

# SOUTH WAIRARAPA DISTRICT COUNCIL

13 DECEMBER 2017

## AGENDA ITEM C1

### WAIRARAPA WASTE MINIMISATION SURVEY REPORT

#### **Purpose of Report**

To inform councillors of the community feedback on waste minimisation within the Wairarapa and gauge residents interest in waste streams – kerbside recycling, food waste, E-waste, recycling/recovery centres.

#### **Recommendations**

Officers recommend that the Council:

1. *Receives the Wairarapa Waste Minimisation Survey Report.*
2. *Agrees in principle to support the four waste streams proposal.*
3. *Recommends that the following are included in the Long Term Plan 2018-28 consultation document for community consultation:*
  - a. *To further investigate costs of kerbside food waste collections, including how the ratepayers would utilise the service.*
  - b. *To consider kerbside recycling with 240 litre wheelie bins for co-mingled recycling and yet still utilise the crates, for example, for glass on alternate weeks.*
  - c. *To consider an e-waste service at transfer station or an advertised collection service scheduled throughout the year.*
  - d. *To consider a recycling/recovery centre at a transfer station where the general public can dispose their useable goods for resale, to divert from landfill.*

#### **1. Background**

The councils of the Wellington region are working together to reduce waste. Following a review of their waste management practices, the councils have developed a new draft Wellington Region Waste Management and Minimisation Plan (WMMP).

After reviewing the plan, three Wairarapa Councils have set a primary target for minimising waste to aim for a reduction in the total of waste sent to landfill from 600 kg per person per annum to 400 kg, the three Wairarapa councils set to consider how to further protect the environment,

reduce waste and improve services. To do so the following waste streams were to be investigated and consulted with the community.

- Kerbside recycling
- Food waste
- E-waste
- Recycle/Recovery Centres

To ensure that there was an appetite within the community to support these waste streams, and to seek further feedback on how council could manage their waste, and minimise waste to landfill, a survey was distributed throughout the region via various methods.

## **2. The Survey**

### **2.1 Survey Content**

The survey asked how residents currently managed their waste; would they utilise new services suggested by the proposed waste streams; and what else did the three Wairarapa Councils need to consider when aiming to reduce waste. The survey is used for pre consultation and not intended for decision making purposes.

### **2.2 Data Summary**

- 519 people responded, of which 44% were Masterton residents, 35.5% were Carterton residents, and 20% were South Wairarapa residents.
- 70% of respondents would utilise a kerbside food collection service if available
- 81% of respondents currently utilise kerbside recycling. 79% of total respondents use 2 or more recycling crates.
- 50% of total respondents selected a wheelie bin as their preferred option, with 25% of total respondents preferring both recycling wheelie bin and crates.
- 89% of respondents would utilise an e-waste service
- 90% would utilise a Resource/Recovery Centre

### **2.3 Survey Summary**

Although 70% of respondents would utilise a kerbside food collection service, the results also suggest that as a region there is a strong consideration towards food waste, with 65% of total respondents already currently doing their own composting.

81% of respondents currently utilise kerbside recycling which shows a keen interest to sort and recycle appropriate materials. Of the total respondents surveyed 79% are using 2 or more crates. The comments regarding recycling options resulted in more people preferring the wheelie bin option, not only due to its larger capacity, but also easier to manage on wheels and the prevention of wind blowing recycling into the streets.

Although only 25% of total respondents would like to see a combination of both wheelie bins and crates; utilising both would still be of benefit to offer increased options for separated materials.

It is also important to note that there was a general opinion that there should be a 3 wheelie bin option (for general waste, green waste & recycling).

A strong 89% supported an E-Waste collection of some level. General comments were for it to be based at either a transfer station, or a drop off/scheduled collections to be advertised throughout the year.

There was a general support for a recycling/recovery centre at a transfer station. This did not have a multiple choice option (which it could have), however it was to give respondents an idea of the reusable items they could dispose of. Therefore respondents chose 'other' option and comments were noted as 'all of the above'.

It is acknowledged that a small percentage of respondents commented that they did not want councils to support the changes by way of a rates increase.

### **3. Conclusion**

It can be concluded that generally there is strong support, indicated throughout the survey, for all four proposed waste streams.

The comment sections throughout the survey indicate the passionate views of Wairarapa residents across the region when considering waste minimisation, and offers detailed information of how residents see these waste streams utilised if adopted.

On the basis of that support, the Councils should consider the changes to these 4 waste streams to minimise our waste to landfill, as stated in the WMMP of reducing waste from 600 k to 400 kg per person per annum from 2017-2023.

Tabled 7

- Our own compost and a worm farm and other food scraps fed
- 34 Nov 22 2017 09:37 F to chooks and goats
- Using the ZingBokashi composting system (NZ made). .
- 35 Nov 21 2017 12:12 F
- 36 Nov 20 2017 02:21 F Green garden wheelie bin
- 37 Nov 13 2017 08:57 F Nil
- 38 Nov 13 2017 08:54 F Rubbish bag
- 39 Nov 13 2017 08:04 F Have 4 chickens and compost
- 40 Nov 13 2017 07:54 F Chickens
- 41 Nov 13 2017 10:42 F Well i feed it to the neighbourhood pigs  
Feed scraps to the chickens plus I use a green waste bin for
- 42 Nov 11 2017 11:52 F food the chickens don't eat  
I actually feed mine to my chooks and what they don't get the
- 43 Nov 11 2017 10:33 F dog cleans up
- 44 Nov 11 2017 08:21 F Green waste bin from Wairarapa environmental.  
I would like to do this and would contribute to community set
- 45 Nov 11 2017 07:55 F up if there was one
- 46 Nov 11 2017 07:07 F Green waste bin
- 47 Nov 10 2017 09:05 F Feed scraps to chooks  
All of our waste goes to a friends pig farm. Also i use it for my  
own compost When its set up as i do not like putting waste
- 48 Nov 10 2017 07:46 F into the rubbish.
- 49 Nov 10 2017 07:28 F I do not currently compost
- 50 Nov 10 2017 06:33 F EARTH MAKER compost bins 3 of
- 51 Nov 10 2017 01:44 F I throw it on the garden
- 52 Nov 09 2017 10:12 F Some goes to compost, some to a neighbour's pig
- 53 Nov 09 2017 03:27 F I take them to a friends chickens.  
we don't compost. we do give scraps to the neighbours
- 54 Nov 09 2017 01:09 F chooks but should be composting better  
  
I do not compost but along with my neighbour's have a pig
- 55 Nov 09 2017 09:58 F bucket which a local pig farmer collects and feeds to his pigs
- 56 Nov 08 2017 05:09 F I actually feed my daughter's pigs and chicken with the scraps
- 57 Nov 07 2017 07:43 F We do not. But feed food scraps to our 8 hens

## Q4 Wairarapa Waste Minimisation Survey#ZeroWasteWairarapa

**If no, would a kerbside food waste collection service encourage you to compost if it was available?**

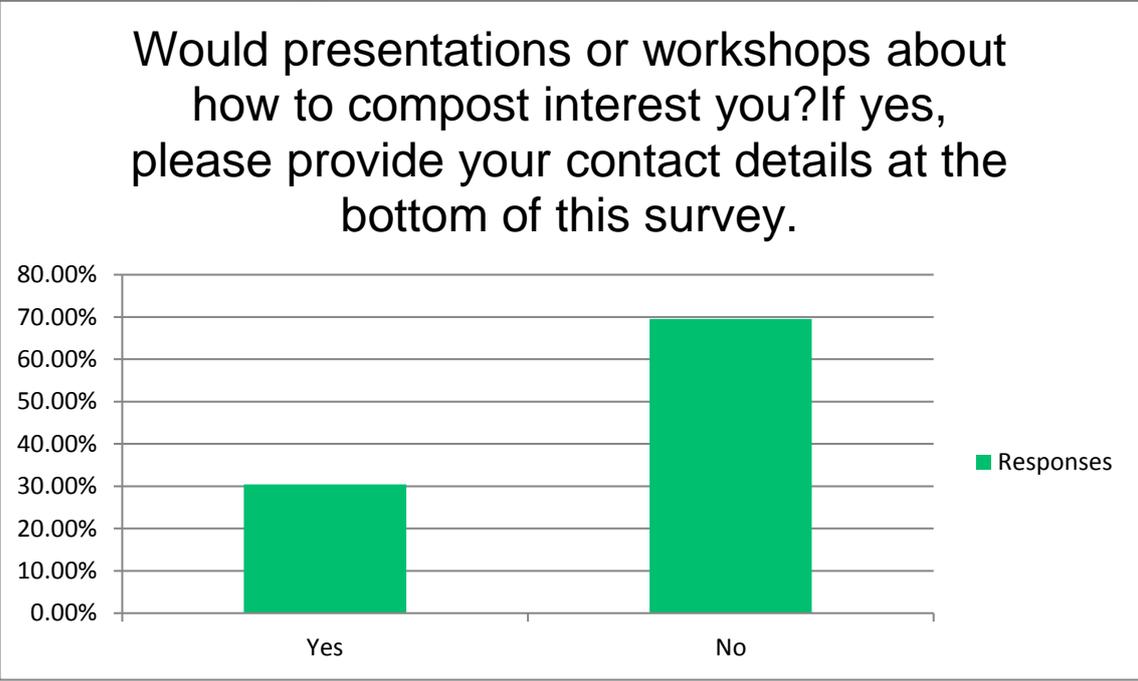

Answer Choices	Responses	
Yes	70.42%	300
No	29.58%	126
<b>Answered</b>		<b>426</b>
<b>Skipped</b>		<b>93</b>

Q5 Wairarapa Waste Minimisation Survey#ZeroWasteWairarapa

**Would presentations or workshops about how to compost interest you?If yes, please provide your contact details at the bottom of this survey.**

Answer Choices	Responses	
Yes	30.47%	156
No	69.53%	356
	<b>Answered</b>	<b>512</b>

## Q6 Wairarapa Waste Minimisation Survey#ZeroWasteWairarapa

### Do you have any other suggestions regarding food or organic waste?

Answered 253

Skipped 266

Respondents	Response Date	Responses
		This is common sense as
1	Dec 06 2017 03:05 P	I am a farmers son
2	Dec 05 2017 10:08 P	No
3	Dec 05 2017 04:15 P	compist bins at dump
4	Dec 05 2017 03:20 P	Setup a community garden, and encourage people to provide their food scraps for compost to go in to that garden
5	Dec 05 2017 09:24 A	composting for community gardens/schools if they exist round here
6	Dec 05 2017 08:40 A	More usable service for green waste
7	Dec 05 2017 07:17 A	Community composts would be great, community worm farm where folk could see it working
8	Dec 05 2017 05:12 A	No
9	Dec 04 2017 10:40 P	Is using an insinkerator better for environment then currently putting in normal rubbish bin?
		No
10	Dec 04 2017 10:28 P	
11	Dec 04 2017 10:17 P	agree kerbside collections and seminars and info in library
12	Dec 04 2017 09:40 P	No, I like to mention the increase in the use of roundup by farmers and in roadside gully treatment.
13	Dec 04 2017 09:06 P	Free recycling options in the area
14	Dec 04 2017 08:59 P	Food waste collection including meat and bones and incinerated must be good for the environment.
15	Dec 04 2017 08:42 P	Pig food
16	Dec 04 2017 07:47 P	We don't compost as it attracted dogs to eat out of our compost. Would be good to offer a discount for a worm farm ?
17	Dec 04 2017 07:30 P	No
		we have either composted or feed pigs. Maybe educating on what you can compost and how you don't need all the fancy stuff to do it.
18	Dec 04 2017 06:54 P	
19	Dec 04 2017 06:42 P	No
20	Dec 04 2017 06:03 P	no
		The three compost bins I purchased they supply some help, if they want to sell more of there products they should continue to supply up to date advice as part
21	Dec 04 2017 05:57 P	of selling there products.
22	Dec 04 2017 05:31 P	Instead of kerb side pickup made have a deposits area
23	Dec 04 2017 04:55 P	food banks/collection points for those items that can still be used safely
24	Dec 04 2017 04:31 P	No
25	Dec 04 2017 04:20 P	Free green waste disposal in a wheelie bin
26	Dec 04 2017 04:07 P	Provide bins for homeowners
27	Dec 04 2017 03:40 P	Be good to know what NOT to put in the compost!
28	Dec 04 2017 03:32 P	No thanks.
29	Dec 04 2017 03:31 P	No
30	Dec 04 2017 02:39 P	No
31	Dec 04 2017 02:34 P	Feed it to your chooks
32	Dec 04 2017 02:29 P	Cafes etc to be out in contact with people who keep animals that are interested in feeding them food waste
33	Dec 04 2017 02:28 P	No
34	Dec 04 2017 12:20 P	I compost now but its hard to empty bins on my own

- 35 Dec 04 2017 12:11 P I Small combined community compost operations  
How would the kerbside collection encourage composting??? If you put it all on the kerb, you wouldn't have anything to compost. Instead of providing kerbside collection, provide households a compost bin and educate them how to use it.
- 36 Dec 04 2017 12:02 P I
- 37 Dec 04 2017 09:18 A I No  
needs to be easy so people will do it, I know if it involves more than one extra step my husband and step daughter less likely to do it
- 38 Dec 04 2017 08:30 A I I like the idea of kurbside food organic waste as I have tried in the past and hard to get the right combination of wet and dry matter
- 39 Dec 03 2017 09:37 P I No
- 40 Dec 03 2017 12:39 A I Nope
- 41 Dec 02 2017 07:42 P I no
- 42 Dec 02 2017 04:49 P I No
- 43 Dec 02 2017 01:29 P I Feed the animals. Pigs and chickens.
- 44 Dec 02 2017 10:00 A I Discounted compost bins available
- 45 Dec 02 2017 07:40 A I Somewhere where bones/meat can be utilised. Currently freeze them before putting in kerbside bags.
- 46 Dec 01 2017 04:01 P I No  
If the council was to employ the idea of a curbside organic waste collection my initial thoughts are how they would utilise this so it didn't create a health problem for the region and the staff who would be collecting it.  
  
We compost carefully on our own property, ensuring that the correct matter is used. As many household in the Wairarapa have the room to do this perhaps
- 47 Dec 01 2017 10:15 A I there should be another educational drive regarding the setting up of your own...
- 48 Dec 01 2017 09:56 A I no
- 49 Dec 01 2017 09:21 A I Teach people hoe to shop properly etc. home economics classes in schools used to teach how to shop for a week with minimal wastage.  
The system initially proposed by Wairarapa Environmental using small slated plastic bins and corn starch bags mean the scraps dry and don't smell. Works
- 50 Dec 01 2017 09:19 A I well.
- 51 Nov 30 2017 07:33 P I no  
Encourage shops to give overripe vegetables/ fruit to people with animals; terrible to think of it going to waste.
- 52 Nov 30 2017 04:39 P I
- 53 Nov 30 2017 12:20 P I Phase out plastic packaging
- 54 Nov 30 2017 11:31 A I Use as chicken feed  
Encourage local businesses especially food outlets to have worm farms - the worm castes etc could be collected as part of a school project for school
- 55 Nov 30 2017 10:54 A I gardens.
- 56 Nov 30 2017 10:33 A I Meat is the hard one to dispose of.....can't compost  
Councils could sell composting bins, provide information and workshops etc to educate and encourage composting of organic waste. Council could also start
- 57 Nov 30 2017 10:26 A I composting.
- 58 Nov 30 2017 10:15 A I No
- 59 Nov 30 2017 10:08 A I Too hard with vermin
- 60 Nov 30 2017 10:08 A I Currently compost  
You have to make it as easy for people to recycle as it is for them to just trow it in the rubbish. If you have too many stipulations it will be too "hard". If people don't garden they wont be interested in recycling their food scraps. Perhaps it could be more expensive for them to throw recyclables into the rubbish destined
- 61 Nov 29 2017 11:49 P I for the landfill.
- 62 Nov 29 2017 10:36 P I A mail out of foods that are compost friendly, im never to sure. would be great to have it on my fridge.  
Smaller compost bi s for smaller sections....we have virtually no garden and no lawn.
- 63 Nov 29 2017 10:13 P I Maybe subsidise compost bins for elderly etc
- 64 Nov 29 2017 06:34 P I No

- For a start ALL schools should be composting so at least we're educating the next generations. We need to start rewarding those who do compost and recycle rather than put costs up. Those who do these environmental things get their rates reduced, or we could the council get a heavily discounted price on
- 65 Nov 29 2017 05:26 P I compost bins so it's cheaper for people to set up these options.  
There should be better recycling system-also charges for excessive amounts
- 66 Nov 29 2017 04:12 P I And of the most get rid of the dumping holes on farms-it's poisoning our earth and you can hear farmers being somekind of proud of it
- 67 Nov 29 2017 03:03 P I No
- 68 Nov 29 2017 02:29 P I no
- 69 Nov 29 2017 12:22 P I The green waste wheelie bins that were delivered around has been a great addition to my household
- 70 Nov 29 2017 11:19 A I We use our eggshells crushed up to stop snails or slugs eating our planted greens
- 71 Nov 29 2017 10:06 A I Chickens eat all, then when you clean their cage add to compost bins
- 72 Nov 29 2017 09:27 A I Not at the moment ....
- 73 Nov 29 2017 09:23 A I I think a education flyer for all about how to compost right , and for the councils to sell the compost cheaply back to the community
- 74 Nov 29 2017 09:20 A I no
- 75 Nov 29 2017 09:13 A I No
- 76 Nov 29 2017 08:26 A I No
- 77 Nov 29 2017 06:58 A I Need to encourage as much as possible.
- 78 Nov 29 2017 06:46 A I Community worm farms
- 79 Nov 29 2017 06:44 A I No
- 80 Nov 29 2017 05:55 A I No
- 81 Nov 29 2017 01:00 A I Have a community composting station
- 82 Nov 28 2017 11:56 P I Not at moment
- 83 Nov 28 2017 11:23 P I No
- 84 Nov 28 2017 10:59 P I Can excess from supermarkets and cafes go to homeless or poor?
- 85 Nov 28 2017 10:39 P I No
- 86 Nov 28 2017 10:28 P I A plastic bin with lid for all green waste would be preferable.
- 87 Nov 28 2017 10:05 P I Worn farms
- 88 Nov 28 2017 10:03 P I No
- 89 Nov 28 2017 09:59 P I Discourage using waste disposal unit. Collect good left over food and recycle to people who need it.
- 90 Nov 28 2017 09:51 P I Whilst it's a good idea, I would be very concerned that a kerb side food waste bins would attract cats and dogs  
Many older folk don't have a trailer or tow bar and getting rid of non-compostable green waste gets impossible. Smallish green matter can be composted but
- 91 Nov 28 2017 09:19 P I the woody, larger cutting from trees/shrubs could go into a wheelie bin. Much better and less stress.  
No
- 92 Nov 28 2017 08:59 P I
- 93 Nov 28 2017 08:10 P I Bo
- 94 Nov 28 2017 08:07 P I Have chippers available at dump and make it cheaper for people to dump green waste. turn it all into compost and sell it
- 95 Nov 28 2017 08:06 P I No
- 96 Nov 28 2017 08:01 P I N/a
- 97 Nov 28 2017 07:49 P I No
- 98 Nov 28 2017 07:48 P I No
- 99 Nov 28 2017 07:31 P I Possibly sending information about what food waste to compost and ways to compost and use it could be beneficial.
- 100 Nov 28 2017 06:57 P I Compost it
- 101 Nov 28 2017 06:55 P I No
- 102 Nov 28 2017 06:31 P I Na

