being devoured by housing and house sections seemingly shrinking our communities green spaces are absolutely vital for the mental & physical wellbeing of our residents, they must be protected along with our organised sports clubs. These clubs hold a lot of history for our town, generations of locals have worked tirelessly to ensure these clubs have been able to make sport available within our town. They have always drawn our community together. We cannot afford to lose any green space or sports facilities. Please protect them for our future generations

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9

Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

I support keeping the rugby grounds and bowling club and developing them further.

Please can the council purchase these sights so they remain in the public domain.

We do not want them sold for housing development.

Improvement to the rugby grounds to off a children's playground would be a great idea with more family moving into the area.

Maybe the tin fence could be removed and a more suitable barrier put in place. This would make the grounds more inviting.

Q1 **Yes**

Do you agree that the water supply should be Council's main focus next year?

Q2 **No**

Do you think it's important for Council to develop a Water Conservation Action Plan?

Q3 **Offering subsidised water tanks, at cost, paid back over a period of time**
,
Requiring new builds to have their own water storage solution
,
Installing smart meters to monitor water consumption and leaks

Do you support any of the proposed water resilience actions (as detailed on page 3 of the Consultation Document)? Tick all that you support otherwise leave all blank

Q4

Do you have any other comments you would like to make on the actions proposed above or have any other ideas for the Action Plan?

We lived in the desert for 20 years and never had a water restriction despite rainfall at a fraction of that in Wairarapa. Collection, storage and retention were the keys.

Page 3: Discussion Topic 2A: Continue extended hours for swimming pools

Q5 **Yes**

Do you agree that we should continue to trial extended swimming pool hours next summer (i.e. longer hours in evenings and on weekends)? Current year's opening hours are available here <https://www.swdc.govt.nz/swimming-pools>.

Q6

Why is this?

Kids need the pool. We were disappointed when kids were no longer allowed camping nights and evening swims. We heard it was due to adjacent camper park. Priority should be given to the pool. Campers shouldn't have priority over our local children wanting to recreate.

Page 4: Discussion Topic 2B: Greytown Sports and Recreation Hub

Q10

**Purchase of the Rugby Club land,
Purchase of the Bowling Club land**

As you selected 'Partial' because you support funding for parts of the proposal, but not all, tick all the parts that you support

Q11

Why is this?

Believe capital improvements of schools should be funded by national government.

Page 7: Discussion Topic 3: Land Transport

Q12

What do you think about Council's proposals for land transport (page 5 of the Consultation Document)? Should we be doing more to promote walking and cycling in the district?

Don't believe we need to promote these areas as locals are all ready walking and cycling a great deal.

Page 8: Discussion Topic 4: Waste Minimisation

Q13

Yes

Do you think it is important for Council to develop a Waste Minimisation Action Plan?

Q14

Do you support any of the waste minimisation ideas proposed (as detailed on page 6 of the Consultation Document)? Tick all that you support otherwise leave all blank

Providing recycling station in urban areas,
Encouraging food composting,
Reducing the availability of Council agendas and papers at meetings

Q15

Do you have any other comments you would like to make on the proposed ideas above or any other ideas about what Council could do to help the district send less waste to landfill?

User pays never works and encourages inappropriate waste disposal as the cost escalates. Better support at the tip with trained personnel to assist in separation and recycling efforts would help. I know people dump recyclables at the tip because it is easier and faster than separating cardboard for example. Staff never comment or prevent unnecessary dumping. Porirua has a shop buying/selling unwanted items at the tip - a successful solution.

Page 9: Discussion Topic 5: Building Capability

Q16

What do you think about Council's proposal to build the organisation's capability and improve delivery of services?

I don't see any specific outcomes. More funds for staffing and "updating processes" doesn't tell me anything except added expense. What does staffing accommodation mean? Working smarter means getting more out of existing resources not increasing the budget. We could support this if we understood specifically what outcomes are being achieved.

Page 10: Other Feedback

Q17

Do you have any other feedback for the Annual Plan 2020/21?

Water and wastewater are priority. Wellington Water recently dumped wastewater in the river and all we got was an apology. Any resident caught in similar activity would have been fined. No accountability is pathetic. If these people are contracted to manage facilities they should be held accountable when they fail to deliver, use unqualified staff or pollute a common resource like our rivers. Put it in their contract! Wastewater to land is not sustainable forever, more investment to guarantee our water is safe and waste is well-treated before distribution - should be first and foremost.

Q2**No**

Do you think it's important for Council to develop a Water Conservation Action Plan?

Q3

Do you support any of the proposed water resilience actions (as detailed on page 3 of the Consultation Document)? Tick all that you support otherwise leave all blank

Offering subsidised water tanks, at cost, paid back over a period of time

,

Requiring new builds to have their own water storage solution

,

Installing smart meters to monitor water consumption and leaks

Q4

Do you have any other comments you would like to make on the actions proposed above or have any other ideas for the Action Plan?

Reducing the allowance seems unwarranted and in any case summer restrictions are better targeted at the consumption issue. The new build initiative makes sense and seems to have been worthwhile in Kapiti. Is the cost of smart meters warranted and is the objective owner monitoring (good) or council policing (not good).

Page 3: Discussion Topic 2A: Continue extended hours for swimming pools

Q5

Yes

Do you agree that we should continue to trial extended swimming pool hours next summer (i.e. longer hours in evenings and on weekends)? Current year's opening hours are available here <https://www.swdc.govt.nz/swimming-pools>.

Q6

Why is this?

Spreads demand over longer period allowing swimming as well as water play

Page 4: Discussion Topic 2B: Greytown Sports and Recreation Hub

Q7

Q11

Respondent skipped this question

Why is this?

Page 7: Discussion Topic 3: Land Transport

Q12

What do you think about Council's proposals for land transport (page 5 of the Consultation Document)? Should we be doing more to promote walking and cycling in the district?

Proposal sounds fine, but in Martinborough, at least, there has been no sign of track development for recreational cycling on vineyard routes or elsewhere.

Page 8: Discussion Topic 4: Waste Minimisation

Q13

Yes

Do you think it is important for Council to develop a Waste Minimisation Action Plan?

Q14

Do you support any of the waste minimisation ideas proposed (as detailed on page 6 of the Consultation Document)? Tick all that you support otherwise leave all blank

Providing recycling station in urban areas,

Encouraging food composting,

Reducing the availability of Council agendas and papers at meetings

Q15

Do you have any other comments you would like to make on the proposed ideas above or any other ideas about what Council could do to help the district send less waste to landfill?

Unfortunately SWDC can do little to nothing about the large amount of non-recyclable plastics, so let's no overstate opportunities. Clothing bins would be good for use as industrial cloth or perhaps reuse.

Page 9: Discussion Topic 5: Building Capability

Q16

What do you think about Council's proposal to build the organisation's capability and improve delivery of services?

Good processes should be bau. Not impressed with recent experience of building services delays and poor ability to do wfh during Covid.

Q2 **Yes**

Do you think it's important for Council to develop a Water Conservation Action Plan?

Q3

Do you support any of the proposed water resilience actions (as detailed on page 3 of the Consultation Document)? Tick all that you support otherwise leave all blank

Reducing the water allowance per property,

Offering subsidised water tanks, at cost, paid back over a period of time

,

Requiring new builds to have their own water storage solution

,

Installing smart meters to monitor water consumption and leaks

Q4

Do you have any other comments you would like to make on the actions proposed above or have any other ideas for the Action Plan?

I think it is important to protect provisions for meter charge write-offs in cases of genuine hardship.

Page 3: Discussion Topic 2A: Continue extended hours for swimming pools

Q5 **Yes**Do you agree that we should continue to trial extended swimming pool hours next summer (i.e. longer hours in evenings and on weekends)? Current year's opening hours are available here <https://www.swdc.govt.nz/swimming-pools>.

Q6

Why is this?

It is worth continuing for another year at least to see if people get more used to their ability to take advantage of the extra hours - have more years of data to compare before deciding if it is worth it.

Page 4: Discussion Topic 2B: Greytown Sports and Recreation Hub

Q7

No

Do you think that the Council should provide more space for sports and recreation in Greytown?

Q8

No

Do you support funding for the Greytown Sports and Recreation Hub proposal (as detailed on page 4 of the Consultation Document)?

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9

Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

Featherston has MULTIPLE sports and recreation facilities (including a rugby club) that are supported and used by OUR community. People have worked (volunteered) TIRELESSLY to rehabilitate the rugby club and keep our other facilities functioning, because they are ACCESSIBLE and central to Featherston residents. Why should our rates be used to develop something we don't need? I would much much much rather have my \$42.64 (the per capita cost of the Greytown proposal) invested in Featherston's facilities. I am opposed to Featherston subsidising this for Greytown - rather I invite Greytown residents to come see what's available here - and maybe invest in further developing these facilities.

Page 6: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Respondent skipped this question

Why is this?

Page 7: Discussion Topic 3: Land Transport

Q12

What do you think about Council's proposals for land transport (page 5 of the Consultation Document)? Should we be doing more to promote walking and cycling in the district?

Yes, definitely more to promote walking and cycling, AND to invest in urban trees - those being cut down and not replaced, due to costs of care/upkeep leave our towns barren.

Page 8: Discussion Topic 4: Waste Minimisation

Q13

Yes

Do you think it is important for Council to develop a Waste Minimisation Action Plan?

Q14

Do you support any of the waste minimisation ideas proposed (as detailed on page 6 of the Consultation Document)? Tick all that you support otherwise leave all blank

Moving to a more user pays model, i.e. increasing the cost of council rubbish bags

Encouraging food composting,

Reducing the availability of Council agendas and papers at meetings

Q15

Do you have any other comments you would like to make on the proposed ideas above or any other ideas about what Council could do to help the district send less waste to landfill?

I think wheelie bins for general rubbish encourage throwing more away. I think it would be a regressive move - if the cost of bags goes up, people will look for more ways to reduce what they put in the bag. It is much more tangible/visible and thought-provoking than being able to fill wheelie bins. Community composting and worm farms etc, and information on how to do that are really good ideas.

Page 9: Discussion Topic 5: Building Capability

Q16

What do you think about Council's proposal to build the organisation's capability and improve delivery of services?

I agree

Page 10: Other Feedback

Q17

Do you have any other comments you would like to make on the actions proposed above or have any other ideas for the Action Plan?

Page 3: Discussion Topic 2A: Continue extended hours for swimming pools

Q5**Yes**

Do you agree that we should continue to trial extended swimming pool hours next summer (i.e. longer hours in evenings and on weekends)? Current year's opening hours are available here <https://www.swdc.govt.nz/swimming-pools>.

Q6**Respondent skipped this question**

Why is this?

Page 4: Discussion Topic 2B: Greytown Sports and Recreation Hub

Q7

Yes

Do you think that the Council should provide more space for sports and recreation in Greytown?

Q8

No

Do you support funding for the Greytown Sports and Recreation Hub proposal (as detailed on page 4 of the Consultation Document)?

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9

Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

Because Greytown Rugby Club will lose a part of history that remains very strong and has alot of value to the community and region all for a housing development. I am strongly against this proposal

Page 6: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q10

Respondent skipped this question

As you selected 'Partial' because you support funding for parts of the proposal, but not all, tick all the parts that you support

Q1**Yes**

Do you agree that the water supply should be Council's main focus next year?

Q2**No**

Do you think it's important for Council to develop a Water Conservation Action Plan?

Q3**Respondent skipped this question**

Do you support any of the proposed water resilience actions (as detailed on page 3 of the Consultation Document)? Tick all that you support otherwise leave all blank

Q4

Do you have any other comments you would like to make on the actions proposed above or have any other ideas for the Action Plan?

Where the SWDC has supplied, fitted and installed a Water Meter at a property it is grossly unfair to expect a ratepayer not to be credited where that meter or installation fails, leaks or otherwise causes water that is not consumed to be billed to that ratepayer.

The current water allocation should remain unchanged.

I support the suggestion that all new properties built should be required to have a minimum 5000 litre tank catching rainwater for gardening and outside use and that outside taps should be prohibited on new builds.

The council should make water tanks available for purchase at cost, with deferred payment or rate reduction where fitted

Water Rates use and rating should remain unchanged for existing owners (grandfathered) but any changes should only apply when a property changes hands or subdivides

Page 3: Discussion Topic 2A: Continue extended hours for swimming pools

Q5

Yes

Do you agree that we should continue to trial extended swimming pool hours next summer (i.e. longer hours in evenings and on weekends)? Current year's opening hours are available here <https://www.swdc.govt.nz/swimming-pools>.

Q6

Why is this?

To encourage use of these facilities

Page 4: Discussion Topic 2B: Greytown Sports and Recreation Hub

Q7

No

Do you think that the Council should provide more space for sports and recreation in Greytown?

Q8

No

Do you support funding for the Greytown Sports and Recreation Hub proposal (as detailed on page 4 of the Consultation Document)?

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9

Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal
Council has other priorities - we should not be subsidising Central Government (MoE) who should replace like for like !

Page 6: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q10

Respondent skipped this question

As you selected 'Partial' because you support funding for parts of the proposal, but not all, tick all the parts that you support

Q11

Respondent skipped this question

Why is this?

Page 7: Discussion Topic 3: Land Transport

Q12

What do you think about Council's proposals for land transport (page 5 of the Consultation Document)? Should we be doing more to promote walking and cycling in the district?

No Ratepayer funds should be spent on replanting forestry for Carbon Credits - this should be a self funding commercial operation for the SWDC.

Current roading and to a degree footpaths meet the needs of cycling/walking, if the Council is serious about getting people out of cars then public transport needs to be better, safer, more frequent, convenient, reliable and CHEAPER - this should be council focus (as an example large 40+ seater buses carrying less than 10 passengers including casual users are not conducive to improving the environment as you claim to want to do)

Page 8: Discussion Topic 4: Waste Minimisation

Q13

Yes

Do you think it is important for Council to develop a Waste Minimisation Action Plan?

Q14

Encouraging food composting

Do you support any of the waste minimisation ideas proposed (as detailed on page 6 of the Consultation Document)? Tick all that you support otherwise leave all blank

Q15

Do you have any other comments you would like to make on the proposed ideas above or any other ideas about what Council could do to help the district send less waste to landfill?

Council should provide wheelie bins without extra cost to ratepayers for general rubbish and phase out plastic rubbish bags.

Green waste recycling at the landfill should be free of charge and a company started or selected to turn that waste into compost for resale at no cost to ratepayers

Page 9: Discussion Topic 5: Building Capability

Q16

What do you think about Council's proposal to build the organisation's capability and improve delivery of services?

Expensive and poor - your move for example to using Paywave type systems at landfill and excluding other payment forms is an example - some ratepayers do not wish or want to use this system and the SWDC suggestion that "Perhaps talk to your bank about getting it set up, and if you have concerns about it they should be able to put your mind at rest. You should have no liability for fraudulent transactions on your card; your bank should cover it provided you've reported your missing card as soon as possible. My best advice is to talk to your bank." is unsatisfactory.

Council should focus on reducing costs and staff numbers.

Page 10: Other Feedback

Q17

Do you have any other feedback for the Annual Plan 2020/21?

Council owned Housing - The SWDC should prioritise housing for seniors and increasing rentals goes against the very reason we provide this housing. SWDC have already identified an increase to our population over the next 5-10 years of 25% of over 65 year old residents and there is likely to be an increased demand in a post Covid 19 economic downturn. Council needs to prioritise affordable housing for all sectors and minimizing, reducing or removing costs for low cost, low rent affordable housing.

Page 7: Discussion Topic 3: Land Transport

Q12

What do you think about Council's proposals for land transport (page 5 of the Consultation Document)? Should we be doing more to promote walking and cycling in the district?

Create more where possible. This to keep people from walking / riding on the roads as dangerous for all road users.

Page 8: Discussion Topic 4: Waste Minimisation

Q13

Yes

Do you think it is important for Council to develop a Waste Minimisation Action Plan?

Q14

Do you support any of the waste minimisation ideas proposed (as detailed on page 6 of the Consultation Document)? Tick all that you support otherwise leave all blank

Moving to a more user pays model, i.e. increasing the cost of council rubbish bags

Providing recycling station in urban areas,

Encouraging food composting,

Reducing the availability of Council agendas and papers at meetings

Q15

Do you have any other comments you would like to make on the proposed ideas above or any other ideas about what Council could do to help the district send less waste to landfill?

Think outside the square! create opportunities for all to enjoy.

Ask yourselves what other use has glass? What else can cardboard be used for etc etc

Page 9: Discussion Topic 5: Building Capability

Q16

What do you think about Council's proposal to build the organisation's capability and improve delivery of services?

good in some parts. Why not create opportunities for our people. Investigate recyclable uses. Employ local people to maintain roads, refuse collect and maintain infrastructure

Page 10: Other Feedback

Q17

Do you have any other feedback for the Annual Plan 2020/21?

Do not create a plan that looks good to council and people and words the mean nothing. Create a plan that comes from the heart and S.M.A.R.T and contains health & well being measures

Q1 Yes

Do you agree that the water supply should be Council's main focus next year?

Q2 Yes

Do you think it's important for Council to develop a Water Conservation Action Plan?

Q3

Do you support any of the proposed water resilience actions (as detailed on page 3 of the Consultation Document)? Tick all that you support otherwise leave all blank

Removing the Water by Meter Write-off Policy,
Offering subsidised water tanks, at cost, paid back over a period of time
,
Requiring new builds to have their own water storage solution
,
Installing smart meters to monitor water consumption and leaks

Q4 Respondent skipped this question

Do you have any other comments you would like to make on the actions proposed above or have any other ideas for the Action Plan?

Page 3: Discussion Topic 2A: Continue extended hours for swimming pools

Q5 YesDo you agree that we should continue to trial extended swimming pool hours next summer (i.e. longer hours in evenings and on weekends)? Current year's opening hours are available here <https://www.swdc.govt.nz/swimming-pools>.

Q6 Respondent skipped this question

Why is this?

Page 4: Discussion Topic 2B: Greytown Sports and Recreation Hub

Q7 Yes

Do you think that the Council should provide more space for sports and recreation in Greytown?

Q8 Yes

Do you support funding for the Greytown Sports and Recreation Hub proposal (as detailed on page 4 of the Consultation Document)?

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9
Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

I think this is a good idea since the wider community (including the college) could benefit greatly from this.

Page 6: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q10 Respondent skipped this question

As you selected 'Partial' because you support funding for parts of the proposal, but not all, tick all the parts that you support

Q11 Respondent skipped this question

Why is this?

Page 7: Discussion Topic 3: Land Transport

Q12
What do you think about Council's proposals for land transport (page 5 of the Consultation Document)? Should we be doing more to promote walking and cycling in the district?

I think cycling should be greatly promoted

Page 8: Discussion Topic 4: Waste Minimisation

Q13

Yes

Do you think it is important for Council to develop a Waste Minimisation Action Plan?

Q14

Do you support any of the waste minimisation ideas proposed (as detailed on page 6 of the Consultation Document)? Tick all that you support otherwise leave all blank

Providing a wheelie bin for general rubbish, paid for through rates

,

Encouraging food composting

Q15

Do you have any other comments you would like to make on the proposed ideas above or any other ideas about what Council could do to help the district send less waste to landfill?

Why is this?

Page 7: Discussion Topic 3: Land Transport

Q12

What do you think about Council's proposals for land transport (page 5 of the Consultation Document)? Should we be doing more to promote walking and cycling in the district?

Possibly, a lot of people commute to Masterton from South Wairarapa so it would be quite difficult, would be more beneficial to promote buses and public transport.

Page 8: Discussion Topic 4: Waste Minimisation

Q13

Yes

Do you think it is important for Council to develop a Waste Minimisation Action Plan?

Q6

Why is this?

great for local youth activity and socialisation, and families

Page 4: Discussion Topic 2B: Greytown Sports and Recreation Hub

Q7

Yes

Do you think that the Council should provide more space for sports and recreation in Greytown?

Q8

Yes

Do you support funding for the Greytown Sports and Recreation Hub proposal (as detailed on page 4 of the Consultation Document)?

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9

Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

Sports Hubs are so important to community spirit and wellbeing. Families and school-aged youth are such an important part of our community now and in the future, that investment in activities for them, that keep them local, interested and develop them as good future members of the community should be an investment priority of the council and community. Especially important in rural communities as it is so easy for youth to become disengaged without activities, and idsenaged young folks which is not what any community wants or needs.

Page 6: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Do you agree that we should continue to trial extended swimming pool hours next summer (i.e. longer hours in evenings and on weekends)? Current year's opening hours are available here <https://www.swdc.govt.nz/swimming-pools>.

Q6

Why is this?

Just do it - there are very few things for young people to do in Sth Wai towns.

Page 4: Discussion Topic 2B: Greytown Sports and Recreation Hub

Q7

Yes

Do you think that the Council should provide more space for sports and recreation in Greytown?

Q8

Yes

Do you support funding for the Greytown Sports and Recreation Hub proposal (as detailed on page 4 of the Consultation Document)?

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9

Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

The gym @ Kuranui needs replacing and this is an ideal opportunity to have a central hub for all sports in the community and a proper sized facility. The benefits will be far reaching. There are few facilities for youth in this town and it's important they are catered for.

Page 6: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Why is this?

Page 7: Discussion Topic 3: Land Transport

Q12

What do you think about Council's proposals for land transport (page 5 of the Consultation Document)? Should we be doing more to promote walking and cycling in the district?

Yes. Please make roads safer for cyclists. Support the trails we already have, like the Greytown trail extension. Look at improving the other one that links to the Kuratawhiti street end to make it more family friendly. Promote the river access trail more.

Page 8: Discussion Topic 4: Waste Minimisation

Q13

Yes

Do you think it is important for Council to develop a Waste Minimisation Action Plan?

Q14

Encouraging food composting,

Do you support any of the waste minimisation ideas proposed (as detailed on page 6 of the Consultation Document)? Tick all that you support otherwise leave all blank

Reducing the availability of Council agendas and papers at meetings

Q15

Do you have any other comments you would like to make on the proposed ideas above or any other ideas about what Council could do to help the district send less waste to landfill?

Encouraging recycling - especially from retail, cafes etc. Encourage more online access of everything - including consents, Council services etc. Provide a collection service for rural.

Page 9: Discussion Topic 5: Building Capability

Q16

What do you think about Council's proposal to build the organisation's capability and improve delivery of services?

It's good to invest in people capability to ensure Sth Wai stays up to date.

