1a	1-2	Martinborough Colonial Museum	No	Part 3 – E, C & C Development: Seek a general grant to assist with additional running costs associated with a security installation and insurance of the collection and uncertain revenue collection. Unclear whether a general grant over and above the regular \$750 is requested.	It would appear the museum is asking for up to an additional \$2,800. Note that the building is already covered by SWDC general insurance. We have typically in the past resisted covering "collections" and required organisations to cover this aspect of their operational costs themselves. Recommendation: <i>That the operational grant be retained, and consideration be given for a further one off capital grant following consideration of other funding requests</i>	
1b		Martinborough Colonial Museum	No	Part 3 – Amenities: Requests a meeting with Council officers to jointly inspect the Museum to identify issues which need attention.	This meeting has been held, and levels of funding discussed. Costs have increased in the order of \$2.8K pa.	
2	3	Adri Shaw	No	Part 3 – Amenities: Requests a fully fenced playground area be included as part of the Martinborough Town Hall improvements	If the town hall project is approved, this request will be passed on to the town hall management committee for inclusion in the overall project. Recommendation: <i>That the submitter be advised that her request is noted and will be passed on the organising committee if the project receives approval</i>

Currently the District Plan provisions deal with historic heritage in our town centres. Council has agreed that these areas contain the main heritage values it wants to protect. As part of applying these provisions Council has developed historic heritage assessment guidelines for existing buildings and is at this time compiling additional guidelines to cover new structures. When processing RC's applications in heritage areas Council also engages with independent heritage groups for advice. All these measures are considered sufficient at present.</p> <p>Recommendation</p> <p><i>That Council advise the NZHPT it considers updating of the inventory to be a low priority at this time and that the funding allocation request is consequently declined.</i></p>

24a	44-45	Greytown Community Board	No	General – Thanks Council for support and work in a number of areas in the Greytown community.	Recommendation <i>Council acknowledges GCB Comments</i>	
24b		Greytown Community Board	No	Part 3 – E, C & C Development: Requests that Council assist the GCB to identify needs and trends for Greytown Citizens and visitors.	Officers are not in a position to provide a significant amount of analysis in regards to needs and trends for Greytown alone, or even the district. There is a certain amount of material in the NRB survey. We rely on annual plan submissions to identify the high level issues. Recommendation <i>The CE meet with GCB to identify the aims of this project and options available for ascertaining what is required</i>	
24c		Greytown Community Board	No	Part 3 – E, C & C Development: Requests that Council assist the wider community by starting a dialogue between all sporting and recreational bodies in the South Wairarapa district, to work towards a central administrative body based on the Greytown Sport and Leisure Model, which includes all three towns.	Sport Wellington are undertaking a region wide analysis, including the Wairarapa Recommendation <i>The GCB request be passed on to Sport Wellington</i>	
24d		Greytown Community Board	No	Part 3 – E, C & C Development /Amenities: Requests that dialogue is developed between the three towns in the South Wairarapa District to ensure that future facilities and initiatives are not duplicated but to ensure that each town retains its autonomy.	Apart from considering initiatives at a high level SWDC is not in a position to provide an analysis of this nature from existing resources. It is estimated an initial study could cost in the order of \$50,000. If Council wishes to pursue this initiative an additional sum of money would need

35	63	Rhona Fraser	No	General - Requests no rates increase as she supplies her own water, rubbish disposal, sewer and there is no bus service along her road.	Recommendation: <i>The submitter be advised that the submission is noted and will be considered when making the decision on the overall rates level</i>	
36	64	Friends of Stella & Sarah	No	Part 3 – Amenities: Supports the proposal to change the status of the Old Library Building from investment property back to a community based building.	Recommendation: <i>The submitter be advised that the submission is noted and will be considered when making the decision on the old library building</i>	
37	65	Adrienne McCartney	No	Part 3 – Public Protection: Would like to know Council's plan on making Ngawi more dog friendly. Requests off lead dog spaces.	Council's dog control policy applies generally across the district. It requires dogs to be kept on a lead at all times. This policy states that off lead dog exercise areas will only be provided in each of Martinborough, Featherston and Greytown. This policy would need to be changed if Council wants to provide an off lead area at Ngawi. At this time staff are unaware whether there is any suitable land to use. In addition Council reserve land at Ngawi is used for "free camping" and because of past problems with dogs at such sites, there is a strict "no dogs allowed" ban. Recommendation: <i>That Adrienne McCartney be advised Council's dog control policy only provides for off lead dog exercise areas at Martinborough, Greytown and Featherston.</i>	
38	66-67	Wairarapa Volunteer Centre	Yes	Part 3 – E, C & C Development: Requests \$1000 towards the setup and operating costs of setting up a Wairarapa Volunteer Centre in the Wairarapa area.	Recommendation <i>This request for funding be considered along with other funding requests</i>