- 103 Nov 28 2017 06:22 P| Ni
- 104 Nov 28 2017 05:57 P| N/A
- 105 Nov 28 2017 05:54 P| No
- 106 Nov 28 2017 05:27 P| No
- 107 Nov 28 2017 05:25 P| Could you please look into the supply of composting bins for hire so people can compost more effectively at home as an alternative to the greenwaste bins.
- 108 Nov 28 2017 05:11 P| No  
It'd be good to have any easy way to share unwanted/unneeded produce with other residents. For example, we have heaps of apples each year so could swap or give them to someone else who needed them.
- 109 Nov 28 2017 01:55 P| A council run worm farm and compost used in the environment, healthy plants, less spraying. Council could set up or have contractor set up composting at the tip...people could purchase
- 110 Nov 28 2017 08:39 A| tip...people could purchase
- 111 Nov 26 2017 03:37 P| I would buy compost, but only if I was sure weeds were dead
- 112 Nov 26 2017 01:54 P| no
- 113 Nov 26 2017 07:33 A| Education
- 114 Nov 25 2017 10:03 P| Encourage businesses to redirect safe dated food to those in need rather than dumping it.
- 115 Nov 25 2017 12:48 P| No
- 116 Nov 25 2017 07:36 A| build a local landfill .use the methane ,cook food waste.make stock food.  
encourage people to waste less food and pass expired food items on to users who struggle to make ends meet.In the North of Germany some shops sell one day old bread. We throw artisan bread away in NZ!
- 117 Nov 24 2017 05:55 P| day old bread. We throw artisan bread away in NZ!
- 118 Nov 24 2017 05:31 P| Green waste charges at transfer stations should be cheaper to reduce people dumping illegally  
I would love to be better at composting but currently don't have the time or knowledge of how to. Starter kits would be cool and evening workshops on how to
- 119 Nov 24 2017 05:27 P| etc
- 120 Nov 24 2017 11:34 A| Encourage others to compost, right from ECE level
- 121 Nov 24 2017 07:30 A| No
- 122 Nov 23 2017 10:19 P| No
- 123 Nov 23 2017 08:43 P| no
- 124 Nov 23 2017 05:00 P| Make more use of the local Food Bank to help provide home grown vegetables and fruit to others.
- 125 Nov 23 2017 04:04 P| Haven't actually thought about it
- 126 Nov 23 2017 12:02 P| We used this service when living in the uk and it was great. Would def use if offered
- 127 Nov 22 2017 11:18 P| Community gardens the compost can be used for, encouraging people to grow food and recycle organic waste.
- 128 Nov 22 2017 09:37 P| Community compost that people could harvest themselves? Offering information/workshops on how to better use food so there was less waste to start with.
- 129 Nov 22 2017 09:02 P| No
- 130 Nov 22 2017 08:52 P| Target the organic business/restaurant waste and make sure it is composted.
- 131 Nov 22 2017 08:43 P| NO  
It would be great if there was a local initiative to use leftovers from cafes and supermarkets to help provide good for hungry school children. Perhaps it already exists?
- 132 Nov 22 2017 07:37 P| exists?
- 133 Nov 22 2017 07:33 P| Advertise where to drop extra vegies and fruit to for local charities  
More recycling of paper waste, i.e. biscuit cartons,
- 134 Nov 22 2017 06:49 P| egg cartons, and dry food, flour paper bags, pasta packages
- 135 Nov 22 2017 05:10 P| Workshops on using produce from gardens, education / workshops on food planning
- 136 Nov 22 2017 05:07 P| encouraging people not to over shop, workshops how to reuse leftovers  
wondered if there is a Kaibosh-type organisation in the Wairarapa that could work in with the cafes and supermarkets here. There may be one I am not sure
- 137 Nov 22 2017 04:18 P| but if not, this would be a great idea.
- 138 Nov 22 2017 02:55 P| No
- 139 Nov 22 2017 02:47 P| Drop off points for over abundance of fruit or veges.

- 140 Nov 22 2017 02:33 P I Maybe a different bag for food or organic waste.I don't have he room for composting
- 141 Nov 22 2017 02:12 P I As well as compost bins - worm farms work just as well.
- 142 Nov 22 2017 10:53 A I no
- 143 Nov 21 2017 10:11 P I All should be composted
- 144 Nov 21 2017 07:06 P I encourage compost and have another bin for compost or green matter
- 145 Nov 21 2017 03:10 P I a community worm farm
- 146 Nov 21 2017 01:43 P I no  
1. Street/Neighbourhood composting groups? 2. Buy at cost household composting set ups (like the green water tanks)? 3.Composting information pieces in the free newspapers?
- 147 Nov 21 2017 12:12 P I Due to the poor air quality( as a result of people burning green waste in their incinerators) of Masterton over the winter months, either green waste should be free to dump at the transfer station (where they just sell it back as compost anyway - a good example of charging us twice- good business on their behalf though)., or do kerb side pickups.  
garden waste collection would be great in Masterton to stop people constantly burning garden rubbish in town - if air pollution is something that needs to be addressed then surely this would be a great way to help this
- 148 Nov 21 2017 10:40 A I No
- 149 Nov 21 2017 09:32 A I No
- 150 Nov 21 2017 08:26 A I No
- 151 Nov 21 2017 06:16 A I No
- 152 Nov 20 2017 09:50 P I We use a garbage disposal unit to get rid of our waste.
- 153 Nov 20 2017 09:32 P I No
- 154 Nov 20 2017 07:44 P I No.
- 155 Nov 20 2017 03:50 P I no
- 156 Nov 20 2017 03:18 P I No
- 157 Nov 20 2017 02:21 P I No
- 158 Nov 20 2017 01:14 P I When you live in a small section in town it is hard to have room to have a compost section so having it collected would help.
- 159 Nov 20 2017 01:08 P I The advantages of composting is often a complete mystery for people and the advantages need to be clearly identified and sold to the ratepayers I think.  
Reduction of charges to dispose of organic waste would be helpful to people who are unable to set up home composting systems.  
Seeing as compost products can be sold then no charges should be made for the ingredients.
- 160 Nov 20 2017 11:52 A I I do not believe council should be trying to make a profit here as the charges only encourage dumping.
- 161 Nov 20 2017 11:25 A I no  
Educating the public about composting.
- 162 Nov 20 2017 05:55 A I Food waste bins would be good for food that shouldn't go in the compost bin.  
  
Rather than compost, it'd be better if there was teaching on how to avoid food waste e.g. how to use bread when it's a bit stale, how to use parts of veges people throw out. Also to try encourage business to pass on any food waste that's fit for human consumption so it can benefit the community  
Yes, plan meals ahead of time then buy what you need for them on your weekly shop. If you've bought too much for upcoming use preserve or freeze surplus before it gets past it's best.
- 163 Nov 19 2017 03:29 P I no
- 164 Nov 19 2017 10:48 A I no
- 165 Nov 19 2017 09:21 A I no  
Would like to see some form of green waste recycling made into compost with the ability of being able to purchase this by-product as Masterton previously provided.
- 166 Nov 18 2017 10:25 P I No
- 167 Nov 18 2017 09:08 P I Yes, encouraging local cafes to use a council provided organic waste collection.
- 168 Nov 18 2017 02:34 P I Meat is a problem to dispose of, any ideas?
- 169 Nov 18 2017 11:42 A I Worm farms to drop off food waste & swap for worm pee for gardens!
- 170 Nov 18 2017 10:20 A I No
- 171 Nov 17 2017 03:41 P I No
- 172 Nov 17 2017 03:02 P I no
- 173 Nov 17 2017 12:55 P I Building hugelkultur beds for trimmings and unwieldy (rotten) logs Bokashi . Worm farm.

- 174 Nov 17 2017 09:14 A| grass clippings only collections
- 175 Nov 17 2017 07:26 A| Community compost for a community garden drop off. Will need to be watched though.
- 176 Nov 16 2017 09:08 P| no
- 177 Nov 16 2017 06:26 P| We have a worm farm
- 178 Nov 16 2017 03:45 P| Worm farms for general use and then sell the "worm wee" at a reduced price for those who contribute to the worm farm?!
- 179 Nov 16 2017 03:07 P| Food & organic waste bins supplied to households/businesses for "recycling" into compost by contractors to CDC
- 180 Nov 16 2017 02:48 P| no
- 181 Nov 16 2017 11:23 A| Pigs lol and then donate the meat to needy families
- 182 Nov 16 2017 09:48 A| Cheap or free green waste wheelie bins per property
- 183 Nov 16 2017 07:37 A| find locals with pigs or chickens to feed it with through a neighbourly network
- 184 Nov 16 2017 07:28 A| No
- 185 Nov 16 2017 06:20 A| No
- 186 Nov 15 2017 01:45 P| No
- 187 Nov 15 2017 12:21 P| By giving free kerbside collection and turning it into compost and selling it back to users would benefit the community by zero waste and encourage gardening
- 188 Nov 15 2017 08:21 A| No
- 189 Nov 13 2017 08:59 P| No
- 190 Nov 13 2017 08:57 P| No
- 191 Nov 13 2017 08:54 P| No
- 192 Nov 13 2017 08:04 P| No
- 193 Nov 13 2017 07:54 P| No
- 194 Nov 13 2017 04:52 P| no
- 195 Nov 13 2017 08:30 A| A workshop on helping people use up leftovers so they don't end up as waste
- 196 Nov 13 2017 07:32 A| no
- 197 Nov 12 2017 08:49 P| Teaching people to not throw away so much food. Having at home compost worm farms
- 198 Nov 12 2017 02:34 P| Use bokashi  
We could increase the ratio of food waste to plastic by putting further pressure on supermarkets to reduce packaging. Plastic trays of green beans are unnecessary for example
- 199 Nov 12 2017 07:28 A| unnecessary for example
- 200 Nov 11 2017 09:25 P| give every property a small compost bin with instructions
- 201 Nov 11 2017 07:06 P| Nil  
A kerbside collection system would be a great idea!
- 202 Nov 11 2017 03:48 P| Also public meetings and/or information brochures/material available to residents to educate them about reducing waste to landfill.
- 203 Nov 11 2017 03:41 P| no
- 204 Nov 11 2017 03:24 P| No
- 205 Nov 11 2017 11:52 A| No
- 206 Nov 11 2017 08:21 A| No
- 207 Nov 10 2017 09:12 P| No
- 208 Nov 10 2017 09:05 P| I feed all my scraps to my chickens
- 209 Nov 10 2017 08:40 P| No
- 210 Nov 10 2017 08:00 P| Please encourage supermarkets in South Wairarapa not to wrap vegetables plastic!!!
- 211 Nov 10 2017 07:53 P| no
- 212 Nov 10 2017 07:28 P| Increase council owned land to create community gardens to feed the local community who are in financial need or living in care facilities
- 213 Nov 10 2017 02:35 P| Plan meals better then there is no waste. Or get a couple of chickens
- 214 Nov 10 2017 02:08 P| Fully support a workshop on effective composting

- Have compost bins available to purchase at Council at a discounted rate that once full can then be collected by council and turned into compost for sale to
- 215 Nov 10 2017 01:44 P I raise revenue for specific waste management goals
- 216 Nov 10 2017 01:38 P I Liquid fertiliser returns from food waste
- 217 Nov 10 2017 12:44 P I use it to compost community plots where people can plant veges and these can be used for food banks or those in need
- 218 Nov 10 2017 12:00 P I no
- 219 Nov 10 2017 10:06 A I Councils should partner with zero waste food programmes, such as food banks, WaiWaste, community fruit harvest, etc
- 220 Nov 10 2017 08:07 A I More education on why food composting etc is important, also education on why putting food waste down sinks and toilets is a bad idea.
- 221 Nov 10 2017 07:15 A I No
- 222 Nov 10 2017 12:38 A I It could be used collected to feed animals on farms, hens or other uses
- 223 Nov 09 2017 10:12 P I no
- 224 Nov 09 2017 08:57 P I No
- 225 Nov 09 2017 08:57 P I Ban plastic packaging
- 226 Nov 09 2017 08:15 P I No
- 227 Nov 09 2017 07:47 P I encourage a section on neighbourly for those who have organic waste (horse/sheep/poultry manure)
- 228 Nov 09 2017 06:31 P I No
- Yes. No charge to dump green waste.
- Subcontract to someone to turn tip green waste into compost etc.
- 229 Nov 09 2017 06:26 P I Outlaw rural burn offs - farmers not only save up rubbish to burn but invite others to bring their rubbish for burning.
- 230 Nov 09 2017 05:09 P I I do compost a small amount but most goes thru the waste disposal unit in the sink
- 231 Nov 09 2017 04:29 P I Support community gardens
- have a neighbourhood worm farm and sell the wee. people could bring their own container to fill cheaply. or sell cheap worm farms to families. Go to schools
- 232 Nov 09 2017 02:08 P I to explain to kids how good worms are.
- 233 Nov 09 2017 01:47 P I Having big communal gardens would be great, only pick what you need to use
- 234 Nov 09 2017 01:09 P I no
- 235 Nov 09 2017 12:12 P I Whatever you can do to encourage more people to do their own (or group) composting the better.
- Yes. I am collecting coffee grounds from Baltar Bar to use as compost. ALL restaurants and New World should be encouraged to compost their organic
- 236 Nov 09 2017 11:33 A I waste.
- 237 Nov 09 2017 11:10 A I How can council reduce rates ?
- 238 Nov 09 2017 10:55 A I Provide a facility for food waste at the transfer station.
- 239 Nov 09 2017 10:43 A I Encourage supermarkets to use recyclable meat trays and reduce excess packaging of all products
- 240 Nov 09 2017 10:11 A I no
- Encourage people to compost. perhaps sell organic waste bins that people leave on their property. A demo on how to use them properly.
- 241 Nov 09 2017 10:10 A I Be the first district to charge for plastic bags in supermarkets!!
- 242 Nov 09 2017 09:58 A I Talk to a piggery
- 243 Nov 09 2017 09:56 A I perhaps make this an option at the tip?
- 244 Nov 08 2017 10:28 P I Have a bin for it that's separate to plastic and general rubbish.
- 245 Nov 08 2017 08:54 P I no
- 246 Nov 08 2017 08:06 P I No I Fred mine to chickens
- 247 Nov 08 2017 05:50 P I No
- 248 Nov 08 2017 01:56 P I No
- 249 Nov 08 2017 12:48 P I No
- Worm farms as well. A wheelie bin for organic garden waste (as opposed to food waste) eg branches, hedge clippings etc which are hard to compost in
- 250 Nov 08 2017 12:31 A I domestic gardens because of size, room, unable to chop them up finely etc, would be fabulous.
- 251 Nov 07 2017 11:11 P I Have accesible collection points, open 24/7 which are free
- Ban insinkerators. Thy just send organic material down the sewer pipe and have to be removed at the sewage treatment plant. That's a waste of organic
- 252 Nov 07 2017 10:45 P I compost and a cost to treat the sewage.

Q7 Wairarapa Waste Minimisation Survey#ZeroWasteWairarapa  
Do you currently utilise council kerbside recycling?If yes, skip to question 9

Answer Choices	Responses	
Yes	81.48%	418
No	18.52%	95
<b>Answered</b>		<b>513</b>
<b>Skipped</b>		<b>6</b>

# Q8 Wairarapa Waste Minimisation Survey#ZeroWasteWairarapa

## If no, how do you recycle?

Answer Choices	Responses
I don't recycle	6.67%
Take it yourself to the Transfer Station	65.45%
Other (please specify)	27.88%
<b>Answered</b>	<b>165</b>
<b>Skipped</b>	<b>354</b>

Respondents	Response Date	Other (please specify)
1	Dec 06 2017 03:05	Recycle all as possible
2	Dec 06 2017 02:10	I take my recycling to Masterton as they take plastic bags and other plastics that SWDC do not. Have a recycling depot in each town that is not part of the tip, so recycling can be done at anytime. This works well in other countries.
3	Dec 04 2017 10:28	put it outside on rubbish day
4	Dec 04 2017 09:06	No curbside for rural properties
5	Dec 04 2017 06:54	If i wasn't using the kerb side I would take to transfer station myself. Would be good if i could take it at anytime of the day.
6	Dec 04 2017 06:03	na
7	Dec 04 2017 03:32	Rubbish bags
8	Dec 04 2017 12:11	We have a large scale operation at our Vineyard/Atarangi
9	Dec 02 2017 07:42	I picked yes and went to the next screen

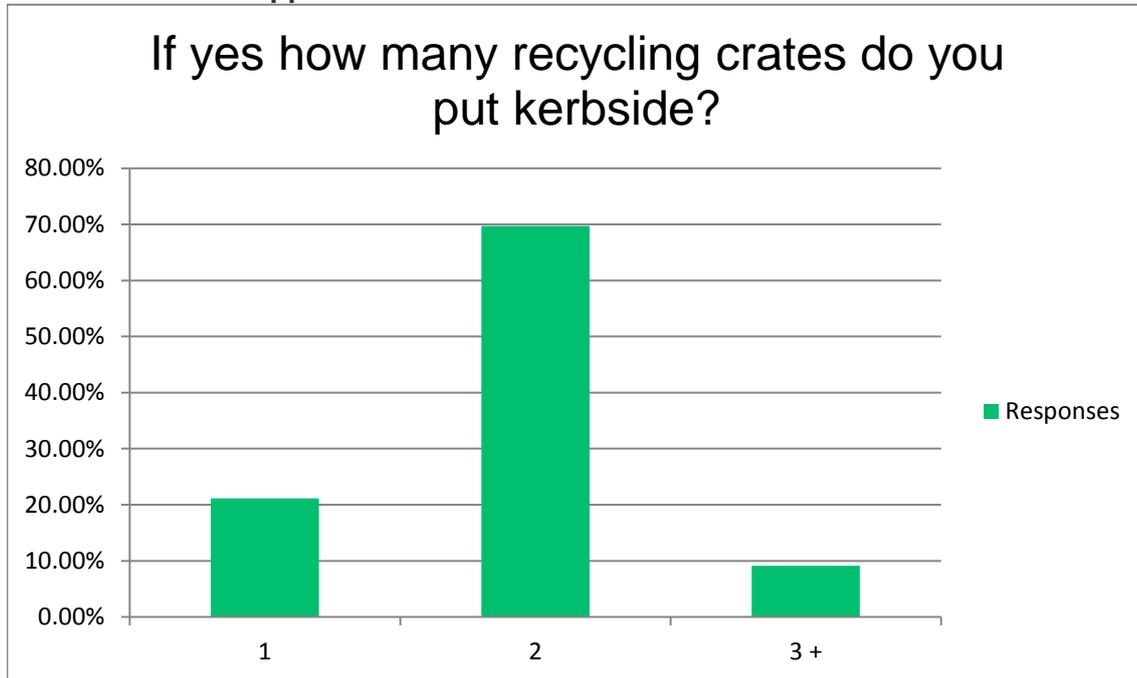

- 10 Dec 02 2017 10:00 I was not able to leave this question unanswered. Do you need help setting up surveys?  
N/a
- 11 Nov 30 2017 11:31
- 12 Nov 30 2017 10:26 I use the recycling bins provided by council.
- 13 Nov 29 2017 03:03 Already recycling
- 14 Nov 29 2017 10:06 yes
- 15 Nov 29 2017 09:27 Give to other people maybe they would like to use it.....
- 16 Nov 29 2017 08:26 I recycle with bins
- 17 Nov 28 2017 11:23 No
- 18 Nov 28 2017 10:28 I recycle
- 19 Nov 28 2017 08:10 We use curb side recycling
- 20 Nov 28 2017 07:49 N/A
- 21 Nov 28 2017 06:55 I use the bins at kerbsidr
- 22 Nov 26 2017 01:54 .
- 23 Nov 25 2017 07:36 with much trouble i take some to the tip .using more fuel and creating more pollution
- 24 Nov 24 2017 05:27 We love using the kerbside recycling
- 25 Nov 23 2017 04:04 Recycle trucks - rubbish trucks  
I use to take it to Transfer Station as no kerbside collection at my location. This is too time consuming
- 26 Nov 22 2017 07:33 and hard work
- 27 Nov 21 2017 06:16 Burn it
- 28 Nov 20 2017 02:21 Kerbside
- 29 Nov 19 2017 09:21 N/A
- 30 Nov 17 2017 10:39 Take to Wellington
- 31 Nov 17 2017 03:41 We don't get road side recycling
- 32 Nov 17 2017 12:16 Not available in our area- Ahiaruhe which is a real pain!
- 33 Nov 16 2017 11:52 Take it to Masterton recycling
- 34 Nov 13 2017 08:54 Bins provided
- 35 Nov 13 2017 07:54 Reuse or recycle bin
- 36 Nov 12 2017 02:34 We are rural so don't have that service
- 37 Nov 11 2017 02:18 1
- 38 Nov 10 2017 07:28 Na
- 39 Nov 10 2017 07:33 We use kerbside recycling for smaller items and take larger recycleable material to the transfer station.
- 40 Nov 09 2017 01:09 we use the kerbside service. it's great
- 41 Nov 09 2017 11:10 x
- 42 Nov 09 2017 10:11 i do
- 43 Nov 09 2017 10:10 i do recycle
- 44 Nov 08 2017 10:28 I recycle
- 45 Nov 08 2017 04:20 You guys

## Tabled 21

We don't have roadside and I'm angry. Look at other councils like golden bay. It has more town and roadside collections. We only live 12 kilometres from mushroom factory. It is not hard. Look at the  
46 Nov 07 2017 07:43 roadside collection at Tora.

