

Day and night-time drainage work

We would like to advise you of day and night-time drainage work on the state highway in your area, weather permitting.

Please note dates may change at short notice due to weather or other impacts on our week's schedule.

Please sign on for updates on roadworks in your area at nzta.govt.nz/wta

The upcoming week's schedule is posted Friday on <https://journeys.nzta.govt.nz/wellington/road-works>.

Details

WHAT: Stormwater pipe replacement

WHERE: SH2 between Wakefield Street/Bethune Street and Birdwood Street/Lyon Street, Featherston

WHEN, weather permitting: Sunday 14 April to Friday 19 April, day and night works.

Night works

Sun 14 – Thu 18 April, between 9pm and 5.30am
During this time, we will need to close part of the road and detour traffic, as below.

Day works

Mon 15 – Fri 19 April, between 9am and 5.30pm
During this time, we will need to close the shoulder meaning carparks directly outside Fresh Choice will be closed during these times.

What we're doing

Upgrading the stormwater system involves removing the old pipe and replacing it with a new pipe. This will help improve stormwater drainage in the area.

Impact on business and residents

We know roadworks can be inconvenient for neighbours and we aim to work efficiently with as little disruption as possible. Machinery is unavoidably noisy at times and reversing beepers are a mandatory safety measure.

Road closure

SH2 Fitzherbert Street (between Wakefield and Lyon Street) will be closed at night for the duration of the works.

Vehicles will need to follow the sign-posted detours.

Daniell Street access

Between 9pm and 5.30am, vehicles won't be able to access Daniell Street from Fitzherbert Street as the intersections will be closed on either side of the road. Instead, they can access via Ravens Street or Fox Street.

The road works area and detour route are on the reverse page.

Thank you

Thank you for your patience while we make these road safety improvements in your community. Wellington Transport Alliance maintains the region's state highways on behalf of NZ Transport Agency Waka Kotahi.

Detour route and roadworks area

- Works area is in red – note: pedestrian crossing outside Fresh Choice will still be active for people to cross the road.
- Detour route is in green