99b		Rosie Montgomerie	No	Part 3 – Amenities: Supports the cycleway proposal. Suggests linkages to Greytown in future years	Recommendation <i>The submitter be advised that the submission is noted and will be considered when making the decision on the cycleway project</i>	
99c		Rosie Montgomerie	No	Part 3 – Amenities: Requests Council support for development of a BMX track and skate park centrally located in Greytown (suggests Sarah’s Garden)	Land has been made available for this in Pierce Street. Sarah’s Garden is part of Stella Bull Park which is covered by a management plan. The present management plan emphasises the natural and historic features of the area and is not well-suited to BMX/skate-park functions.	
99d		Rosie Montgomerie	No	Part 3 – Amenities: Suggests Council sell the Fstn land swap land to a developer and it is commercially driven and the Menz Shed is located elsewhere.	Recommendation <i>Advise submitter of 4 June council decision</i>	
99e		Rosie Montgomerie	No	Part 3 – Amenities: Requests the Gtn Swimming Pool is retained and brought up to standard for cleaning, surfaces, heating and possibly community fundraising to have it covered.	Cleanliness and water quality is being dealt with through major repairs to the skimmer system. Resurfacing with fibreglass, as the best way to maintain the pool surface, will be carried out once a decision has been made about altering the length of the pool. A solar heating system is being priced, and arrangements being made for a pool cover. While the community maybe be able to raise funds to have pool covered and made into a year-round facility, the ongoing costs of operating the pool year-round are unlikely to be able to be met from ratepayer funding and admission charges.

99f		Rosie Montgomerie	No	Part 3 – Water Supply: Suggests that all new houses be required to have their own water tanks for garden and car cleaning use in the summer.	This has been discussed previously and is difficult to enforce, and will add a significant cost to each house. There is some guidance being developed on this matter.	
100a	243-253	South Wairarapa Biodiversity Group	Yes	Part 3 – Amenities: Thanks Council for riparian planting along lake edge, wastewater treatment area, restorative works at Okorewa Lagoon and beach cleans.	Noted	
100b		South Wairarapa Biodiversity Group	Yes	Part 3 – Amenities: Lake Ferry Wastewater treatment, wetland planting project: Requests that Council provide funding of \$4,650 to complete stage 2 & stage 3 of the planting project as outlined in the submission and undertake to consider stage 4 as part of the 15/25 LTP.	Stage 1 was consent condition of Lake Ferry wastewater scheme. Stage 2 is not part of the consent and any funding allocation will be a direct impact on rates.	
100c		South Wairarapa Biodiversity Group	Yes	Part 3 – Amenities: Extension of Onoke riparian planting to lake access reserve: Requests that Council provide funding of \$6,200 to complete stage 1 project as outlined in the submission and undertake to consider stage 2 as part of the 15/25 LTP.	Any additional funding will have a direct impact on rates	
100d		South Wairarapa Biodiversity Group	Yes	Part 3 – Resource Management: Recommends that Council initiate community consultation on best public use of the Lake Ferry reserve land to establish a vision, goals and long term objectives	It is unclear whether this submission relates solely to Council owned reserves at Lake Ferry. This response assumes it does. Council adopted the Coastal Reserves Management Plan in July last year. The development of this plan involved wide consultation on, amongst other reserves along the coast, the Lake Ferry Reserve areas. In concluding that process, the decision of Council was that “no further development is planned for these (Lake Ferry) reserves” (P78- CL 3.10.1 of the CRMP). The plan (CL 2.16.2) does however indicate that Council will encourage initiatives for

103a	256-263	Trails Wairarapa Trust	Yes	Part 3 – Land Transport: Requests that Council enhance cyclist safety, facilities and business opportunities along the NZCT expansion routes (lower speed limits, wider road margins, increased signage, rest area improvements)	Recommendation <i>Acknowledge the submission and advise of the proposed cycle trail from Cross Creek to Featherston. Council will consider proposals for economic development including the future development of the cycle trails</i>	
103b		Trails Wairarapa Trust	Yes	Part 3 – Land Transport: Encourage Council to seal Te Muna Road to complete a cycle loop. Request that Council work with Fulton Hogan to make them aware of the most cyclist used routes and consider wide verges, share the road signage, safe bridge crossings and cycle friendly surfaces where possible.	Unclear whether submitter supports the 2km seal proposal, have assumed YES. This will be discussed with FH as part of their safety plans	
103c		Trails Wairarapa Trust	Yes	Part 3 – Amenities: Supports Council's cycleway proposal.	<i>The submitter be advised that the submission is noted and will be considered when making the decision on the cycleway project</i>	
103e		Trails Wairarapa Trust	Yes	Part 3 – Amenities: Requests Council be aware of and encourage and support the continuing work it is doing to develop new trails in the Wairarapa, in particular the Underhill Trail and Ruamahanga Trail (detailed information about how they are proceeding included in submission).	<i>The submitter be advised that the submission is noted and will be considered when making the decision on the cycleway project</i>	
103f		Trails Wairarapa Trust	Yes	Part 3 – Land Transport Supports traffic calming methods on busy streets and good signage. 104a	264-267	Wairarapa Chamber of Commerce	Yes	Part 1 – Community Outcomes: Would like to work with Council to ensure that Community Outcomes are achieved. Believes that the only economic development currently being completed in the region is tourism.	GWRC collects circa \$500K from the region for economic development, suggest WCOC lobby directly to GWRC for a share of these funds to be set aside for investment in Wairarapa projects. It is noted all three Wairarapa TA's are investing directly in economic development	
104b		Wairarapa Chamber of Commerce	Yes	Part 3 - E, C & C Development: Requests that Council fund project in the area of 'local' economic development (i.e. information booklets about Wairarapa available for businesses). Requests Council ensure development and growth does not become a burden to business that they seek alternative locations outside the region.	Any additional costs will be borne by the ratepaying community, including businesses. Businesses should actually benefit from any initiatives and therefore on a cost benefit basis should be prepared to contribute. Happy to discuss concept though.