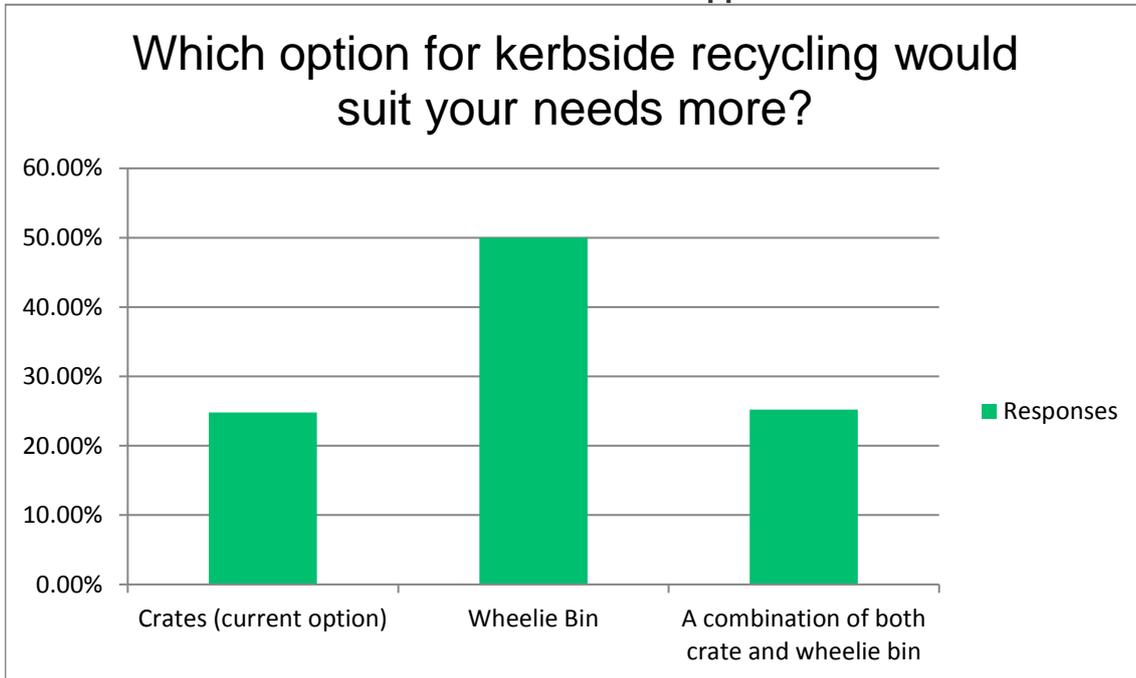

Q9 Wairarapa Waste Minimisation Survey#ZeroWasteWairarapa  
If yes how many recycling crates do you put kerbside?

# Q11 Wairarapa Waste Minimisation Survey#ZeroWasteWairarapa

## Do you have any ideas about kerbside recycling for the three Wairarapa Councils to consider?

Answered 274

Skipped 245

Respondents	Response Date	Responses
1	Dec 06 2017 02:10	I am rural so no collection is done.. Compost. rural pickup instead of farmers dumping or burning Wheelie bin for recycling except for glass with this in a crate
2	Dec 05 2017 10:28	
3	Dec 05 2017 03:20	A regular metal / electrical appliance recycling day to allow for the removal of other items that will otherwise be disposed of in a refuse bag by people who don't want to go to the transfer station
4	Dec 05 2017 08:40	'Free' community facility [bin] for garden waste and small household items [appliances, batteries, accessories, e-waste ]etc
5	Dec 05 2017 07:17	Rural recycling options could be explored Recycling crates are far too small for most house holds. The majority are full or over full which leads to people just throwing recyclable rubbish into landfill rubbish. Recycling crates should be upgraded to wheely bins
6	Dec 04 2017 10:40	
7	Dec 04 2017 10:28	no
8	Dec 04 2017 10:17	separate bins No, I have noticed more waster being jettisoned from cars on rural roads - TVs, cartons of booze bottles. I guess some people will always trash the planet. Q9 and Q10 were not relevant for me as I'm a rural resident and kerbside collection is irrelevant. I had to click the boxes to move on -
9	Dec 04 2017 09:40	please edit them as n/a. Thanks
10	Dec 04 2017 09:06	Need services for rural areas who are rate payers
11	Dec 04 2017 08:59	Garden waste collected and turned into compost and sold back to the public could bring in revenue
12	Dec 04 2017 08:42	Polystyrene as well
13	Dec 04 2017 08:37	Have kerbside pickup available in Norfolk Road
14	Dec 04 2017 06:54	Maybe four times a year a kerbside rehoming of things that are to good to dump.
15	Dec 04 2017 06:47	Bigger bins for plastic and bottles the one we have is too small
16	Dec 04 2017 06:42	No
17	Dec 04 2017 06:15	Introduce bins with lids to stop it all blowing around streets on windy days.
18	Dec 04 2017 06:03	no
19	Dec 04 2017 05:37	Wheelie bins would reduce the amount of blown rubbish
20	Dec 04 2017 05:31	I have had my green recycling stolen
21	Dec 04 2017 04:31	No
22	Dec 04 2017 04:20	Wheelie bins instead of crates and less frequently? Firtnightly instead of weekly?
23	Dec 04 2017 04:07	Wheely bins for waste, food/organics, recycling definitely need bigger bins than what is provided at the moment for a family of 5

- As we live in the rural area we do not have this opportunity given to us
- 24 Dec 04 2017 03:54  
Wish they would take bigger sized boxes if they are broken down. When we moved house from CHCH we had no idea where the recycling centre was. Its open funny hours and took us weeks to get rid of the boxes.
- 25 Dec 04 2017 03:40  
No
- 26 Dec 04 2017 03:32  
Need to prosecute those who refuse to recycle and just throw their recyclables out. Admit that's hard because Council can't enforce most bylaws so how about introducing a payment for recyclables scheme - like 10 cents a bottle or can etc. Needs Central Govt help because you'd need to tax the sellers to offset the 10 cent refund - But Local Government could push for it
- 27 Dec 04 2017 03:23  
I bag my plastics currently even with the plastic bag issue as the plastics can get blown around when windy. Paper is ok as I put the heavier bin with bottles on top. Some sort of lid might be nice or a separate plastics crate or box that can contain items.
- 28 Dec 04 2017 03:06  
29 Dec 04 2017 02:39 Bigger bins
- 30 Dec 04 2017 02:34 rural
- 31 Dec 04 2017 02:29 Love rural and take it into town. Maybe small drop off points in rural communities. I drive 25km to recycle Recycling facilities for old batteries and collection of recyclable plastic bags and wrapping. This was catered for in Kapiti from where I have just moved
- 32 Dec 04 2017 02:28  
33 Dec 04 2017 12:20 Wheelie bins work in other places we need to make sure they don't blow over here in Fstn
- 34 Dec 04 2017 12:02 provide replacement bins when yours breaks
- 35 Dec 04 2017 09:18 Not strictly kerbside, but perhaps consider situating large recycling bins on the village/town outskirts. wheelie bins for recycling, the towns look terrible on rubbish day when it is blowing as inevitably the bins end up blown over and there is rubbish all over town.
- 36 Dec 04 2017 08:30  
37 Dec 03 2017 09:37 No
- Be a good example and provide free 3 wheelie bins like we had in aussie. The brown top, weekly removal (General waste), green top (Garden waste) and Blue top (Recycling, a combo of your green and brown bins) alternate weeks. The current system makes mess, dogs in bags and the green and brown bin contents blow down the road in winds. People will be more inclined to recycle and
- 38 Dec 02 2017 07:42 remove green waste. It can only help with Mastertons 'beautiful' town image :)
- 39 Dec 02 2017 03:58 The crates are not big enough for our family of 3. Wheelie bins would be awesome.
- 40 Dec 02 2017 01:29 I think so...ban the bags (plastic)  
It would be a good idea maybe once every 6 months to put out unwanted furniture etc., as they do in Auckland, most get taken by passing people
- 41 Dec 02 2017 10:27  
Yes, we should be able to recycle batteries and e-waste at least 3 or four times per year. You could alternate weeks for paper and other.
- 42 Dec 02 2017 10:00  
My thoughts are that if you allow wheelie bins you are giving people are larger vessel and the potential to store/make more waste that needs to be sorted. Two crates if packed well gives our family/property enough capacity per week.
- 43 Dec 01 2017 10:15  
44 Dec 01 2017 09:56 No
- Give rates rebates to those who recycle or who only use the service less frequently. I put out one bin every two weeks (one person household) but pay full cost to subsidise heavier users like families (volume and frequency).
- 45 Dec 01 2017 09:21

- 46 Nov 30 2017 04:39 Some Councils offer nets for purchase which cover the bins to prevent plastics/paper blowing all over the place. I believe people would buy these if available.
- 47 Nov 30 2017 12:20 The kerbside collection containers need to have water proof and wind proof lids. The collectors need to be more gentle with them too.
- 48 Nov 30 2017 11:31 Wheelie bins are more robust and suited to high winds - recycling bins tend to get blown about and can potentially cause road traffic accidents. Also, wheelie bins are easily moved - I live some distance from where the kerbside collection happens and recycling bins can be quite heavy and difficult to carry.
- 49 Nov 30 2017 10:33 Wheely Bins would not blow away as much
- 50 Nov 30 2017 10:26 Have a non organic recycling day where people could take items to a central point to be collected by others etc. Council could provide a space for household items such as furniture, bikes etc could be recycled within the community.
- 51 Nov 30 2017 10:22 wheelie bins better option for windy days
- 52 Nov 30 2017 10:15 If all recyclables were put into one wheelybin this would make it easier, however I appreciate there would be the need to a sorting system at the other end which would add to cost, and there would be the temptation to just put other rubbish in the recycling bin
- 53 Nov 30 2017 09:58 More people need to do it so more publicity about how it works and what can and can't go into bins would be great. Education through schools would help too as parents would get pressure from their children to recycle.
- 54 Nov 29 2017 11:49 You have to make it easier for people to recycle than it is for them to just throw it in the rubbish. At the moment it isn't clear exactly what can be recycled and what can't. eg. do you take the top off the plastic milk bottle and put the two items in different places. Charge people for not recycling. Make it harder to throw in the rubbish than recycling. Don't charge to dump green waste and then charge again for getting compost. Encourage people to recycle. Have recycling stations everywhere. Employ "hard to employ" people to go through rubbish and take out recyclables rather than throwing whole fadge into the landfill. Encourage the locals to start up businesses which use the waste products. recycling bins with lids stop the rubbish blowing around and also minimise the smell.
- 55 Nov 29 2017 10:36 nope
- 56 Nov 29 2017 10:13 3 bins.....contact Chch City council!
- 57 Nov 29 2017 07:15 Biggest impediment is wind- bins keep blowing away or being stolen. Would encourage wider variety able to be recycled. Also I use plastic and glass jars for storage in my pantry. If I could get nice big jars from others- especially large ones from cafes etc I'd be very happy to reuse these
- 58 Nov 29 2017 05:26 We should recycle all materials we can that's available. We don't recycle polystyrene or tetra packs here but it can be recycled in NZ. Recently New World/Colgate had a promotion to recycle toothbrushes & toothpaste, the council should get behind things like this. This should have been promoted to all shops in town but you hardly saw anything except on Facebook about this. Join forces with the Enviro Friendly Wairarapa. Stop delivering our phone books wrapped in plastic bags too!
- 59 Nov 29 2017 04:12 There should be big waste bins for paper-plastic(all plastic!!!) and glass-each household should be responsible for their own waste and also to get it to the bin or have them available.
- 60 Nov 29 2017 04:06 No
- 61 Nov 29 2017 03:03 3 wheelie bins 1. General waste 2. Recycling 3. Greenwaste
- 62 Nov 29 2017 02:29 Make sure the bins and crates are of a decent size!
- 63 Nov 29 2017 01:06 I would love a wheelie bin for cardboard and paper and plastic and the crate fro class and cans
- 64 Nov 29 2017 12:01 The current bins are too small and recycling often gets blown away. A lidded wheelie bin would be much better
- 65 Nov 29 2017 11:19 Just how do we stop the recycling from being blown down the street on windy days ?

- 66 Nov 29 2017 10:24 No
- 67 Nov 29 2017 10:06 stay as is no more costs to taxpayers!!
- 68 Nov 29 2017 09:34 Recyclables should be put into separate wheelie bin to the waste rubbish ones
- 69 Nov 29 2017 09:27 Get us 3 wheelies we short it out-
- 70 Nov 29 2017 09:23 Unfortunately lots of people would put normal rubbish in the bin .. it would be great if they collected soft plastics too  
changing to wheely bins makes a lot of sense ,can fit more into them and you wouldn't get rubbish blowing out of them on windy
- 71 Nov 29 2017 09:20 days like you do with the crates  
Coming from Christchurch, a wheelie bin full of recycling is a lot simpler to work, and when that bin is bigger than a waste bin, more
- 72 Nov 29 2017 09:19 ends up being recycled  
I live in Kapiti, but come from Masterton and own a house in Masterton. In Kapiti, we have a green crate for glass, a 250L wheelie for
- 73 Nov 29 2017 09:13 paper/plastic/cans and a wheelie for rubbish. My service provider charges me \$5/wk for all these bins.
- 74 Nov 29 2017 08:26 Be able to recycle all types of plastic.
- 75 Nov 29 2017 07:48 Somehow need to stop the rubbish blowing about the streets on a windy day from the crates.
- 76 Nov 29 2017 06:58 Need wheelie bins.
- 77 Nov 29 2017 06:46 Different colours to sort more effectively
- 78 Nov 29 2017 05:55 More greenwaste collections  
Free replacement of damaged recycle bins would be appreciated. When emptied, they are thrown on the footpath and then don't last
- 79 Nov 29 2017 02:05 long.
- 80 Nov 29 2017 01:00 Please get a wheelie bin for everything recyclible
- 81 Nov 28 2017 11:56 Not at moment
- 82 Nov 28 2017 11:23 Wheelie bins have better capacity and ha info a lid keeps everything tidy on windy or rainy days.
- 83 Nov 28 2017 10:39 No  
Seperate wheelie bins for compost, rubbish and recycling. In the UK they use a wheelie bin with a separate/moveable tray in the top,
- 84 Nov 28 2017 10:32 you put the paper in there and everything else in the bottom of the wheelie bin. Worked very well.
- 85 Nov 28 2017 10:28 Do it like Christchurch -it's an excellent system  
It's so much better to reduce, reuse and recycle than to fill our landfill with food waste and recyclables that we then truck out of town.
- 86 Nov 28 2017 10:05 We are a responsible town and we want to be the best town! We want to have a better system and also save money on tip fees.
- 87 Nov 28 2017 10:03 No
- 88 Nov 28 2017 09:59 Encourage putting out fewer blue bags. Without food waste the bag wont smell. Large wheelie bins tend to discourage recycling.
- 89 Nov 28 2017 09:19 Wheelie bins much easier than crates for older person. Also need my greens bin emptied fortnightly. I have a large garden  
Plastic and metal are the only things that go off our property but we have trouble with larger woody branches etc that don't compost.
- 90 Nov 28 2017 09:19 A wheelie bin would help for this.  
Three wheelie bins per household. Green waste, recycling and rubbish. Collection fortnightly. Crates are hopeless on a windy day  
and too small. Rubbish bags get ripped open. Also wheelie bins are easier for many to get down the driveway than carrying a crate
- 91 Nov 28 2017 09:09 down.  
How about either annually or 6 monthly have a kerbside collection of items that people can't get rid of. Many people don't have
- 92 Nov 28 2017 08:32 access to trailers nor the funds to pay for a skip to get rid of things like old chairs, beds etc.
- 93 Nov 28 2017 08:10 A wheelie bin would be great as I never have enough room in my crates
- 94 Nov 28 2017 08:06 No

- Wheelie bins for recycling would be a fantastic option, even if they were small. Crates are fine but on windy days they have no hope in keeping lightweight plastics in them, I'm forever picking up other peoples recycling that's blown around kerbside because not many others do! It looks terrible.
- 95 Nov 28 2017 07:55 others do! It looks terrible.
- 96 Nov 28 2017 07:50 Weekly collection is great. Crates are frustrating when it's windy.  
A wheelie bin would help to prevent recycling from blowing out of the bins when it's windy. The current green bin is also very small and I struggle to fit all of our household and workplace plastic recycling into the one green bin.
- 97 Nov 28 2017 07:49 and I struggle to fit all of our household and workplace plastic recycling into the one green bin.
- 98 Nov 28 2017 06:57 Free collection ... like Auckland all house hold stuff put in the kerbside for free collection
- 99 Nov 28 2017 06:55 No
- 100 Nov 28 2017 06:31 Being able to Put paper plastic and glass together into a wheelie bin would make it more convenient for the public.  
Wheelie bins for recycling would be a lot better. Especially in windy conditions the bins make a huge mess and are dangerous down high street
- 101 Nov 28 2017 06:00 high street
- 102 Nov 28 2017 05:57 No but a wheelie bin would be ideal
- 103 Nov 28 2017 05:54 No, i think wheeli bin is the easiet and tidy option
- 104 Nov 28 2017 05:36 I would love to be able to use wheelie bins for recycling that gets collected say once a month instead of crates every week.
- 105 Nov 28 2017 05:27 Rural pick up,I can get a wheely bin picked up but not recycling
- It would be easier if it was more clearer on what we can recycle and what we cant. Masterton definatly needs wheelie bins and im suck of dogs chewing the bags and taking containers out of crates ...Messy day is rubbish and recycling day.
- 106 Nov 28 2017 05:18 suck of dogs chewing the bags and taking containers out of crates ...Messy day is rubbish and recycling day.
- 107 Nov 28 2017 05:12 name them because people steal them !
- 108 Nov 28 2017 05:11 Wheely bins would stop the amount of plastic that blows around on a windy recycling day
- 109 Nov 28 2017 01:55 Encourage people not to put it out on windy days!
- 110 Nov 28 2017 08:39 Tricky, it's all in reducing the use of plastic in the first place
- 111 Nov 26 2017 03:37 Choice of wheelie bin size
- 112 Nov 26 2017 01:54 no
- 113 Nov 26 2017 07:33 Bins within the town not just kerbside. Sending each household a recycling guide
- 114 Nov 25 2017 10:03 Soft plastic collection  
We need to stop the rubbish / recycling at the source. New World Carterton insist cutting up rhubarb putting it on plastic trays and wrapping it in gladwrap. Totally unnecessary.
- 115 Nov 25 2017 09:50 wrapping it in gladwrap. Totally unnecessary.
- 116 Nov 25 2017 12:48 Maybe wheelie bins would stop recycling blowing everywhere on windy days?  
use low trucks so the collectors don't get a face full when putting bins up on truck.  
have 24/7 access with suitable punishment for those that don't use correct bags .eg 30 demerit points on license..50 dollar fine .if you lie the fine reverts to 400 dollar.
- 117 Nov 25 2017 07:36 lie the fine reverts to 400 dollar.
- 118 Nov 24 2017 05:55 If people knew what happens to their recycling they may make more of an effort. A lot of it will just end up as land fill.  
The ability to recycle old house hold appliances (ie mayb a once a year opportunity to put out old appliances/TVs/computes etc to be reycled)
- 119 Nov 24 2017 05:27 reycled)  
I like the idea of splitting waste in the home rather than putting it all into a wheelie bin then sending it to be processed, although a wheelie bin may offer a fortnightly collection.
- 120 Nov 24 2017 01:24 wheelie bin may offer a fortnightly collection.
- 121 Nov 24 2017 11:34 no happy with present system
- 122 Nov 24 2017 10:30 More information regarding what can be recycled. A yearly update/reminder
- 123 Nov 24 2017 07:30 Offer it to all rural residents by having collection sites at corners etc
- 124 Nov 23 2017 08:43 no