Page 10: Other Feedback

Q17

Do you have any other feedback for the Annual Plan 2020/21?

Look at recreation for youth. Reinstate the debate on a skate park for Greytown. Encourage sport and recreation activities.

Do you support any of the proposed water resilience actions (as detailed on page 3 of the Consultation Document)? Tick all that you support otherwise leave all blank

Q4

Do you have any other comments you would like to make on the actions proposed above or have any other ideas for the Action Plan?

A reservoir or dam in the wairarapa. Catch what falls from the sky more effectively.

Page 3: Discussion Topic 2A: Continue extended hours for swimming pools

Q5 **Yes**

Do you agree that we should continue to trial extended swimming pool hours next summer (i.e. longer hours in evenings and on weekends)? Current year's opening hours are available here <https://www.swdc.govt.nz/swimming-pools>.

Q6

Why is this?

Providing longer hours increases the availability meaning alternative options of people filling or getting their own pools should reduce and help conserve water.

Page 4: Discussion Topic 2B: Greytown Sports and Recreation Hub

Q7

Yes

Do you think that the Council should provide more space for sports and recreation in Greytown?

Q8

Yes

Do you support funding for the Greytown Sports and Recreation Hub proposal (as detailed on page 4 of the Consultation Document)?

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9

Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

There is a need for a dynamic indoor sports venue. Masterton have the new netball courts, carterton has the events centre as a region we now need a fantastic indoor sports facility what better place then greytown and with utilisation of the local and fast growing college means we will be able to host numerous events bringing people into the region, jobs, growth, tourism.

Page 6: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Why is this?

Page 7: Discussion Topic 3: Land Transport

Q12

What do you think about Council's proposals for land transport (page 5 of the Consultation Document)? Should we be doing more to promote walking and cycling in the district?

I think there is already plenty of opportunities to do that, Its the rail network and other options for public transportation that needs an overview and cash injection.

Page 8: Discussion Topic 4: Waste Minimisation

Q13

Yes

Do you think it is important for Council to develop a Waste Minimisation Action Plan?

Q14

Do you support any of the waste minimisation ideas proposed (as detailed on page 6 of the Consultation Document)? Tick all that you support otherwise leave all blank

Providing a wheelie bin for general rubbish, paid for through rates

Providing recycling station in urban areas,

Encouraging food composting

Q15

Do you have any other comments you would like to make on the proposed ideas above or any other ideas about what Council could do to help the district send less waste to landfill?

Look at using companies that recycle products into usable items and have collection banks. Or promotion of these through council using their products.

Page 9: Discussion Topic 5: Building Capability

Q16

What do you think about Council's proposal to build the organisation's capability and improve delivery of services?

Knowledge shared from other service organisations can be key, select training opportunities that fit and are not just generic toll out. Spend time shadowing your work force, listen to what they require. Look at all the options for supplying that. Expensive training gurus are not the answer.

Page 2: Discussion Topic 1: Water Supply and Water Resilience

Q1 **Yes**

Do you agree that the water supply should be Council's main focus next year?

Q2 **Yes**

Do you think it's important for Council to develop a Water Conservation Action Plan?

Q3 **Offering subsidised water tanks, at cost, paid back over a period of time**

Do you support any of the proposed water resilience actions (as detailed on page 3 of the Consultation Document)? Tick all that you support otherwise leave all blank

Requiring new builds to have their own water storage solution

Installing smart meters to monitor water consumption and leaks

Q4 **Respondent skipped this question**

Do you have any other comments you would like to make on the actions proposed above or have any other ideas for the Action Plan?

Page 3: Discussion Topic 2A: Continue extended hours for swimming pools

Q5 **No**Do you agree that we should continue to trial extended swimming pool hours next summer (i.e. longer hours in evenings and on weekends)? Current year's opening hours are available here <https://www.swdc.govt.nz/swimming-pools>.

Q6

Why is this?

The initial trial/increased hours didn't seem justified on a cost per user basis.

Page 4: Discussion Topic 2B: Greytown Sports and Recreation Hub

Q7

Yes

Do you think that the Council should provide more space for sports and recreation in Greytown?

Q8

Yes

Do you support funding for the Greytown Sports and Recreation Hub proposal (as detailed on page 4 of the Consultation Document)?

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9

Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

Greytown has a noticeably small amount of green-space compared to other places I've lived so we need to ensure the land is retained for sports and recreation. I'm hoping more indoor sports clubs would use the new gymnasium (rather than having to go to Martinborough or Masterton), and of course every town needs a local bowls club!

Page 6: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q10

Respondent skipped this question

As you selected 'Partial' because you support funding for parts of the proposal, but not all, tick all the parts that you support

Q11

Respondent skipped this question

Why is this?

Page 7: Discussion Topic 3: Land Transport

Q12

What do you think about Council's proposals for land transport (page 5 of the Consultation Document)? Should we be doing more to promote walking and cycling in the district?

No comment

Page 8: Discussion Topic 4: Waste Minimisation

Q13

Yes

Do you think it is important for Council to develop a Waste Minimisation Action Plan?

Q14

Do you support any of the waste minimisation ideas proposed (as detailed on page 6 of the Consultation Document)? Tick all that you support otherwise leave all blank

Providing a wheelie bin for general rubbish, paid for through rates

,

Encouraging food composting,

Reducing the availability of Council agendas and papers at meetings

Q15

Do you have any other comments you would like to make on the proposed ideas above or any other ideas about what Council could do to help the district send less waste to landfill?

I think a wheelie bin would be good for general rubbish. We have reusable fabric bags for the bin liner but it seems counter productive when it then goes into a plastic rubbish bag anyway.
Composting workshops would also be a great idea.

Page 9: Discussion Topic 5: Building Capability

Q16

What do you think about Council's proposal to build the organisation's capability and improve delivery of services?

N/A

Page 10: Other Feedback

Q17

Q7

Yes

Do you think that the Council should provide more space for sports and recreation in Greytown?

Q8

Yes

Do you support funding for the Greytown Sports and Recreation Hub proposal (as detailed on page 4 of the Consultation Document)?

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9

Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

Greytown has limited green spaces for activities so it's important to safeguard the space we have. They are community focal points and once they're gone they would not be easily replaced.

Page 6: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q10

Respondent skipped this question

As you selected 'Partial' because you support funding for parts of the proposal, but not all, tick all the parts that you support

Q11

Respondent skipped this question

Why is this?

Page 7: Discussion Topic 3: Land Transport

Q12

What do you think about Council's proposals for land transport (page 5 of the Consultation Document)? Should we be doing more to promote walking and cycling in the district?

Yes, for on-road cycling we should be making it safer and more accessible to cycle between towns. Cycle paths and off-road trails for scenic and recreation areas would make it easier to visit for locals and tourists alike.

Page 8: Discussion Topic 4: Waste Minimisation

Q13

Yes

Q9

Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

For a few years, I was making the annual trip to Hāwera for the Paddy Manu basketball tournament. It was in two dusty sheds with old basketball courts. Then one year... it was suddenly the TSB arena, a new multi-sport facility! I asked the tourney organisers how they'd found it to be, and they said aside from the courts being so new and having much better space, the main problem was... having to fight for their annual booking! The facility had become such a hub of community and sport activity that it was booked wall-to-wall.

I think this would be brilliant for the Greytown and surrounding communities from a health, education and mental wellbeing perspective, as well as supporting the only college in the South Wairarapa.

I've only commented on the bits that directly affect me as a resident of Carterton and with kids at Kuranui College, but I'm super-stoked about a local, awesome sports/event facility, having seen how well it can work in other areas of the country.

Q1 Respondent skipped this question

Do you agree that the water supply should be Council's main focus next year?

Q2 Respondent skipped this question

Do you think it's important for Council to develop a Water Conservation Action Plan?

Q3 Respondent skipped this question

Do you support any of the proposed water resilience actions (as detailed on page 3 of the Consultation Document)? Tick all that you support otherwise leave all blank

Q4 Respondent skipped this question

Do you have any other comments you would like to make on the actions proposed above or have any other ideas for the Action Plan?

Page 3: Discussion Topic 2A: Continue extended hours for swimming pools

Q5 Respondent skipped this questionDo you agree that we should continue to trial extended swimming pool hours next summer (i.e. longer hours in evenings and on weekends)? Current year's opening hours are available here <https://www.swdc.govt.nz/swimming-pools>.**Q6** Respondent skipped this question

Why is this?

Page 4: Discussion Topic 2B: Greytown Sports and Recreation Hub

Q7

Yes

Do you think that the Council should provide more space for sports and recreation in Greytown?

Q8

Yes

Do you support funding for the Greytown Sports and Recreation Hub proposal (as detailed on page 4 of the Consultation Document)?

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9

Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

The Wellington Baseball Association support the proposal to fund the Greytown Sports and recreation hub. The creation of a sporting hub will enable our member club, "The Wairarapa Spitfires Baseball Club" to continue to grow and create a sustainable baseball program within the Wairarapa Region. They provide a fantastic community based activity for kids to get out and be active.

Q1 **Yes**

Do you agree that the water supply should be Council's main focus next year?

Q2 **Yes**

Do you think it's important for Council to develop a Water Conservation Action Plan?

Q3 **Offering subsidised water tanks, at cost, paid back over a period of time**

Do you support any of the proposed water resilience actions (as detailed on page 3 of the Consultation Document)? Tick all that you support otherwise leave all blank

Requiring new builds to have their own water storage solution

Q4

Do you have any other comments you would like to make on the actions proposed above or have any other ideas for the Action Plan?

Water meters always end up being an added on cost for the household, this i do not approve of. I do feel like we need to catch more rainfall and water tanks are a really good idea for households taking some responsibility.

Page 3: Discussion Topic 2A: Continue extended hours for swimming pools

Q5 **No**

Do you agree that we should continue to trial extended swimming pool hours next summer (i.e. longer hours in evenings and on weekends)? Current year's opening hours are available here <https://www.swdc.govt.nz/swimming-pools>.

Q6

Why is this?

I dont know if there is enough need. I dont have all the information. I would however be willing to pay a gold coin donation to upgrade the Featherston pools, slide, etc. I much appreciate that the pools are free for my kids to enjoy, so thanks!

Page 4: Discussion Topic 2B: Greytown Sports and Recreation Hub

Q10

Contribution to the Kuranui College gymnasium replacement

As you selected 'Partial' because you support funding for parts of the proposal, but not all, tick all the parts that you support

Q11

Why is this?

The school is important for our children and future children. I feel that it is unfair to focus on Greytown rugby and bowling grounds, this could be fundraised through the community. I also dont know all the details of this. I do feel very strongly about the gymnasium at Kurinui College as this will have a positive impact for all of South Wairarapa.

Page 7: Discussion Topic 3: Land Transport

Q12

What do you think about Council's proposals for land transport (page 5 of the Consultation Document)? Should we be doing more to promote walking and cycling in the district?

I think there are plenty of places to cycle, we have seen from the cycle tracks that have already been made that most of them are not used, they prefer the road for some reason. Maybe more bush walks would be a good idea of different levels, i know i would definitely use them regularly.

Page 8: Discussion Topic 4: Waste Minimisation

Q13

Yes

Do you think it is important for Council to develop a Waste Minimisation Action Plan?

Q14

Providing recycling station in urban areas,

Do you support any of the waste minimisation ideas proposed (as detailed on page 6 of the Consultation Document)? Tick all that you support otherwise leave all blank

Encouraging food composting

Q15

Do you have any other comments you would like to make on the proposed ideas above or any other ideas about what Council could do to help the district send less waste to landfill?

More support for companys that are re-using waste products. Incentives for companys especially to lower their waste, such as composing food waste,

 , **Requiring new builds to have their own water storage solution**
 , **Installing smart meters to monitor water consumption and leaks**

Q4

Do you have any other comments you would like to make on the actions proposed above or have any other ideas for the Action Plan?

Conservation is the key. In SW we have floods every year followed by drought. There must be a way of conserving water in a time of plenty to negate the time of drought.

Page 3: Discussion Topic 2A: Continue extended hours for swimming pools

Q5 **Yes**

Do you agree that we should continue to trial extended swimming pool hours next summer (i.e. longer hours in evenings and on weekends)? Current year's opening hours are available here <https://www.swdc.govt.nz/swimming-pools>.

Q6

Why is this?

Better access for those who want to continue to enjoy the facilities.

Page 4: Discussion Topic 2B: Greytown Sports and Recreation Hub

Q7

Yes

Do you think that the Council should provide more space for sports and recreation in Greytown?

Q8

Yes

Do you support funding for the Greytown Sports and Recreation Hub proposal (as detailed on page 4 of the Consultation Document)?

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9

Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

We do not have any facilities in Greytown or the surrounding area to provide for the local community let alone the college. This is a genuine need.

Page 6: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q10

Q9

Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

A sports hub in Greytown is long over due for the greater South Wairarapa falling way behind central Masterton and what they offer. It would be an assist to all schools and the wider public and open the doors to entering competitions with the Wellington region. It would also complement the new medical on the horizon for Greytown. I sports hub is long over due, would benefit the wider community, be an assist to all, another draw card to South Wai and for the college. Just sign it off and get on with it, make it huge, functional, nice on the eye inside and out, high tech, user friendly, accessible to all, inviting, multi use and built as quickly as possible. . Do it once and do it right.

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9

Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

Recreation space is hugely important for a community. It provides opportunities for young and old to pursue activities that they are interested in. It also gives greater scope to grow more teams and increase local competition. A thriving recreational hub is as vital to a community as a butcher or a green grocer. The benefits also extend not only to the physical well being of the community but also the mental health of the community.

Q6

Why is this?

Great community resource. It is there to be used so why not allow extra time to use it. Great employment for lifeguards as well.

Page 4: Discussion Topic 2B: Greytown Sports and Recreation Hub

Q7

Yes

Do you think that the Council should provide more space for sports and recreation in Greytown?

Q8

Yes

Do you support funding for the Greytown Sports and Recreation Hub proposal (as detailed on page 4 of the Consultation Document)?

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9

Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

South Wairarapa is a growing district and at the moment it does not have the facilities needed to deal with this gross. Kuranui College gymnasium is old and outdated (not even a proper sized basketball court). With better facilities better athletes would hang around in the region and it would be great asset for the community to have.

Q1 **Yes**

Do you agree that the water supply should be Council's main focus next year?

Q2 **Yes**

Do you think it's important for Council to develop a Water Conservation Action Plan?

Q3 **Offering subsidised water tanks, at cost, paid back over a period of time**

Do you support any of the proposed water resilience actions (as detailed on page 3 of the Consultation Document)? Tick all that you support otherwise leave all blank

Installing smart meters to monitor water consumption and leaks

Q4 **Respondent skipped this question**

Do you have any other comments you would like to make on the actions proposed above or have any other ideas for the Action Plan?

Page 3: Discussion Topic 2A: Continue extended hours for swimming pools

Q5 **Yes**Do you agree that we should continue to trial extended swimming pool hours next summer (i.e. longer hours in evenings and on weekends)? Current year's opening hours are available here <https://www.swdc.govt.nz/swimming-pools>.

Q6

Why is this?

The community could do with more resources and activities for younger children especially those experiencing poverty. A lot of spaces close before the finish school or parents can take them due to work hours. The south wairarapa is often looked at as a retirement area when in actuality the demographics of people which require services and activities is vast

Page 4: Discussion Topic 2B: Greytown Sports and Recreation Hub

Q7

Yes

Do you think that the Council should provide more space for sports and recreation in Greytown?

Q8

Yes

Do you support funding for the Greytown Sports and Recreation Hub proposal (as detailed on page 4 of the Consultation Document)?

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9

Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

Again, South Wairarapa and the entirety of the Wairarapa is lacking in activities for ages 0 to 35. To not invest in this area would be a huge mistake. Investing in the funding for the Greytown Sports and Recreation proposal would also be investing in the community's mental health and physical health whilst providing safe spaces for children and adults whom are survivors of domestic violence and abuse in all shapes and forms. It would also be investing in those who are thinking or considering moving to south wairarapa. Sports and Recreation in a community also teaches discipline, values, common sense, leadership where some individuals may not have otherwise learnt it. Additionally it teaches friendship, community, family and a sense of belonging for individuals.

Page 6: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Why is this?

Page 7: Discussion Topic 3: Land Transport

Q12

What do you think about Council's proposals for land transport (page 5 of the Consultation Document)? Should we be doing more to promote walking and cycling in the district?

Again, the promotion of walking and cycling also promotes mental and physical wellness among a community. Introductions of cycle lanes, walking trails and cycling trails would be of immense benefit to the community.

Page 8: Discussion Topic 4: Waste Minimisation

Q13

Yes

Do you think it is important for Council to develop a Waste Minimisation Action Plan?

Q14

Do you support any of the waste minimisation ideas proposed (as detailed on page 6 of the Consultation Document)? Tick all that you support otherwise leave all blank

Providing a wheelie bin for general rubbish, paid for through rates

Providing recycling station in urban areas,

Encouraging food composting,

Reducing the availability of Council agendas and papers at meetings

Q15

Requiring new builds to have their own water storage solution

Installing smart meters to monitor water consumption and leaks

Q4

Do you have any other comments you would like to make on the actions proposed above or have any other ideas for the Action Plan?

NZ is not a third world country so why do we have third world water issues. We are way behind the rest of the developed world on this.

Page 3: Discussion Topic 2A: Continue extended hours for swimming pools

Q5 **Yes**Do you agree that we should continue to trial extended swimming pool hours next summer (i.e. longer hours in evenings and on weekends)? Current year's opening hours are available here <https://www.swdc.govt.nz/swimming-pools>.

Q6

Why is this?

This gives the kids something to do and keeps them out of trouble.

Page 4: Discussion Topic 2B: Greytown Sports and Recreation Hub

Q7

No

Do you think that the Council should provide more space for sports and recreation in Greytown?

Q8

No

Do you support funding for the Greytown Sports and Recreation Hub proposal (as detailed on page 4 of the Consultation Document)?

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9

Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

Why pick the town that has the most expensive land and the least available land. Featherston once again overlooked. Council are sitting on an unusable golf course - use that. In this tough time money needs to be spent on must haves not 'Greytown would like'. Featherston needs investment to attract new businesses; it is the gateway. The majority of Featherston people would not use the hub due to cost and travel; thus paying for something we are not going to use. Sport builds a community & local sports are needed to be accessible by all not just the select few in Greytown. Research shows sport helps keep kids away from petty crime, which could move to more serious crime. Greytown once again getting everything.

Q15

Do you have any other comments you would like to make on the proposed ideas above or any other ideas about what Council could do to help the district send less waste to landfill?

Why is NZ so behind on what can be recycled? Make it easier for people to recycle.

Page 9: Discussion Topic 5: Building Capability

Q16

What do you think about Council's proposal to build the organisation's capability and improve delivery of services?

Not if it is to be used for lunches & trips. \$7.2 million + \$400,000 but have not seen any improvement in communication or customer service.

Q16

What do you think about Council's proposal to build the organisation's capability and improve delivery of services?

Don't know

Page 10: Other Feedback

Q17

Do you have any other feedback for the Annual Plan 2020/21?

Please keep our sports clubs as they are. New Housing developments will do nothing for the community as a whole, losing these clubs will make greytown nothing more than a town. A town with no community sprit.

Do you agree that we should continue to trial extended swimming pool hours next summer (i.e. longer hours in evenings and on weekends)? Current year's opening hours are available here <https://www.swdc.govt.nz/swimming-pools>.

Q6 Respondent skipped this question

Why is this?

Page 4: Discussion Topic 2B: Greytown Sports and Recreation Hub

Q7

Yes

Do you think that the Council should provide more space for sports and recreation in Greytown?

Q8

Yes

Do you support funding for the Greytown Sports and Recreation Hub proposal (as detailed on page 4 of the Consultation Document)?

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9

Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

I support the Greytown Sports and recreation hub. At 85 I Born in Greytown I have seen a lot of change , the SWDC needs to make sure it protects the Green spaces of Greytown, I think the options outlined in the annual plan are sensible to safeguard these spaces for future generations. As a young man the Rugby club was where met my mates and let off steam and got to play a game I loved, as an older man I get to spend Saturday's watching my grandchildren play, It gets me out and I get to meet up with other locals and share a yarn ,as an older man I have also enjoyed playing bowls, it's as much as the contact with people as it is the enjoyment of the sport. For over 100 years the Rugby & bowling clubs have been drawing people together. If these green spaces are sold they are gone forever, in this computer age we need them more than ever. Council do the right thing for this town protect the green spaces and preserve the Clubs that utilise them they keep our community coming together

Page 6: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q1 **Yes**

Do you agree that the water supply should be Council's main focus next year?

Q2 **Yes**

Do you think it's important for Council to develop a Water Conservation Action Plan?

Q3 **Offering subsidised water tanks, at cost, paid back over a period of time**

Do you support any of the proposed water resilience actions (as detailed on page 3 of the Consultation Document)? Tick all that you support otherwise leave all blank

Requiring new builds to have their own water storage solution

Q4 **Respondent skipped this question**

Do you have any other comments you would like to make on the actions proposed above or have any other ideas for the Action Plan?

Page 3: Discussion Topic 2A: Continue extended hours for swimming pools

Q5 **Yes**Do you agree that we should continue to trial extended swimming pool hours next summer (i.e. longer hours in evenings and on weekends)? Current year's opening hours are available here <https://www.swdc.govt.nz/swimming-pools>.

Q6

Why is this?

Means people can swim after work, evening swims are the best.

Page 4: Discussion Topic 2B: Greytown Sports and Recreation Hub

Q7

Yes

Do you think that the Council should provide more space for sports and recreation in Greytown?

Q8

Yes

Do you support funding for the Greytown Sports and Recreation Hub proposal (as detailed on page 4 of the Consultation Document)?

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9

Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

It would be a travesty for a small town like Greytown not to have great sports facilities where the whole community can come together.

Page 6: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q10

Respondent skipped this question

As you selected 'Partial' because you support funding for parts of the proposal, but not all, tick all the parts that you support

Q10

Contribution to the Kuranui College gymnasium replacement

As you selected 'Partial' because you support funding for parts of the proposal, but not all, tick all the parts that you support

Q11

Why is this?

Kuranui needs a new gym and would be an asset to community. Proposals for Rugby and Bowling clubs not what I would call a hub and is a massive debt burden to the rate payers. If there was a true sports hub with multiple sporting codes using shared amenities I would be supportive but not with this proposal which is not a hub apart from in name only.