119	303	William Ryle	No	Part 3 – Amenities: Does not support the proposed plan for the Martinborough Town Hall/Community Centre, specifically the money spent on earthquake strengthening of the Hall. Would rather see a replacement building built. Suggest money is instead invested in Featherston on the vacant lot on Fitzherbert Street.	Recommendation <i>The submitter be advised that the submission is noted and will be considered when making the decision on the town hall project.</i> <i>Note that if the funds are not used for the town hall project this does not actually make any funds available and this would be a separate funding decision</i>	
120	304-305	Nifo Ili	No	Part 3 – Amenities: Suggests that the questions should not be what Featherston wants on the vacant site but what is the best place in town for what we want to see. Suggests 2000 square metres of empty commercial zoned land in its main street is too much.	Recommendation <i>The submitter be advised of the outcome of the 4 June meeting on this subject</i>

Recommendation <i>The submitter be advised that the submission is noted and that this is already current council policy, noting that footpath repair will be the focus for this year</i>	
121e		Tim Beal (plus 6 Hart St residents)	No	Part 3 – Public Protection: Suggest the problem of dog litter could be reduced by providing more dog poo stands with bags.	Council provides bins for dog waste and bags for picking up dog litter with at the formal off lead dog exercise areas it has established. To extend these facilities beyond these sites would be an expensive process, although it could be done. Under the bylaw and dog control policy of Council it is an owner responsibility to clean up dog litter and this is enforced by staff as appropriate. This matter is really no different to managing other rubbish. Council does not provide bins for rubbish throughout the district; it simply targets particular public areas for this service (our commercial centres). This is akin to what is presently done for dogs. Recommendation <i>That Mr Beal (and 6 others) be written to advising that Council already provides bins and bags in accord with its Dog Control Policy at appropriate locations and will not be providing these facilities to other areas due to cost.</i>

Council received a report on this issue at its April 2014 meeting. The report found that current legislative provisions do not allow Council to effectively intervene on such matters. Council did wish to further investigate whether the RMA could be used to resolve the problem. Funding policy makes it difficult to transfer revenue from sale of land to WW project as “exacerbator pays” principal applies	
134c		Sharon van de Weyer	Yes	Part 3 – General: Would like transparency on what Council has spent on the 3 towns in the last 5-10 years.	Most operational budgets are district wide and difficult to split \$ for \$ by town. Contacts are generally lump sum – pay a set fee for a combined output across the three towns.

Plans to fibreglass the pool are on hold until the report is received and a decision is made about shortening the pool. To shorten the pool we would require additional \$50 – 200k depending on pricing of different options.

138a	361-362	Greytown District Trust Lands	Yes	<p>Part 3 – E, C & C Development: Generally supports initiatives aimed at enhancing economic development including DW funding. Expresses concern that SW appears to be reliant on the Wgtn Regional Strategy and be a follower rather than a leader.</p>	<p>SWDC does not contribute to the WRS, and in general terms has very little funds to direct into business development. It is noted that this draft annual plan has a significant number of initiatives that will promote business development including Martinborough town hall, Featherston cycle way, and the proposed Featherston town centre development, among other initiatives. Historically economic development had been undertaken by Grow Wellington and other agencies, however there has been limited or no visible benefit seen for the considerable amount that GWRC collect in rates – which is why SWDC are investing directly into projects that will provide some economic benefit</p>	
138b		Greytown District Trust Lands	Yes	<p>Part 3 – E, C & C Development: Notes Council’s objective to “create a climate for and give encouragement to organisations and individuals to take initiatives in the stimulation of economic growth, tourism and employment opportunities in the district”. Trust Lands supports this ideal but suggests Council must have a business friendly stance. Trustees happy to meet Crs and management to discuss opportunities.</p>	<p>Noted, Council does receive feedback that it is business friendly and has discussed this with the Trust in the past. It is therefore premature to be targeting specific consultants for engagement. Recommendation <i>That Jean McDowall be written to and advised until a brief is designed and agreed, it would be premature to be appointing particular consultants.</i>