- 125 Nov 23 2017 05:00 Co-ordinate planning and systems under one, single organised District Council
- 126 Nov 23 2017 04:04 No
- 127 Nov 22 2017 11:18 Make it simply and easy use. Not just for users, but the people taking it away.
- 128 Nov 22 2017 09:37 Something with a lid would be good but not too big - people will just fill it up.
- 129 Nov 22 2017 09:02 No  
I'm not sure how much plastic is actually being recycled in the wairarapa area, the wider range the better!
- Not kerbside related but I would dearly love to see the soft plastic recycling bins available in Wairarapa as they are in Wellington etc.
- 130 Nov 22 2017 08:58 Far too much soft plastic is put into landfill!  
Be specific about what you will and won't accept - e.g does stuff that's put in the recycling bin not washed properly just end up in the
- 131 Nov 22 2017 08:52 rubbish anyway?
- 132 Nov 22 2017 08:43 No
- 133 Nov 22 2017 07:37 No
- 134 Nov 22 2017 07:33 YES - please extend the collection area to include some rural areas like Paierau Road  
perhaps more crates per property,
- 135 Nov 22 2017 06:49 Wheelie bins need to be for individual products only, like paper,garden,bottle,plastic& cans recycle
- 136 Nov 22 2017 05:10 Soft plastic recycling, textiles, everything that could be recycled.
- 137 Nov 22 2017 05:07 able to recycle tetrapak and more plastic
- 138 Nov 22 2017 04:18 no  
The bins need to be sturdier, any windy day and all the crates blow away, you have to spend all day chasing the recycling up the
- 139 Nov 22 2017 02:55 road as the truck doesn't come until late afternoon
- 140 Nov 22 2017 02:47 Wheelie bins for paper and cardboard would keep rubbish from blowing around  
Wheelie bins would certainly help on windy days but feel that there should be 2 one for paper/cardboard and one for tins, bottles,
- 141 Nov 22 2017 02:12 plastic.  
Collection day in Martinborough should be changed to Monday - a lot of weekenders and holiday makers leave their recycling bins
- 142 Nov 22 2017 01:19 out from Monday, and means more change for rubbish to be scattered around the town.
- 143 Nov 22 2017 10:53 Yes - Consider a regular Green waste collection
- 144 Nov 21 2017 10:11 Individuals take greater responsibility for their waste streams.
- 145 Nov 21 2017 07:06 Have more recycle stations around town
- 146 Nov 21 2017 03:10 no
- 147 Nov 21 2017 01:43 compost/grass bins
- 148 Nov 21 2017 10:40 Increase the range of waste products that can be recycled eg Tetra paks
- 149 Nov 21 2017 10:33 service rural areas, only needs to be once per month  
increase the range of recyclable products eg: tetra packs and start collecting garden waste to stop people burning rubbish and
- 150 Nov 21 2017 09:32 protect our air quality
- 151 Nov 21 2017 08:26 No
- 152 Nov 21 2017 06:16 Get rid of wheely bins
- 153 Nov 20 2017 09:50 Some form of lid for recycling bins for windy days.
- 154 Nov 20 2017 09:32 No  
If wheelie bin recycling was still collected weekly I would strongly support recycling wheelie bins been introduced. I currently use  
three recycling crates per week despite it been against the rules as that's how much recycling our household has each week. So yes
- 155 Nov 20 2017 07:44 please to wheelie bins for recycling but still do collect them each week please.

- 156 Nov 20 2017 03:50 no
- 157 Nov 20 2017 03:18 More recycling
- 158 Nov 20 2017 02:21 Have better recycling bins
- 159 Nov 20 2017 01:14 Sometimes paper blows away so be better not in the crate. Plastic etc seem to be fine in there.
- 160 Nov 20 2017 01:09 I suggest a wheelie bin to keep it dry or we have a bin for each thing eg. glass, tins etc
- 161 Nov 20 2017 01:08 Stress the reduce option rather than saying recycling is the go to option and as such educate us all about how to reduce.  
There will only be one council shortly so that is a foolish question. The system would need to be the same throughout the combined
- 162 Nov 20 2017 11:52 district.
- 163 Nov 20 2017 11:48 wheely bins for recycling, more stable, don't fill with rain water, don't blow away.
- 164 Nov 20 2017 11:25 include plastic bags in kerbside recycling  
they should all have the same - 3 wheelie bins 1 for rubbish, 1 for recycling and 1 for garden waste. Rubbish on a weekly pick up
- 165 Nov 20 2017 08:37 cycle and the other two on a fortnightly cycle.  
Closed bins so items dont blow out. Bigger bins.
- 166 Nov 19 2017 06:46 Separate containers for glass/tins  
people education is the main thing, starting at the school levels because allot of parents are too lazy lets face it. Have a discounted
- 167 Nov 19 2017 05:05 system for those who take the time to sort there rubbish properly. Discount vouchers to the tip?????  
It would be great if green waste could be a kerbside option too. Also if soft plastics could be recycled, either via kerbside or the bins
- 168 Nov 19 2017 03:29 in supermarkets that some bigger cities have
- 169 Nov 19 2017 09:21 no
- 170 Nov 18 2017 10:25 Provision of a wheelie bin for organic green waste collection weekly or fort nightly.  
Most households do not have large quantities of recycling, cleaning wheelie bins could be a problem. Have options for a wheelie bin or current small bin.
- 171 Nov 18 2017 02:34 Maybe a large wheelie bin with 2-3 separate storage areas? A hole in the bottom so can be hosed out?  
Paper to be loose rather than in a plastic bag where possible!  
SOFT PLASTICS RECYCLING!! We dont have anywhere to drop off yet in area (havent found any), this reduces your rubbish bag
- 172 Nov 18 2017 11:42 waste by 1/2!
- 173 Nov 17 2017 03:41 To have kerbside recycling on Paierau Road  
  
Information available for really detailed levels of acceptability is different types of recycling. I know the general message needs to be kept quite simple, but it would be great if more detailed info was more easily available. One example could be the training given to
- 174 Nov 17 2017 12:55 the manual sorters to be really accessible. Also see Auckland's database of what can and can't be recycled.
- 175 Nov 17 2017 09:14 annual non organic collection  
Many rural ratepayers pay for kerbside collection when they buy rubbish bags, which of course they don't use. Can rural ratepayers
- 176 Nov 17 2017 08:38 get a discount on their bags?
- 177 Nov 17 2017 07:26 More education about what can be recycled. Perhaps something printed on recycling bins so it's clear  
wheelie bin for cans and bottles but why not collect metals as well i.e old metal, copper, alloys, scrap etc which i collect and
- 178 Nov 16 2017 09:08 eventually take to a scrap metal place on bentley st.
- 179 Nov 16 2017 06:26 Existing OK  
Bigger recycling bins would be great (like a small wheelie bin) - we had this in Auckland and it was fantastic - also stopped the
- 180 Nov 16 2017 03:45 recycling blowing all over the place when windy!
- 181 Nov 16 2017 03:07 Seems to work well - useful to have lids for very windy weather

- 182 Nov 16 2017 02:48 no
- 183 Nov 16 2017 02:24 On windy days the paper often gets spread down the road, and the rubbish collectors do t pick it up, so it just stays as litter.  
More education around what you can and can't put out. More options. Can you currently put out clothig, other household bric a brac,
- 184 Nov 16 2017 11:23 books, plastic bags etc  
How about an inorganic collection once a month so people can put out any unwanted furniture etc thats in good condition for people to take free of charge. Anything left over to be taken back into property by the owners. This works well in other cities and helps the
- 185 Nov 16 2017 09:48 poor.
- 186 Nov 16 2017 07:37 covers so that on windy days its not blown all over the street.
- 187 Nov 16 2017 06:20 No
- 188 Nov 15 2017 01:45 Recycling receptacles need to be robust and withstand Wairarapa winds. Plastic Crates are not suitable.
- 189 Nov 15 2017 12:21 wheelie bin collection every 2 weeks for green waste and food waste composting
- 190 Nov 15 2017 08:21 The use.of wheelie bins please! !!!!
- 191 Nov 14 2017 08:49 Better information about what isn't acceptable
- 192 Nov 14 2017 05:24 It needs to be easy and effective. At present the collectors arrive in a timely manner and the pick up is consistent which is good.
- 193 Nov 14 2017 08:04 Auckland. They have a fantastic free system.
- 194 Nov 13 2017 10:01 have a comprehensive list of what is able to be recycled,and make sure the it is updated .
- 195 Nov 13 2017 08:59 No
- 196 Nov 13 2017 08:58 collection of good unwanted goods eg beds, bikes etc
- 197 Nov 13 2017 08:57 No
- 198 Nov 13 2017 08:54 Free wheely bin service  
More than 2 crates per household. We got told when we moved here that we weren't allowed another green crate. Sometimes people
- 199 Nov 13 2017 08:29 have a lot to recycle e.g after a party
- 200 Nov 13 2017 07:54 Wheelie bins to stop the rubbish blowing everywhere
- 201 Nov 13 2017 04:59 need a system that doesnt involve the crates and contents getting blown all over Martinborough on a windy day  
My only quibble with the crates is on windy days when the rest of the neighborhood's light recycling ends up in my garden. Maybe
- 202 Nov 13 2017 10:42 crates with lids?
- 203 Nov 12 2017 07:28 Single bin recycling would be great
- 204 Nov 11 2017 09:25 come earlier in the summer as sometimes you go past some bags and they pong to high heaven  
I think residents need to learn more about what they can and can't recycle, perhaps listed on the council website or Facebook with
- 205 Nov 11 2017 08:51 examples and how we can reduce our waste
- 206 Nov 11 2017 07:06 Nil  
More clear information to ratepayers about proper ways to prepare recyclables for collection e.g cleaning/squashing plastics, removal of lids  
(or not?); not putting non-recyclables in the recycle bins etc.  
Perhaps making it a legal requirement for residents to have a system to separate their recyclables. I've oticed some who use wheely bins put everything in together, despite the fact that council recycling bins are collected in their street.
- 207 Nov 11 2017 03:48 Have recycling bins in public places alongside or at least somewhere near the waste bins.
- 208 Nov 11 2017 02:18 240l bins  
Wheelie bins for cardboard, paper etc and seperate ones for tins. Lided bins will save recycling from being blown everywhere on
- 209 Nov 11 2017 01:05 windy days.

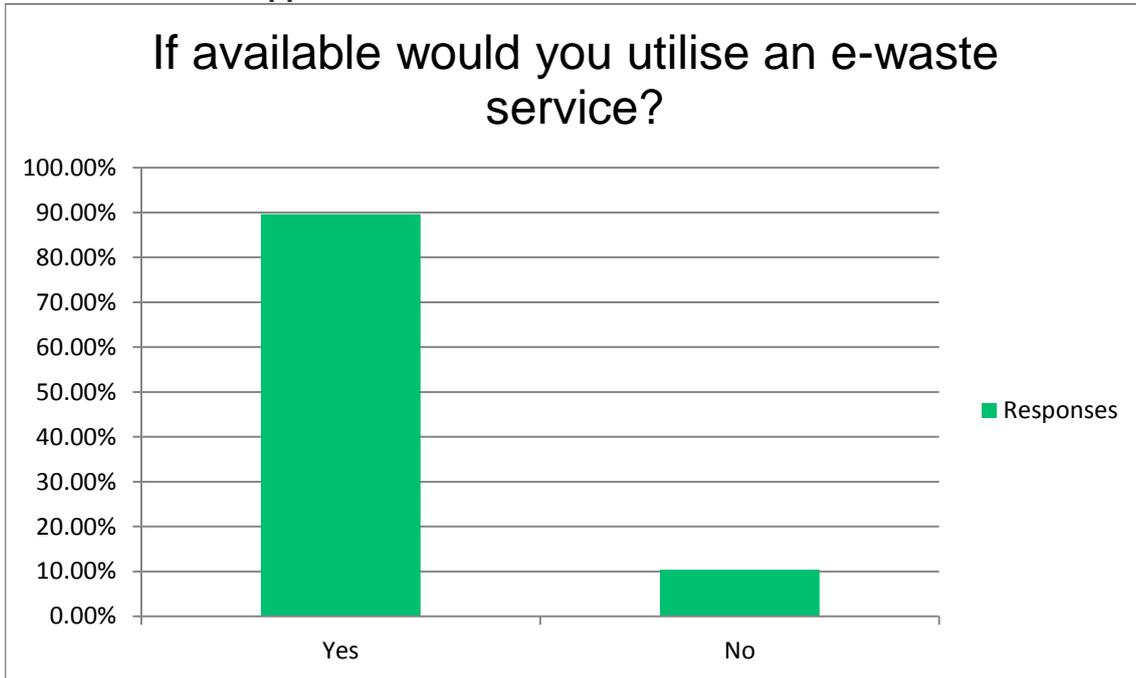

- 210 Nov 11 2017 11:52 Engage in soft plastic recycling and recycling other things like uht containers etc.  
The crates are too light and frequently blow over in Martinborough allowing all that's contained within to blow down the streets
- 211 Nov 11 2017 10:33 causing a major mess on rubbish day.
- 212 Nov 11 2017 08:21 Taking a wider range of materials would be great. Eg polystyrene, plastic bags
- 213 Nov 11 2017 07:55 I note that I can't fit all my recycling in the 2 crates. So I would recycle more if there was a wheelie bin  
Can still use a crate for bottles, cans, tins. But a wheelie bin would be much better for paper/cardboard and plastics that may blow
- 214 Nov 11 2017 12:38 around  
A wheelie bin would be far better for windy days. I don't put my recycling out when its too windy, but lots of people do and it blows all
- 215 Nov 10 2017 09:19 over the town.
- 216 Nov 10 2017 09:12 No
- 217 Nov 10 2017 09:05 Wheelie bins would be tidier and potentially encourage more recycling
- 218 Nov 10 2017 08:36 Wheelie bins would be great, would fit more and be better on windy days. This week the recycling was everywhere  
I have just moved from Rotorua and we had a large wheelie bin for weekly rubbish collection, a large wheelie bin and a small
- 219 Nov 10 2017 08:34 container for glass which was collected fortnightly. This work well.
- 220 Nov 10 2017 08:00 Find a way to stop bins/recycling blowing away?
- 221 Nov 10 2017 07:53 no  
Wheelie bins would be great as with the crates presently rubbish is always all over the road sides. Its cleaner and tidier, also bigger
- 222 Nov 10 2017 07:46 so more space as sometimes more crates are needed.
- 223 Nov 10 2017 07:28 Recycling is be extended to clothing  
  
Recently recyclable plastic wrappers tied in a recyclable plastic bag were left behind by the truck on our route with stickers saying it was household rubbish which wasn't correct. There were no food contaminated or unsuitable plastics in the bag. I can only presume it was because they were tied together in a bag to prevent the wind blowing them around the area. This is discouraging participation from some in our area who promptly announced they weren't going to take them to the Dalefield Rd facility but just put them in their rubbish bag! It would be better to state precisely what the problem was and how the recyclers expect recycling to be presented, i.e. if
- 224 Nov 10 2017 02:43 they don't want all plastic wrappers bagged then say so.  
Is it environmentally more sensible to provide kerbside recycling for people out of the town than for us individually to drive to the
- 225 Nov 10 2017 02:08 recycling centre?  
Having a choice of wheely bin or crate would be nice - or the ability to use both so one could put the heavier glass in the crate and
- 226 Nov 10 2017 01:44 the light weight plastics/cardboard in the wheelybin preventing them from being blown away.  
install recycling bins next to public rubbish bins around town so that people can place cans and bottles into them rather than end up
- 227 Nov 10 2017 12:44 in the rubbish  
There has been a huge increase of rubbish on our roads. More and more people are dumping rubbish in bags in drains in country areas, or throwing rubbish. I think more anti-littering awareness. Also a 'drop off' station nearer town for tourists to drop their rubbish
- 228 Nov 10 2017 12:00 too.  
To be honest, I rarely put recycling out in Featherston as they don't pick up until the wind picks up. Therefore I usually bring the
- 229 Nov 10 2017 10:06 crates to the transfer station on the weekend. Wind is a big problem.  
Household items/ whiteware /electrical recycling during the year. Stops people from dumping them illegally.
- 230 Nov 10 2017 09:33 A recycling bin for soft plastics...ie plastic bags, clean plastic wrapping, bubble wrap etc, like what Countdown has.  
Something that has a lid and that has less chance of blowing the contents away in the wind and/or stops animals sampling the items
- 231 Nov 10 2017 09:07 ....

- 232 Nov 10 2017 08:07 More education, perhaps through social media on the best ways to recycle (eg not bagging things, empty plastic bottles etc) to optimise what is being put out already.  
We need a better solution than open crates because the wind results in large amounts of material being blown away. Most of the blown material appears to be plastic which will be ending up in waterways and the sea (and otherwise persisting in the environment). A wind proof container would be good. If it is wheelie bins, they might need to have weighted bases or secured lids so they aren't spilled by the wind.
- 233 Nov 10 2017 07:33 wish we had soft plastics recycling, and a dump shop!  
Wind and weather in particular wind is problematic for recycling sturdier containers needed for putting items in so they don't blow all around the place...  
Also option to put out courier and nz post bags to go to appropriate place for further use!!! A HUGE INCREASE IN ONLINE PURCHASING HAS INCREASED THIS!!!
- 235 Nov 10 2017 12:38 Courier/post bags need to factored into the huge waste problem in NZ!!!! Thanks
- 236 Nov 09 2017 08:57 I think we should have regular e-waste recycling days.
- 237 Nov 09 2017 08:57 Educate people better in recycling  
Soft plastic recycling.
- 238 Nov 09 2017 08:38 Almost all of our 'rubbish' is made up of this.
- 239 Nov 09 2017 08:15 A lid that could clip onto to current bins for windy days.
- 240 Nov 09 2017 06:31 We want to use this service but it is not offered rurally even though the recycle van passes our road and we pay rates for it.  
Provide crate nets for windy days
- 241 Nov 09 2017 06:26
- 242 Nov 09 2017 05:09 The green rubbish system is diabolical. It needs to be once a month on a set day.  
I don't like how the wind causes a lot of people's recycling to be blown around the streets. It would be good if a solution could be found to this.
- 243 Nov 09 2017 04:35
- 244 Nov 09 2017 03:27 The wind in Featherston can spread recycling across town. It needs to have a clear instruction sheet with pictures.
- 245 Nov 09 2017 02:35 batteries, paint and other chemical products: maybe 1x per month/bi-monthly
- 246 Nov 09 2017 02:08 supplying wheelie bins (present bins heavy for the elderly) Yellow top for household waste and green for garden. As in Qld Aus.  
A small wheelie bin would be great as yesterday it was so windy I had no recycling in my bin and neither did any of my neighbors so it blew elsewhere defeating the purpose
- 247 Nov 09 2017 01:47
- 248 Nov 09 2017 01:09 no  
I know they are problematic to police and keep clean, but some 24/7 public recycling stations (skips type bins for glass, cans, plastics).
- 249 Nov 09 2017 12:12  
The crates are not convenient. The material is easily blown around. It would be helpful if people could provide THEIR OWN recepticle. (Wheelie bin, crate, etc.) Council could provide sticker labels so the waste companies know to pick them up. It's a cheaper option for the council, it would be convenient for householders.
- 250 Nov 09 2017 11:33
- 251 Nov 09 2017 11:32 Perhaps collection of garden waste, in wheelie bins, on a fortnightly basis? It could be user pays?
- 252 Nov 09 2017 11:10 Any way that will help to reduce rates  
No - it appears to be working well.
- 253 Nov 09 2017 10:55 Could have an "anything" day 2 or 3 times a year - we used to have at least one but i'm not aware that it exists now.
- 254 Nov 09 2017 10:43 We find that bottles/cans and plastic only need collecting fortnightly .