Page 7: Discussion Topic 3: Land Transport

Providing recycling station in urban areas,
Encouraging food composting,
Reducing the availability of Council agendas and papers at meetings

Q15

Do you have any other comments you would like to make on the proposed ideas above or any other ideas about what Council could do to help the district send less waste to landfill?

Make recycling stations and green waste affordable. Sick of the man in Featherston ignoring the sign and charging whatever he feels like on the day. My father in law was charged \$80 for the back of his Ute for green waste. Outrageous. Would be \$5 in Wellington.

Page 9: Discussion Topic 5: Building Capability

Q16

What do you think about Council's proposal to build the organisation's capability and improve delivery of services?

Ok

Page 10: Other Feedback

Q17

Do you have any other feedback for the Annual Plan 2020/21?

Think of the whole region not just greytown.

Do you agree that we should continue to trial extended swimming pool hours next summer (i.e. longer hours in evenings and on weekends)? Current year's opening hours are available here <https://www.swdc.govt.nz/swimming-pools>.

Q6

Why is this?

It's great for kids

Page 4: Discussion Topic 2B: Greytown Sports and Recreation Hub

Q7 **Yes**

Do you think that the Council should provide more space for sports and recreation in Greytown?

Q8 **Yes**

Do you support funding for the Greytown Sports and Recreation Hub proposal (as detailed on page 4 of the Consultation Document)?

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9

Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

Because councils have the mandate to deliver sport in communities. Council also takes money from developers and ratepayers to deliver it. GTLT is financially in trouble and can no longer subsidise rates. SWDC needs sporting balance in the region.

Page 6: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9

Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

I support the SWDC funding of Greytown Sports & Recreational hub proposal. Too much of Greytown is being lost to housing development. Green space is absolutely essential for our well being. The Council must not ignore the importance of green space and the sport that comes with them. Clubs like the Greytown Rugby & Bowling are an integral part of our community they bring young and old together .

I attended Kuranui within the last 10 years. The Gym is a sad excuse for one. A new gym has been promised for a long time and will be a good asset for the college and for the South Wairarapa. I have been a member of Greytowns Community Gym and can certainly see the benefits of this moving to the Kuranui with more space.

Greytown has a proud history of encouraging its people to get involved in sport, me and my family have been involved by participating , coaching and volunteering to committees these things build communities, Greytown is a great community , SWDC please don't let over development lose our green spaces and our small town community values to big city attitudes.

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9

Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

Not a good use of council funds at this time, better use of money for water, sewerage, helping businesses cope from lockdown etc. Surely Greytown can fundraiser for a couple of years, their community should rally together to help make it happen first like our community in Featherston does. Money needs to be kept so businesses can have rates reductions etc the lockdown has hurt our South Wairarapa economy. We should act accordingly.

Q8 **Yes**

Do you support funding for the Greytown Sports and Recreation Hub proposal (as detailed on page 4 of the Consultation Document)?

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9

Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

I support the funding for the Greytown sports and rec hub proposal as Greytown has a rich history of sports and to see that taken away would be terrible. Kuranui College is also in desperate need of a new gym. This is a great opportunity for more emerging sports to come to Greytown to further develop.

Page 6: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Why is this?

To get another year of data for a more informed decision next year.

Page 4: Discussion Topic 2B: Greytown Sports and Recreation Hub

Q7 **Yes**

Do you think that the Council should provide more space for sports and recreation in Greytown?

Q8 **Yes**

Do you support funding for the Greytown Sports and Recreation Hub proposal (as detailed on page 4 of the Consultation Document)?

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9

Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

Keep our current green space in town; encourage activity; and community; will bring more visitors to town to support retail businesses.

Page 6: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q10 **Respondent skipped this question**

As you selected 'Partial' because you support funding for parts of the proposal, but not all, tick all the parts that you support

Q11 **Respondent skipped this question**

Why is this?

Page 7: Discussion Topic 3: Land Transport

Q12

What do you think about Council's proposals for land transport (page 5 of the Consultation Document)? Should we be doing more to promote walking and cycling in the district?

I agree with proposal and that we should be promoting walking/cycling.

Page 8: Discussion Topic 4: Waste Minimisation

Q13 **Yes**

Do you think it is important for Council to develop a Waste Minimisation Action Plan?

Q14

Do you support any of the waste minimisation ideas proposed (as detailed on page 6 of the Consultation Document)? Tick all that you support otherwise leave all blank

Moving to a more user pays model, i.e. increasing the cost of council rubbish bags

,

Providing a wheelie bin for general rubbish, paid for through rates

,

Providing recycling station in urban areas,

Encouraging food composting,

Reducing the availability of Council agendas and papers at meetings

Q15

Do you have any other comments you would like to make on the proposed ideas above or any other ideas about what Council could do to help the district send less waste to landfill?

Recycling shouldn't be optional, people need to be educated and encouraged to recycle as much as possible.

Page 9: Discussion Topic 5: Building Capability

Q16

What do you think about Council's proposal to build the organisation's capability and improve delivery of services?

This is a generic statement - need more detail on what they propose spending extra budget funds on and whether this is warranted.

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9

Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

Supportive of Greytown Sports and Recreation Hub

As a senior netball player / junior coach / parent it would be great to have better training facilities and have a base for our members and a place to store gear including ball bags and uniforms. At present senior trainings are at the school, all gear is stored in car sheds or spare bedrooms and we have no club rooms to meet at following games. We also have no base for prize givings and club social gatherings.

In terms of junior and senior netball numbers we have seen an increase in membership year on year since the 2005. As for the 2020 season (prior to COVID) we were to see the inclusion of 5 senior teams in the Wairarapa competition for the first time. It was anticipated that 5 / 6 junior teams would be registered for the junior competition. In addition, 2019 saw the registration of Greytown's first Senior Prem. 1 team in many years.

The culture of the club is fantastic focusing on providing a environment where members can gather to have fun, keep fit, socialise, play competitive or social netball and enhance general wellbeing.

To have the Sports and Recreation Hub in Greytown would only enhance the netball experience for both junior and senior players and of course many other sport codes.

It would also be a great resource for Kuranui College and for the youth of South Wairarapa.

Q1 **No**

Do you agree that the water supply should be Council's main focus next year?

Q2 **No**

Do you think it's important for Council to develop a Water Conservation Action Plan?

Q3 **Requiring new builds to have their own water storage solution**

Do you support any of the proposed water resilience actions (as detailed on page 3 of the Consultation Document)? Tick all that you support otherwise leave all blank

Q4

Do you have any other comments you would like to make on the actions proposed above or have any other ideas for the Action Plan?

It's important to define lack of water vs lack of infrastructure to supply water. TLAs have been inept for years at investing. Metering etc is a band aid, not a solution to the core problem

Page 3: Discussion Topic 2A: Continue extended hours for swimming pools

Q5 **Yes**

Do you agree that we should continue to trial extended swimming pool hours next summer (i.e. longer hours in evenings and on weekends)? Current year's opening hours are available here <https://www.swdc.govt.nz/swimming-pools>.

Q6

Why is this?

Community facility taht is dormant for nine months a year. maximise its use while you can

Page 4: Discussion Topic 2B: Greytown Sports and Recreation Hub

Q7

Yes

Do you think that the Council should provide more space for sports and recreation in Greytown?

Q8

Yes

Do you support funding for the Greytown Sports and Recreation Hub proposal (as detailed on page 4 of the Consultation Document)?

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9

Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

Greytown is seeing a long term population expansion. Core recreation land like this will never be cheaper, never available again. It's acquiring an asset that will always have value. It's a responsible town planning decision that if ignored will have future generations referring to the day in 2020 the Council etched in history its failing. Their names will be recorded on plaques at recreation grounds out at distant places like Bidwell Cutting forever.

Page 6: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Why is this?

Page 7: Discussion Topic 3: Land Transport

Q12

What do you think about Council's proposals for land transport (page 5 of the Consultation Document)? Should we be doing more to promote walking and cycling in the district?

The Council is questioning buying recreational land for future generations but promoting investment in walking and cycling? Our towns are traditional rural areas with wide roads, little traffic. This is not central Auckland. Let's not try to have solutions and then look for a problem.

Page 8: Discussion Topic 4: Waste Minimisation

Q13

Yes

Do you think it is important for Council to develop a Waste Minimisation Action Plan?

Q14

Providing recycling station in urban areas

Do you support any of the waste minimisation ideas proposed (as detailed on page 6 of the Consultation Document)? Tick all that you support otherwise leave all blank

Do you agree that we should continue to trial extended swimming pool hours next summer (i.e. longer hours in evenings and on weekends)? Current year's opening hours are available here <https://www.swdc.govt.nz/swimming-pools>.

Q6

Why is this?

Think it gives the community, especially those that work, more options to use this facility.

Page 4: Discussion Topic 2B: Greytown Sports and Recreation Hub

Q7

Yes

Do you think that the Council should provide more space for sports and recreation in Greytown?

Q8

Yes

Do you support funding for the Greytown Sports and Recreation Hub proposal (as detailed on page 4 of the Consultation Document)?

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9

Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

Sports and community spaces are important aspects of a healthy community, currently Greytown lacks in this area. It will also be future proofing as we have had a large number of younger families move into the area and will be utilised by this population as it grows.

Page 6: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q10

Respondent skipped this question

As you selected 'Partial' because you support funding for parts of the proposal, but not all, tick all the parts that you support

Q11

Why is this?

Page 7: Discussion Topic 3: Land Transport

Q12

What do you think about Council's proposals for land transport (page 5 of the Consultation Document)? Should we be doing more to promote walking and cycling in the district?

Yes, especially walking areas such as footpaths in town like Greytown - we have an elderly population that needs even, easy to walk footpaths. Having cycling separate from walking reduces congestion and conflict between walkers and riders.

Page 8: Discussion Topic 4: Waste Minimisation

Q13

Yes

Do you think it is important for Council to develop a Waste Minimisation Action Plan?

Q14

Do you support any of the waste minimisation ideas proposed (as detailed on page 6 of the Consultation Document)? Tick all that you support otherwise leave all blank

Providing recycling station in urban areas,

Encouraging food composting,

Reducing the availability of Council agendas and papers at meetings

Q15

Do you have any other comments you would like to make on the proposed ideas above or any other ideas about what Council could do to help the district send less waste to landfill?

The issue with recycling is that much is not recyclable in New Zealand. Raising the cost of disposal of rubbish does not reduce consumption of goods that are not recyclable. I saw in Auckland they have a food waste collection which I believe is a great idea for people with properties that don't have the space for composting - why would we not look at this option? As reporting continues to talk about food wastage as large issue.

Page 9: Discussion Topic 5: Building Capability

Q16

What do you think about Council's proposal to build the organisation's capability and improve delivery of services?

Sounds good, we need a robust Council that works smart and conscientiously for their communities.

Page 10: Other Feedback

Q1**No**

Do you agree that the water supply should be Council's main focus next year?

Q2**Yes**

Do you think it's important for Council to develop a Water Conservation Action Plan?

Q3**Respondent skipped this question**

Do you support any of the proposed water resilience actions (as detailed on page 3 of the Consultation Document)? Tick all that you support otherwise leave all blank

Q4**Respondent skipped this question**

Do you have any other comments you would like to make on the actions proposed above or have any other ideas for the Action Plan?

Page 3: Discussion Topic 2A: Continue extended hours for swimming pools

Q5**Yes**

Do you agree that we should continue to trial extended swimming pool hours next summer (i.e. longer hours in evenings and on weekends)? Current year's opening hours are available here <https://www.swdc.govt.nz/swimming-pools>.

Q6

Why is this?

Many residents of Greytown work elsewhere and this will give those people a better chance to use this facility

Page 4: Discussion Topic 2B: Greytown Sports and Recreation Hub

Q7 **Yes**

Do you think that the Council should provide more space for sports and recreation in Greytown?

Q8 **Yes**

Do you support funding for the Greytown Sports and Recreation Hub proposal (as detailed on page 4 of the Consultation Document)?

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9

Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

For Greytown to thrive, grow and continue to be a great place to live it needs to provide facilities and accommodate activities for a diverse range of ages and interests.

Page 6: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q10 **Respondent skipped this question**

As you selected 'Partial' because you support funding for parts of the proposal, but not all, tick all the parts that you support

Q11 **Respondent skipped this question**

Why is this?

Page 7: Discussion Topic 3: Land Transport

Q12 **Respondent skipped this question**

What do you think about Council's proposals for land transport (page 5 of the Consultation Document)? Should we be doing more to promote walking and cycling in the district?

Q5 **Yes**Do you agree that we should continue to trial extended swimming pool hours next summer (i.e. longer hours in evenings and on weekends)? Current year's opening hours are available here <https://www.swdc.govt.nz/swimming-pools>.

Q6

Why is this?

Because a large proportion of residents are commuters or work and would otherwise not be able to use the facilities they pay for with their rates. Also, it's still warm in the evenings.

Page 4: Discussion Topic 2B: Greytown Sports and Recreation Hub

Q7

Yes

Do you think that the Council should provide more space for sports and recreation in Greytown?

Q8

Yes

Do you support funding for the Greytown Sports and Recreation Hub proposal (as detailed on page 4 of the Consultation Document)?

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9

Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

The rugby grounds in Greytown are a crucial piece in keeping young people active and their families involved in the community. The club has serviced not just Greytown but also the whole South Wairarapa when cohorts of rugby players are small. The council owns the sports grounds in the other towns but since there isn't enough space at Kuratawhiti Street the East Street location makes perfect sense to buy. It is halfway between the schools and will fit well with the new gymnasium proposed by Kuranui. The current gym is not fit for purpose, especially with the increased roll.

I completely support the council spending ratepayers money to purchase the rugby grounds and provide funding for a new gymnasium at Kuranui College.

Page 7: Discussion Topic 3: Land Transport

Q12

What do you think about Council's proposals for land transport (page 5 of the Consultation Document)? Should we be doing more to promote walking and cycling in the district?

Maybe more driver education

Page 8: Discussion Topic 4: Waste Minimisation

Q13

Yes

Do you think it is important for Council to develop a Waste Minimisation Action Plan?

Q14

Do you support any of the waste minimisation ideas proposed (as detailed on page 6 of the Consultation Document)? Tick all that you support otherwise leave all blank

Moving to a more user pays model, i.e. increasing the cost of council rubbish bags

Providing recycling station in urban areas,

Encouraging food composting,

Reducing the availability of Council agendas and papers at meetings

Q15

Do you have any other comments you would like to make on the proposed ideas above or any other ideas about what Council could do to help the district send less waste to landfill?

The main aim should be to reduce waste so we are not sending anything to landfill. Encourage farmers not to use bale wrap, encourage businesses that fix products rather than encourage people to buy a new one because it's cheaper.

Q2 Yes

Do you think it's important for Council to develop a Water Conservation Action Plan?

Q3 Offering subsidised water tanks, at cost, paid back over a period of time

Do you support any of the proposed water resilience actions (as detailed on page 3 of the Consultation Document)? Tick all that you support otherwise leave all blank

Q4

Do you have any other comments you would like to make on the actions proposed above or have any other ideas for the Action Plan?

Featherston waste water:

Council's own research to showed that most of the water sent to the Featherston waste water treatment facility is inflow from damaged waste and storm water pipes. Investment in repairing pipes and repairing/replacing the storm water system in Featherston would reduce the volume of liquid requiring treatment by 70% or more if council's experts were right. It would also address the flooding issue around town when it rains. This should be the priority BEFORE the treatment system itself is addressed; otherwise we are paying for the mitigation of symptoms rather than addressing a significant root cause of the problem (untreated waste water being sent down Donalds Creek).

Selling some of the Hodder Farm land the council owns would be one way of raising funds for the upgrade to the Featherston waste water system. Less water to treat would mean less land required for irrigation (regardless of what sort of system is used), why not use that land to pay for the upgrade?

I also DISAGREE with "progressing the Resource Management consent process" for Featherstons waste water when there has been zero consultation on what options council has considered, the criteria used to assess those options or the preferred option that the consent will cover. If council engages with the community right from the start you can bring people along with you and could avoid the angst and expense of the previous submission.

Thank you for stopping the last RM consent to spray waste around Longwood Road and Murphy's Line, it was a relief to see that ill conceived and dangerous proposal binned. Can we all please learn from the experience and engage with the community honestly and openly, we all want what's best for our town and region.

No

Do you support funding for the Greytown Sports and Recreation Hub proposal (as detailed on page 4 of the Consultation Document)?

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9

Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

This proposal appears expensive, have other options been explored?

If ME will pay for a new basketball court at Kuranui College then we should absolutely do that. Buying the Greytown rugby club facilities to make a regional sports facility doesn't make as much sense when the price of land (\$1.91m) is so high. The total cost of the sports hub is estimated in the consultation document at \$2.74m. Featherston already has a large indoor sports centre that could use renovation. Has council explored refurbishment of the Featherston facility and utilising that as South Wairarapa's regional sports and recreation hub?

The upgraded basket ball court (ME funded) at the college will provide the regions high school kids with a great facility, an upgraded recreation centre in Featherston will provide a regional facility for others to us. Featherston also has large playing fields next to the recreation centre. If the trust running the Greytown Rugby club becomes insolvent and needs to look for an alternate venue, perhaps they could discuss sharing grounds with the Featherston club (just a thought)?

Q15

Do you have any other comments you would like to make on the proposed ideas above or any other ideas about what Council could do to help the district send less waste to landfill?

Have more glass bins andcabbetter reclying bin

Page 9: Discussion Topic 5: Building Capability

Q16

What do you think about Council's proposal to build the organisation's capability and improve delivery of services?

Hope it work but I don't think looking rack that it will

Page 10: Other Feedback

Q17

Do you have any other feedback for the Annual Plan 2020/21?

Stop spending on dum things like land golf coursee

Q1 **Yes**

Do you agree that the water supply should be Council's main focus next year?

Q2 **Yes**

Do you think it's important for Council to develop a Water Conservation Action Plan?

Q3 **Installing smart meters to monitor water consumption and leaks**

Do you support any of the proposed water resilience actions (as detailed on page 3 of the Consultation Document)? Tick all that you support otherwise leave all blank

Q4 **Respondent skipped this question**

Do you have any other comments you would like to make on the actions proposed above or have any other ideas for the Action Plan?

Page 3: Discussion Topic 2A: Continue extended hours for swimming pools

Q5 **No**Do you agree that we should continue to trial extended swimming pool hours next summer (i.e. longer hours in evenings and on weekends)? Current year's opening hours are available here <https://www.swdc.govt.nz/swimming-pools>.**Q6** **Respondent skipped this question**

Why is this?

Page 4: Discussion Topic 2B: Greytown Sports and Recreation Hub

Q7

No

Do you think that the Council should provide more space for sports and recreation in Greytown?

Q8

No

Do you support funding for the Greytown Sports and Recreation Hub proposal (as detailed on page 4 of the Consultation Document)?

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9

Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

Money can be better spent. E.g. Fixing up facilities all over SWD instead on one large facility in Greytown.

Page 6: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q10

Respondent skipped this question

As you selected 'Partial' because you support funding for parts of the proposal, but not all, tick all the parts that you support

Q11

Respondent skipped this question

Why is this?

Page 7: Discussion Topic 3: Land Transport

Q12

What do you think about Council's proposals for land transport (page 5 of the Consultation Document)? Should we be doing more to promote walking and cycling in the district?

Yes like more sidewalks. Featherston has many street with no sidewalks.

Page 8: Discussion Topic 4: Waste Minimisation

Q13

Yes

Do you think it is important for Council to develop a Waste Minimisation Action Plan?

Q14

Do you support any of the waste minimisation ideas proposed (as detailed on page 6 of the Consultation Document)? Tick all that you support otherwise leave all blank

Moving to a more user pays model, i.e. increasing the cost of council rubbish bags

Providing recycling station in urban areas,

Encouraging food composting,

Reducing the availability of Council agendas and papers at meetings

Q15

Do you have any other comments you would like to make on the proposed ideas above or any other ideas about what Council could do to help the district send less waste to landfill?

I would be worried about having a paid wheelie bin through rates system. There are businesses that offer this service and unless there was a tender for this, these businesses would go out of business. There is a competition issue that needs to be considered further.

Q2 **Yes**

Do you think it's important for Council to develop a Water Conservation Action Plan?

Q3

Do you support any of the proposed water resilience actions (as detailed on page 3 of the Consultation Document)? Tick all that you support otherwise leave all blank

- Reducing the water allowance per property,**
- Removing the Water by Meter Write-off Policy,**
- Offering subsidised water tanks, at cost, paid back over a period of time**
- ,
- Requiring new builds to have their own water storage solution**
- ,
- Installing smart meters to monitor water consumption and leaks**

Q4 **Respondent skipped this question**

Do you have any other comments you would like to make on the actions proposed above or have any other ideas for the Action Plan?

Page 3: Discussion Topic 2A: Continue extended hours for swimming pools

Q5

Yes

Do you agree that we should continue to trial extended swimming pool hours next summer (i.e. longer hours in evenings and on weekends)? Current year's opening hours are available here <https://www.swdc.govt.nz/swimming-pools>.

Q6

Why is this?

I think more people will use the facilities, especially if the weather is good.

Page 4: Discussion Topic 2B: Greytown Sports and Recreation Hub

Q7

Yes

Do you think that the Council should provide more space for sports and recreation in Greytown?

Q8

Yes

Do you support funding for the Greytown Sports and Recreation Hub proposal (as detailed on page 4 of the Consultation Document)?

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9

Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

This is a unique opportunity. It makes sense financially to do this now - rather than wait and have to pay significantly more. South Wai can't afford to lose central green space....not with the population growing so fast. The gains outweigh the negatives.

Page 6: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q5 **Yes**Do you agree that we should continue to trial extended swimming pool hours next summer (i.e. longer hours in evenings and on weekends)? Current year's opening hours are available here <https://www.swdc.govt.nz/swimming-pools>.

Q6

Why is this?

Swimming offers an affordable form of physical activity for all ages and ability - you can swim as hard or easy as you like. Plus everyone should be able to swim. Maybe the pools could offer swimming lessons for adults in the evening.

Page 4: Discussion Topic 2B: Greytown Sports and Recreation Hub

Q7

Yes

Do you think that the Council should provide more space for sports and recreation in Greytown?

Q8

Yes

Do you support funding for the Greytown Sports and Recreation Hub proposal (as detailed on page 4 of the Consultation Document)?

