Subject: climate change action

Hi there,

I would like to submit the following as suggestions for the Annual plan currently in consultation.

- Add a specific climate change section to the plan with details of the actions to be taken this year to both lower council's carbon footprint and adapt to risks.
- Ensure water supply strategy reflects projected rainfall reduction.
- Include reference to the [Local Government Leaders' Climate Change Declaration](#) - i.e. as a signatory to this document ensure your obligations are properly reflected in actions in the annual plan.
- Include an education campaign for citizens to understand impacts and necessary changes to be made.
- Ensure that "climate change matters" are an agenda item for every council meeting.
- Use a standard assessment (template) for all council decisions that addresses carbon footprint impacts and susceptibility to climate change risks for every council proposal and decision.

Cobblestones Museum has had a cut in its funding from Greytown Trust Lands Trust for 2019/20 with the prospect of further cuts in the future. While we are able to manage our 2019/20 budget to accommodate the funding cuts for, we are not sure what the future holds, although we are working through the issues.

Our submission is simply that we would like to work closely in the future with SWDC, which is a major funder of Cobblestones, on ways to ensure our long-term survival.

Additional comment (I am surprised you have not allowed for this here):

I am concerned at the level of proposed increase. Those in the pensioner housing are living on a very low income as it is, and finding an additional \$34 a fortnight is likely to mean they sacrifice food, heating or other essentials. I would prefer the Council keep the rental at current rates.

If no, how do we fund future upgrades required to meet new government standards?

I wish to submit ideas for consideration for the consultation document. I am a resident of Wood Street, Greytown.

Water Conservation through use of water tanks.

Greytown is growing quickly and new housing sites are in several parts of town. The increasing use of water will place considerable strain on the town water supply. I recommend that all new homes be obligated to include a water tank. This will lead to to the conservation of water. The water in the tanks could be used for gardening needs.

Water Races

Some are kept clean and some are not. We have regularly cleaned our share of the race. Some parts of the town have water races on properties that are unmonitored. Full and efficient documentation nerds to be made and the residents advised and given the same legal warning as rural residents to keep the water race clean.

Wood street

The northern side of Wood street from the Blue school to the end of the urban housing. There is no kerbing and channeling of the street in this area. It is a dangerous stretch of road for pedestrians, cyclists and for vehicles. The road is narrow **with many potholes** on the side which makes the passing of oncoming vehicles difficult especially if there are pedestrians and people walking dogs. The berm on this section is wide

Bus shelters.

Many older people catch the bus and the train as they do not have a car or do not want to drive beyond the confines of Greytown. Some people also find it difficult to stand for periods of time and buses do not always adhere to the timetable. Bus shelters with seating needs to be provided for people waiting for a bus. The southern side of Wood Street also has no footpaths yet it has a bus stop that necessitates people standing on the wet cold ground whilst waiting for a bus.

The mission statement needs to be realised and Council needs to exercise sound judgement like they never have before, move into the future especially with Sewage & Waste water. Lots of good words in the Vision but now need to follow up with Action especially in regards to what the community needs & engage with the rate payers and community before spending on unnecessary Land purchases -

Subject: Submission to Annual Plan

The Chief Executive,

Thank you for the opportunity to make this late submission to the Annual Plan on behalf of the Five Towns Trails Trust.

As you are aware our Trust is tasked with trail infrastructure development in the Wairarapa from the Wai. Trails Advisory Group and was recognised as one of the key drivers under "visitor attraction" in the Wai Economic Development Strategy. The WEDS report highlights Five Towns Trails Trust and cycle tourism as multi seasonal and multi day (as opposed to weekend) attractions and we have looked forward to some leadership from this Action Plan as yet to eventuate.

The WaiTAG committee is a very positive well led group keen to make a difference and appreciates the support from SWDC, staff, and Cr. Colin Olds in particular. Through this group funding has been found for the part time role of Wai. Cycling Co-ordinator, Erin Collins which we urge the Council to continue to support.

Councillors will be well aware of the growing demand for recreational cycling nationally and locally and the rapid development of infrastructure in all our surrounding regions. Unfortunately Wairarapa is not keeping close to such developments but has huge potential with a co-ordinated approach.

I look forward to speaking to this submission.

Thanks for the opportunity,

Bob Tosswill

look more carefully at Featherston waste water proposal. Check out proposals tabled at public meetings.

You seem to have enough money to spend ridiculous amounts on something like the Waihanga centre when cheaper, better alternatives were offered. That money would have improved the pensioner flats in all towns.

30 YEARS AGO WHEN SWDC AMALGAMATION TOOK PLACE THE THEN COUNCIL SET ASIDE \$35,000 FOR REPAIR OF THE EXISTING FOOTPATHS EVERY 3 YEARS AND \$75,000 FOR NEW FOOTPATHS EVERY 3 YEARS FOR EACH TOWN.

THE MAYORS AND COUNCILORS HONORARIUM IN 30 YEARS WENT UP BY ABOUT SAY 200% THE RATES HAVE GONE UP BY ABOUT 300% APPROX. THE FIGURE \$35,000 AND \$75,000 STAYED THE SAME DID NOT INCREASE 1% AND ON TOP OF THAT I KNOW FOR THE FACT, THAT THE FOOTPATH MONEY WENT TO SOME OTHER PROJECT. SO IN THE PAST YOU ASKED THE RATEPAYERS FOR HUGE AMOUNTS OF RATE INCREASES BECAUSE MOST OF THE COSTS WENT UP SUCH AS FOOTPATHS ETC BUT WE HAVE NEVER SEEN 1 CENT EXTRA PER SAY IN 30 YEARS.