The areas covered by the uagc and uac are detailed in the rates assessment (part B) sent out with the first rates instalment to all ratepayers	
142d		Federated Farmers	Yes	General: Recommends that Council include a breakdown of rates revenue for commercial, urban and rural properties by uniform charges, service charges, land value rates, capital value rates and targeted rates to demonstrate the proportion of each rating stream to the total rate take and to improve transparency.	There would need to be a significant amount of additional analysis to provide this information and the benefits would appear to be limited	
142d		Federated Farmers	Yes	Part 3 – Governance: Notes an increase in \$19k in depreciation above the \$4k forecast in LTP, question the reason and whether it is an appropriate source of funding for these activities.	This variance relates solely to the purchase of a new vehicle that was forecast to be purchased in a prior year. The previous vehicle was fully depreciated	
142e		Federated Farmers	Yes	Part 3 – E, C & C Development: Query whether the \$120k is strictly for Destination Wairarapa or also includes contributions to the Wgtn Regional Strategy. Note DW is funded by general rates and considers an increase use of uniform charges and targeted rates for the districts tourism business is more appropriate.	\$120K is strictly for Destination Wairarapa, SWDC does not contribute to Wellington Regional Strategy. Funding policy is likely to be reviewed as part of the 2015/25 LTP – note that the uniform charge is nearing the 30% cap.	
142f		Federated Farmers	Yes	Part 3 – Resource Management: Query a 7% decrease in operating costs yet only a 1.1% reduction in rates requirement.	As reported to Council, the impact of aligning Councils fees to those of MDC (from 2013/14 year) led to a significant reduction in revenue for resource management. This has been partially addressed by raising some of Councils fees but not entirely. In addition a reduction in the assessed level of income from financial contributions has been made to better

142g		Federated Farmers	Yes	<p>Part 3 – Resource Management: Encourage Council to engage Fed Farmers during the process of assessing and providing advice to the Council on the new regional plan.</p>	<p>The WRC has been consulting on its Regional Plan Working Document for Discussion (WDFD) and officers have been taking part in discussions on this document and commenting. This WDFD is presently being refined and will be released as a “Draft” for comment later this year. At this stage it will be critical for Council to engage with WRC and make comments on its own behalf in relation to provisions affecting how Council does its business (our infrastructure) and how the document affects our ratepayers. Federated Farmers are an important stakeholder in this process just as Council is and both parties will undoubtedly have many common concerns. Working together would be advantageous to both. Likewise Council staff will continue engaging with and working with MDC and CDC.</p> <p>Recommendation <i>That Council write to Federated Farmers and advise of its willingness to work, where appropriate, together when formulating comment on the Draft Regional Plan.</i></p>

Libraries capex has gone down. Council's funding policy covers the equity issues with regards to the impact of rates and charges, this funding policy will likely be reviewed as part of the 2015/25 LTP	
142i		Federated Farmers	Yes	Part 3 – Land Transport: Note the changes to the NZTA funding model and would be pleased to work with Council on getting a more equitable funding model and to assist Council with their review of the Road Asset Management Plan to minimize the impact of the changes on rural roads.	Noted, although NZTA are well through their funding review and there is limited real opportunity to effect change. All assistance in this key budget area is appreciated as this is an issue that will impact the rural sector. Council continues to lobby NZTA bearing in mind the significant rural component of the roading network.	
142j		Federated Farmers	Yes	Part 3 – Land Transport: Question the use of reserve funding for seal extension and suggest repairing damage to existing roads would be the most prudent use of reserve funds. Queries whether the cost should rest so heavily on the rural community.	Not entirely clear whether the 2km sealing proposal is not supported; have interpreted as a NO.	
142		Federated Farmers	Yes	Part 3 – Land Transport: Express concern in the decrease of CAPEX from the forecast LTP levels for reseals and the potential decline in service levels for rural roads.	Noted, there is no plan to decrease service levels. Note the FAR review and One Network Road Classification system	
142k		Federated Farmers	Yes	Part 3 – Solid Waste Management: Expresses concern the shift in rates income from projection in LTP. Target rates has decreased 51.6% while general rates increased 40.1%. Consider this service should be funded by targeted rates. Recommend the proportion of rates collected through the general and target rates for solid waste to more	This is due to the cost savings in one area (mainly tonnage to landfill) and collection costs being lower as a result of the new soil waste contract. Costs were uncertain at the time of preparing the LTP