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9

Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

Greytown lacks recreational space for its growing population. A hub is a good way of rationalising and sharing sport and recreational services. The council has a responsibility to provide recreational space for its ratepayers. Greytown has had to rely on providers such as the two schools and the Greytown Trust Lands Trust to provide this space.

Page 6: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Page 7: Discussion Topic 3: Land Transport

Q12

What do you think about Council's proposals for land transport (page 5 of the Consultation Document)? Should we be doing more to promote walking and cycling in the district?

Cycling is not only a great way to keep physically active for people of all ages, but it is environmentally friendly, cutting down on carbon emissions. South Wairarapa offers great opportunities for attracting visitors who bike. An awesome affordable way to see the region!

Page 8: Discussion Topic 4: Waste Minimisation

Do you think that the Council should provide more space for sports and recreation in Greytown?

Q8

No

Do you support funding for the Greytown Sports and Recreation Hub proposal (as detailed on page 4 of the Consultation Document)?

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9

Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

Well they have land for sports and why can't they combined like other towns have and share building in the sports area at local park where others have a building put abit of effort in and share and upgrade no need for big costs on rate payer. GREYTOWNTrust willingly took councils money to fund the sports feilds but now they see it like a quick fire money maker and boot clubs out well if they see money as importance they should be paying the money council contributed back every cent as that is just using council and clubs of Greytown for self gain come on council wake up to there games Trusts are just money making things of away to hide behind making big money and selling for high cost housing as seems to case with green areas of Greytown Soccer feild opposite the old Greytown hospital east street and the land on of main street and hospital rd all to often these lovèly spots sold for housing. Come think it about selling to make more houses shame on Greytown Trust land trust on taking land away from spots for housing oh right its just about money not sport rude of so called lover Greytowns people

Page 6: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Providing a wheelie bin for general rubbish, paid for through rates

Providing recycling station in urban areas,

Encouraging food composting,

Reducing the availability of Council agendas and papers at meetings

Q15

Do you have any other comments you would like to make on the proposed ideas above or any other ideas about what Council could do to help the district send less waste to landfill?

Encourage more user friendly hour and make recycling centre where you drop good home furnishings as lots of families come take grannys stuff to tip where could all be sold at shop like they have in Hamilton and Wellington where you can buy almost anything and in those work an income supports it and getting there clients to go there to get quotes for furnishings linen and pots pans an crockery and have curtain bank at some so same sort of things here would a help and give people work and save waste

Page 9: Discussion Topic 5: Building Capability

Q16

What do you think about Council's proposal to build the organisation's capability and improve delivery of services?

A joke they bought hodder farm land a gof course so i hold no faith in them just about wasting money instead of spending wisely

Page 10: Other Feedback

Q17

Do you have any other feedback for the Annual Plan 2020/21?

Cut our rates stop spending on useless thing as we don't all have big incomes or endless pits of money with high paying jobs

Do you agree that we should continue to trial extended swimming pool hours next summer (i.e. longer hours in evenings and on weekends)? Current year's opening hours are available here <https://www.swdc.govt.nz/swimming-pools>.

Q6

Why is this?

It would suit the general public to have longer hours ie work commitments

Page 4: Discussion Topic 2B: Greytown Sports and Recreation Hub

Q7 **No**

Do you think that the Council should provide more space for sports and recreation in Greytown?

Q8 **No**

Do you support funding for the Greytown Sports and Recreation Hub proposal (as detailed on page 4 of the Consultation Document)?

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9

Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

There are plenty of facilities for sport in the South Wairarapa and the money should be saved for more urgent issues ie flooding into South Wairarapa homes

Page 6: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q10 **Respondent skipped this question**

As you selected 'Partial' because you support funding for parts of the proposal, but not all, tick all the parts that you support

Q11 **Respondent skipped this question**

Why is this?

Page 7: Discussion Topic 3: Land Transport

Q12 **Respondent skipped this question**

What do you think about Council's proposals for land transport (page 5 of the Consultation Document)? Should we be doing more to promote walking and cycling in the district?

Page 8: Discussion Topic 4: Waste Minimisation

Q13

Yes

Do you think it is important for Council to develop a Waste Minimisation Action Plan?

Q14

Do you support any of the waste minimisation ideas proposed (as detailed on page 6 of the Consultation Document)? Tick all that you support otherwise leave all blank

Providing recycling station in urban areas,
Encouraging food composting,
Reducing the availability of Council agendas and papers at meetings

Q15

Do you have any other comments you would like to make on the proposed ideas above or any other ideas about what Council could do to help the district send less waste to landfill?

If you make it more 'user pays' people will dump rubbish in the wrong places

Page 9: Discussion Topic 5: Building Capability

Q16

Respondent skipped this question

What do you think about Council's proposal to build the organisation's capability and improve delivery of services?

Page 2: Discussion Topic 1: Water Supply and Water Resilience

Q1 **Yes**

Do you agree that the water supply should be Council's main focus next year?

Q2 **Yes**

Do you think it's important for Council to develop a Water Conservation Action Plan?

Q3 **Offering subsidised water tanks, at cost, paid back over a period of time**

Do you support any of the proposed water resilience actions (as detailed on page 3 of the Consultation Document)? Tick all that you support otherwise leave all blank

Requiring new builds to have their own water storage solution

Installing smart meters to monitor water consumption and leaks

Q4

Do you have any other comments you would like to make on the actions proposed above or have any other ideas for the Action Plan?

Please listen to Community Groups that know what they're talking about! Some of them have good ideas, which deserve to be heard, even if they might appear to be a bit "out there". No harm in simply listening!

Page 3: Discussion Topic 2A: Continue extended hours for swimming pools

Q5 **Yes**Do you agree that we should continue to trial extended swimming pool hours next summer (i.e. longer hours in evenings and on weekends)? Current year's opening hours are available here <https://www.swdc.govt.nz/swimming-pools>.

Q6

Why is this?

People love it!

Page 4: Discussion Topic 2B: Greytown Sports and Recreation Hub

Q7

No

Do you think that the Council should provide more space for sports and recreation in Greytown?

Q8

No

Do you support funding for the Greytown Sports and Recreation Hub proposal (as detailed on page 4 of the Consultation Document)?

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9

Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

I believe there are enough buildings and grounds in the SWDC area that could be upgraded, before anything new is built or developed. Also: there are other urgent items which need attention and available money, before expenditure on new items. I'm referring to delapidated pavements, dodgy water supplies, and safe sewage disposal.

Page 6: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q10

Respondent skipped this question

As you selected 'Partial' because you support funding for parts of the proposal, but not all, tick all the parts that you support

Q11

Why is this?

Page 7: Discussion Topic 3: Land Transport

Q12

What do you think about Council's proposals for land transport (page 5 of the Consultation Document)? Should we be doing more to promote walking and cycling in the district?

I think it would make sense to finish any walking/cycling tracks that have already been started, eg, down Western Lake Road.

Then, do more to promote such activity in the district.

Page 8: Discussion Topic 4: Waste Minimisation

Q13

Yes

Do you think it is important for Council to develop a Waste Minimisation Action Plan?

Q14

Do you support any of the waste minimisation ideas proposed (as detailed on page 6 of the Consultation Document)? Tick all that you support otherwise leave all blank

Providing a wheelie bin for general rubbish, paid for through rates

,

Encouraging food composting

Q15

Do you have any other comments you would like to make on the proposed ideas above or any other ideas about what Council could do to help the district send less waste to landfill?

Perhaps reduce the fees to landfill sites, to discourage fy-tipping. Or, maybe the wheelie bin idea would help this...

Page 9: Discussion Topic 5: Building Capability

Q16

What do you think about Council's proposal to build the organisation's capability and improve delivery of services?

Should consider amalgamation before you consider expanding SWDC capacity.

Page 10: Other Feedback

Q17

Do you have any other feedback for the Annual Plan 2020/21?

There was a domestic property in Featherston that had builders on it for months (on Fitzherbert At, near Moore St intersection), and they almost continuously burnt rubbish, causing huge billows of smoke. Media comments were constant, nobody liked it, but no-one in authority appeared to do anything about it...the burning continued until the existing building was demolished and the section cleared. Public opinion was that the builders didn't want to pay to dump the debris.

The smoke was thick and obvious - someone must have complained to SWDC, but it continued for weeks....this is pollution, and I'd like to see the SWDC monitoring such things.

Why is this?

The community has a strong commuter and family base. Close early and they can't swim.

Page 4: Discussion Topic 2B: Greytown Sports and Recreation Hub

Q7 Respondent skipped this question

Do you think that the Council should provide more space for sports and recreation in Greytown?

Q8 No

Do you support funding for the Greytown Sports and Recreation Hub proposal (as detailed on page 4 of the Consultation Document)?

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9
Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

The Greytown Sports hub should be funded by Greytown and their own trusts and people. IF any improvements are needed by Kuranui to have fit for purpose facilities then that is covered by MOE as it is their facility. That is where the cover for the whole south Wai ends. Would the council consider spending just as much on a sports hub in Martinborough AND Featherston? No! Let the community get this sorted. Any investment from the council should be paid back by the Greytown ward. Featherston and Martinborough both already have great sporting facilities. Splash the cash in either direction there if you must!

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9

Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

My answer to the question do I support Greytown Sports and Recreation Hub included in the Annual Plan Documents. No. Because only benefits Greytown. Look at the name Greytown Sports and Recreation Hub for a start which says it all. Featherston Sports Hub at the Featherston Rugby Club has been upgraded by the community. They have gotten sponsorship from local businesses, individuals and their community. Their committee and friends have spent hours upon hours cleaning up the inside and upgrading the clubrooms. Then all the work being done on the outside of the building, including the painting, the paint is being sponsored by Resenes and the painting is being done by the committee and friends. The building is owned by the Featherston Rugby Club, which has a lease agreement with South Wairarapa District Council to allow the building to be situated on South Wairarapa District Council land. Land that came under Featherston Borough Council and was taken over by the South Wairarapa District Council in 1989 remembering South Wairarapa District Council is made up of Greytown, Martinborough and Featherston's Borough Councils and the Featherston County Council. The Featherston hub has to pay building rates, which are expensive as included in these is a charge on the number of working toilets, like any commercially run motel building for example. The grounds around the rugby club are owned and maintained by the South Wairarapa District Council. But Card Reserve artificial surface is run by a trust which built the artificial surface at Card reserve in 2000, the trust maintains and have upgraded the surfaces through fees collected from users and grants. How is the maintenance of the Greytown Sports and Recreation Hub going to be paid for? Is the South Wairarapa District Council going to be asked to give more money from our rates for this. Therefore again the answer is No I do not support funding from South Wairarapa District Council for the Greytown Sports and Recreation Hub.

Q4

Do you have any other comments you would like to make on the actions proposed above or have any other ideas for the Action Plan?

Featherstons waste water also requires urgent attention and should also be a priority due to the number of properties in the area who have suffered 100 year flooding twice in recent times. Our train station and the supermarket flood regularly which is an indicator that urgent work is required.

However, I recognise that Martinborough has been denied a basic human right in not having drinkable water over the past year so while I support this initiative, I believe that both Featherston and Martinborough should have the same priority albeit for different but no less urgent reasons.

Q8

No

Do you support funding for the Greytown Sports and Recreation Hub proposal (as detailed on page 4 of the Consultation Document)?

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9

Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

I do NOT support this initiative. The cost involved to fund this in the current financial climate through rates is un-necessary and thankfully avoidable. This is a 'nice to have' and not a need. Should Greytown feel it's 'needed', then they should pay for it. It should not be included in our rates especially when there is a sports centre in Featherston. To increase rates at this time for this reason is detestable.

The council needs be looking to reduce, not increase rates making this possible with the exclusion of this initiative. I note that these costs have not been included in the 'rates increase' but it is an increase to the ratepayers non the less.

Q12

What do you think about Council's proposals for land transport (page 5 of the Consultation Document)? Should we be doing more to promote walking and cycling in the district?

What trees need to be replaced and where are they located?

I agree with the continuation of plan to replace and lay footpaths.

I also agree with continuing to improve the tracks and cycleways.

Page 8: Discussion Topic 4: Waste Minimisation

Q13

Respondent skipped this question

Do you think it is important for Council to develop a Waste Minimisation Action Plan?

Q14

Encouraging food composting,

Do you support any of the waste minimisation ideas proposed (as detailed on page 6 of the Consultation Document)? Tick all that you support otherwise leave all blank

Reducing the availability of Council agendas and papers at meetings

Q15

Do you have any other comments you would like to make on the proposed ideas above or any other ideas about what Council could do to help the district send less waste to landfill?

- a) I don't agree with moving to a more user pays model, i.e increasing the cost of council rubbish bags because this would increase dumping in rural areas. Low cost bags to get rid of rubbish should be maintained.
Also while the use of plastic rubbish bags is not environmentally friendly, it is important to continue to provide a low cost option for those who cant afford a wheelie bin.
 - b) I don't agree with providing a wheelie bin for general rubbish, paid for through rates. The cost for myself would not reflect my usage as I only put a bag out once a month or six weeks.
 - c) I don't agree with providing recycling in urban areas as they're often not cleared regularly enough. They become messy and these areas tend to have an issue with graffiti. They tend to be conspicuous, often creating a less than aesthetic view.
 - d) I agree with encouraging food composting as this is another form of recycling.
 - e) I agree at reducing council agendas and papers at meetings as this can be replaced with the use of technology, i.e projected at meetings or on individual devices.
-

Page 9: Discussion Topic 5: Building Capability

Q16

Respondent skipped this question

What do you think about Council's proposal to build the organisation's capability and improve delivery of services?

Page 10: Other Feedback

Q17

Do you have any other feedback for the Annual Plan 2020/21?

I do not agree with the degree of rate increase for the 2021 year. Savings need to be found to reduce rates or at the very least maintained.

1. Introduction

Introduction

This submission is submitted on behalf of the Ruakokoputuna valley residents.

We made a submission in 2019 (dated 7 May 2019). We understand that:

- this was successful in obtaining funding for 3km of sealing on the first 3km of Ruakokoputuna Road
- that sealing did not take place in the 2019/20 financial year due to COVID19 lockdown restrictions

This submission is to reiterate to the new Council our points and confirm the continuation of the funding. The remainder of the submission remains the same as the previous submission.

We would like to note that the current condition at the time of writing this submission is really poor. It is at a level that is dangerous to drive on as you try and avoid the corrugations. I understand there has been no maintenance during lockdown, but it highlights the point that this part of the road while unsealed requires a lot of maintenance and is a hazard if not graded properly.

The basis of this submission is:

- that over time the type and volume of use for this road has substantially changed and the surface and maintenance programme have not kept pace with this change
- this has resulted in:
 - sub-standard surface conditions most of the time
 - a road that would fail to meet minimum safety requirements
 - a road surface that is unsuitable for visitors and tourists that frequent the area (particularly to go to Patuna Chasm)
- that despite numerous and frequent calls to council over recent years there has been no effective change for the users of this road

This submission addresses:

- change of use
- safety matters
- other approved projects
- complaints

This submission will be supported by personal representation to council.

Continued on next page

1. Introduction, Continued

Local Government Act

Under the Local Government Act 2002¹ (LGA) and Land Transport Management Act 2003 the South Wairarapa District Council (SWDC) is responsible as owner and controlling authority for the management and provision of all roads (except state highways) in the district.

Under sub-section 319(1)(a) of the LGA the Council has a discretionary power ‘to construct, upgrade, and repair all roads with such materials and in such manner as the council thinks fit’. As residents and users of the Ruakokoputuna Road, we are concerned that the gravel surface of the road and the current maintenance is no longer sufficient in keeping the road in a safe and usable condition.

We jointly submit that the Council should exercise this discretionary power by making short and long term investment to upgrade and maintain (on an ongoing basis), the road surface of Ruakokoputuna Road (Road).

Continued on next page

¹ LGA 1974 – s316

1. Introduction, Continued

Submission We are submitting that the road surface requires immediate short term and long-term investment by the Council in order to provide a safer road for residents, businesses and tourism.

We believe that this can be achieved by:

- The Council tarseals the most problematic and unsafe sections of the road, namely up to the 4km point on Ruakokoputuna Road, and the 1.5 km bend on Haurangi Road.
- The provision of regular and adequate road maintenance to ensure the gravel sections of the road are in a usable and safe condition at all times, including maintenance of drainage.
- The provision of signage throughout the road to warn drivers of:
 - bends
 - gravel surfaces
 - reducing speed
 - oncoming traffic

The road has degraded to a point where it's currently:

- stressful to use
- dangerous to the wellbeing of residents and tourists
- damaging to vehicles

The nature of the Ruakokopatuna Area has changed significantly over the years from once being a sleepy farming community to now being fragmented with lifestyle blocks, businesses and importantly now a growing usage as the area becomes a popular tourism destination.

We see these recommendations provide a better and more cost effective long term solution for both the council and the residents and users of this road. This will ultimately provide safer roads for residents and tourists which in turn will enhance the community wellbeing and provide a secure and accessible environment for tourism growth

2. Change of Use

Introduction

Key points in regards to this road and change of use include:

- the original gravel surface has remained unchanged since the area was settled. The only exceptions being a few small sections of seal added over the last 30 years
- the area has grown residentially and commercially from approximately 6 homes to over 50 homes, sections and businesses
- most of these homes have at least 2 vehicles using the road on a daily basis
- there are also three businesses including Te Kairanga Vineyard and Pakohe Agriculture who have multiple vehicles (including heavy machinery) using the road daily
- along with increased residential and commercial use there has been a substantial increase in tourism contributing to the increased road usage. The Patuna Chasm had 6,700 visitors in summer 2019, which is triple the numbers of summer 2017, these visitor numbers are expected to continue to grow. Visitor numbers are also expected to rise with the Ruakokoputuna area being tagged as the ‘nucleus’ of the proposed Dark Sky Reserve. Going off tourism data from Lake Tekapo, this will exponentially increase tourism figures to not only Martinborough but also the Ruakokoputuna Road as the ‘nucleus’

Note: COVID 19 will have an effect on international tourists, but the majority of visitors are domestic tourists.

The road surface is not longer suitable or safe for the changed type of use and frequency of users.

3. Safety

Introduction There are a number of safety issues in regards to this road, its surface and maintenance:

- we believe it is only a matter of time before the condition of the road will lead to either a serious accident or fatality
 - the road is mostly gravel with tarsealing in parts at the 3km mark and again at approximately 4km mark. The graveled road surface combined with the increased vehicle usage has resulted in a significant degradation of the road including exposed bedrock and potholes, the road state is regularly in a dangerous condition
 - at most times the potholes and corrugations are of number and significance that drivers have to cross the middle of the road to avoid them. This is a major and fundamental safety issue
 - the most problematic points for vehicle incidents, potholes, corrugations and bedrock are between 1.2 km and 4km on the Ruakokoputuna Road, and bends between 1.5 -1.7km points from the start of Haurangi Road. The road in these parts are winding, graveled bends which combined with corrugations, exposed bedrock and potholes have contributed to a number of incidents or near misses on the road with vehicles either skidding out of control on the gravel or taking the bends on the wrong side of the road to avoid potholes and bedrock
 - we know of 6 vehicles going off the road in the last 1.5 years between the 2km and 4km mark on Ruakokoputuna Road, this notorious stretch has a cliff drop off one side. Three of those vehicle incidents have occurred around or after the 2km mark, in all 3 cases a random tree has stopped the vehicle dropping off the side of the road.
 - the gravel nature of the road surface is problematic for the tourists who have little to no experience on gravel, many either drive too fast or too slow causing frustrations for the lines of cars behind them
 - being gravel also sends an implicit message to road users that the road is not often used which is not the case as you are very likely to encounter at least one other vehicle on the road at the same time. This may be why we see many non-local vehicles driving recklessly and without caution, they get a big fright when another vehicle comes around a bend and we have experienced vehicles actually losing control because of this
 - the state of the road takes a toll on vehicles that use it on a daily basis and increases wear
-

4. Other Council Projects

Introduction The Council have in recent years tarsealed Te Muna Road and Shooting Butts Road, both roads have less residents and substantially less usage than Ruakokoputuna Road.

The following average daily road usage data was recorded by the Council:

- Te Muna Road - 85 vehicles (May, 2018)
- Shooting Butts Road - 109 vehicles (October, 2012)
- Ruakokoputuna Road – 160 vehicles (March, 2018)

For whatever reason these other roads have been sealed in preference to Ruakokoputuna Road. This might be simply due to an awareness at council level. This is therefore a major reason for this submission.

5. Complaints

Introduction There has been a number of regular phone calls and visits to the Council offices over the years from residents urging the Council to take action and maintain the road. Grading the road is often irregular and when it does occur ineffective with the corrugations, potholes and bedrock either remaining in place or returning days later.

Fundamentally these complaints have not achieved an increase in safety or levels of service for this road.

We believe sealing these sections of road combined with the other recommendations would significantly increase:

- safety
- usability and journey enjoyment

and at the same time reducing ongoing (yet ineffective) maintenance costs.

Page 2: Discussion Topic 1: Water Supply and Water Resilience

Q1 **Yes**

Do you agree that the water supply should be Council's main focus next year?

Q2 **Yes**

Do you think it's important for Council to develop a Water Conservation Action Plan?

Q3 **Removing the Water by Meter Write-off Policy,**
Offering subsidised water tanks, at cost, paid back over a period of time
,
Requiring new builds to have their own water storage solution

Do you support any of the proposed water resilience actions (as detailed on page 3 of the Consultation Document)? Tick all that you support otherwise leave all blank

Q4

Do you have any other comments you would like to make on the actions proposed above or have any other ideas for the Action Plan?

All the leaks need to be fixed before it can be metred...

Page 3: Discussion Topic 2A: Continue extended hours for swimming pools

Q5 **Yes**Do you agree that we should continue to trial extended swimming pool hours next summer (i.e. longer hours in evenings and on weekends)? Current year's opening hours are available here <https://www.swdc.govt.nz/swimming-pools>.

Q6

Why is this?

Same time closure every day would be more ethical.

Page 4: Discussion Topic 2B: Greytown Sports and Recreation Hub

Q7

No

Do you think that the Council should provide more space for sports and recreation in Greytown?

Q8

No

Do you support funding for the Greytown Sports and Recreation Hub proposal (as detailed on page 4 of the Consultation Document)?

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9

Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

As far as I'm concerned it is currently unneeded. Featherston needs things to we have flooding issues ect it seems to me like greytown seems to think they are more obligated to money being spent on our towns.