- 255 Nov 09 2017 10:19 Wheely bins would be better as a lot of the recycling doesn't fit in the crates and if it's windy gets blown around a lot.
- 256 Nov 09 2017 10:11 no  
provide small bins x 3 - 1 for glass (collected monthly) 1 for cardboard/plastic (collected fortnightly) 1 for organic waste (alternate
- 257 Nov 09 2017 10:10 fortnight
- 258 Nov 09 2017 10:09 Wheelie bin for all rubbish except glass can be put in crate  
It would be good to have somewhere more local to recycle. We live in Gladstone and currently use the Masterton set up as it's more
- 259 Nov 09 2017 09:56 convenient.  
Have them with a peg like tent peg to hold them into the grass and have a lid that latches on. The current model gets blown all down
- 260 Nov 08 2017 10:28 the street
- 261 Nov 08 2017 08:54 no
- 262 Nov 08 2017 08:06 Include rural we pay rates to
- 263 Nov 08 2017 05:50 No
- 264 Nov 08 2017 05:09 Bins would be much easier to use and the recycling wouldn't blow around the street. Most rubbish days the street look terrible
- 265 Nov 08 2017 04:48 The green bins are too small for plastics etc, Brown are too big for paper etc, that's what we find anyway
- 266 Nov 08 2017 01:56 no  
To recycle more things and not be so picky. If there is extra recycling at times and it's all stacked nicely just take it rather than leaving
- 267 Nov 08 2017 01:36 it behind.
- 268 Nov 08 2017 12:48 Bigger crates. Spillage done by waste collectors picked up not left lying in street as it is presently  
Yes. I only have a small car so when it comes to huge items (like my old refrigerator), I have no way to get that to the transfer station without hiring someone, which is expensive for someone like me on a low wage. Wouldn't it be possible to have one day a year
- 269 Nov 08 2017 12:31 maybe when big items could be put out for kerbside recycling eg old appliances, furniture, etc?  
Masterton District Council runs an excellent accessible recycling service the other districts could follow. Not all people in the Wairarapa live in towns with kerbside services: there are also lots of rural people who need council services too, including recycling
- 270 Nov 07 2017 11:11 services.  
Better to refuse or reduce first BEFORE recycling. How about shops reducing packaging? Or shops have to have recycling /waste
- 271 Nov 07 2017 10:45 bins at their exits?
- 272 Nov 07 2017 10:29 Q 9 do you mean per week? or month? I put mine out about once every 4-6 weeks
- 273 Nov 07 2017 09:40 the plastics crates too small for our family of four, and a wheelie bin would be easier to manage  
It is tricky getting to the dump as we have no roadside collection. I think you should have a rather large plastic, glass cardboard bins near primary school. Parents can drop off. Locals will know about it and if they have a 24 pack of bottles to go in it they can use it.
- 274 Nov 07 2017 07:43 Encourage the young to recycle.

Q12 Wairarapa Waste Minimisation Survey#ZeroWasteWairarapa  
If available would you utilise an e-waste service?

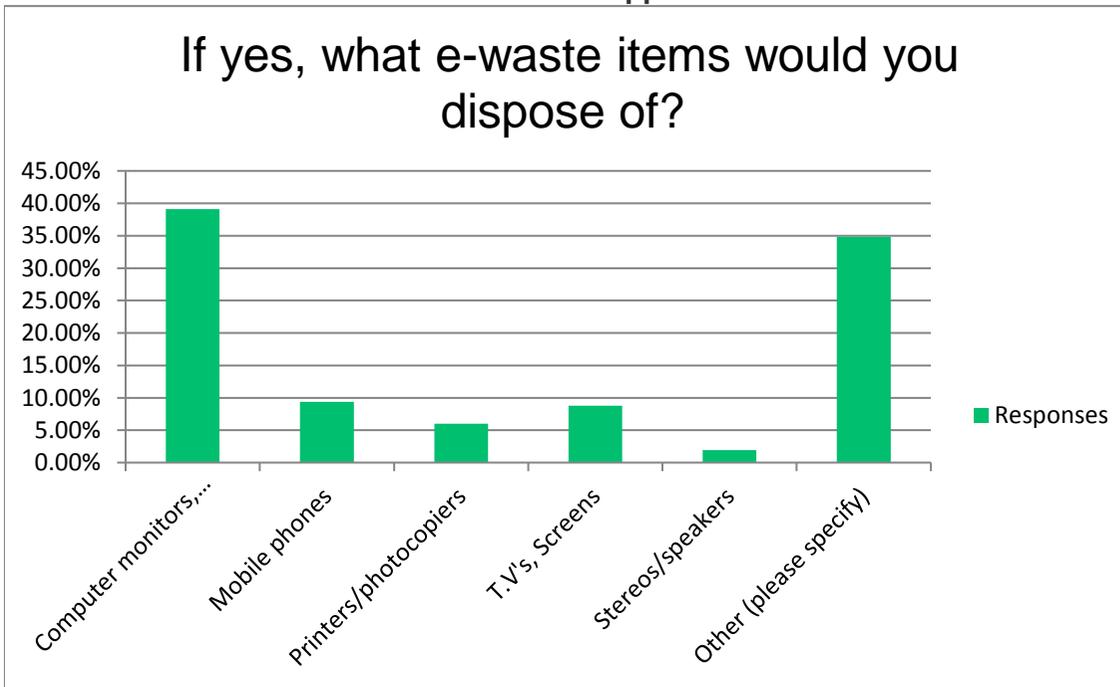

Answer Choices	Responses	
Yes	89.61%	457
No	10.39%	53

<b>Skipped</b>		<b>9</b>

# Q13 Wairarapa Waste Minimisation Survey#ZeroWasteWairarapa

## If yes, what e-waste items would you dispose of?

Answer Choices	Responses
Computer monitors, modems, accessories	39.10% 183
Mobile phones	9.40% 44
Printers/photocopiers	5.98% 28
T.V's, Screens	8.76% 41
Stereos/speakers	1.92% 9
Other (please specify)	34.83% 163
<b>Answered</b>	<b>468</b>
<b>Skipped</b>	<b>51</b>

Respondents	Response Date	Other (please specify)
1	Dec 06 2017 03:55	All of above. Broken heaters, other electronics All of above. Fridges/freezers microwaves other general household
2	Dec 06 2017 03:01	appliances
3	Dec 05 2017 04:06	what is an e waste service
4	Dec 05 2017 01:10	All of the above - I wasn't able to select more than one!

- 5 Dec 05 2017 08:40 , above on occasion as say kettle toaster ...
- 6 Dec 04 2017 10:41 | all of the above
- 7 Dec 04 2017 10:40 | Batteries
- 8 Dec 04 2017 10:17 | all
- 9 Dec 04 2017 09:06 | None
- 10 Dec 04 2017 08:59 | most of the above when necessary
- 11 Dec 04 2017 07:30 | All of the above.
- 12 Dec 04 2017 06:42 | All of the above
- 13 Dec 04 2017 05:37 | All of the above
- 14 Dec 04 2017 04:55 | all sorts of the above
- 15 Dec 04 2017 03:40 | All of the above, We currently have all. needing to get rid off.
- 16 Dec 04 2017 03:25 | probably all of the above at some point
- 17 Dec 04 2017 03:23 | All of the above  
Probably all of the above items at different times. How about an e waste collection once or twice a year from a specialised recovery agency, much like the resource centre in Masterton where I currently
- 18 Dec 04 2017 03:06 | take items.
- 19 Dec 04 2017 02:35 | All the above haha  
Potentially a combination of the above when no longer operational but
- 20 Dec 04 2017 02:32 | not on a regular basis
- 21 Dec 04 2017 09:18 | Most of the above  
need to be able to tick more than one option - would be computers and
- 22 Dec 04 2017 08:30 | accessories, printers, stereos and speakers
- 23 Dec 02 2017 07:42 | All these things, it didnt allow for multiple choices  
This would be great as a once a year thing where householders/rate
- 24 Dec 02 2017 01:29 | payers could ring Council & book in to have assess to E-waste.
- 25 Dec 02 2017 10:00 | All of the above  
Oops you should have made this multiple choice. Mobile phones,
- 26 Dec 01 2017 01:02 | computers and printers
- 27 Dec 01 2017 10:15 | All of the above items
- 28 Dec 01 2017 09:19 | All of the above from time to time
- 29 Nov 30 2017 04:39 | All of the above as needed.
- 30 Nov 30 2017 10:54 | all of the above
- 31 Nov 30 2017 10:35 | All of the above
- 32 Nov 29 2017 11:49 | All of the above

- 33 Nov 29 2017 06:34 | All of the above
- 34 Nov 29 2017 05:26 | All of the above we would love to be able to recycle
- 35 Nov 29 2017 04:39 | All?
- 36 Nov 29 2017 01:06 | All the sbove
- 37 Nov 29 2017 12:22 | All of the above
- 38 Nov 29 2017 12:01 | All of the above as needed
- 39 Nov 29 2017 10:06 | all
- 40 Nov 29 2017 09:23 | All of the above
- 41 Nov 29 2017 09:13 | All of the above
- 42 Nov 29 2017 06:46 | All of the above
- 43 Nov 29 2017 06:04 | all
- 44 Nov 28 2017 10:58 | all of the above
- 45 Nov 28 2017 10:32 | Multiple items
- 46 Nov 28 2017 10:28 | I dont
- 47 Nov 28 2017 10:03 | All the above
- 48 Nov 28 2017 09:29 | All of them
- 49 Nov 28 2017 09:19 | All the above plus orher electronics
- 50 Nov 28 2017 08:32 | All of the above  
All of the above if the service was available, even if there was a small  
cost involved
- 51 Nov 28 2017 07:55 | cost involved
- 52 Nov 28 2017 07:49 | Old fans and microwaves
- 53 Nov 28 2017 06:54 | All at various times
- 54 Nov 28 2017 05:27 | Don't know yet
- 55 Nov 28 2017 05:18 | All E waste including batteries...provided they are disposed of correctly
- 56 Nov 28 2017 01:55 | More than one of the above as we need to get rid of them
- 57 Nov 27 2017 06:03 | All of the above
- 58 Nov 26 2017 03:37 | Several of the above
- 59 Nov 26 2017 02:11 | I would e-cycle all of the above when they were upgraded
- 60 Nov 26 2017 07:33 | Anything that became outdated
- 61 Nov 25 2017 10:03 | all of those listed, but the survey isn't set up to allow multiple selections
- 62 Nov 25 2017 09:50 | All of items listed  
all of the above are e waste.and should be stored separately at landfill
- 63 Nov 25 2017 07:36 | until viable to extract metals etc
- 64 Nov 24 2017 08:45 | Probably most of these

65 Nov 24 2017 05:31 | All of the above - (why cant you choose more than one in this survey)

66 Nov 24 2017 01:24 | anything electronic we want to dispose of, kettle, computer...

67 Nov 24 2017 11:34 | all of above  
all of the above. it's a disgrace that eastern recycling is not offered or

68 Nov 24 2017 07:30 | Is so expensive

69 Nov 23 2017 05:00 | Several of the above but only one tick is accepted by survey

70 Nov 23 2017 12:02 | All of the above

71 Nov 23 2017 08:15 | All of the options

72 Nov 22 2017 09:37 | I can only mark one - computers, tablets, phones (mobile and other)

73 Nov 22 2017 08:58 | All of the above

74 Nov 22 2017 08:52 | All of the above

75 Nov 22 2017 07:37 | All of the above

76 Nov 22 2017 07:33 | All of the above

77 Nov 22 2017 06:49 | House hold appliances that no longer work or are unsafe to use

78 Nov 22 2017 05:10 | All of the above over time

79 Nov 22 2017 04:18 | I want to tick all these but it won't let me!

80 Nov 22 2017 09:19 | Potential all of the above at different times

81 Nov 21 2017 08:31 | all the above

82 Nov 21 2017 03:10 | All of the above and LiPo Batteries

83 Nov 21 2017 01:43 | all above  
This doesn't allow me to tick more than 1 button. Computers etc,

84 Nov 21 2017 12:12 | printers/copiers

85 Nov 21 2017 12:07 | Batteries

86 Nov 21 2017 12:05 | All of the above

87 Nov 21 2017 08:26 | All of the above

88 Nov 20 2017 07:44 | All of the above.

89 Nov 20 2017 03:18 | All of the above

90 Nov 20 2017 01:14 | Both computer and tv screen monitors etc. Also possibly whiteware.  
All of the above, in fact I already have some that I would dispose of

91 Nov 20 2017 01:09 | now

92 Nov 20 2017 11:48 | all of the above, unable to choose more than one.

93 Nov 20 2017 11:25 | mixture of above: computer related items, mobile phones

94 Nov 19 2017 03:29 | All of the above if I had items that didn't work any more

- 95 Nov 19 2017 02:41 |any of the above
- 96 Nov 19 2017 01:10 |All of the above
- 97 Nov 19 2017 10:48 | Random items, rarely as I don't update unless essential.
- 98 Nov 19 2017 09:21 |,all things appropriate
- 99 Nov 18 2017 10:25 | Don't really gave much in the way of e-waste.
- 100 Nov 18 2017 09:08 |All of the above.  
All of the above, rarely. Small batteries AA, AAA, D etc Rechargeable
- 101 Nov 18 2017 02:34 |batteries, Ni-cad etc.
- 102 Nov 17 2017 12:55 |Assorted electronic/electric devices
- 103 Nov 16 2017 09:08 |all of the above at times
- 104 Nov 16 2017 02:24 |All of these options
- 105 Nov 16 2017 11:52 |,do not know what is meant by e-waste  
whatever i had at the time that could not be dontated (mobile phones)  
or fixed. would love to see a cheap service where toasters etc could be
- 106 Nov 16 2017 07:37 |,repaired.
- 107 Nov 16 2017 07:28 |,All of the above
- 108 Nov 15 2017 01:45 |Computers, phones, printers. No option to select multiple.
- 109 Nov 15 2017 12:21 |all of the above
- 110 Nov 15 2017 09:43 |,Mobile phones, TVs
- 111 Nov 15 2017 08:21 |,Any thing electronic
- 112 Nov 14 2017 03:04 |any electronic equipment or extension cords etc
- 113 Nov 14 2017 01:25 |all of them
- 114 Nov 14 2017 08:04 |,All of the above
- 115 Nov 13 2017 08:04 |All of the above
- 116 Nov 13 2017 08:00 |all of the above
- 117 Nov 13 2017 07:58 |All of the above
- 118 Nov 13 2017 07:09 |This is not useful, it will not allow the selection of more than one item.  
Computer, laptops, computer accessories, cameras, mobile phones,  
printers, cables, batteries, light bulbs/tubes, CD/DVD (CD-R/CD-
- 119 Nov 11 2017 07:06 |RW/DVD-R/DVD-RW), company electric/electronic instrument
- 120 Nov 11 2017 05:44 |All of the above
- 121 Nov 11 2017 03:48 |Any or all of the above
- 122 Nov 11 2017 01:05 |All of the above once they have broken
- 123 Nov 11 2017 10:33 |,All my waste electrical products

124 Nov 11 2017 07:55 | Batteries?

125 Nov 10 2017 08:00 | All of the above!

126 Nov 10 2017 07:28 | All the above items

127 Nov 10 2017 02:43 | all of the above from time to time.

128 Nov 10 2017 02:35 | All the above

129 Nov 10 2017 02:08 | all of the above, very occasionally

130 Nov 10 2017 01:44 | Any of the above

131 Nov 10 2017 01:38 | Potentially all the above  
computer monitors, modem, assessories, tv , stereo speakers - ie all

132 Nov 10 2017 12:44 | of the abov

133 Nov 10 2017 12:00 | all of the above

134 Nov 10 2017 11:36 | all above

135 Nov 10 2017 09:33 | All of the above as they become devoid

136 Nov 10 2017 09:07 | All of the above

137 Nov 10 2017 06:18 | Cables

138 Nov 10 2017 12:38 | Courier and NZ POST PLASTIC BAGS

139 Nov 09 2017 10:12 | All of the above  
Any of the above but not very often, maybe once a year. Why not have one day a year, several sites, ppl can take ewaste and stuff (not garbage) and you drop stuff there. Ppl are free to take anything they want and at the end of the day the council collects the balance for

140 Nov 09 2017 09:38 | disposal. Happens in Palmy.  
All of the above if it was no longer working or useful to anyone. This question only allows you to choose one option so your results may not accurately reflect all the types of e-waste people would want to get rid

141 Nov 09 2017 08:57 | of.

142 Nov 09 2017 08:57 | All above

143 Nov 09 2017 08:43 | Any broken or obsolete electronic items

144 Nov 09 2017 08:38 | All of these and old appliances

145 Nov 09 2017 08:15 | All of the above

146 Nov 09 2017 06:39 | batteries (aa and the like

147 Nov 09 2017 04:46 | All of the above plus small appliances

148 Nov 09 2017 04:35 | any of the above when needed

149 Nov 09 2017 04:29 | At times we've had all of the above

150 Nov 09 2017 12:12 | All of the above

151 Nov 09 2017 11:41 | Computers, Printers - this question's multi choice doesn't work

152 Nov 09 2017 11:37 , computers, printers, tvs  
153 Nov 09 2017 11:32 , any electronic waste - no one thing in particular  
154 Nov 09 2017 10:19 , All of the above  
155 Nov 09 2017 10:14 , other bits and pieces I take to the tip  
156 Nov 09 2017 10:10 , All of the above  
157 Nov 08 2017 05:09 | All of the avive  
158 Nov 08 2017 12:48 | All of the above  
159 Nov 08 2017 12:44 | Unwanted kitchenware  
Why can't I specify more than one of these? This is silly. Any and all of  
160 Nov 08 2017 12:31 , these would be disposed of by me.  
161 Nov 07 2017 11:11 | All of the above  
  
162 Nov 07 2017 10:45 | All at some point. The survey diet let you tick more than one answer  
163 Nov 07 2017 07:43 | Computers. Phones printers

## Q14 Wairarapa Waste Minimisation Survey#ZeroWasteWairarapa

Do you have any further suggestions regarding reducing e-waste into our landfill?