Page 6: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q10

Respondent skipped this question

As you selected 'Partial' because you support funding for parts of the proposal, but not all, tick all the parts that you support

Q11

Respondent skipped this question

Why is this?

Page 7: Discussion Topic 3: Land Transport

Q12

What do you think about Council's proposals for land transport (page 5 of the Consultation Document)? Should we be doing more to promote walking and cycling in the district?

Yes always

Page 8: Discussion Topic 4: Waste Minimisation

Q13

Yes

Do you think it is important for Council to develop a Waste Minimisation Action Plan?

Q14

Do you support any of the waste minimisation ideas proposed (as detailed on page 6 of the Consultation Document)? Tick all that you support otherwise leave all blank

Providing a wheelie bin for general rubbish, paid for through rates

Providing recycling station in urban areas,

Encouraging food composting

Q15

Do you have any other comments you would like to make on the proposed ideas above or any other ideas about what Council could do to help the district send less waste to landfill?

Respondent skipped this question

Page 9: Discussion Topic 5: Building Capability

Q16

What do you think about Council's proposal to build the organisation's capability and improve delivery of services?

Good ideas.

Page 10: Other Feedback

Q17

Do you have any other feedback for the Annual Plan 2020/21?

Reopen the motorbike track at lake reserve... instead of building new sports hubs why not utilise the things we already have...

Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

Why should ratepayers from other towns pay for a facility to be put up in Greytown? If they want the facility then Greytown ratepayers should pay for it as they will use the facility the most. Other South Wairarapa towns have their own facility - unless the Council decides to take the land for their own profit.

Q9

Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

Featherston has a stadium that needs to be used properly. Also needs to be updated. Featherston needs to be updated with, better solutions for our floodways. Greytown has had a lot of money spent on making the main road look nice. What about Featherston. Coming off the hill is the gateway to Wairarapa, the town looks like the poor relation. We have a lot of dilapidated buildings that are boarded up. Not to mention a rail cartridge the is on a property falling into disrepair on the main road. People live here and need to make a living from their investments. The look of the town does not encourage outsiders to stop and shop. You did not deliver on the shopping complex that was planned. Don't get me started on the bear land next to the shop carpark. The stone garden looks good. But not used how it should be. For goodness sake you have banned anyone from eating there. This town used to be the hub for people catching up. We used to have 2 grocery shops, 3 clothing shops, a green grocer, a butcher, jeweler, plant shop, 2 bakeries, fish and chip shop, hardware store, courthouse, and council chambers. I feel that everything has been taken from this once busy little town by people on council and delivered to the next dream town. Stop robbing us, and help our town thrive again. If you consent to buildings going up at the bottom of this town, building them a meter off the ground is not the fix. Fix our flood wats

Why is this?

Page 7: Discussion Topic 3: Land Transport

Q12

What do you think about Council's proposals for land transport (page 5 of the Consultation Document)? Should we be doing more to promote walking and cycling in the district?

Yes, but if you want to do that, fix footpaths. A lot of the foot paths look good, but the chamber is too great for walking on, especially for the infirm. The elderly and infirm need to be able to get exercise to keep them moving and healthy

Page 8: Discussion Topic 4: Waste Minimisation

Q7

No

Do you think that the Council should provide more space for sports and recreation in Greytown?

Q8

No

Do you support funding for the Greytown Sports and Recreation Hub proposal (as detailed on page 4 of the Consultation Document)?

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9

Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

These plans do not benefit the whole community. It will be easily accessible for a small section of people rather than the whole area. This does not feel like it is a wise use of money when other towns within the district have been able to find funding for their hubs through other avenues. This is not what I want my rates spent on when there are more important areas requiring need. The money going to Kuranui is appalling. While the Ministry of Ed will not fund them further there are plenty of other avenues to find appropriate funding. There are significant examples around the country of schools getting sponsorship or applying for appropriate grants for these kinds of things rather than putting their hand out for money from the council. This is not an appropriate use of rate payer money.

Page 6: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q10

Respondent skipped this question

As you selected 'Partial' because you support funding for parts of the proposal, but not all, tick all the parts that you support

Q11

Respondent skipped this question

Why is this?

Page 7: Discussion Topic 3: Land Transport

Q12

What do you think about Council's proposals for land transport (page 5 of the Consultation Document)? Should we be doing more to promote walking and cycling in the district?

I think this is a good idea. Not only is there benefit for the community at large there are also tourism opportunities in the future with better tracks and trails around the region.

Page 8: Discussion Topic 4: Waste Minimisation

Q13

Yes

Do you think it is important for Council to develop a Waste Minimisation Action Plan?

Q14

Do you support any of the waste minimisation ideas proposed (as detailed on page 6 of the Consultation Document)? Tick all that you support otherwise leave all blank

Providing recycling station in urban areas,
Encouraging food composting,
Reducing the availability of Council agendas and papers at meetings

Q15

Respondent skipped this question

Do you have any other comments you would like to make on the proposed ideas above or any other ideas about what Council could do to help the district send less waste to landfill?

Page 9: Discussion Topic 5: Building Capability

Q16

What do you think about Council's proposal to build the organisation's capability and improve delivery of services?

I agree with this.

Page 10: Other Feedback

Q17

Do you have any other feedback for the Annual Plan 2020/21?

There appears to be no consideration for the changes in life that have happened over the last three months. This goes back to "business as usual" without consideration to the ongoing impacts that the residents of the area have been through. Proposing such a rates increase this time around is incredibly poor form and shows a complete lack of compassion. I am appalled that we have recently moved to an area that apparently shows very little interest in the human aspect.

Information provided on each of the projects proposed is also too little. You are asking for a significant increase of money without providing very much detail on each of them. Even looking through the website I was surprised that I could find very little information on what the actual plan was - they are very vague.

Q9

Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

Because kuranui do not need a facility like that they have been given funding again and they do not need it they're being greedy.

As a former student they need to accept they'll never be a premier college, they'll always be a middle of the road average and affordable college for people in the south wairarapa

As you selected 'Partial' because you support funding for parts of the proposal, but not all, tick all the parts that you support

Q11 Respondent skipped this question

Why is this?

Page 7: Discussion Topic 3: Land Transport

Q12

What do you think about Council's proposals for land transport (page 5 of the Consultation Document)? Should we be doing more to promote walking and cycling in the district?

Tracks & trails great for walking & cycling. But gravel roads like Moroa Road need sealing also.

Page 8: Discussion Topic 4: Waste Minimisation

Q13

Yes

Do you think it is important for Council to develop a Waste Minimisation Action Plan?

Q14

Do you support any of the waste minimisation ideas proposed (as detailed on page 6 of the Consultation Document)? Tick all that you support otherwise leave all blank

Providing a wheelie bin for general rubbish, paid for through rates

'

Providing recycling station in urban areas,

Encouraging food composting

Q15

Respondent skipped this question

Do you have any other comments you would like to make on the proposed ideas above or any other ideas about what Council could do to help the district send less waste to landfill?

Q1 Respondent skipped this question

Do you agree that the water supply should be Council's main focus next year?

Q2 Yes

Do you think it's important for Council to develop a Water Conservation Action Plan?

Q3 Offering subsidised water tanks, at cost, paid back over a period of time

Do you support any of the proposed water resilience actions (as detailed on page 3 of the Consultation Document)? Tick all that you support otherwise leave all blank

Requiring new builds to have their own water storage solution

Q4 Respondent skipped this question

Do you have any other comments you would like to make on the actions proposed above or have any other ideas for the Action Plan?

Page 3: Discussion Topic 2A: Continue extended hours for swimming pools

Q5 Yes

Do you agree that we should continue to trial extended swimming pool hours next summer (i.e. longer hours in evenings and on weekends)? Current year's opening hours are available here <https://www.swdc.govt.nz/swimming-pools>.

Q6

Why is this?

I can understand having a pool open after lunchtime may mean less mess however opening at 11am is a lost opportunity to provide lunches n create revenue for the council. Also it is increasingly warmer and 11am seems a good time to cool off.

Page 4: Discussion Topic 2B: Greytown Sports and Recreation Hub

Q7

No

Do you think that the Council should provide more space for sports and recreation in Greytown?

Q8

No

Do you support funding for the Greytown Sports and Recreation Hub proposal (as detailed on page 4 of the Consultation Document)?

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9

Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

As an amalgamated council there are already facilities provided in the district. Fundraising (as other towns have done) should be the main focus if a hub is wanted. A city doesnt have sports hubs in each suburb so what was the point of an amalgamation of each town if the facilities are not utilized by all people rather than separate towns. This is doubling up on maintenance

Page 6: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q10

Respondent skipped this question

Q6

Why is this?

The longer hours work better for families with two working parents

Page 4: Discussion Topic 2B: Greytown Sports and Recreation Hub

Q7

No

Do you think that the Council should provide more space for sports and recreation in Greytown?

Q8

No

Do you support funding for the Greytown Sports and Recreation Hub proposal (as detailed on page 4 of the Consultation Document)?

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9

Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

I think it is unacceptable for our rates to pay for this at a time that is financially extremely difficult for a large portion of our community. Making an increase in rates this year is bad enough, but spending a large part of it on something completely unnecessary would be a kick in the teeth for already struggling rate payers. This type of project should be postponed until the country is in a more financially stable place. Spend this money on improving the terrible flooding issues in Featherston that actually impact people lives and properties significantly.

What do you think about Council's proposal to build the organisation's capability and improve delivery of services?

All looks very positive

Page 10: Other Feedback

Q17

Do you have any other feedback for the Annual Plan 2020/21?

I think it would be a huge mistake for any our rates this year to be spent on any projects that are not 100% necessary for our communities everyday lives. We now have a large amount of people in our communities who are seriously struggling to get by due to the impact of COVID 19. Please focus on essential projects this year like the flooding issues in featherston. Greytown already has fantastic facilities!

Do you have any other comments you would like to make on the actions proposed above or have any other ideas for the Action Plan?

Page 3: Discussion Topic 2A: Continue extended hours for swimming pools

Q5 **Yes**Do you agree that we should continue to trial extended swimming pool hours next summer (i.e. longer hours in evenings and on weekends)? Current year's opening hours are available here <https://www.swdc.govt.nz/swimming-pools>.

Q6

Why is this?

For after work and school

Page 4: Discussion Topic 2B: Greytown Sports and Recreation Hub

Q7

No

Do you think that the Council should provide more space for sports and recreation in Greytown?

Q8

No

Do you support funding for the Greytown Sports and Recreation Hub proposal (as detailed on page 4 of the Consultation Document)?

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9

Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

There are already facilities in Featherston that need updating and maintenance.

Page 6: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q10

Respondent skipped this question

As you selected 'Partial' because you support funding for parts of the proposal, but not all, tick all the parts that you support

Q11

Installing smart meters to monitor water consumption and leaks

Q4

Do you have any other comments you would like to make on the actions proposed above or have any other ideas for the Action Plan?

Increase the leak detection survey cycle to 2 yearly.

Page 3: Discussion Topic 2A: Continue extended hours for swimming pools

Q5 **No**

Do you agree that we should continue to trial extended swimming pool hours next summer (i.e. longer hours in evenings and on weekends)? Current year's opening hours are available here <https://www.swdc.govt.nz/swimming-pools>.

Q6

Why is this?

Increased resourcing costs

Page 4: Discussion Topic 2B: Greytown Sports and Recreation Hub

Q7

Yes

Do you think that the Council should provide more space for sports and recreation in Greytown?

Q8

No

Do you support funding for the Greytown Sports and Recreation Hub proposal (as detailed on page 4 of the Consultation Document)?

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9

Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

Opportunities for the funding for recreational space were gifted away with the recent approval by Council of the Orchard consent. There is an expectation that Greytown residents will now rectify this mistake for Council.

As well the possible land purchases of Greytown Trust Lands Trust properties when they already have sufficient resourcing to undertake the gifting of the Rugby Club and the Bowling Club to the Council for Greytown's recreational usage.

Ratepayers should not be expected to prop up the Trusts finances by purchasing recreational land when their role to provide these parcels for the benefit of residents is quite clear already.

Page 6: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q10

Respondent skipped this question

Q11

Respondent skipped this question

Why is this?

Page 7: Discussion Topic 3: Land Transport

Q12

What do you think about Council's proposals for land transport (page 5 of the Consultation Document)? Should we be doing more to promote walking and cycling in the district?

So long as cycle ways and trails don't compromise our existing roading networks. Cyclists may share the current roading assets. There are plenty of existing walking and cycling opportunities without redesigning our current road carriageways.

I applaud the proposal to step up the footpath renewal program, perhaps this can be done without the current programmed 3 year cycle where only one town benefits per year.

Page 8: Discussion Topic 4: Waste Minimisation

Q13

No

Do you think it is important for Council to develop a Waste Minimisation Action Plan?

Q14

Moving to a more user pays model, i.e. increasing the cost of council rubbish bags

Do you have any other comments you would like to make on the proposed ideas above or any other ideas about what Council could do to help the district send less waste to landfill?

Page 9: Discussion Topic 5: Building Capability

Q16

What do you think about Council's proposal to build the organisation's capability and improve delivery of services?

The opportunity to 'share' services with the neighboring Councils could be further explored, and acted upon.

The 'dark sky' is a glamour project not deserving of additional funding by ratepayers. The purpose of street lighting is primarily for pedestrian and vehicular safety, it has already be made more efficient with the upgrade to LED lighting, where we were told there was also a reduced luminance installed.

Q1 **Yes**

Do you agree that the water supply should be Council's main focus next year?

Q2 **Yes**

Do you think it's important for Council to develop a Water Conservation Action Plan?

Q3

Do you support any of the proposed water resilience actions (as detailed on page 3 of the Consultation Document)? Tick all that you support otherwise leave all blank

Offering subsidised water tanks, at cost, paid back over a period of time

,

Requiring new builds to have their own water storage solution

,

Installing smart meters to monitor water consumption and leaks

Q4

Do you have any other comments you would like to make on the actions proposed above or have any other ideas for the Action Plan?

We have purchased two tanks from council to save water too. We adhered to all restrictions over summer but know that most households might not be able to do this. can we look over seas to see the best practices?

Page 3: Discussion Topic 2A: Continue extended hours for swimming pools

Q5 **Yes**

Do you agree that we should continue to trial extended swimming pool hours next summer (i.e. longer hours in evenings and on weekends)? Current year's opening hours are available here <https://www.swdc.govt.nz/swimming-pools>.

Q6

Why is this?

We loved going to the pools even though we have a pool at home which doesn't have work. Our kids became more confident. Can the Featherston school pool be fixed or knowledge shared in how to maintain this pool with your resources?

Page 4: Discussion Topic 2B: Greytown Sports and Recreation Hub

Q7

No

Do you think that the Council should provide more space for sports and recreation in Greytown?

Q8

No

Do you support funding for the Greytown Sports and Recreation Hub proposal (as detailed on page 4 of the Consultation Document)?

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9

Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

I live in Featherston, and have an open ditch outside my house. I would like this covered and safe for my children to bike and play with the neighbours children. They have an adequate sports club here.

Page 6: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q10

Respondent skipped this question

Q11

Respondent skipped this question

Why is this?

Page 7: Discussion Topic 3: Land Transport

Q12

What do you think about Council's proposals for land transport (page 5 of the Consultation Document)? Should we be doing more to promote walking and cycling in the district?

Yes, more footpaths! During lockdown, we were amazed at the lack of footpaths. We would like the bike trail maintained along Western Lake Road.

Page 8: Discussion Topic 4: Waste Minimisation

Q13

Yes

Do you think it is important for Council to develop a Waste Minimisation Action Plan?

Q14

Do you support any of the waste minimisation ideas proposed (as detailed on page 6 of the Consultation Document)? Tick all that you support otherwise leave all blank

Providing a wheelie bin for general rubbish, paid for through rates

Providing recycling station in urban areas,

Encouraging food composting,

Reducing the availability of Council agendas and papers at meetings

Q15

Do you have any other comments you would like to make on the proposed ideas above or any other ideas about what Council could do to help the district send less waste to landfill?

Make all flyers compostable. Give fruit trees to all families. Limit plastic in supermarkets. Go to the source, not the end user

Page 9: Discussion Topic 5: Building Capability

Q16

What do you think about Council's proposal to build the organisation's capability and improve delivery of services?

Hmmm, could be elaborated more. Of course we would like efficient services but what and how exactly are you planning to spend on? Why is accommodation paid for?

Page 10: Other Feedback

Q17

Do you have any other feedback for the Annual Plan 2020/21?

We own a four bed two bathroom home in Masterton and our rates are cheaper there.

Page 9: Discussion Topic 5: Building Capability

Q16

What do you think about Council's proposal to build the organisation's capability and improve delivery of services?

I think the Council should build capability and improve delivery of service at the current or reduced cost. Extra costs here should not be required.

Page 10: Other Feedback

Q17

Do you have any other feedback for the Annual Plan 2020/21?

The new look council should be reducing costs and wastage not looking to increase it with frivolous expenditure such as the Greytown Sports Hub. It would be wonderful if money were spent ensuring Featherston didn't flood every time it rained.

Do you support funding for the Greytown Sports and Recreation Hub proposal (as detailed on page 4 of the Consultation Document)?

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9

Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

I support the funding for the Greytown Sports and Recreation Hub.
My support is due to two reasons.

Firstly, the availability of green space and sporting clubs is very important for our whole community to have access to, not least of which are our children. A wide variety of sport and leisure activities gives the opportunity for people to try different things and for our community to cater to a large variety of peoples interests, which the Recreation Hub will do. Having access to sport and leisure facilities is paramount for health and wellbeing and community involvement.

Secondly, if the desire of the community is for Greytown Trustlands Trust to remain a significant funder of our community then something needs to change. Greytown Trustlands Trust have made it very clear what their ongoing strategy is going to be and this strategy is clearly going to be detrimental to the rugby and bowls clubs. But Greytown Trustlands Trust must change their model if they are to remain a main funder for the community for the long term and therefore a different option to the current needs to be found for the rugby and bowls clubs. The purchase of these spaces by the SWDC will hold these areas in perpetuity for the very important role that they play within the community.

I would be comfortable with the ongoing rates rise to fund these opportunities, opportunities which we may never have the chance at again.

Do you support funding for the Greytown Sports and Recreation Hub proposal (as detailed on page 4 of the Consultation Document)?

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9

Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

Its been 3 years since the sports hub was submitted at the last long term plan. That submission NEVER identified that the Council would be ultimately responsible to fund or find a solution for this issue other than the request for \$\$\$ to put to a feasibility study, which they received. There is no evidence in the last 3 years that any fund raising has bee achieved for this venture. Many meetings, plenty of talk and no action. This is not a necessity at this point of time. Greytown has received much in the past for sport through the development fund. Rate payers are not an endless pit of money for community issues that have been known about for sometime and not actioned. Why do Council have to pick up the pieces from Greytowns bad planning. Its a NO for now from me. When will the handouts for this venture stop?

Q12

What do you think about Council's proposals for land transport (page 5 of the Consultation Document)? Should we be doing more to promote walking and cycling in the district?

NO, focus on water and infrastructure - we have plenty of marketing for walking and cycling in the district - the opportunities are endless - spend rate payers money on core services.

Page 8: Discussion Topic 4: Waste Minimisation

Q13

Yes

Do you think it is important for Council to develop a Waste Minimisation Action Plan?

Q14

Do you support any of the waste minimisation ideas proposed (as detailed on page 6 of the Consultation Document)? Tick all that you support otherwise leave all blank

**Encouraging food composting,
Reducing the availability of Council agendas and papers at meetings**

Q15

Do you have any other comments you would like to make on the proposed ideas above or any other ideas about what Council could do to help the district send less waste to landfill?

start small and then continue to move to bigger issues with rubbish. what does moving to a more user pays model mean. there is no magic bullet to this situation and I don't believe that people should pay more for rubbish collection as it will continue to result in rubbish being dumped freely everywhere. Stop giving out for niceties such as the Greytown Sports Hub and put the money towards rubbish and stop charging the people for it given they already pay a heap of rates already.

Page 9: Discussion Topic 5: Building Capability

Q16

What do you think about Council's proposal to build the organisation's capability and improve delivery of services?

I think train your existing people to work smarter. Getting in more people DOES NOT necessarily mean you are going to get more work done. Development is the key. If you can't develop them, then go through an employment performance programme. If you are going to spend money in this area make sure it is value for money - some of the service provided is sub-standard!! Communication within the operating services of this Council is questionable. I say no more. Happy to give specific feedback if needed.

Page 10: Other Feedback

Q17

Do you have any other feedback for the Annual Plan 2020/21?

Generally I'm impressed with this Annual Plan consultation. However, there is a clear need to get this Council sorted. I stopped in at a show home on Sunday 17 May in the South Wairarapa and the SWDC lack of ability to continue issuing consents through lock down was highlighted while other councils in the district were issuing them. This is just one of many, many comments that arise with this Council, main on is "why is SWDC so hard to work with?" While I have great faith in Harry, there is a need to "shake the tree" with people in the operational side of this Council. Some of them have been working there for donkeys years and have no understanding of customer service in the 21st century. Times are a changing and never has it more evident than through C19 that this Council also needs to change its "attitude" towards customers, clients and people in general. Thank you for considering this submission.

Subject: Additional material to Submission to Annual Plan submitted by Lee Carter

Dear Mayor, Councillors and administration (and Harry :))

I have submitted on the Annual Plan through the portal provided online by the SWDC. I have since been thinking about my submission and would like to add the following to my submission to make it complete. I hope that you will accept this additional information.

Annual Plan Submission - Greytown Sport Hub

While my initial submission is opposed to the Greytown Sports Hub (at this time) I am also aware of the funding process towards town projects through the development fund held for each town. I want Greytown to succeed with grounds and sports equally as our other two towns, but not at this time, or in the near future, at the expense of the rate payer. Mainly because infrastructure is far more a priority (we don't want to end up with water woes such as Auckland in the future [as one example]), and also the affects/impacts of C19 (yet to fully play out)

I would like to suggest, that the Greytown Hub be funded out of the Greytown development fund for this AP year and future years, thus taking this project into the next LTP round. It will give Greytown what it wants as a starting point, and also guarantees some stream of funding for the future out of the Greytown Development fund including any kind of funding raising that Greytown plan to do to contribute to their needed project. Last years AP round I understood there was approx 1 million dollars sitting in the fund and with continued developments in Greytown it will increase.

This will free up rate payers money for infrastructure needs, namely water, which is desperately needed. Given the amount of debate about this project, it will also settle the whirl that has gained momentum between towns and also within Greytown itself. The last thing we need in these difficult and uncertain times is more anxst between our towns for

something that will benefit our future generation.

I hope that you as a collective (elected members) can see this suggestion as a possible avenue to a successful outcome for Greytown. It should also be noted that Kuranui College houses students from Carterton and Masterton, it is not only SWD that will benefit from this, yet SWD are being asked to fund it, this should be taken into consideration in your discussions of final funding methods.

Thank you for taking this into consideration.

Many thanks

Lee Carter (rate payer)

 Page 2: Discussion Topic 1: Water Supply and Water Resilience

Q1 **Yes**

 Do you agree that the water supply should be Council's main focus next year?

Q2 **Yes**

 Do you think it's important for Council to develop a Water Conservation Action Plan?

Q3 Do you support any of the proposed water resilience actions (as detailed on page 3 of the Consultation Document)? Tick all that you support otherwise leave all blank	Offering subsidised water tanks, at cost, paid back over a period of time , Installing smart meters to monitor water consumption and leaks
--	--

Q4

Do you have any other comments you would like to make on the actions proposed above or have any other ideas for the Action Plan?

 I think removing the write-off policy should be carefully considered - perhaps repress offenders or the like could have their write-offs rejected, but now is not the time to hit people suffering genuine hardship. Education and assistance will work better for most.

Page 3: Discussion Topic 2A: Continue extended hours for swimming pools

Q5 **Yes**

 Do you agree that we should continue to trial extended swimming pool hours next summer (i.e. longer hours in evenings and on weekends)? Current year's opening hours are available here <https://www.swdc.govt.nz/swimming-pools>.

Q6

Why is this?

Honestly I am ambivalent on thi topic, but if it costs little and the usage is worth it I don't see why not. Learning to swim is an important skill

Page 4: Discussion Topic 2B: Greytown Sports and Recreation Hub

Q7

No

Do you think that the Council should provide more space for sports and recreation in Greytown?

Q8

No

Do you support funding for the Greytown Sports and Recreation Hub proposal (as detailed on page 4 of the Consultation Document)?

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9

Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

I do not support the way this is being carried out and placed as a cost to all ratepayers when there are decent unfunded facilities elsewhere (that would cost less to upgrade even if that was an option). When the infrastructure in South Wairarapa is so poor - flooding, water issues, poor footpaths and facilities, this seems like just the kind of frivolous spending that should be avoided in the current climate. The MOE is paying for the school facilities to be brought up to scratch, and other arrangements should be made for the displaced clubs. It is not appropriate to ask people who've had decades of poor water supply, faulty drains and flooding to have ongoing rates increases to pay for Greytown to have an unnecessary 'world class' facility (that if combined with the school, the public will have limited access to anyway. Let them fundraise for it. SWDC rates are already extremely high for the level of infrastructure present.

Page 6: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q10

Respondent skipped this question

As you selected 'Partial' because you support funding for parts of the proposal, but not all, tick all the parts that you support

Q11

Respondent skipped this question

Why is this?

Page 7: Discussion Topic 3: Land Transport

Q12

What do you think about Council's proposals for land transport (page 5 of the Consultation Document)? Should we be doing more to promote walking and cycling in the district?

Yes. Promotion and facilities for outdoor recreation are beneficial.

Page 8: Discussion Topic 4: Waste Minimisation

Q13

Yes

Do you think it is important for Council to develop a Waste Minimisation Action Plan?

Q14

Do you support any of the waste minimisation ideas proposed (as detailed on page 6 of the Consultation Document)? Tick all that you support otherwise leave all blank

Providing a wheelie bin for general rubbish, paid for through rates

Providing recycling station in urban areas,

Encouraging food composting,

Reducing the availability of Council agendas and papers at meetings

Q15

Do you have any other comments you would like to make on the proposed ideas above or any other ideas about what Council could do to help the district send less waste to landfill?

I don't find the bags terrible expensive but increasing the user pays model would I fear just lead to increased incidences of people burning rubbish (which I wish was far more heavily restricted)

Page 9: Discussion Topic 5: Building Capability

Q16

What do you think about Council's proposal to build the organisation's capability and improve delivery of services?

I'm not wholly convinced that it will benefit residents as communications and customer service seems to be a definite longstanding issue, but haven't been here long enough to judge.

Page 10: Other Feedback

Q17

Do you have any other feedback for the Annual Plan 2020/21?

Most of the proposals seem fairly sensible - infrastructure desperately needs investing in, especially with the rapid expansion of Featherston etc. I am wholly against funding a new sports hub through my rates.

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9

Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

I believe SWDC needs to focus on infrastructure in other towns such as a waste water plant, drainage and footpath repairs in Featherston before any funding is directed into a new sports hub. Lets get the basics sorted first.

Page 6: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Encouraging food composting,

Reducing the availability of Council agendas and papers at meetings

Q15

Do you have any other comments you would like to make on the proposed ideas above or any other ideas about what Council could do to help the district send less waste to landfill?

Creation of compost as a way of processing our green waste

Page 9: Discussion Topic 5: Building Capability

Q16

What do you think about Council's proposal to build the organisation's capability and improve delivery of services?

Unsure based on information provided

Page 10: Other Feedback

Q17

Do you have any other feedback for the Annual Plan 2020/21?

Please sort out the basics in our towns before spending huge sums of rate payers money on 'nice to have' sports hub. Also given the down turn in the economy due to Covid 19, it would be a good idea to keep rate increases to a minimum. Featherston needs a sustainable waste water treatment plant.

Q8

Yes

Do you support funding for the Greytown Sports and Recreation Hub proposal (as detailed on page 4 of the Consultation Document)?

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9

Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

Greytown Residents have half of the sport and recreation space per person compared to Martinborough, and only 40 percent of what Featherston has. The Council provides 100% of that space in Martinborough and Featherston, but only 70% in Greytown. This proposal would put that right. Providing sports and recreation space is a core requirement under local government legislation and this is by far the cheapest option.

Page 2: Discussion Topic 1: Water Supply and Water Resilience

Q1 **Yes**

Do you agree that the water supply should be Council's main focus next year?

Q2 **Yes**

Do you think it's important for Council to develop a Water Conservation Action Plan?

Q3

Do you support any of the proposed water resilience actions (as detailed on page 3 of the Consultation Document)? Tick all that you support otherwise leave all blank

Removing the Water by Meter Write-off Policy,

Offering subsidised water tanks, at cost, paid back over a period of time

,

Requiring new builds to have their own water storage solution

,

Installing smart meters to monitor water consumption and leaks

Q4

Do you have any other comments you would like to make on the actions proposed above or have any other ideas for the Action Plan?

I want to see a plan that is forward looking to the next 20 years. Demographers can calculate the need based on estimates of new builds and enterprises such as the Orchard.

Page 3: Discussion Topic 2A: Continue extended hours for swimming pools

Q5

Yes

Do you agree that we should continue to trial extended swimming pool hours next summer (i.e. longer hours in evenings and on weekends)? Current year's opening hours are available here <https://www.swdc.govt.nz/swimming-pools>.

Q6

Why is this?

So all citizens have equal access. All citizens should be able to swim or at least be water confident to prevent the huge number of drownings in NZ each year

Page 4: Discussion Topic 2B: Greytown Sports and Recreation Hub

Q7

No

Do you think that the Council should provide more space for sports and recreation in Greytown?

Q8

No

Do you support funding for the Greytown Sports and Recreation Hub proposal (as detailed on page 4 of the Consultation Document)?

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9

Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

While this is a wonderful idea it is not for this time. The numbers of people losing jobs, business closures fewer tourists mean the money will not be available. It is cynical and uncaring for a few to push for this at present. I would like to know the numbers of people who would possibly be using these facilities as many of our young people, especially talented sports people leave the area as there is lack of competition. As for the Kuranui gym, we would be paying twice through rates and taxation. We are already paying for Martinborough's folly. Let's sort that first.

Page 6: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q10

Respondent skipped this question

As you selected 'Partial' because you support funding for parts of the proposal, but not all, tick all the parts that you support

Q11

Respondent skipped this question

Why is this?

Page 7: Discussion Topic 3: Land Transport

Q12

What do you think about Council's proposals for land transport (page 5 of the Consultation Document)? Should we be doing more to promote walking and cycling in the district?

Of course this is an excellent idea but again we should be wary of costs when water in and out should be absolutely main priority. With the number of water leaks in featherston, I would suspect that all underground pipes need repacing. This should be the priority.

Page 8: Discussion Topic 4: Waste Minimisation

Q13

Yes

Do you think it is important for Council to develop a Waste Minimisation Action Plan?

Q14

Do you support any of the waste minimisation ideas proposed (as detailed on page 6 of the Consultation Document)? Tick all that you support otherwise leave all blank

Providing a wheelie bin for general rubbish, paid for through rates

,

Providing recycling station in urban areas,

Encouraging food composting,

Reducing the availability of Council agendas and papers at meetings

Q15

Do you have any other comments you would like to make on the proposed ideas above or any other ideas about what Council could do to help the district send less waste to landfill?

All households should have 2 wheelie bins, one for recycling the other for waste. Easier access to green waste disposal eg open for more days. Some form of ability to compost food waste should be looked at too. Look at creating electricity from such waste as is done in other countries.

Page 9: Discussion Topic 5: Building Capability

Q16

What do you think about Council's proposal to build the organisation's capability and improve delivery of services?

What exactly does this mean? Refurbishment of council offices? Better staff training? Better delivery of service? May be a work smarter attitude to improve effectiveness would be cheaper.

Page 10: Other Feedback

Q17

Do you have any other feedback for the Annual Plan 2020/21?

The council's priorities must be waste water and potable water. If the council has other priorities, it is not cognisant of the current and future economic climate and its effects on people's abilities to pay more nice but not necessary projects. We need a tion on these projects. Stop the talk fest and do some research yourselves of what is done in other countries. Do it once with all due diligence and do it right.

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9

Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

I object to the proposal for SWDC to spend millions of dollars on land purchase and the development of a "world-class sports hub".

It is inappropriate for SWDC to be incurring debt and/or raising rates to fund "nice-to-haves" while Featherston still has unresolved flooding and drainage issues, and there is no apparent end in sight to the wastewater treatment plant replacement.

Core services simply MUST come before nice-to-haves and monuments to council, especially in the present financially troubled times.

Why is this?

Page 7: Discussion Topic 3: Land Transport

Q12

What do you think about Council's proposals for land transport (page 5 of the Consultation Document)? Should we be doing more to promote walking and cycling in the district?

Reduce speed limits on some rural roads close to towns as cycling is frightening when there's steep drop off at sides of roads and vehicles go at 100 km. Big farm lorries included

Page 8: Discussion Topic 4: Waste Minimisation

Q13

Yes

Do you think it is important for Council to develop a Waste Minimisation Action Plan?

Q14

Do you support any of the waste minimisation ideas proposed (as detailed on page 6 of the Consultation Document)? Tick all that you support otherwise leave all blank

Moving to a more user pays model, i.e. increasing the cost of council rubbish bags

Encouraging food composting,

Reducing the availability of Council agendas and papers at meetings

Q15

Do you have any other comments you would like to make on the proposed ideas above or any other ideas about what Council could do to help the district send less waste to landfill?

Improve what can be recycled. Join with other councils and instigate a system similar to Kaikoura

Page 9: Discussion Topic 5: Building Capability

Q16

What do you think about Council's proposal to build the organisation's capability and improve delivery of services?

Lacks any detail and doesn't say how the vision will be carried out it complete lacks of information on what the money would be spent on. Has a needs assessment been done and how was the weighting done for prioritisation of needs.

Page 10: Other Feedback

Q17

Do you have any other feedback for the Annual Plan 2020/21?

So little detail in areas where more money is to be spent.

Do you support funding for the Greytown Sports and Recreation Hub proposal (as detailed on page 4 of the Consultation Document)?

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9

Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

Greytown has been asking Council to help to plan to solve our recreation needs for over a decade. So far you are the Council that has listened the most, please don't fail us and our future generations at the last hurdle. As you are aware, we will not get this opportunity again in any or our lifetimes.

Greytown has a high demand for green space and sports facilities, including a district community gymnasium. The current facilities are not adequate in terms of quantity or quality. Greytown has significantly less greenspace and facilities than elsewhere in South Wairarapa and yet is the largest town and growing faster than other areas.

So seniors and children can safely and easily access facilities the research shows it is crucial that the facilities are centrally located as per the proposal.

As a Clinical Psychologist, I know how vital recreation is for supporting the mental wellbeing of people of all ages. And never more so given the challenge of Covid19.

Recreation and the social interactions that come with it, are key protective factors against mental ill health, self harm and suicidal behaviour.

During a recession would be exactly when our community needs access to essential recreation facilities.

In particular, the people who are the most financially vulnerable will need access to low cost facilities. This is fundamental part of what Councils do for communities. The Local Government (Community Well-being) Amendment Act 2019 identifies the Well-being of our community as a clear responsibility for Councils. And we want look after our community. Ensuring that no matter their financial situation, people have recreation facilities to support their mental wellbeing. These facilities are not a luxury, they a fundamental need for the community.

I dislike intensely putting a dollar amount on peoples lives, but it is clear that Council is thinking about the fiscal aspect of the Greytown recreations plan. Consider this: A report by Lyn Provost (Controller and Auditor-General) dated 13 June 2016 found (page 7).

"...2002 data, estimated that the economic cost of a single suicide was \$448,250, and the non-economic cost was \$2.5 million. We estimate that, with inflation, these figures would be about \$602,700 and \$3.4 million respectively in 2015."

So if the human suffering is not enough to convince you, then consider the cost of the 685 lives lost to suicide last year. That's between \$412m and \$2.3bn each year that we all pay for in our taxes.

Given that recreation is a scientifically proven protective factor against mental ill health and suicide.

My question to the Council is:

Can we afford not to invest in the Greytown recreation plan.

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9

Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

I support this proposal because as Greytown expands it is important that green spaces and sports fields remain part of the town as they are an important to the community wellbeing , it is vital they stay in the locations they are as they are easily accessible to everyone and a focal point for community gatherings. The value of Grassroots/community sports should never be expected to compete against ridiculous over inflated land prices in Greytown

Do you support funding for the Greytown Sports and Recreation Hub proposal (as detailed on page 4 of the Consultation Document)?

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9
Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

I wish to express my extreme objection to the proposal. Featherston requires significant investment to address the long-standing flooding and drainage issues, not to mention the wastewater treatment plant upgrade/replacement. These are core services and as such, should take priority over the items mentioned in the proposal topics.

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9

Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

Greytown needs more green space for its community. We have a great shortage at this point in time. The location of the proposed sites is perfect proximity to college, primary and community and if we miss this opportunity now we will never have one like it again. The price that GTLT is asking for already community owned land is absolutely criminal.

Do you support funding for the Greytown Sports and Recreation Hub proposal (as detailed on page 4 of the Consultation Document)?

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9

Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

100% SHOULD fund for the Greytown sports and recreation hub. It's such a great opportunity for new undeveloped sports to be played like badminton and squash! With the shrinking amount of green space in Greytown not supporting this will affect many individuals mental health with sport being their way of relief and happiness.

No

Do you think that the Council should provide more space for sports and recreation in Greytown?

Q8

No

Do you support funding for the Greytown Sports and Recreation Hub proposal (as detailed on page 4 of the Consultation Document)?

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9

Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

there are water issues, sewage treatment issues, flooding issues and lack of footpath issues which take priority when spending ratepayers money. There are community members losing jobs and businesses are feeling the pinch from covid19. an increase in Rates for a Greytown Sports hub is not fair for Martinborough and Featherston residents. the selling of Greytown Rugby Club and Greytown bowling club does not show me commitment to sports as the Lands Trust suggests. The clubs are being sold for \$ yet the expectation is that other ratepayers pay for it. Featherston has the facilities for a south wairarapa sports hub already its a waste of money. I dont support the selling of these facilities to fund the hub in Greytown.

Why is this?

Page 7: Discussion Topic 3: Land Transport

Q12

What do you think about Council's proposals for land transport (page 5 of the Consultation Document)? Should we be doing more to promote walking and cycling in the district?

Yes, more should be done to promote cycling and walking. Lockdown given people the opportunity to spend more time in their towns and explore by foot and cycle. This should be encouraged and supported by reducing speeds and improving infrastructure. Provide more options for recreational cycling, especially routes away from roads. Unfortunately the route from Featherston to Cross Creek is in such a poor state that most cyclists prefer to use the road. I firmly believe that any cycle path next to a road should be in as good or better condition than the road if you want it to be used.

Page 8: Discussion Topic 4: Waste Minimisation

Q13

Yes

Do you think it is important for Council to develop a Waste Minimisation Action Plan?

Q14

Do you support any of the waste minimisation ideas proposed (as detailed on page 6 of the Consultation Document)? Tick all that you support otherwise leave all blank

Moving to a more user pays model, i.e. increasing the cost of council rubbish bags

Encouraging food composting

Q15

Do you have any other comments you would like to make on the proposed ideas above or any other ideas about what Council could do to help the district send less waste to landfill?

In addition to disincentivising landfill waste (higher cost bags), levy fines on those who don't recycle.

Page 9: Discussion Topic 5: Building Capability

Q16

What do you think about Council's proposal to build the organisation's capability and improve delivery of services?

Anecdotal evidence suggests dealing with the council on building matters is a painful experience. It would be good to hear the council address the public and allay their fears. I suspect people are disinclined to build in the region as a result of the stories. Perhaps the situation has changed, if so this could be communicated. If it's purely anecdotal, statistics on the building consent process could be published.

Page 10: Other Feedback

Q17

Do you have any other feedback for the Annual Plan 2020/21?

Please prioritise the Birdwood/Fox St crossing. It is terrible.

Online live streamed consultations should continue.

Page 2: Discussion Topic 1: Water Supply and Water Resilience

Q1 Respondent skipped this question

Do you agree that the water supply should be Council's main focus next year?

Q2 Yes

Do you think it's important for Council to develop a Water Conservation Action Plan?

Q3 Offering subsidised water tanks, at cost, paid back over a period of time

Do you support any of the proposed water resilience actions (as detailed on page 3 of the Consultation Document)? Tick all that you support otherwise leave all blank

Requiring new builds to have their own water storage solution

Q4

Do you have any other comments you would like to make on the actions proposed above or have any other ideas for the Action Plan?

Encourage and promote ways we can reduce water waste, such as changing toilet flushing habits, shorter showers, short washing machine cycles, grey water tanks for gardens.

Page 3: Discussion Topic 2A: Continue extended hours for swimming pools

Q5 Yes

Do you agree that we should continue to trial extended swimming pool hours next summer (i.e. longer hours in evenings and on weekends)? Current year's opening hours are available here <https://www.swdc.govt.nz/swimming-pools>.

Q6

Why is this?

For our towns commuters.

Page 4: Discussion Topic 2B: Greytown Sports and Recreation Hub

Q7

No

Do you think that the Council should provide more space for sports and recreation in Greytown?

Q8

No

Do you support funding for the Greytown Sports and Recreation Hub proposal (as detailed on page 4 of the Consultation Document)?

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9

Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

In the current climate and with the potential for rescission and economic downturn, it would be unwise in my opinion to proceed with such a big investment as part of this annual plan. I understand the importance of facilities and investing in future generations, but I am concerned about the cost of annual maintenance, and would love to see a more cost-effective solution to providing recreation opportunities to Greytown residents, can the council buy the land to save the greenspace for rugby and bowls without the additional facility or HUB (for the wider Wairarapa) is needed.

I also think that reducing emissions is a much better investment for future generations, as this will ensure they have a future.

Page 6: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Why is this?

Page 7: Discussion Topic 3: Land Transport

Q12

What do you think about Council's proposals for land transport (page 5 of the Consultation Document)? Should we be doing more to promote walking and cycling in the district?

Please improve and maintain the western lake road lime track. It is not up to standard and is currently a missed opportunity for recreation and tourism.

Please talk to community groups and trail designers that are advocates for walking and cycling when planning new trails and paths. Just putting a lime track next to a highway is not worthwhile if nobody uses it. Let's not just make tracks, trails and pavements, let's make great ones that people will love using.

I would like to see the logging, gravel and cattle trucks being redirected to avoid passing Featherston School, not only would this be safer for children, but this this would greatly help more people take up walking and cycling to school.

I would like to see the reduced speed limits across the board. 30kph through town and 70km reduced to 50kph on roads such as Western Lake and Underhill, in Featherston and all towns. I am also an advocate for 80kph on some 100kph roads.

We are lucky that all three towns have wide roads and are flat. IDEAL for non motorised transport! Please anything you can do to support less cars on the road, reducing emissions but also providing safer streets, cleaner air and healthier residents! More foot traffic also increases sales for our awesome local businesses!

Page 8: Discussion Topic 4: Waste Minimisation

Q13

Yes

Do you think it is important for Council to develop a Waste Minimisation Action Plan?

Q14

Encouraging food composting

Do you support any of the waste minimisation ideas proposed (as detailed on page 6 of the Consultation Document)? Tick all that you support otherwise leave all blank

Q15

Do you have any other comments you would like to make on the proposed ideas above or any other ideas about what Council could do to help the district send less waste to landfill?

While increasing the cost of rubbish bags may incentivise for some, I am concerned that it may lead to an increase in dumping and burning rubbish.

Having a zero waste coordinator and promoting reducing and reusing has been helpful, and I think it would be good to continue partnering with schools, businesses and residents.

Page 9: Discussion Topic 5: Building Capability

Q16

What do you think about Council's proposal to build the organisation's capability and improve delivery of services?

Good idea. Having the consultation via internet was great. I have kids so need to be at home in the evenings. Much more accessible.

Page 10: Other Feedback

Q17

Do you have any other feedback for the Annual Plan 2020/21?

Please treat improving the safety for kids and seniors using the Birdwood / Fox street intersection in Featherston as a matter of urgency. Again I would like to reiterate that this intersection is between a playground, a skatepark, a mini rail attraction, the library, a museum and the RSA. With the public toilets, parking spaces, and a cross road, visibility is so poor, you literally have to stand in the road before you can see if anything is coming. There are children that walk to school alone, and it is currently IMPOSSIBLE for them to cross with a clear view from the pavement or chance of being seen. Also our seniors that may be in mobility scooters.