Answered 201

Skipped 318

Respondents	Response Date	Responses
1	Dec 06 2017 03:5	make manufacturers responsible for recycling their own goods Have a quarter yearly ewaste collection & advertise the days in which areas are
2	Dec 06 2017 03:0	being done also flyers & radio Utilise the minerals and metals out of it.
3	Dec 06 2017 02:1	See if schools want any for students to experiment with
4	Dec 05 2017 10:0	Collect at landfill site
5	Dec 05 2017 04:1	alk e waste
6	Dec 05 2017 03:2	promote the e-waste disposal days so people know that they can get rid of stuff. see if you can recycle parts of the items or resell them or give to charity(TV's
7	Dec 05 2017 09:2	etc).Have Masterton's equivalent of Porirua's Smash Palace Could / should be via major retailer [as rubber / tyres] a facility I have only offered
8	Dec 05 2017 08:4	only by smaller providers!
9	Dec 05 2017 07:1	Funds directed into research for e waste recycling Drop off points in town for all recycling. Not just the transfer station, which you have
10	Dec 04 2017 10:4	to drive to and it's not open 24/7
11	Dec 04 2017 10:2	no
12	Dec 04 2017 10:1	have separate bins
13	Dec 04 2017 09:4	Have a separate section for e waste - check out WCC's southern landfill.
14	Dec 04 2017 09:0	Recycle and donate
15	Dec 04 2017 08:3	Have a specific bin for this at the recycling centre
16	Dec 04 2017 06:5	none
17	Dec 04 2017 06:4	No Regular yearly or twice yearly days or more when you can put these things at kerb
18	Dec 04 2017 06:1	for collection. yes i would have answered more to the previous equestion about what e waste i would recycle but as soon as I clicked one it moved on to this question! I would
19	Dec 04 2017 06:0	recycle any e waste I could!
20	Dec 04 2017 04:3	No
21	Dec 04 2017 04:2	No

- 22 Dec 04 2017 03:4 Be a great idea if you could buy second hand replacement chargers and computer cords if your original one breaks.
- 23 Dec 04 2017 03:3 No thanks  
All recycling must be free or cash back. It never works if the user has to pay (just look at all the rubbish dumped at our rivers)
- 24 Dec 04 2017 03:2
- 25 Dec 04 2017 02:3 No
- 26 Dec 04 2017 02:3 no
- 27 Dec 04 2017 02:2 Collection/drop off facilities. Maybe one day a year as in Kapiti.
- 28 Dec 04 2017 12:1 Put pressure on the supermarkets to cut down on plastic  
Batteries AAA Car.
- 29 Dec 04 2017 12:0 Annual Kerbside collection or drop off zones at dumps
- 30 Dec 04 2017 09:1 Community recycling bins as mentioned above
- 31 Dec 04 2017 08:3 no
- 32 Dec 03 2017 09:3 No  
My suggestion would be to make e waste available then it wont be in the landfill,
- 33 Dec 02 2017 07:4 easy.
- 34 Dec 02 2017 03:5 Maybe having ewaste collection once every 2 or 3 months so people don't have to dump at dump but also don't have to hang onto it for a long period of time
- 35 Dec 02 2017 01:2 Recycle?  
have tables at the tip for people to put their stuff on that other people can make use of
- 36 Dec 02 2017 10:2
- 37 Dec 02 2017 10:0 A permanent long-term solution needs to be created otherwise the problem will just grow. Our environment needs a real solution here. Please include batteries!
- 38 Dec 01 2017 10:1 -
- 39 Dec 01 2017 09:5 No
- 40 Dec 01 2017 09:2 Recycle it by sending off shore to processing plants.
- 41 Nov 30 2017 04:3 Recycle parts where possible
- 42 Nov 30 2017 12:2 Invest in super heat furnaces that have clean air technology.
- 43 Nov 30 2017 11:3 More dedicated areas/organisations for collection of this type of equipment, some of which might hopefully be reparable and provided to NGO's and their beneficiaries  
Making it easy for everyone to know there is an alternative - a drop-off point in Wairarapa and /or collection.
- 44 Nov 30 2017 10:5
- 45 Nov 30 2017 10:1 No
- 46 Nov 30 2017 06:4 Free collection or dumping days
- 47 Nov 29 2017 10:3 no

- 48 Nov 29 2017 10:1 Free dump day  
You need to get Government to financially support businesses who offer to either produced items that can be fully recycled or have environmentally friendly packaging, EG NO PLASTIC OR POLYSTYRENE. Offer incentives not punishment for this kind of stuff. If the horrible stuff was not produced in the first place, we as consumers would have a choice to only buy environmentally package
- 49 Nov 29 2017 05:2 goods.  
  
Maybe lead the society to not be so consumeric? Why do people need to have 3 TV's??? I'd be more strict about rules of how many appliances one can really have- we live in a world of plenty of everything-NZ should be example for the rest of the
- 50 Nov 29 2017 04:1 world how to live sustainably, well at least I thought so until I started to live here
- 51 Nov 29 2017 02:2 no
- 52 Nov 29 2017 12:0 Great if we can reuse parts and implement an e-waste scheme  
Maybe the items could be used for teens / adults to pull apart and learn what makes
- 53 Nov 29 2017 11:1 the items work . Educational is the word that I was meaning
- 54 Nov 29 2017 10:2 No
- 55 Nov 29 2017 10:0 no
- 56 Nov 29 2017 09:2 No
- 57 Nov 29 2017 06:5 Needs to be readily accessible to be effective.
- 58 Nov 29 2017 06:4 Recycling  
Please have a recycle station I have so much e waste just sitting around that I will
- 59 Nov 29 2017 01:0 not put in land fill
- 60 Nov 28 2017 11:5 Not at moment
- 61 Nov 28 2017 11:2 No
- 62 Nov 28 2017 10:3 No  
  
Kerbside collection every 2 or 3 months would work well. Telling the companies to
- 63 Nov 28 2017 10:3 manufacture a lasting product would solve the issue, but that's another matter!
- 64 Nov 28 2017 10:2 Re-purpose?
- 65 Nov 28 2017 10:0 No
- 66 Nov 28 2017 10:0 You need someone to pull them apart and recycle the components
- 67 Nov 28 2017 09:5 More education as to where ewaste can be recycled.
- 68 Nov 28 2017 09:1 Better publicity where to take old stuff to.
- 69 Nov 28 2017 08:1 No
- 70 Nov 28 2017 08:0 No
- 71 Nov 28 2017 07:4 No

- 72 Nov 28 2017 07:2 Keep recycling them at a community level, refurbishment for ppl who need them
- 73 Nov 28 2017 06:5 N/a
- 74 Nov 28 2017 06:5 No
- 75 Nov 28 2017 06:5 Items like broken microwaves etc
- 76 Nov 28 2017 06:3 Add a section for ewaste into the recycling centre.
- 77 Nov 28 2017 05:5 NO
- 78 Nov 28 2017 05:5 No  
 Only that a different collection area should be available for E-waste so it doesn't go  
 into the landfill. That way a recycling option would still be viable.
- 79 Nov 28 2017 05:2
- 80 Nov 28 2017 08:3 Some of it could be used in workshops in schools
- 81 Nov 27 2017 06:0 Just do it  
 Sometimes you just need to know where you can get rid of stuff which may be  
 useful to other people
- 82 Nov 26 2017 03:3
- 83 Nov 26 2017 01:5 no
- 84 Nov 25 2017 10:0 Provide a facility for recycling
- 85 Nov 25 2017 09:5 We need to stop batteries ending up in the landfill
- 86 Nov 25 2017 12:4 Recycle what can be re-used. Find new uses for components  
 reduce reuse store recycle .have our own rubbish dump/waste /recycling  
 .bank.look at total cost/benefits to all rate payers .don't be sold an on going cost
- 87 Nov 25 2017 07:3 that doesn't show large benefit to the most people  
 If it was economical it could be helpful to brake the e-waste down into it's  
 components first.
- 88 Nov 24 2017 05:5
- 89 Nov 24 2017 05:2 No think it would be a great idea
- 90 Nov 24 2017 01:2 monthly call and collect, out with recycling
- 91 Nov 24 2017 11:3 no  
 A drop off point. Sometimes things still work but are upgraded. Working items could  
 be sold & other bits & prices available for parts eg cables etc or for kids/adults to  
 tinker with
- 92 Nov 24 2017 10:3
- 93 Nov 24 2017 07:3 Make it free to encourage it to happen
- 94 Nov 23 2017 08:4 no  
 Suppliers need to have some responsibility for packaging (polystyrene, cardboard,  
 foam, plastic wrapping) imposed upon them. Perhaps to provide return receptacles,
- 95 Nov 23 2017 05:0 design their packing more environmentally carefully and thoughtfully.
- 96 Nov 23 2017 04:0 No
- 97 Nov 22 2017 11:1 E waste days

- Have yearly e-waste collections. Lobby government about putting pressure on producers to provide more appropriate packaging. Encourage reuse of electronic items by schools.
- 98 Nov 22 2017 09:3
- 99 Nov 22 2017 09:0 No
- 100 Nov 22 2017 08:4 No
- 101 Nov 22 2017 07:3 No
- 102 Nov 22 2017 07:3 Advertise items on facebook for people to pick up for parts or components??  
Manage it from the source, which is where we buy it from. We all need to take responsibility when making any kind of purchase
- 103 Nov 22 2017 06:4  
Make it easier by having itemised bins at the dump. Make it affordable or free.  
Plastic bags should be recycled at the supermarket, they could have battery bins
- 104 Nov 22 2017 05:1 also.
- 105 Nov 22 2017 05:1 Initiatives and funding to get repair workshops going
- 106 Nov 22 2017 04:1 It has got to be more organised
- 107 Nov 22 2017 02:1 Have a battery recycling facility for domestic batteries.  
Make the original manufacturer responsible for taking back the aged and obsolete product.
- 108 Nov 21 2017 10:1
- 109 Nov 21 2017 07:0 melt them down
- 110 Nov 21 2017 03:1 LiPo Battery recycling plant
- 111 Nov 21 2017 01:4 Making it affordable i.e. free
- If we weren't all so consumed by consumerism the e-waste would be less, but for now ALL e-waste should be picked up and taken somewhere to be sorted/up cycled in the best way possible...and yes, I know there will be a \$value attached to that...
- 112 Nov 21 2017 12:1
- 113 Nov 21 2017 09:3 improve recycling options available
- 114 Nov 21 2017 08:2 No
- 115 Nov 21 2017 06:1 No
- 116 Nov 20 2017 11:4 pass a bylaw forbidding any ewaste going to landfill
- 117 Nov 20 2017 10:1 no
- 118 Nov 20 2017 09:3 Pressure produces to minimize packaging
- 119 Nov 20 2017 07:4 No.
- 120 Nov 20 2017 03:5 no
- 121 Nov 20 2017 02:2 No
- A recycling centre that would try to get it working again and then give to charity or to persons who would utilise it
- 122 Nov 20 2017 01:0
- 123 Nov 20 2017 01:0 Need to be able to tick more than one option in previous question.

- 124 Nov 20 2017 11:5: Encourage people to use other disposal avenues such as the collection of unused mobile phones by island charity organisations  
could have a little centre where kids could deconstruct and learn about technology,
- 125 Nov 20 2017 11:4: bits could be recycled.
- 126 Nov 19 2017 06:4: no
- 127 Nov 19 2017 10:4: Buy what you need, not what you want to be trendy.
- 128 Nov 19 2017 10:1: Having a "dump shop" where people can buy what others throw out.
- 129 Nov 19 2017 09:2 no
- 130 Nov 18 2017 10:2: I don't think it should be in our landfills.  
More monitoring of what people put into the landfill. Let people know that e-waste can be recycled on arrival and provide facilities for this to happen.
- 131 Nov 18 2017 09:0:
- 132 Nov 18 2017 02:3: Is it feasible on a regional basis to extract the rare metals? Safely!  
Strip all coppers out of ewaste,  
Offer artists to use ewaste for sculpture  
Ewaste upcycling workshops
- 133 Nov 18 2017 11:4:
- 134 Nov 17 2017 03:0: Make recycling easy
- 135 Nov 17 2017 12:5: Support and actively promote the fix it get togethers
- 136 Nov 17 2017 08:3: MDC needs to have the facility to take old batteries.  
I don't know how you can reuse these things. I'd support a company that collects
- 137 Nov 17 2017 07:2: items and makes them into something  
Don't charge for it. We smash things small enough to put in the blue bag even if it
- 138 Nov 16 2017 06:2: takes weeks to get rid of it.
- 139 Nov 16 2017 03:0 Good idea as most probably illegally ends in landfill
- 140 Nov 16 2017 02:4: offer 2 times a year  
incinerator to use the railway to take waste from far away and incinerate here in the
- 141 Nov 16 2017 11:5: Wairarapa as I set up in the Uk 50 years ago !  
Nope but I have dumped TV before and thought it a little criminal that it just goes in
- 142 Nov 16 2017 11:2: to the land fill
- 143 Nov 16 2017 09:4: no
- 144 Nov 16 2017 07:3 as above, fix it even if we think its broken
- 145 Nov 16 2017 07:2: No
- 146 Nov 16 2017 06:2: No
- 147 Nov 15 2017 01:4: No
- 148 Nov 15 2017 12:2 e-waste needs to be recycled
- 149 Nov 13 2017 10:0 make it free

150 Nov 13 2017 08:5 No  
151 Nov 13 2017 08:5 No  
152 Nov 13 2017 07:5 No

Contact suppliers of electronic products and survey them on what they do for their customers.

I collect all e-waste from my customers free of charge and take it to ITRecycla in Seaview.

It would be worthwhile talking to Kevin who is the owner who when I have spoken to him would be happy to sponsor is happy to sponsor a community event.

Also investigate how successful the charging of e-waste has been over the past few

153 Nov 12 2017 02:3 years.

154 Nov 12 2017 07:2 Make ewaste disposal free

155 Nov 11 2017 09:2 offer some of the stuff, if not broken, free to whomever wants it

Include computer, laptops, computer accessories, cameras, mobile phones, printers, cables, batteries, light bulbs/tubes, CD/DVD (CD-R/CD-RW/DVD-R/DVD-RW), company electric/electronic instrument in the e-waste scope.

156 Nov 11 2017 07:0 Also consider hosting a continuous eDay event (see <http://www.eday.org.nz/>).

157 Nov 11 2017 03:4 Residents and ratepayers would have to be confident that e-waste collected was in fact going to be recycled as far as possible; should a collection be made available.

158 Nov 11 2017 11:5 No

159 Nov 11 2017 08:2 No

160 Nov 10 2017 09:1 No

161 Nov 10 2017 09:0 Once a month pick up?

162 Nov 10 2017 09:0 No

163 Nov 10 2017 08:0 No

164 Nov 10 2017 07:5 no

165 Nov 10 2017 02:4 More drop off facilities.

I doubt if much of my recycled waste is actually recycled. I suggest councils educate us residents on how effective our efforts to recycle are, exactly which products can be recycled and how to reduce the amount of our rubbish. At

166 Nov 10 2017 02:0 Carterton the bins need to be better labeled PLEASE.

167 Nov 10 2017 01:4 recycling what can be or sending ones that still work to poorer countries

168 Nov 10 2017 12:4 have a place where goods can be dropped off so they can be recycled or sold

Your survey question above didn't allow more than one selection. I have brought computers and tvs to Masterton's Resource Centre where they accept ewaste. We need a site in Featherston to avoid people dumping them in the rivers.

A recycle centre at the entrance to the refuse centres, as not all of these items are broken, however people are discarding them when they upgrade.

Your question above should have allowed multi selection. An ewaste recycling option would be great. Also probably a fair bit of ewaste that is reusable but is being thrown because people think it is obsolete or can't be bothered trying to sell it. A reuse facility would be an option.

Encourage people to reuse and minimise the use of courier plastic bags/get courier and nz post to look at what ways they can proactively help the environment and use different materials etc

It was brilliant when there were the days where you could bring a load to Masterton (I think Jill Greathead was one of the organisers of that scheme). Pity it's not still running...

173 Nov 09 2017 10:1

174 Nov 09 2017 09:4 Used battery collection points at supermarket or library etc

175 Nov 09 2017 09:3 See above

Marketing to people about the importance of e-waste going to the right place so it doesn't end up in the general landfill. I am really passionate about this so have set up an e-waste bin at my work by my desk to encourage my colleagues to get rid of

176 Nov 09 2017 08:5 e-waste responsibly.

177 Nov 09 2017 08:5 Look into what could be recycled instead of buried!

178 Nov 09 2017 08:1 Transfer it to be recycled

179 Nov 09 2017 06:2 Yes. Should be able to select multiple options in above field.

Can you set up a recovery treasure shop at Chesterton landfill? A lot of perfectly good items with life still in them get sent to the tip when they could be reused

180 Nov 09 2017 04:4 Help make sure people know what it is

181 Nov 09 2017 04:2 I'd rather see e-waste recycled or stripped for its resources.

182 Nov 09 2017 03:2 pay a small fee for recycling e-waste, most collected e-waste can be sold on

183 Nov 09 2017 02:3 compact into blocks and send to a regional site.

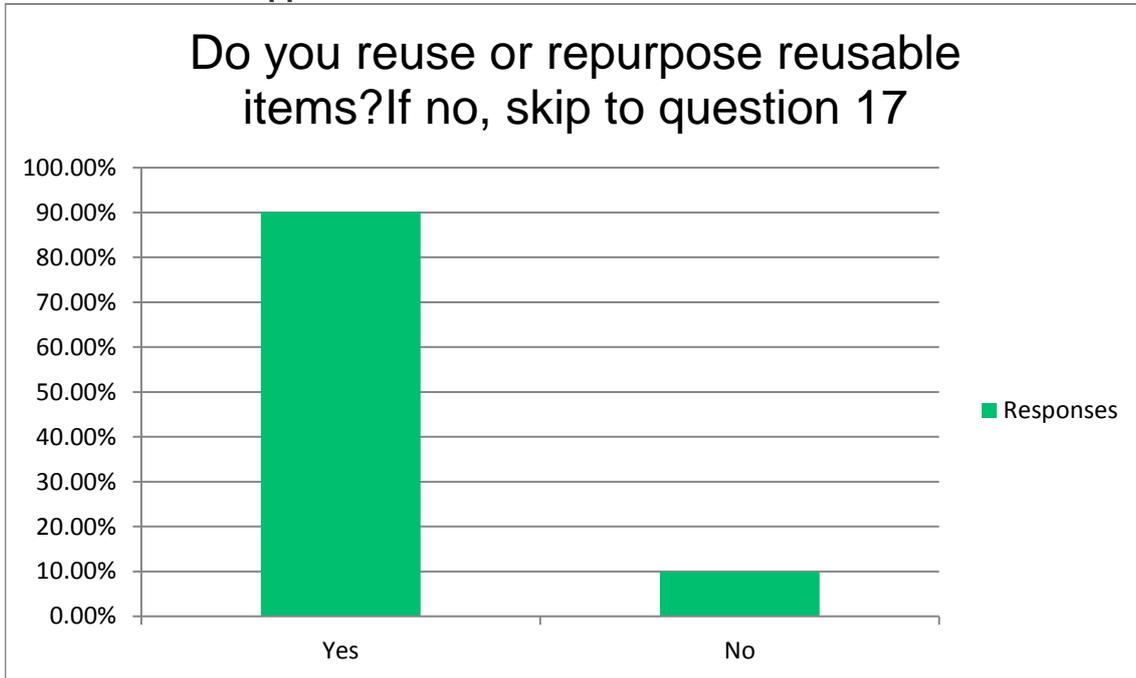

Getting schools behind new initiatives for working out what we can use thee

184 Nov 09 2017 02:0 recyclables for

186 Nov 09 2017 01:00 Go back to glass milk bottles  
Have e-waste days on a regular basis if there isn't an opportunity to have the  
187 Nov 09 2017 11:30 service available all the time.  
188 Nov 09 2017 11:10 anything that will help to reduce rates  
189 Nov 09 2017 10:50 Encourage recycling of this through "anything" days.  
190 Nov 09 2017 10:40 no  
191 Nov 09 2017 10:10 too hard to dispose of now cost is too much  
192 Nov 09 2017 10:10 not really - it's a tough one.  
193 Nov 09 2017 10:00 Depot at the local recycling centre would be very helpful.  
194 Nov 08 2017 10:20 Easy to get to places for these things especially batteries etc  
195 Nov 08 2017 08:50 no  
196 Nov 08 2017 05:50 Make it free to drop off  
197 Nov 08 2017 01:50 no  
198 Nov 08 2017 12:30 Just that the e-waste option should be held at least once a year.  
199 Nov 07 2017 11:10 Make it easy, affordable and accessible  
200 Nov 07 2017 10:40 Stop replacing electronic equipment so often.  
201 Nov 07 2017 10:20 Q 13 - need to be able to select more than one item

Q15 Wairarapa Waste Minimisation Survey#ZeroWasteWairarapa  
Do you reuse or repurpose reusable items?If no, skip to question 17

If yes, how?