Q1 **Yes**

Do you agree that the water supply should be Council's main focus next year?

Q2 **Yes**

Do you think it's important for Council to develop a Water Conservation Action Plan?

Q3

Do you support any of the proposed water resilience actions (as detailed on page 3 of the Consultation Document)? Tick all that you support otherwise leave all blank

Reducing the water allowance per property,

Offering subsidised water tanks, at cost, paid back over a period of time

,

Requiring new builds to have their own water storage solution

,

Installing smart meters to monitor water consumption and leaks

Q4

Do you have any other comments you would like to make on the actions proposed above or have any other ideas for the Action Plan?

I believe all new builds should have tank water as well as mains. The subsidised water tanks is a great idea

Page 3: Discussion Topic 2A: Continue extended hours for swimming pools

Q5 **Yes**Do you agree that we should continue to trial extended swimming pool hours next summer (i.e. longer hours in evenings and on weekends)? Current year's opening hours are available here <https://www.swdc.govt.nz/swimming-pools>.

Q6

Why is this?

Perhaps run this for another year how ever the Sw area pools could do with some upgrading or perhaps costing an new pool with a community gym so to focus spending on one high quality asset instead of barely keeping up with maintenance on multiple. This would be something Featherston would really benefit from, having a large Full time population and multiple schools and a large commuter population which is looking for this sort of thing and willing to pay for the privilege.

Page 4: Discussion Topic 2B: Greytown Sports and Recreation Hub

Q7

No

Do you think that the Council should provide more space for sports and recreation in Greytown?

Q8

No

Do you support funding for the Greytown Sports and Recreation Hub proposal (as detailed on page 4 of the Consultation Document)?

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9

Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

I believe in this current point in time there is more pressing things for the SW district to do with the basic infrastructure rather than spending on a sports ground that is only going to benefit the few not the many, also with a small relative spend compared to this project some upgrades to current grounds in the district could make some assets that already exists and already get alot of use from the public really great, card reserve being one and Featherston having a large growing population and multiple schools would make more sense, also the on going maintenance Costs on these new grounds are some what a concern as they are projected to be quite high and on going and will add a large amount to a already rising rates bill that many, mainly retirees are beginning to struggle to pay and could potentially force them out of a bought and paid for house.
Some details on projected usage would be good and a break down of those costs made public would be ideal.

Page 6: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q10

Respondent skipped this question

As you selected 'Partial' because you support funding for parts of the proposal, but not all, tick all the parts that you support

Q11

Respondent skipped this question

Why is this?

Page 7: Discussion Topic 3: Land Transport

Q12

What do you think about Council's proposals for land transport (page 5 of the Consultation Document)? Should we be doing more to promote walking and cycling in the district?

Absolutely it's a great idea as we have some great things on offer here in the SW district

Page 8: Discussion Topic 4: Waste Minimisation

Q13

Yes

Do you think it is important for Council to develop a Waste Minimisation Action Plan?

Q14

Do you support any of the waste minimisation ideas proposed (as detailed on page 6 of the Consultation Document)? Tick all that you support otherwise leave all blank

Moving to a more user pays model, i.e. increasing the cost of council rubbish bags

,

Providing a wheelie bin for general rubbish, paid for through rates

,

Encouraging food composting

Q15

Do you have any other comments you would like to make on the proposed ideas above or any other ideas about what Council could do to help the district send less waste to landfill?

Having recycling for more soft plastic would be great.

Page 9: Discussion Topic 5: Building Capability

Q16

What do you think about Council's proposal to build the organisation's capability and improve delivery of services?

I think the fact the council is engaging with the area is a really good thing and any improvement would be welcome.

Page 10: Other Feedback

Q17

Do you have any other feedback for the Annual Plan 2020/21?

I want to touch on a few things , the fact we are getting some transparency from swdc is a good thing and i really applaud it and hope it continues. We have a great district and to know what is on the plan and being able to comment is great, in the past this hasn't been the case, all the meetings were held at times nobody working could attend.

However it would be great to see a more balanced spend across the three main towns and I believe this has not been the case in the past we should be bringing the whole district up as a whole.

As the gate way to the Wairarapa Featherston has had a bit of a raw deal in the past, we have a lot of young family's and new blood and old moving into the area and it would be great to see the council get in behind this as there is room to expand and to improve on some already great assets. Featherston could be the perfect hub for the walking and cycling access that has been spoken about.

One more thing, as I understand rates are how the councils gets money along with other ways to run maintain and build new infrastructure and like most districts there has been a lot of underspend on a lot of current infrastructure, the rates hikes are going to make it tough for some to pay these some of these people are mortgage free and retirees, on their behalf and my own please spend our rates wisely, we have worked hard to own our homes in this little piece of paradise and we are happy to pay them as long there is some consideration and little waste on things that don't benefit the whole.

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9

Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

It is the responsibility of each town to support their sports clubs by participating.

The College sports facilities are it's and the students responsibility to maintain and replace not the rate payers of the whole district.

If Greytown wishes to have a combined sports hub they find the funds the old fashioned way of raising it within Greytown.

Q7

No

Do you think that the Council should provide more space for sports and recreation in Greytown?

Q8

No

Do you support funding for the Greytown Sports and Recreation Hub proposal (as detailed on page 4 of the Consultation Document)?

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9

Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

As owner and landlord of the Featherston Gym, SWDC is obligated to maintain it.

Page 6: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q10

Respondent skipped this question

As you selected 'Partial' because you support funding for parts of the proposal, but not all, tick all the parts that you support

Q11

Respondent skipped this question

Why is this?

Page 7: Discussion Topic 3: Land Transport

Q12

What do you think about Council's proposals for land transport (page 5 of the Consultation Document)? Should we be doing more to promote walking and cycling in the district?

Can be put on hold until we are totally out of the woods with C19

Page 8: Discussion Topic 4: Waste Minimisation

Q13

Respondent skipped this question

Do you think it is important for Council to develop a Waste Minimisation Action Plan?

Q14

Respondent skipped this question

Do you support any of the waste minimisation ideas proposed (as detailed on page 6 of the Consultation Document)? Tick all that you support otherwise leave all blank

Q15

Respondent skipped this question

Do you have any other comments you would like to make on the proposed ideas above or any other ideas about what Council could do to help the district send less waste to landfill?

Page 9: Discussion Topic 5: Building Capability

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9
Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

I object to the proposal for SWDC to spend millions of dollars on land purchase and the development of a "world-class sports hub".

It is inappropriate for SWDC to be incurring debt and/or raising rates to fund "nice-to-haves" while Featherston still has unresolved flooding and drainage issues, and there is no apparent end in sight to the wastewater treatment plant replacement.

Core services simply MUST come before nice-to-haves and monuments to council, especially in the present financially troubled times.

- Offering subsidised water tanks, at cost, paid back over a period of time**
- Requiring new builds to have their own water storage solution**
- Installing smart meters to monitor water consumption and leaks**

Q4

Do you have any other comments you would like to make on the actions proposed above or have any other ideas for the Action Plan?

The water supply issues in Martinborough need to be fixed completely before allowing further dwellings to be built. The pressure on the water services as they currently stand are struggling with the current population (especially during summer). This needs to be resolved to ensure all residents have equal access to water

Page 3: Discussion Topic 2A: Continue extended hours for swimming pools

Q5

Yes

Do you agree that we should continue to trial extended swimming pool hours next summer (i.e. longer hours in evenings and on weekends)? Current year's opening hours are available here <https://www.swdc.govt.nz/swimming-pools>.

Q6

Why is this?

To encourage residents to make use of council as much as possible - extended hours allows those who work later to still enjoy the pools

Page 4: Discussion Topic 2B: Greytown Sports and Recreation Hub

Q7

Respondent skipped this question

Do you think that the Council should provide more space for sports and recreation in Greytown?

Q10

Contribution to the Kuranui College gymnasium replacement

As you selected 'Partial' because you support funding for parts of the proposal, but not all, tick all the parts that you support

Q11

Why is this?

Seems the most cost effective option and benefits to the school

Page 7: Discussion Topic 3: Land Transport

Q12

What do you think about Council's proposals for land transport (page 5 of the Consultation Document)? Should we be doing more to promote walking and cycling in the district?

More cycle lanes - South Wairarapa is perfect for cycling because it is flat!

Page 8: Discussion Topic 4: Waste Minimisation

Q13

Yes

Do you think it is important for Council to develop a Waste Minimisation Action Plan?

Q14

Do you support any of the waste minimisation ideas proposed (as detailed on page 6 of the Consultation Document)? Tick all that you support otherwise leave all blank

Moving to a more user pays model, i.e. increasing the cost of council rubbish bags

,

Providing recycling station in urban areas,

Reducing the availability of Council agendas and papers at meetings

Q15

Do you have any other comments you would like to make on the proposed ideas above or any other ideas about what Council could do to help the district send less waste to landfill?

Increase the cost to dump inorganic waste at the refuse station - the amount of stuff I see dumped at the tip in Martinborough is terrible. A tip shop model like in Wellington would go some way to encouraging people to reuse stuff instead of dumping it

Page 9: Discussion Topic 5: Building Capability

Q16

What do you think about Council's proposal to build the organisation's capability and improve delivery of services?

No specific comment

Q9

Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

Money is needed to repair urgent water leaks and drainage in featherston,as properties are at risk from bad drains, and old pipes.

Page 6: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q10

Respondent skipped this question

As you selected 'Partial' because you support funding for parts of the proposal, but not all, tick all the parts that you support

Q11

Respondent skipped this question

Why is this?

Page 7: Discussion Topic 3: Land Transport

Q12

What do you think about Council's proposals for land transport (page 5 of the Consultation Document)? Should we be doing more to promote walking and cycling in the district?

? Land transport is needed as we cannot walk to other towns.

Page 8: Discussion Topic 4: Waste Minimisation

Q13

No

Do you think it is important for Council to develop a Waste Minimisation Action Plan?

Q14

Do you support any of the waste minimisation ideas proposed (as detailed on page 6 of the Consultation Document)? Tick all that you support otherwise leave all blank

Encouraging food composting,

Reducing the availability of Council agendas and papers at meetings

Q15

Do you have any other comments you would like to make on the proposed ideas above or any other ideas about what Council could do to help the district send less waste to landfill?

Education at schools

Page 9: Discussion Topic 5: Building Capability

Do you support funding for the Greytown Sports and Recreation Hub proposal (as detailed on page 4 of the Consultation Document)?

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9

Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

This does NOT reflect the reality of the unprecedented times we are living in or what is needed for Featherston or Martinborough rate payers. This is an extravagance which the rate payer does not need!

How does providing Kuranui College a new gymnasium benefit anybody but Kuranui College? Will people be able to use it during the week? Just walk through the school?!

Likewise spending approximately \$2,000,000 for land and upgrades in Greytown when there is large grounds and indoor stadium in Featherston which is UNDER UTILISED and is roughly equidistant travel for Martinborough rate payers!

Page 6: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q11

Respondent skipped this question

Why is this?

Page 7: Discussion Topic 3: Land Transport

Q12

What do you think about Council's proposals for land transport (page 5 of the Consultation Document)? Should we be doing more to promote walking and cycling in the district?

Yes. The Urban tree maintenance is again an extravagance not required at this time

Page 8: Discussion Topic 4: Waste Minimisation

Q13

Yes

Do you think it is important for Council to develop a Waste Minimisation Action Plan?

Q14

Providing a wheelie bin for general rubbish, paid for through rates

Do you support any of the waste minimisation ideas proposed (as detailed on page 6 of the Consultation Document)? Tick all that you support otherwise leave all blank

Q15

Do you have any other comments you would like to make on the proposed ideas above or any other ideas about what Council could do to help the district send less waste to landfill?

Council should be moving away from plastic rubbish bags and issuing small wheelie bins which should of been issued at the same time as the recycling bins

Page 9: Discussion Topic 5: Building Capability

Q16

What do you think about Council's proposal to build the organisation's capability and improve delivery of services?

Trim the budget

Page 10: Other Feedback

Q17

Do you have any other feedback for the Annual Plan 2020/21?

An increase in rates of 13.17% for the Annual Plan at this time is ridiculous! The SWDC continues to be out of touch with reality and the rate payers. Adding 1.5 million dollar loan for things like a new gymnasium for Kuranui College is irresponsible!

Q1 **No**

Do you agree that the water supply should be Council's main focus next year?

Q2 **Yes**

Do you think it's important for Council to develop a Water Conservation Action Plan?

Q3 **Requiring new builds to have their own water storage solution**

Do you support any of the proposed water resilience actions (as detailed on page 3 of the Consultation Document)? Tick all that you support otherwise leave all blank

Installing smart meters to monitor water consumption and leaks

Q4

Do you have any other comments you would like to make on the actions proposed above or have any other ideas for the Action Plan?

All alterations should be paid for directly by the user.

- Install smart meters
- Begin directly billing people for their water consumption, include the cost of the smart meter in those bills
- Reduce rates by the amount saved on water - and publish this amount, including the saving per household.

That way, if you end up on average sending people a water bill of \$200 per year, and saving them \$8.11 on their rates, you can rightly pilloried for it.

User pays is the best and fairest. Give the poorest households a rebate, with contributions from the rest of us - but people will only conserve water when they know they directly pay for it.

Page 3: Discussion Topic 2A: Continue extended hours for swimming pools

Q5

Yes

Do you agree that we should continue to trial extended swimming pool hours next summer (i.e. longer hours in evenings and on weekends)? Current year's opening hours are available here <https://www.swdc.govt.nz/swimming-pools>.

Q6

Why is this?

I think staying open later, with a cover charge is quite reasonable. The people who will want to swim later can pay for it. Otherwise, no.

Page 4: Discussion Topic 2B: Greytown Sports and Recreation Hub

Q7

No

Do you think that the Council should provide more space for sports and recreation in Greytown?

Q8

No

Do you support funding for the Greytown Sports and Recreation Hub proposal (as detailed on page 4 of the Consultation Document)?

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9

Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

I think this is outrageous.

What is the point of the Greytown Trust if they sell these properties?

If its unsustainable, they should gift the property to the council and wind up their affairs. The people of Greytown ALREADY own those properties, they should not have to pay twice, nor should Featherston yet again pay the bill for Greytown's improvement.

Page 6: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q10

Respondent skipped this question

As you selected 'Partial' because you support funding for parts of the proposal, but not all, tick all the parts that you support

Q11

Respondent skipped this question

Why is this?

Page 7: Discussion Topic 3: Land Transport

Q12

What do you think about Council's proposals for land transport (page 5 of the Consultation Document)? Should we be doing more to promote walking and cycling in the district?

First up, you didn't tell us why maintenance costs have increased for roading, so we have no idea what's reasonable. If costs have increased due to poor hiring or other bad decisions, then you already have the means to fix that. We can't comment in a vacuum.

Re pavements and footpaths, again we can't tell. You haven't detailed what upgrades are done - you didn't give us the full link to the website, and the link in the PDF document is broken (<http://www.swdc/>).

Lastly, cycling is good but what car use can cycling possibly replace? Perhaps commuting to the railway station, that's about it - and for that to happen, you don't need to upgrade footpaths, you need:

- a) lockable bike storage
- b) better cctv
- c) police that actually give a damn about property crime

I don't see any proposals for those, but those I would be in favour of.

Page 8: Discussion Topic 4: Waste Minimisation

Q13

Yes

Do you think it is important for Council to develop a Waste Minimisation Action Plan?

Q14

Do you support any of the waste minimisation ideas proposed (as detailed on page 6 of the Consultation Document)? Tick all that you support otherwise leave all blank

- Moving to a more user pays model, i.e. increasing the cost of council rubbish bags**
- Providing recycling station in urban areas,**
- Encouraging food composting**

Q15

Do you have any other comments you would like to make on the proposed ideas above or any other ideas about what Council could do to help the district send less waste to landfill?

User pays 100%, always. You will only reduce waste when people actually have to pay the full cost of it.

a) Increase the cost of stickers to cover the full cost of collection.

b) Cease the function entirely, reduce our rates accordingly and let Wairarapa Environmental / Low Cost Wheelies do their job, which they do very well. Honestly, I don't know why we need a council waste function when they are super competitive and very good anyway.

c) Increase fines for fly tipping and use any cost savings to increase investigation and prosecution of fly tipping.

d) I'm usually not in favour of low cost loans/subsidised purchase, but cheap composting bins I do support, as well as encouraging more backyard hens to consume household food waste.

e) Yes stop printing your stuff on paper. What a waste, even if you do buy your ink from Got Ink.

Page 9: Discussion Topic 5: Building Capability

Q16

What do you think about Council's proposal to build the organisation's capability and improve delivery of services?

Not nearly enough info.

If you invest in your systems and capability, you need to show the benefits and cost analysis. You can't just say "we need this, give it to us". So with the absence of actual info, I can't endorse this.

Page 10: Other Feedback

Q17

Do you have any other feedback for the Annual Plan 2020/21?

I'm strongly opposed to borrowing to pay for operational costs. That's ruinous.

If you need to increase your rates, actually communicate exactly where this money is going - details please.

We honestly expected better from a new team, and we had high hopes but this feels like more of the same.

- 1) More transparency, with actual breakdowns.
 - 2) More user pays wherever possible. If the council doesn't need to do something, then don't do it (e.g. waste collection)
 - 3) Actual cost management. Everyone is tightening their belt at the moment. People will forgive you.
-

 Page 2: Discussion Topic 1: Water Supply and Water Resilience

Q1 **Yes**

Do you agree that the water supply should be Council's main focus next year?

Q2 **Yes**

Do you think it's important for Council to develop a Water Conservation Action Plan?

Q3 **Offering subsidised water tanks, at cost, paid back over a period of time**
 Do you support any of the proposed water resilience actions (as detailed on page 3 of the Consultation Document)? Tick all that you support otherwise leave all blank
 , **Requiring new builds to have their own water storage solution**
 , **Installing smart meters to monitor water consumption and leaks**

Q4

Do you have any other comments you would like to make on the actions proposed above or have any other ideas for the Action Plan?

Martinborough has poo in the water. Featherston floods a dozen times a year. More families are moving here, with subdivisions down the Fitzherbert floodplain area. Aqua vitae - water is life. Please help keep us alive!

Page 3: Discussion Topic 2A: Continue extended hours for swimming pools

Q5 **Yes**

Do you agree that we should continue to trial extended swimming pool hours next summer (i.e. longer hours in evenings and on weekends)? Current year's opening hours are available here <https://www.swdc.govt.nz/swimming-pools>.

Q6

Why is this?

These are existing assets and don't require new infrastructure spending - just some wages. Coupled with heating/covers, this will make the pools warmer and will save lives.

Page 4: Discussion Topic 2B: Greytown Sports and Recreation Hub

Q7

No

Do you think that the Council should provide more space for sports and recreation in Greytown?

Q8

No

Do you support funding for the Greytown Sports and Recreation Hub proposal (as detailed on page 4 of the Consultation Document)?

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9

Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

I object to the proposal for SWDC to spend millions of dollars on land purchase and the development of a "world-class sports hub".

It is inappropriate for SWDC to be incurring debt and/or raising rates to fund "nice-to-haves" while Featherston still has unresolved flooding and drainage issues, and there is no apparent end in sight to the wastewater treatment plant replacement.

Core services simply MUST come before nice-to-haves and monuments to council, especially in the present financially troubled times.

The Ministry of Education are already funding improvements to the Kuranui gym; this is sufficient.

Page 6: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q10

Respondent skipped this question

As you selected 'Partial' because you support funding for parts of the proposal, but not all, tick all the parts that you support

Q11

Respondent skipped this question

Why is this?

Page 7: Discussion Topic 3: Land Transport

Q12

What do you think about Council's proposals for land transport (page 5 of the Consultation Document)? Should we be doing more to promote walking and cycling in the district?

A good start. Please focus on more cycling, promoting EV and hybrid usage in towns, and upgrading inter-town routes for cyclists.

Page 8: Discussion Topic 4: Waste Minimisation

Q13

Yes

Do you think it is important for Council to develop a Waste Minimisation Action Plan?

Q14

Do you support any of the waste minimisation ideas proposed (as detailed on page 6 of the Consultation Document)? Tick all that you support otherwise leave all blank

Moving to a more user pays model, i.e. increasing the cost of council rubbish bags

Providing recycling station in urban areas,

Encouraging food composting

Q15

Do you have any other comments you would like to make on the proposed ideas above or any other ideas about what Council could do to help the district send less waste to landfill?

SWDC has the chance to really drive some opportunities here. A public-private partnership could see us become the Raglan of the lower North island; could drive jobs, materials and opportunities; could ensure that we are well-placed to survive, thrive and buck any negative trends.

Page 9: Discussion Topic 5: Building Capability

Q16

What do you think about Council's proposal to build the organisation's capability and improve delivery of services?

I am skeptical because of the amount of mendacious paperwork and gamesmanship that SWDC services teams are historically charged with.

Page 10: Other Feedback

Q17

Do you have any other feedback for the Annual Plan 2020/21?

Please focus on delivering core infrastructure.

Q1 Respondent skipped this question

Do you agree that the water supply should be Council's main focus next year?

Q2 Yes

Do you think it's important for Council to develop a Water Conservation Action Plan?

Q3 Removing the Water by Meter Write-off Policy,
Offering subsidised water tanks, at cost, paid back over a period of time
,
Requiring new builds to have their own water storage solution
,
Installing smart meters to monitor water consumption and leaks

Do you support any of the proposed water resilience actions (as detailed on page 3 of the Consultation Document)? Tick all that you support otherwise leave all blank

Q4 Respondent skipped this question

Do you have any other comments you would like to make on the actions proposed above or have any other ideas for the Action Plan?

Page 3: Discussion Topic 2A: Continue extended hours for swimming pools

Q5 Yes

Do you agree that we should continue to trial extended swimming pool hours next summer (i.e. longer hours in evenings and on weekends)? Current year's opening hours are available here
<https://www.swdc.govt.nz/swimming-pools>.

Q6

Why is this?

To enable working people to use. Evenings are warm and can be used by other groups than children.

Page 4: Discussion Topic 2B: Greytown Sports and Recreation Hub

Q7

Yes

Do you think that the Council should provide more space for sports and recreation in Greytown?

Q8

Yes

Do you support funding for the Greytown Sports and Recreation Hub proposal (as detailed on page 4 of the Consultation Document)?