Answer Choices	Responses
Take to local opportunity shop	57.17% 271
Reuse yourself	25.95% 123
Other (please specify)	16.88% 80
<b>Answered</b>	<b>474</b>
<b>Skipped</b>	<b>45</b>

Respondents	Response Date	Other (please specify)
	1 Dec 06 2017 0	Both
	2 Dec 06 2017 0	Both of above
	3 Dec 05 2017 0	Usable [few] to suitable charity
	4 Dec 05 2017 0	Both of the above
	5 Dec 04 2017 0	Both. Always try to repair an item, then if that's not possible re-purpose. If it's not broken give it away at an op shop. Items can also be broken down into usable parts
	6 Dec 04 2017 0	Recycle in a variety of ways. Into the compost if some fabrics for instance, give stuff to charity shops perhaps or repurpose myself
	7 Dec 04 2017 0	Upcycle and sell or gift as well as use myself

- 8 Dec 04 2017 0 need to be able to tick more than one option - take to op shop, give to other people, sell on Trade Me and if I can will repurpose myself  
Both, it didn't allow for multiple choices
- 9 Dec 02 2017 0  
Both reuse ourselves and take to opportunity shop and give away to family or friends.
- 10 Dec 02 2017 1 When possible to reuse, eg. plastic bags, we will do so.
- 11 Dec 01 2017 0 Again should have multiple choice! reuse myself and donate
- 12 Dec 01 2017 1 Take to King Street Artworks
- 13 Dec 01 2017 0 Both of the above
- 14 Nov 30 2017 0 Take to op shop or offer to family/friends
- 15 Nov 30 2017 1 Both above options
- 16 Nov 30 2017 1 both options - I reuse and that I cannot use I pass on.
- 17 Nov 29 2017 0 Both options as above
- 18 Nov 29 2017 0 Reuse myself and take to thrift shop  
Take to opportunity shop, pass on to friends or family, find a new use for the item for myself
- 19 Nov 29 2017 1 myself
- 20 Nov 29 2017 0 Both above
- 21 Nov 29 2017 0 All of the above
- 22 Nov 28 2017 1 No
- 23 Nov 28 2017 1 Both of the above at times
- 24 Nov 28 2017 1 All the above
- 25 Nov 28 2017 0 Both of the above  
I find alternative uses for a lot of items and pass what I can't use onto someone who can use it.
- 26 Nov 28 2017 0 use it.
- 27 Nov 26 2017 0 Both of the above
- 28 Nov 25 2017 0 Give to people that need the items
- 29 Nov 24 2017 0 Both of the above (silly design of survey not allowing multiple options)  
1 & 2 options but only one tick accepted in survey system!
- 30 Nov 23 2017 0
- 31 Nov 23 2017 0 Reuse myself and take to op shop.
- 32 Nov 22 2017 1 Give them away
- 33 Nov 22 2017 0 both above
- 34 Nov 22 2017 0 Both of the above but a little is still binned!
- 35 Nov 22 2017 0 Both options above
- 36 Nov 22 2017 0 I do both of these things.
- 37 Nov 22 2017 0 Both depending on what they are
- 38 Nov 22 2017 0 Both of the above
- 39 Nov 21 2017 0 Both

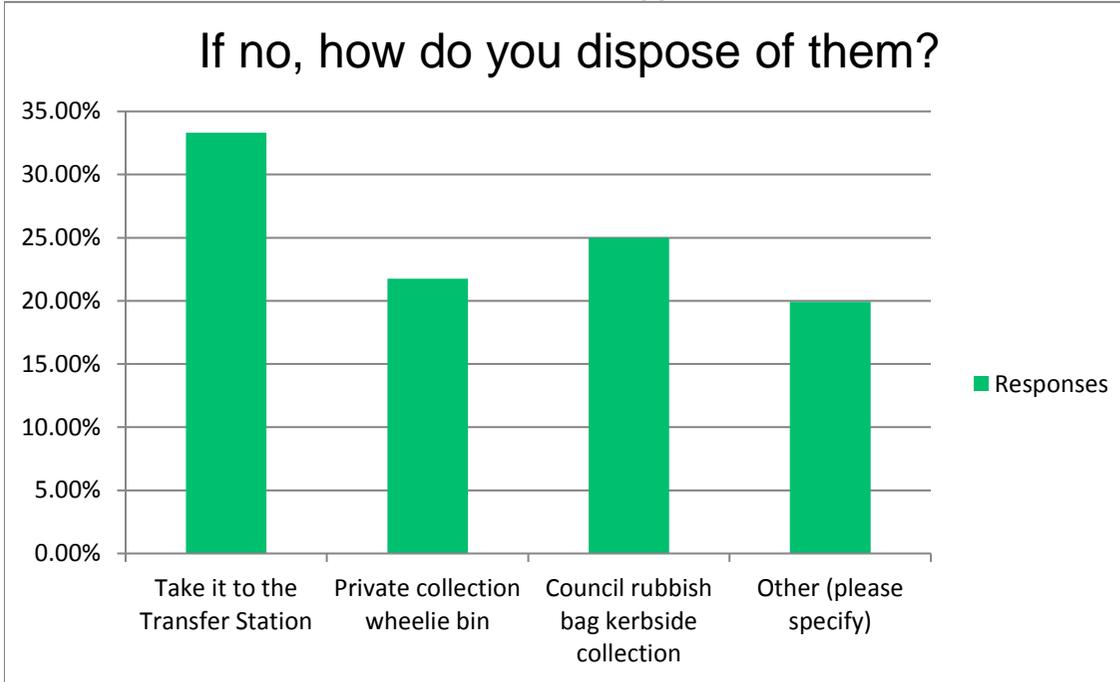

- 40 Nov 21 2017 1 Both
- 41 Nov 21 2017 0 Both the above
- 42 Nov 21 2017 0 I reuse council rubbish bags.
- 43 Nov 20 2017 0 Also recycle egg cartons by dropping them off to Bin Inn etc.
- 44 Nov 20 2017 1 both of the above, can't choose more than one.  
all of the above. I dont accept any plastic bags from shops as I take my own
- 45 Nov 19 2017 0 containers/bags to fill
- 46 Nov 19 2017 0 both
- 47 Nov 19 2017 0 all sorts of ways - waste minimisation is important to us
- 48 Nov 16 2017 0 both
- 49 Nov 16 2017 1 need a large bin t periodically placed at strategic rural sites to dispose of bulky items
- 50 Nov 16 2017 0 i will give to op shops, reuse myself or gift to someone who can use it
- 51 Nov 15 2017 1 all of the above
- 52 Nov 15 2017 0 Take to local opportunity shop and reuse myself
- 53 Nov 14 2017 0 take egg cartons back to producers and empty jam jars to the person I purchase jam off.
- 54 Nov 13 2017 0 Dont
- 55 Nov 13 2017 0 All of above depending what it was.
- 56 Nov 13 2017 0 Both
- 57 Nov 10 2017 0 Both of the above  
all of the above, i am a keen crafter and doer upper. I give to others in need and also donate when able to opportunity shops.
- 58 Nov 10 2017 0  
Both take some items to the local opportunity shops, as well as managing to find other
- 59 Nov 10 2017 0 uses for some of the items at home.
- 60 Nov 10 2017 0 both of the above but mostly reuse myself
- 61 Nov 10 2017 0 Both
- 62 Nov 10 2017 1 both above  
All of the above (won't let me choose that option). Featherston is lucky to have an opp
- 63 Nov 10 2017 1 shop that returns money to the community.
- 64 Nov 10 2017 0 Both
- 65 Nov 10 2017 0 Depends what it is - use both options above
- 66 Nov 10 2017 0 Reuse myself, make boomerang bags, take to op shops.  
Should be a multi selection question. Both options. Plus try to sell or give away anything
- 67 Nov 10 2017 0 that could be reused.
- 68 Nov 10 2017 1 reuse and take to opshop and rehome
- 69 Nov 09 2017 0 Op shop, reuse, pass to friends

- 70 Nov 09 2017 0 Both options  
 Both of the above options, or find someone I know that could use the item, or sell on Trade Me. Or once we put an old desk on the street labelled free as even the op shop
- 71 Nov 09 2017 0 wouldn't take it and someone took it by the time we got home.
- 72 Nov 09 2017 0 All of the above
- 73 Nov 09 2017 0 reuse and/or take to the local op shop
- 74 Nov 09 2017 0 Both above, plus swap or give to friends. 'Freecycle' via Facebook
- Clothing goes to the opp shop. Cardboard can become child's forts or game pieces. Old
- 75 Nov 09 2017 0 business shirts are remade into tops for me. Old jeans are remade into bags or clothes.
- 76 Nov 09 2017 1 Both reuse and op-shop
- 77 Nov 09 2017 1 Reuse and put on trademe
- 78 Nov 09 2017 1 Use myself, op shop or trade me
- 79 Nov 09 2017 1 x
- 80 Nov 09 2017 1 Take to local shop and reuse myself

# Q17 Wairarapa Waste Minimisation Survey#ZeroWasteWairarapa

## If no, how do you dispose of them?

Answer Choices	Responses
Take it to the Transfer Station	33.33% 72
Private collection wheelie bin	21.76% 47
Council rubbish bag kerbside collection	25.00% 54
Other (please specify)	19.91% 43
<b>Answered</b>	<b>216</b>
<b>Skipped</b>	<b>303</b>

Respondents	Response Date	Other (please specify)
		Why is there ' not applicant's if I have already answered no, or skip this
	1 Dec 05 2017 07	question
	2 Dec 04 2017 09	the survey seems moves you to the wrong next question
	3 Dec 04 2017 06	All of the above
	4 Dec 04 2017 06	na
	5 Dec 04 2017 04	N/a
		If I can't fix and item or an op shop doesn't want it, then it has to go to the dump - weekly rubbish collection or I have to take it - which is not often
	6 Dec 04 2017 03	because it costs too much
	7 Dec 04 2017 03	Transfer station or rubbish bag if small enough

- every month we use a combination of transfer station, wheelie bin and as per
- 8 Dec 04 2017 08 question 16  
I store up all metal things that I cannot recycle or reuse and once a year I
- 9 Dec 02 2017 07 begrudgingly PAY to dump it in the LANDFILL.
- 10 Dec 02 2017 01 Plastics that aren't allowed in kerbside recycle bins.
- 11 Nov 30 2017 12 Council rubbish bag and take to transfer station for no extra fee
- 12 Nov 30 2017 11 n/a
- 13 Nov 29 2017 11 why can you not mark more than one answer
- 14 Nov 29 2017 10 yes
- 15 Nov 29 2017 09 I recycle
- 16 Nov 29 2017 06 Take to opp shop or give away.
- 17 Nov 28 2017 08 I try to recycle as much as possible
- 18 Nov 28 2017 07 N/A
- 19 Nov 28 2017 06 Take to the rubbish tip
- 20 Nov 28 2017 05 Havent had a need to yet
- 21 Nov 26 2017 01 .
- 22 Nov 24 2017 07 Option one for items I can't reuse or repurchase.  
the stuff I can't find an alternative home for, ends up in the kerbside collection
- 23 Nov 21 2017 12 )-:
- 24 Nov 21 2017 09 I just said yes above but the survey wont let me move onto the next answer
- 25 Nov 21 2017 08 Take to transfer station and use Private bins
- 26 Nov 19 2017 09 N/A
- 27 Nov 17 2017 10 Take to Wellington rubbish
- 28 Nov 16 2017 11 probably burn if combustible
- 29 Nov 15 2017 01 n/a
- 30 Nov 13 2017 10 Give to op shops
- 31 Nov 13 2017 08 All of the above depending on what it was.
- 32 Nov 13 2017 07 Yes
- 33 Nov 11 2017 02 Yes
- 34 Nov 11 2017 11 Give away or use at home
- 35 Nov 10 2017 07 na
- 36 Nov 09 2017 08 Either kerbside recycling or transfer station
- 37 Nov 09 2017 06 burn  
I tend to wear things out totally.
- 38 Nov 09 2017 05 Clothes go thru the charity bins.
- 39 Nov 09 2017 01 we recycle and reuse everything we can
- 40 Nov 09 2017 11 x

41 Nov 09 2017 10 i do

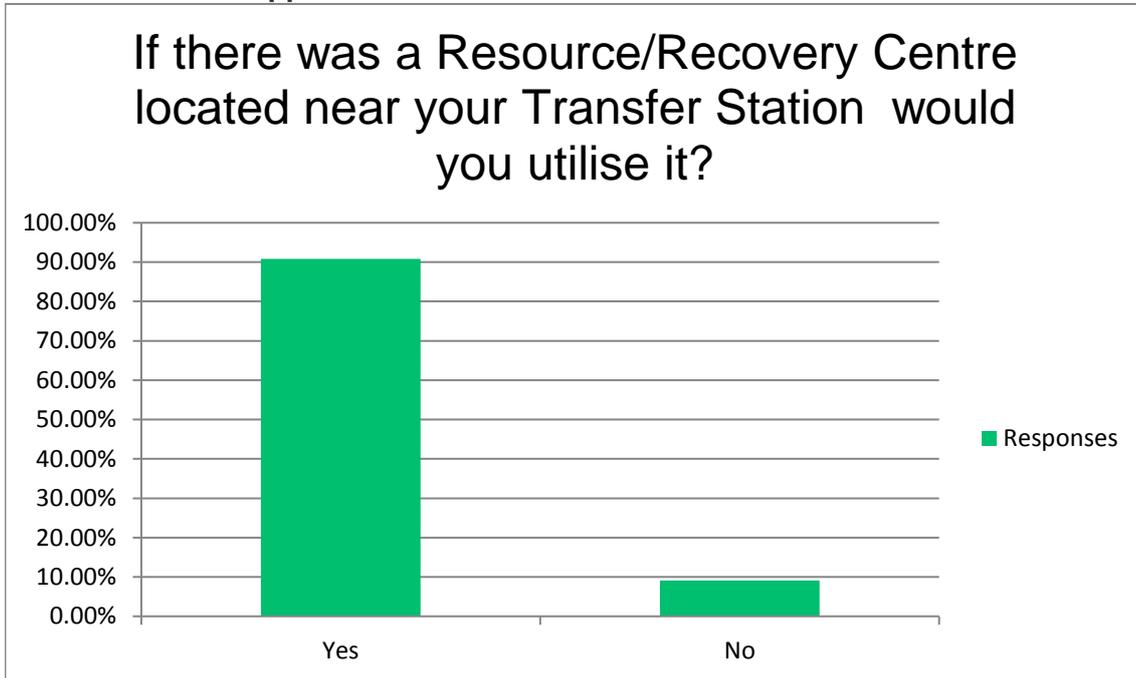

Q 16 again need to be able to select multiple items, some op shop, some gift,

42 Nov 07 2017 10 some freecycle etc, so I can't tick just one

43 Nov 07 2017 07 Try give them to others or throw them in the dump

Q18 Wairarapa Waste Minimisation Survey#ZeroWasteWairarapa

# Q19 Wairarapa Waste Minimisation Survey#ZeroWasteWairarapa

## What type of items would you deposit or like to obtain from a Resource/Recovery Centre?

Answer Choices	Responses
Furniture	19.55% 95
Small household items	22.02% 107
Push bikes	1.65% 8
Lawnmowers and parts	1.44% 7
Shelving	0.41% 2
Whiteware parts	2.67% 13
Building Materials	9.05% 44
Plants	4.73% 23
Other (please specify)	38.48% 187
<b>Answered</b>	<b>486</b>
<b>Skipped</b>	<b>33</b>

Respondents	Response Date	Other (please specify)
1	Dec 06 2017	0 All of the above. Deposit only. Give to the needy.
2	Dec 05 2017	1 All of the above
3	Dec 05 2017	0 deposit weed / plant waste not composted or chipped - little of other items
4	Dec 05 2017	0 I restore Vintage vehicles and try to use original parts.

- 5 Dec 05 2017 0 Multi items
- 6 Dec 04 2017 1 all of the above
- 7 Dec 04 2017 0 Any items that could be reused or rehomed
- 8 Dec 04 2017 0 All the above.
- 9 Dec 04 2017 0 We believe in reusing alot of items - so most of the above.
- 10 Dec 04 2017 0 All of the above
- 11 Dec 04 2017 0 Most of the above
- 12 Dec 04 2017 0 all of the above
- 13 Dec 04 2017 0 I would like to occasionally get furniture, plants, small house items etc
- 14 Dec 04 2017 0 All of above if required  
All of the above. In CHCH we have the "The Eco Store" it is a great place to
- 15 Dec 04 2017 0 pick up stuff.
- 16 Dec 04 2017 0 Old Tv - furniture etc
- 17 Dec 04 2017 0 Depends
- 18 Dec 04 2017 0 Everything listed
- I can only tick one thing in these questions which is quite annoying actually. I would deposit any of the above to the Recovery Centre. Some of my most favourite items in past times were from the 'tip shop' and before Carterton crunched everything up I have reused quite a few windows and doors from the tip there, scavenged timber for various house repairs, a bookcase, stool, table etc etc. I hate looking at the pit nowadays, it's a sad testament to our disposable society. Can we not get some regional development fund support to create jobs by re-purposing as much as possible and selling for small amounts to support Foodbank etc or at least recycling what we can as far as
- 19 Dec 04 2017 0 e waste and metal goes.
- 20 Dec 04 2017 0 All thee above again haha
- 21 Dec 04 2017 0 Should give multiple options on this question  
Although I have answered No to the previous question, that is only because it is too far away from the village. Otherwise I would be interested in all of the
- 22 Dec 04 2017 0 above.  
furniture, small household items, building materials to deposit
- 23 Dec 04 2017 0 shelving and plants to obtain
- 24 Dec 02 2017 0 Any of these things I probably would deposit if none of my kids wanted it.  
Any, or all of the above. Some of these questions should allow multiple
- 25 Dec 02 2017 1 responses.
- 26 Dec 02 2017 0 Plants and building materials.

Good grief, who put this together? Furniture, small household items, building materials

27 Dec 01 2017 0 materials

28 Dec 01 2017 1 Potentially all the above

29 Dec 01 2017 0 All of the above

30 Nov 30 2017 0 Would deposit any of the above if or when needed

31 Nov 30 2017 1 Various

32 Nov 29 2017 1 everything

Only let me select one so - I'd visit consistently to see what was available.

33 Nov 29 2017 0 Plants, shelves, small items

34 Nov 29 2017 0 Many

35 Nov 29 2017 0 All of the above items

36 Nov 29 2017 0 All

37 Nov 29 2017 0 Anything

38 Nov 29 2017 0 All the above

39 Nov 29 2017 0 All the above

40 Nov 29 2017 1 All of the above as required

41 Nov 29 2017 1 none

42 Nov 29 2017 0 All of the above

43 Nov 29 2017 0 Everything I couldnt fix or reuse

44 Nov 29 2017 0 All of the above

45 Nov 28 2017 1 All of the above

46 Nov 28 2017 1 All of the above

Many items to reuse. Building materials would be great!

Could encourage people to consider the option, by using buy/sell pages on facebook and trademe to sell the items.