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9

Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

I do see the need to improve the choice of facilities for all sports, not just rugby and bowls which have received more than their share of funding over the years. Kids need a wheels park and basketball courts and facilities for sports that are rising in numbers. These sports generally use less space and can be combined in facilities like a good gymnasium. It is well past time to broaden the spectrum of what we can do in our neighbourhood.

All towns are growing and populations changing demographics. Plan for the future instead of doing nothing. Spending has to take place for this to happen

Page 6: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q10

Respondent skipped this question

As you selected 'Partial' because you support funding for parts of the proposal, but not all, tick all the parts that you support

Why is this?

Page 7: Discussion Topic 3: Land Transport

Q12

What do you think about Council's proposals for land transport (page 5 of the Consultation Document)? Should we be doing more to promote walking and cycling in the district?

yes we should.

Even mowing strips which can be extended from the present allowances can help a great deal. Cycling is not only a growing but a tourist thing and we need to offer the best and safest we can .

Page 8: Discussion Topic 4: Waste Minimisation

Q13

Yes

Do you think it is important for Council to develop a Waste Minimisation Action Plan?

Q14

Do you support any of the waste minimisation ideas proposed (as detailed on page 6 of the Consultation Document)? Tick all that you support otherwise leave all blank

Providing a wheelie bin for general rubbish, paid for through rates

,

Encouraging food composting,

Reducing the availability of Council agendas and papers at meetings

Q15

Do you have any other comments you would like to make on the proposed ideas above or any other ideas about what Council could do to help the district send less waste to landfill?

Employing more people to sort the waste and funding more recycling treatment plants in the Wairarapa .

We will all have to care for all our own waste soon enough, start now by planning a full recycle containment here in the Wairarapa. this will provide work and finding what can be done around the world.

we no longer can say we are not able to research the best.

Page 9: Discussion Topic 5: Building Capability

Q16

What do you think about Council's proposal to build the organisation's capability and improve delivery of services?

about time

Page 10: Other Feedback

Q5

Yes

Do you agree that we should continue to trial extended swimming pool hours next summer (i.e. longer hours in evenings and on weekends)? Current year's opening hours are available here <https://www.swdc.govt.nz/swimming-pools>.

Q6

Why is this?

I see this as benefiting the wellbeing of all SWDC residents. In Featherston - I think as there are limited outdoor facilities for families and young people, the free use of the pool is an essential service that contributes to the individual and community wellbeing

Page 4: Discussion Topic 2B: Greytown Sports and Recreation Hub

Q7

No

Do you think that the Council should provide more space for sports and recreation in Greytown?

Q8

No

Do you support funding for the Greytown Sports and Recreation Hub proposal (as detailed on page 4 of the Consultation Document)?

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9

Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

I do not support this proposal for two reasons:

a) There is going to be a significant rates increase due to critical infrastructure costs for SWDC residents which must proceed as they impact on the health and wellbeing of all current and future south Wairarapa residents i.e. water and sewage infrastructure. In the current unpredictable Covid19 environment, now is not the time to place a further burden of an approx. \$50 rates increase per annum for a community resource which is not an absolute necessity. The Greytown Sports Hub falls in the category of not being an essential infrastructure resource.

b) I have read the Sports Hub report undertaken by the Council to inform the decision. I believe the report is i) not comprehensive enough i.e. an analysis should be undertaken across all sporting codes in the whole of the South Wairarapa to identify things such as what sports codes are operating, how are they being funded, are there equity issues as to what sports codes/towns are being funded or not by council and how to address any equity issues, should the council fund sporting codes etc. Unless a 'sports' report is undertaken across the whole of this TLA, there is a risk the Council will make a decision based on a report that is focussed on one community only in the South Wairarapa and not consider the region in its entirety. A decision based on one report for one town in the Wairarapa also has the potential to create/exasperate divisions between South Wairarapa communities at a critical time when we now to be working as one to get through Covid19 over the next 2-3 years.

Page 6: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q11

Respondent skipped this question

Why is this?

Page 7: Discussion Topic 3: Land Transport

Q12

What do you think about Council's proposals for land transport (page 5 of the Consultation Document)? Should we be doing more to promote walking and cycling in the district?

Yes - for the long term but it might be a nice to have at present due to economic situation. Definitely need footpath maintenance. The footpaths needs to be safe for all members of the community and this is a cost necessity

Page 8: Discussion Topic 4: Waste Minimisation

Q13

Yes

Do you think it is important for Council to develop a Waste Minimisation Action Plan?

Q14

Do you support any of the waste minimisation ideas proposed (as detailed on page 6 of the Consultation Document)? Tick all that you support otherwise leave all blank

Moving to a more user pays model, i.e. increasing the cost of council rubbish bags

Providing recycling station in urban areas,

Encouraging food composting,

Reducing the availability of Council agendas and papers at meetings

Q15

Do you have any other comments you would like to make on the proposed ideas above or any other ideas about what Council could do to help the district send less waste to landfill?

Review processes designed to discourage and penalising people who dump rubbish.

Page 9: Discussion Topic 5: Building Capability

Q16

What do you think about Council's proposal to build the organisation's capability and improve delivery of services?

Agree with building council's capability if it also contributes to ease of access to information. eg. I think having video meetings that people can join and watch as opposed to travelling to a meeting in in conjunction with the video along with written minutes posted so people can view both or either at their leisure is a great way for improving the community's connectedness with the council. I personally have enjoying watching the meetings and it helps me to understand better the councils processes etc.

Page 10: Other Feedback

Q17

Do you have any other feedback for the Annual Plan 2020/21?

When considering the items you wish to vote for, please consider the district's low rates base, the amount of work/cost that must be done on the essential infrastructure - water supply, waste and storm, waste minimisation, and land transport management against the economic uncertainty we face. Now is not the time to spend rate payers funding on non-essentials. I am a homeowner. For the first time in my 40 yr career I am facing job uncertainty. I am happy to pay rates for essential items such as I have listed. I will resent ongoing-payment for non-essential items i.e. Sports Hub.

Q1**Yes**

Do you agree that the water supply should be Council's main focus next year?

Q2**Yes**

Do you think it's important for Council to develop a Water Conservation Action Plan?

Q3**Reducing the water allowance per property,**

Do you support any of the proposed water resilience actions (as detailed on page 3 of the Consultation Document)? Tick all that you support otherwise leave all blank

Installing smart meters to monitor water consumption and leaks**Q4****Respondent skipped this question**

Do you have any other comments you would like to make on the actions proposed above or have any other ideas for the Action Plan?

Page 3: Discussion Topic 2A: Continue extended hours for swimming pools

Q5**Yes**

Do you agree that we should continue to trial extended swimming pool hours next summer (i.e. longer hours in evenings and on weekends)? Current year's opening hours are available here <https://www.swdc.govt.nz/swimming-pools>.

Q6

Why is this?

There would be more use of the pools by adults after work. Current hours benefit very few adults.

Page 4: Discussion Topic 2B: Greytown Sports and Recreation Hub

Q7

No

Do you think that the Council should provide more space for sports and recreation in Greytown?

Q8

No

Do you support funding for the Greytown Sports and Recreation Hub proposal (as detailed on page 4 of the Consultation Document)?

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9

Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

There are adequate facilities in the other 2 Sth Wairarapa towns, currently under-utilised. Council must get over its pandering to the spoilt children of Martinborough and Greytown, which Featherston ends up paying for. Surely we have yet to sort out our basic infrastructure problems, which have priority over the shiny new toys. Look at Wellingtons infrastructure problems and ask how we can avoid the same fate.

Page 6: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q10

Respondent skipped this question

As you selected 'Partial' because you support funding for parts of the proposal, but not all, tick all the parts that you support

Q11

Respondent skipped this question

Why is this?

Page 7: Discussion Topic 3: Land Transport

Q12

What do you think about Council's proposals for land transport (page 5 of the Consultation Document)? Should we be doing more to promote walking and cycling in the district?

Yes. The cycle path from Cross Creek to Featherston is at best shoddy, at worst dangerous. Encouraging walking and cycling opportunities will benefit tourism.

Page 8: Discussion Topic 4: Waste Minimisation

Q13

Yes

Do you think it is important for Council to develop a Waste Minimisation Action Plan?

Q14

Do you support any of the waste minimisation ideas proposed (as detailed on page 6 of the Consultation Document)? Tick all that you support otherwise leave all blank

Moving to a more user pays model, i.e. increasing the cost of council rubbish bags

'

Encouraging food composting

Installing smart meters to monitor water consumption and leaks**Q4**

Do you have any other comments you would like to make on the actions proposed above or have any other ideas for the Action Plan?

Support all the above. In the future I believe ensuring an adequate water supply will be critical especially in drought prone South Wairarapa.

Page 3: Discussion Topic 2A: Continue extended hours for swimming pools

Q5

Yes

Do you agree that we should continue to trial extended swimming pool hours next summer (i.e. longer hours in evenings and on weekends)? Current year's opening hours are available here <https://www.swdc.govt.nz/swimming-pools>.

Q6

Why is this?

Swimming is a healthy and social recreational activity.

Page 4: Discussion Topic 2B: Greytown Sports and Recreation Hub

Q7

Yes

Do you think that the Council should provide more space for sports and recreation in Greytown?

Q8

Partial

Do you support funding for the Greytown Sports and Recreation Hub proposal (as detailed on page 4 of the Consultation Document)?

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9

Respondent skipped this question

Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

Page 6: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q10

Contribution to the Kuranui College gymnasium replacement

As you selected 'Partial' because you support funding for parts of the proposal, but not all, tick all the parts that you support

'
Purchase of the Rugby Club land,
Purchase of the Bowling Club land

Q11

Why is this?

We should try to obtain as much Lottery Grant funding as possible to avoid cutbacks to this plan.

Page 7: Discussion Topic 3: Land Transport

Q12

What do you think about Council's proposals for land transport (page 5 of the Consultation Document)? Should we be doing more to promote walking and cycling in the district?

Yes

Page 8: Discussion Topic 4: Waste Minimisation

Q13

Yes

Do you think it is important for Council to develop a Waste Minimisation Action Plan?

Q14

Do you support any of the waste minimisation ideas proposed (as detailed on page 6 of the Consultation Document)? Tick all that you support otherwise leave all blank

Moving to a more user pays model, i.e. increasing the cost of council rubbish bags

,

Providing a wheelie bin for general rubbish, paid for through rates

,

Encouraging food composting,

Reducing the availability of Council agendas and papers at meetings

Q15

Do you have any other comments you would like to make on the proposed ideas above or any other ideas about what Council could do to help the district send less waste to landfill?

Ratepayers need to be educated as to how they can minimise waste. I still see sloppy disposal habits in town.

Page 9: Discussion Topic 5: Building Capability

Q16

What do you think about Council's proposal to build the organisation's capability and improve delivery of services?

Fine as long as efficiencies can be found.

Installing smart meters to monitor water consumption and leaks

Q4

Do you have any other comments you would like to make on the actions proposed above or have any other ideas for the Action Plan?

Residents have no information provided to them about water use. Council collect's this data but only passes it on when there is a bill to pay. Improved transparency and information sharing relating to domestic water use should be the focus, educate before penalising

Page 3: Discussion Topic 2A: Continue extended hours for swimming pools

Q5 **Yes**

Do you agree that we should continue to trial extended swimming pool hours next summer (i.e. longer hours in evenings and on weekends)? Current year's opening hours are available here <https://www.swdc.govt.nz/swimming-pools>.

Q6

Why is this?

The council pools are a community facility that bring communities together, I have not heard of anyone who did not appreciate the extended opening hours, in fact everyone I know took advantage of them

Page 4: Discussion Topic 2B: Greytown Sports and Recreation Hub

Q7

No

Do you think that the Council should provide more space for sports and recreation in Greytown?

Q8

No

Do you support funding for the Greytown Sports and Recreation Hub proposal (as detailed on page 4 of the Consultation Document)?

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9

Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

There is a substantial list of other more important infrastructure needing substantial investment. We have a south Wairarapa sports hub in Featherston. The greytown community should be contributing to the cost of this in a meaningful way. What approach has been made to Carterton district council? They are part of the kuranui catchment and will also benefit from any new venue.

Far more information and analysis is required before council should begin to consider this level of investment targeted to a specific town. Featherston has the land, the community spirit and the government sort via fab feathy - what options Analysis has been undertaken to understand if that level of investment was made in Featherston rather than greytown.

In short I strongly oppose this proposal at this time

Page 6: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Why is this?

Page 7: Discussion Topic 3: Land Transport

Q12

What do you think about Council's proposals for land transport (page 5 of the Consultation Document)? Should we be doing more to promote walking and cycling in the district?

Yes, plenty of footpaths across the town's are in dire need of attention

Page 8: Discussion Topic 4: Waste Minimisation

Q13

Yes

Do you think it is important for Council to develop a Waste Minimisation Action Plan?

Q14

Do you support any of the waste minimisation ideas proposed (as detailed on page 6 of the Consultation Document)? Tick all that you support otherwise leave all blank

**Providing recycling station in urban areas,
Encouraging food composting,
Reducing the availability of Council agendas and papers at meetings**

Q15

Respondent skipped this question

Do you have any other comments you would like to make on the proposed ideas above or any other ideas about what Council could do to help the district send less waste to landfill?

Page 9: Discussion Topic 5: Building Capability

Q16

What do you think about Council's proposal to build the organisation's capability and improve delivery of services?

How can we have public measurements in the success failure of this investment? I support growing capability but it needs to be in balance

Page 10: Other Feedback

Q17

Do you have any other feedback for the Annual Plan 2020/21?

Please seriously consider reducing or removing any rates increases this year following Covid 19. I fully appreciate this needs to be balanced with stimulation and growth but many people in our district face uncertain futures and are suffering from loss of income

Q9

Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

South Wairarapa need a modern facility for our young people to engage in sport year round. It gives our young people somewhere to hang out together doing something positive ie sport including casual get togethers for social games of peer groups not just organised sport. An ideal example of how this kind of facility can benefit a wider community is the ASB Sports Centre in Wellington that even houses sports physios, cafe, conference rooms and birthday parties.

Q1 **Yes**

Do you agree that the water supply should be Council's main focus next year?

Q2 **Yes**

Do you think it's important for Council to develop a Water Conservation Action Plan?

Q3 **Offering subsidised water tanks, at cost, paid back over a period of time**

Do you support any of the proposed water resilience actions (as detailed on page 3 of the Consultation Document)? Tick all that you support otherwise leave all blank

Requiring new builds to have their own water storage solution

Q4 **Respondent skipped this question**

Do you have any other comments you would like to make on the actions proposed above or have any other ideas for the Action Plan?

Page 3: Discussion Topic 2A: Continue extended hours for swimming pools

Q5 **Yes**Do you agree that we should continue to trial extended swimming pool hours next summer (i.e. longer hours in evenings and on weekends)? Current year's opening hours are available here <https://www.swdc.govt.nz/swimming-pools>.

Q6

Why is this?

Because a huge portion of the region are commuters who pay through rates for these facilities yet can't utilise them without extended hours

Page 4: Discussion Topic 2B: Greytown Sports and Recreation Hub

Q7

No

Do you think that the Council should provide more space for sports and recreation in Greytown?

Q8

No

Do you support funding for the Greytown Sports and Recreation Hub proposal (as detailed on page 4 of the Consultation Document)?

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9

Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

This is an uncertain time and it seems negligible that a council would borrow money or raise rates unnecessarily for a project that isn't a necessity, but a nice to have. This sort of project should be done when books are balanced and there is a surplus, as entertainment costs are in our personal budgets. Cover the necessities first.

Page 6: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q10

Respondent skipped this question

As you selected 'Partial' because you support funding for parts of the proposal, but not all, tick all the parts that you support

Q11

Respondent skipped this question

Why is this?

Page 7: Discussion Topic 3: Land Transport

Q12

Respondent skipped this question

What do you think about Council's proposals for land transport (page 5 of the Consultation Document)? Should we be doing more to promote walking and cycling in the district?

Page 8: Discussion Topic 4: Waste Minimisation

Q13

Yes

Do you think it is important for Council to develop a Waste Minimisation Action Plan?

Q14

Moving to a more user pays model, i.e. increasing the cost of council rubbish bags

Do you support any of the waste minimisation ideas proposed (as detailed on page 6 of the Consultation Document)? Tick all that you support otherwise leave all blank

,

Encouraging food composting

Q15

Do you have any other comments you would like to make on the proposed ideas above or any other ideas about what Council could do to help the district send less waste to landfill?

Charge more per bag and encourage composting. Recycling doesn't address people consuming less of products that have excess packaging and the difficulty in actually recycling plastics. A lot of us pay privately for wheelie bins anyway at a cost that is probably cheaper than adding them to our rates (\$3.25 per week).

Page 9: Discussion Topic 5: Building Capability

Q16

Respondent skipped this question

What do you think about Council's proposal to build the organisation's capability and improve delivery of services?

Page 10: Other Feedback

Q17

Do you have any other feedback for the Annual Plan 2020/21?

Keeping any rates increase as low as possible or frozen as other districts are, is very important this year.

Q6

Why is this?

Great weather and daylight savings and community use after work

Page 4: Discussion Topic 2B: Greytown Sports and Recreation Hub

Q7

Yes

Do you think that the Council should provide more space for sports and recreation in Greytown?

Q8

Yes

Do you support funding for the Greytown Sports and Recreation Hub proposal (as detailed on page 4 of the Consultation Document)?

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9

Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

School growth and subsequent use; community use and sense of community that a hub will bring

Page 6: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q10

Respondent skipped this question

As you selected 'Partial' because you support funding for parts of the proposal, but not all, tick all the parts that you support

Q11

Respondent skipped this question

Why is this?

Page 7: Discussion Topic 3: Land Transport

Q12

What do you think about Council's proposals for land transport (page 5 of the Consultation Document)? Should we be doing more to promote walking and cycling in the district?

Yes - great scenery, close to wellington so great for local economy.

Page 8: Discussion Topic 4: Waste Minimisation

Q13

Yes

Do you think it is important for Council to develop a Waste Minimisation Action Plan?

Q14

Do you support any of the waste minimisation ideas proposed (as detailed on page 6 of the Consultation Document)? Tick all that you support otherwise leave all blank

Providing recycling station in urban areas,
Encouraging food composting,
Reducing the availability of Council agendas and papers at meetings

Q15

Do you have any other comments you would like to make on the proposed ideas above or any other ideas about what Council could do to help the district send less waste to landfill?

We should manage our own waste in the region - cogeneration - burn the waste and create electricity.

Page 9: Discussion Topic 5: Building Capability

Q16

What do you think about Council's proposal to build the organisation's capability and improve delivery of services?

Save our money - combine skills across the region - share positions like building inspectors; share administrative functions etc

Page 10: Other Feedback

Q17

Do you have any other feedback for the Annual Plan 2020/21?

Get the rural zoned areas within the urban areas sorted to allow subdivision of land close to the village. Seems to be silly errors/anomalies where pockets of land remain zoned rural sandwiched between land zoned urban. (Papawai Road, Greytown)

Page 10: Other Feedback

Q17

Do you have any other feedback for the Annual Plan 2020/21?

Since elections four years ago, Greytown Trustlands have made it increasingly hard for Bowling and Rugby Clubs. Prior to that an annual bulk grant would equal approximately clubs fixed costs. That is rates and rent paid etc. The Trust was acting like a Council in effect. Since then, rent based on percentage of Land Valuation (Residential) and no bulk funding has been given. Trust tells community they are giving increasing grants via rent relief. Incentive accounting. I believe Council is ONLY possible purchaser of Rugby & Bowling Club land in next 3-4 years. Council should NOT be paying the proposed 1.92 million and 760,000. The clubs have perpetual recreation leases and over a hundred years of occupation. In the original proposal for a Hub driven by Lands Trust, they pledged if it proceeded, to grant 40,000 dollars annually for maintenance and admin. This should be condition of sale if it proceeds. This would reduce future cost to ratepayers. The main drivers of current policy off Trust have only 2 years left in 6 year cycle.

Do you support any of the waste minimisation ideas proposed (as detailed on page 6 of the Consultation Document)? Tick all that you support otherwise leave all blank

Q15

Do you have any other comments you would like to make on the proposed ideas above or any other ideas about what Council could do to help the district send less waste to landfill?

Re: providing a wheelie bin for general rubbish, paid for through rates - 'No - continue with the yellow bags'.

Re: reduction of Council Papers etc. - A no brainer. Why even ask us. JUST DO IT!

You already refer to papers on members own devices. Currently \$200. per month on copy paper and staff waste time being lowly clerks endlessly at the photocopier.

Q17
Do you have any other feedback for the Annual Plan 2020/21?

I am opposed to the Greytown Sports & Recreation Hub. This is based on the impact that COVID19 is having on our economy. In my own business, Hoskin Consulting Ltd, my revenue/sales is down 70%. Given that my business is in aviation the impact will be long lasting.

Our small population, means a project like this will have a significant and long term adverse impact on our rates.

Q2

Yes

Do you think it's important for Council to develop a Water Conservation Action Plan?

Q3

Do you support any of the proposed water resilience actions (as detailed on page 3 of the Consultation Document)? Tick all that you support otherwise leave all blank

Reducing the water allowance per property,

Offering subsidised water tanks, at cost, paid back over a period of time

,

Requiring new builds to have their own water storage solution

,

Installing smart meters to monitor water consumption and leaks

Q4

Do you have any other comments you would like to make on the actions proposed above or have any other ideas for the Action Plan?

No

Page 3: Discussion Topic 2A: Continue extended hours for swimming pools

Q5

Yes

Do you agree that we should continue to trial extended swimming pool hours next summer (i.e. longer hours in evenings and on weekends)? Current year's opening hours are available here <https://www.swdc.govt.nz/swimming-pools>.

Q6

Why is this?

This is need to ensure an informed decision, one way or the other, is made.

Page 4: Discussion Topic 2B: Greytown Sports and Recreation Hub

Q7

No

Do you think that the Council should provide more space for sports and recreation in Greytown?

Q8

No

Do you support funding for the Greytown Sports and Recreation Hub proposal (as detailed on page 4 of the Consultation Document)?

Page 5: Discussion Topic 2B: Greytown Sports and Recreation Hub (continued)

Q9

Please explain why you do or do not support funding for the Greytown Sports and Recreation Hub proposal

It is unnecessary expenditure, and will ultimately benefit only a small number of South Wairarapa residents, while imposing an additional rates burden on all property owners.