47 Nov 28 2017 1 facebook and trademe to sell the items.

48 Nov 28 2017 1 All of the above

49 Nov 28 2017 1 All the above!!!

50 Nov 28 2017 0 Anything useful

51 Nov 28 2017 0 Most of the above at some stage

52 Nov 28 2017 0 All the above!

53 Nov 28 2017 0 All of the above

54 Nov 28 2017 0 all of the above

55 Nov 28 2017 0 Furniture, household items

56 Nov 28 2017 0 Everything above

57 Nov 28 2017 0 Don't know

Pretty much all of the above if I am able to turn it to my use I can, I have and

58 Nov 28 2017 0 I enjoy doing it.

59 Nov 28 2017 0 All of the above....Stop limiting our choice

- 60 Nov 28 2017 0 All of the above
- 61 Nov 28 2017 0 More than one of the above, as we need them  
All the above, there is always I take back even now, people put things on side
- 62 Nov 28 2017 0 and it is often useful
- 63 Nov 26 2017 0 Mixture of the above
- 64 Nov 26 2017 0 You need to set the survey up so we can tick more than one item  
All of the above, and then some! Masterton once had a facility along these
- 65 Nov 25 2017 1 lines but went backward.
- 66 Nov 25 2017 0 Any of the above
- 67 Nov 25 2017 0 all of the above  
Second hand places are not interested in taking on most of the above listed items anymore. A resource/recovery center could fill that gap. However where would staff wages come from and how would items be transported from A to
- 68 Nov 24 2017 0 B? Hopefully not via increased rates.
- 69 Nov 24 2017 0 (why can't you choose more than one?????!!) all of the above
- 70 Nov 24 2017 1 all of above
- 71 Nov 24 2017 0 All of the above would be of interest.  
hard to say, but I would take in what I no longer needed so someone can
- 72 Nov 23 2017 1 benefit from it  
Many of the above but the single tick option does not permit a full response to
- 73 Nov 23 2017 0 question!
- 74 Nov 23 2017 0 All of the above.
- 75 Nov 23 2017 1 All of the above
- 76 Nov 23 2017 0 All of the above  
Anything needed or wanting to get rid of at the time really. Why can you only
- 77 Nov 23 2017 0 tick one option?  
You need to make these questions multi answer - furniture, household items,
- 78 Nov 22 2017 0 bikes, plants
- 79 Nov 22 2017 0 Plant Containers or anything that could be used as such
- 80 Nov 22 2017 0 All of the above  
All of the above
- 81 Nov 22 2017 0
- 82 Nov 22 2017 0 All of the above
- 83 Nov 22 2017 0 Any of the above, depending on what project I was doing
- 84 Nov 22 2017 0 All of the above
- 85 Nov 22 2017 0 Furniture, plants. household items.
- 86 Nov 22 2017 0 All of the above

- 87 Nov 22 2017 0 would like to tick all of these
- 88 Nov 22 2017 0 All of the above
- 89 Nov 21 2017 1 All of above
- 90 Nov 21 2017 0 all of the above
- 91 Nov 21 2017 0 all  
 Qu 13 and this Qu 19 need to be able to allow more than one box to be ticked.
- 92 Nov 21 2017 1 Small household items, push bikes, plants
- 93 Nov 21 2017 1 the majority of the above
- 94 Nov 21 2017 0 All the above
- 95 Nov 20 2017 0 All  
 I would look for furniture, household items, shelving and building materials. I would deposit paint and some things like bikes I no longer use and possibly
- 96 Nov 20 2017 0 camping things
- 97 Nov 20 2017 1 plants, building materials, furniture, shelving, small household items
- 98 Nov 20 2017 1 most of the above, can't choose more than one.
- 99 Nov 20 2017 1 A mixture of the above: furniture, small household items, shelving
- 100 Nov 20 2017 0 all of the above  
 this doesnt let me tick multiple items!
- 101 Nov 19 2017 0 Bikes, building materials. whiteware, small household items
- 102 Nov 19 2017 0 all of the above, treat it like a garage sale
- 103 Nov 19 2017 0 Small household items, building materials, plants, whiteware parts
- 104 Nov 19 2017 0 any of the above
- 105 Nov 19 2017 0 All of the above
- 106 Nov 19 2017 1 Most of the above but I was unable to tick more than one.
- 107 Nov 19 2017 1 all of the above
- 108 Nov 19 2017 0 Everything - these are great and we really need one in the Wairarapa!
- 109 Nov 18 2017 0 All of the above and clothes.  
 Any of the above categories plus more random items!  
 I managed recycling centre in Hamilton and the "dump shop" became too
- 110 Nov 18 2017 1 busy for the site....HUGE DEMAND FOR THIS!!  
 This survey has no option to tick multiple answers so I am choosing other. I would deposit and obtain multiple items listed. I would obtain Building Materials, bikes and bike parts, plants and anything else that caught my eye
- 111 Nov 18 2017 0 really.  
 Lots of things. What a great idea. Is this sort of like a dump shop like they
- 112 Nov 17 2017 0 have in Porirua?
- 113 Nov 16 2017 0 most of the above. I think this wouyld be a great idea

114 Nov 16 2017 0 may of above but can only tick one category

115 Nov 16 2017 0 All of the above

116 Nov 16 2017 1 All of the above

117 Nov 16 2017 0 anything and everything

118 Nov 15 2017 0 Most of the above to deposit

119 Nov 15 2017 1 most of the above

120 Nov 15 2017 0 All of the above

121 Nov 14 2017 0 everything mentioned

122 Nov 14 2017 0 all of them

123 Nov 14 2017 0 All of the above

124 Nov 13 2017 1 all from above

125 Nov 13 2017 0 all of the above

This should be a multi choice question. I would deposit and potentially obtain

126 Nov 13 2017 0 all of the above.

127 Nov 13 2017 0 All of the above!

128 Nov 13 2017 0 All of above

129 Nov 13 2017 0 all of the above

130 Nov 13 2017 0 Most of the above

131 Nov 13 2017 0 All the above

132 Nov 13 2017 0 Once again this is not useful as it will not allow multiple entries.

The above plus clothing

133 Nov 13 2017 1

Though I ticked yes for Resource Recovery Centre we need to make sure we don't compete with the same services like Vinnies or the Salvation Army shop.

In a small town we need to be working together collaboratively not competing

134 Nov 12 2017 0 otherwise we will cause market failure

135 Nov 12 2017 0 All of the above

136 Nov 11 2017 0 if there was a kerbside delivery, like there used to be I would utilise this

137 Nov 11 2017 0 Yes

138 Nov 11 2017 1 All of the above

139 Nov 11 2017 0 All of the above except for plants (can't tick more than one box!)

140 Nov 10 2017 0 All of the above

141 Nov 10 2017 0 All of the above

142 Nov 10 2017 0 Most of the above items from time to time.

143 Nov 10 2017 0 All the above

144 Nov 10 2017 0 all of the above occasionally

- Any and all of the above! Depends what interesting things could be found - sometimes going to the dump is about seeing the interesting things that are dumped. I know of people who get creatively inspired by things they find at the dump. I also know that it can be useful for finding things like a
- 145 Nov 10 2017 0 replacement shelf for your fridge or oven etc
- 146 Nov 10 2017 0 Potentially all the above
- 147 Nov 10 2017 1 household things I have replaced, tv, computer, bike etc
- 148 Nov 10 2017 1 all of the above
- all of the above. I especially would like if Council partner/support/initiate a
- 149 Nov 10 2017 1 bike repurpose centre in each town for our children and their families.
- 150 Nov 10 2017 0 All of the above
- 151 Nov 10 2017 0 All of the above
- All of the above. Having access to recovered resources would be very helpful. My observation is there is a large amount of reusable material going into the landfill area at the Wairarapa transfer stations. Reuse of that material should
- 152 Nov 10 2017 0 be encouraged.
- all of the above!! - why can you only choose one item for all these survey
- 153 Nov 10 2017 1 questions??
- 154 Nov 09 2017 1 Many of the above
- 155 Nov 09 2017 0 All of these! And more
- LOVE opshops and often visit Wellingtons Happy Valley and Porirua Trash Palace. You can find all sorts of stuff! So much gets thrown out here it's
- 156 Nov 09 2017 0 criminal. Usually after household bits n bobs.
- 157 Nov 09 2017 0 All above and more
- 158 Nov 09 2017 0 All of these
- 159 Nov 09 2017 0 All of the above
- everything. I have been asking for the last 4 years for something at Carterton tip. The last time I was there - before the items went in the pit, I got 4 containers of plants, 20 plastic pots, a plastic trough, 2 large terracotta planters and a spinning wheel. This would have gone in the tip which I think is
- 160 Nov 09 2017 0 appalling
- 161 Nov 09 2017 0 All of the above
- 162 Nov 09 2017 0 All of the above.
- 163 Nov 09 2017 0 Mattresses
- 164 Nov 09 2017 0 Anything that is not allowed in general rubbish
- 165 Nov 09 2017 0 All of the above , anything that's reusable
- 166 Nov 09 2017 0 Any of the above as appropriate.

Wish we could choose multiple answers! Used to use the Wellington South Coast shop a LOT, so most of the above. Building materials may be a challenge in a smaller population, but bricks etc would work

167 Nov 09 2017 0 Building materials; furniture; small household items; plants; push bikes etc.

168 Nov 09 2017 0 small household items, furniture, building materials

169 Nov 09 2017 0 everything

170 Nov 09 2017 1 All of the above

171 Nov 09 2017 1 all of the above

172 Nov 09 2017 1 x

173 Nov 09 2017 1 As much as we could - all of the above items.

174 Nov 09 2017 1 Potentially any of the items listed

175 Nov 09 2017 1 All of the above

176 Nov 09 2017 1 All of the above

177 Nov 09 2017 1 Most of the above.  
small household items, building materials, plants. this question only allowed me to select one option!

178 Nov 09 2017 0 All of the above

179 Nov 08 2017 0 All sorts, many of the above

180 Nov 08 2017 0 All of the above

181 Nov 08 2017 1 All the above  
Building materials AND plants AND old furniture and whatever was of use.  
WHY THE HELL are you only letting people pick one option? That's going to give a very skewed and misleading result.

182 Nov 08 2017 1 All of the above

183 Nov 07 2017 1 Most of that above. Again, you have not allowed multiple answers

184 Nov 07 2017 1 various - can't select more than one above

## Q20 Wairarapa Waste Minimisation Survey#ZeroWasteWairarapa

**We encourage you to provide any further ideas regarding reducing reusable waste in our landfill:**

**Answered 197**

**Skipped 322**

Respondents	Response Date	Responses
1	Dec 06 2017 0	Should have a 'Shop' at the tip where items can be given or sold perhaps
2	Dec 05 2017 0	ban plastic bags and stop putting meat fruit and veg in plastic trays regular kerbside opportunities to have reusable waste picked up. People will just throw stuff in the
3	Dec 05 2017 0	refuse bin if it's easier than going to a transfer station The council needs to make business recycling much easier i.e. bot having to seperate out
4	Dec 05 2017 0	recycling before it's collected.
5	Dec 05 2017 0	Run competitions at schools
		I am rural and have no Kerbside collection. The transfer station is out of the way and often closed when I could get to it. You need a car to get there too. At my work in town the recycling truck will not collect as they say the access is too difficult and i need to put my bins out with another business. this is highly inconvenient and the bins are not weather tight, so we could have rubbish blowing all over the place in high winds. We are able to purchase collection of cardboard but no business that I know of picks up cans and bottles. We are a cafe, so we have plenty of that sort of waste. we used to use the recycle depot in town behind the clocktower. I believe it was well patronised but needed regular monitoring and emptying. I understand the sound of bottles being deposited caused a nuisance to the nearby police accommodation. Anyway, my point is,a convenient central frequently emptied recycling depot would be appreciated
6	Dec 04 2017 1	as complement to the current roadside collection. And wheelie bins would be easier.
7	Dec 04 2017 1	n/a building material would be a very useful resource - we often see things being through away at the
8	Dec 04 2017 1	Transfer station that we might have used, wood , wire etc I would have ticked more boxes under Q19 but was not allowed to! This questionnaire should have
9	Dec 04 2017 0	been tested more before putting it out ,,,,
10	Dec 04 2017 0	Visit AVR Rotterdam Holland for inspiring innovation on waste management Bring back the place where you can drop off and collect items for free or cheap such as old chairs
11	Dec 04 2017 0	and furniture and sport equipment etc. at the dump. (Masterton Dump though) Corrigated Iron - re sell - lots of people will reuse this.
12	Dec 04 2017 0	

- 13 Dec 04 2017 0 again if I could have clicked on more than one option for the previous question i would have
- 14 Dec 04 2017 0 hooper.damian@yahoo.co.nz  
 Maybe having meetings for locals to attend that highlight the impact on our own local environment,
- 15 Dec 04 2017 0 and letting people know the other options that are available.
- 16 Dec 04 2017 0 N/a  
 i suggest you contact the eco store and find out how successful it is. Creates lots of jobs for the region also. its a very positive thing. People donate paint, bricks, pavers, old tables beds,
- 17 Dec 04 2017 0 gardening tools. its so useful.
- 18 Dec 04 2017 0 Nothing thanks  
 Everyone thinks it's the consumers fault and wants us to pay, but the real problem is with the producers and manufacturers. They need to pay for their packaging and waste - and also need an incentive to make their products last longer before needing to be replaced. I find it odd that cucumber growers need to wrap them in plastic before selling - their needs to be a plastic tax to
- 19 Dec 04 2017 0 stop them. For that matter why do put bread in plastic bags?
- 20 Dec 04 2017 0 Nothing further to add, thank you.
- 21 Dec 04 2017 0 Expand items that are currently collected
- 22 Dec 04 2017 1 Basically anything that an "op type" shop would not want
- 23 Dec 04 2017 0 See my suggestions above  
 Have we looked at other towns and cities who have reduced waste or recycled better to reduce land fill? Both what worked well and what didn't so we don't repeat the same mistakes ... although I have to admit I think it is unlikely local government would be so astute  
 How are we working with other councils in NZ and supermarkets to reduce packaging? Or have
- 24 Dec 04 2017 0 recyclable packaging? Also with fast food outlets?  
 Maybe making a bi annual date that people can kerbside their unwanted items. Even making the day before available for people to drive around and collect anything they like from the piles. Good
- 25 Dec 02 2017 0 of repurposing.
- 26 Dec 02 2017 0 Ban the (plastic) bags! ..  
 Definitely a push and incentives for people to do their own organic waste composting plus access to e-waste and battery disposal. A plan to deal with packaging especially bad stuff like
- 27 Dec 02 2017 1 polystyrene.  
 I've often seen people taking an interest in the whiteware and old machines thats been dropped off at the Carterton station. I'm sure if this was set up differently more of this waste would find a new home or purpose.  
 In parts of Europe supermarkets play a part in helping reduce waste by starting with the manufacture; - Supplying items that don't have so much packaging and/or getting it returned to the
- 28 Dec 01 2017 1 place that created it.

- 29 Dec 01 2017 0 no  
work with the supermarkets and other local business like Breadcraft to reduce their plastic
- 30 Dec 01 2017 0 packaging, especially plastic tag ties used to keep plastic bags closed.  
Ban wheelie bins for refuse, or set up a central system to recycle the contents. They encourage
- 31 Dec 01 2017 0 laziness and putting everything in because of the room without recycling.
- 32 Nov 30 2017 1 Emulate the trash palace business model from Porirua City and employ more people too
- 33 Nov 30 2017 1 Increased education, publicity and literature on the subject matter  
Have simple leaflets that show folk how to recycle and alternative to throwing stuff out. Old carpet might be used on garden etc and a place where people can log their interest in obtaining others unwanted stuff. I may have a load of old wire and maybe someone wants old wire. Maybe a car boot opportunity once every 3 months and you get to bring your booty and others just get to take it - that way if no takers you take it home and try again next time but all the stuff does not end up at
- 34 Nov 30 2017 1 tip.
- 35 Nov 30 2017 1 recycle/recovery centres would be a great idea to recycle within the community.  
be more explicit in what can be recycled and have the information on what can be recycled
- 36 Nov 29 2017 1 everywhere so that people aren't left wondering and so just dump in the rubbish.
- 37 Nov 29 2017 1 no
- 38 Nov 29 2017 1 Free dump days regularly  
People need to be able to get rid of easily....eg...some folk don't have access to taking old washing machine to a centre.  
  
What about popping items out on kerbside.
- 39 Nov 29 2017 1 We did that in Chch....works well  
Most of my waste comes from packaging. I'd like to see a bulk bins grocery here so i can use my own containers and to see our local retailers choose low packaging options. I also visit the op shops  
I think education and creating 'community spirit' to keep our waste low may change some minds.
- 40 Nov 29 2017 0 Reuse is much more valuable than recycling  
  
Please reduce the cost of green waste!!!!!! I have no problem if you put up the cost of those who take heaps of rubbish to the dump and don't recycle or have green waste, the deserve to pay for
- 41 Nov 29 2017 0 their choices, but please it's a dump charge to those who get ride of garden waste.
- 42 Nov 29 2017 0 Charge farmers! Get on top of those rubbish holes on farms-they should be fined!  
  
A place with supervision that these things can be sorted and there for others to re-use . So many things are tossed out by lazy people in my husbands words . We are on holiday at present in
- 43 Nov 29 2017 1 Sydney and household goods no longer wanted are put on kerbside for people to take for free .

- Smaller communities need recycling too like Castepoint! I don't understand for one of our main attractions doesn't already have it! They should all have descent rubbish and recycling available Charge less for dumping, such a rip off when used to be free to dump. It used to be free then add charges up up up \$78 to dump trailer disgusting on top of my \$45 a week rates we pay, why do
- 44 Nov 29 2017 1 rates rise EVERY year? Give heaps get nothing back!
- 45 Nov 29 2017 1 Do not put groceries in plastic bags, use paperbags....
- 46 Nov 29 2017 0 Wgtn central has a great reusable waste shop
- 47 Nov 29 2017 0 I think you need good recycling facilities at all out lying villages like the containers with holes for different things, plastic,glass, cardboard etc, there is too much being thrown away on the side of the road
- 48 Nov 29 2017 0 Would be good to establish a plastics recycling plant in the region.
- 49 Nov 29 2017 0 Stop wasting things that work!
- 50 Nov 29 2017 0 Making a community effort to be more sustainable
- 51 Nov 29 2017 1 The wheelie bin for recycling is the best idea I've heard for a while
- 52 Nov 28 2017 1 Not at moment
- 53 Nov 28 2017 1 No
- 54 Nov 28 2017 1 Go to Waicol and get them to recycle properly. They don't do it in all areas
- 55 Nov 28 2017 1 Having a person available at the point of disposal to advise the public their best options would be a great help to many who are unsure of what is reusable or can be recycled.
- 56 Nov 28 2017 1 I think more people well use wheelie bins if the cost could come down
- 57 Nov 28 2017 1 Promote upcycling. A community run or adult school group on educating people on basic repair and maintenance of household items. Educate people on where their rubbish goes when thrown out. More information on the "death" cycle of a product in landfill and just how long it takes to break down.
- 58 Nov 28 2017 1 The 3 wheelie bin system in Chch is excellent. Plus an eco store for reusable or repurposed items
- 59 Nov 28 2017 1 We need to open up a tip shop to sell items that are reusable at the tip
- 60 Nov 28 2017 1 There should be separate disposal areas for eg wood, metal/steel etc similar to the different coloured glass bins instead of just throwing everything into the transfer station.
- 61 Nov 28 2017 1 The idea of a resource/recovery centre is fantastic!!! Do it!!!
- 62 Nov 28 2017 0 Recycle all that timber that goes in there.
- 63 Nov 28 2017 0 I would like to our plant grow into a all perpiss recycling depo one stop shop
- 64 Nov 28 2017 0 Keep expense of disposal low as poss please. Large items need collection. I dont have muscle or transport
- I'd like to see people encouraged to use the landfil but make the prices cheaper so people can
- 65 Nov 28 2017 0 afford to take a trailer or carload and no everyone knows that you can do it on a weight basis.

- Education & encouragement - many people don't know exactly what can & cannot be recycled.
- 66 Nov 28 2017 0 Start teaching the children so they carry good habits into adulthood.
- 67 Nov 28 2017 0 None
- 68 Nov 28 2017 0 Please have a dump shop
- 69 Nov 28 2017 0 N /A
- 70 Nov 28 2017 0 Recycling
- 71 Nov 28 2017 0 NO
- 72 Nov 28 2017 0 Nothing
- The free kerb side non-organic waste collection once a year would be a massive help.  
Or substantially reduce what it costs to currently go to the landfill or supply a small number of free passes yearly for each household to take rubbish to the landfill.
- 73 Nov 28 2017 0
- Charge more?
- 74 Nov 28 2017 0 Get kids involved, they sometimes help change the views of their parents and family
- Building waste makes up a lot of it and if we would use more reusable material or non toxic wood we could put it into the fire place, still so I suggest we give hobby builders the change to recycle, in Germany the rules are very strict and you are unable to just through out a wild mixture of things...if you do the skip costs heaps more, so it's important that there is more education and that we sort
- 75 Nov 28 2017 0 the rubbish. Also fines in dumping rubbish gave to go up.
- 76 Nov 27 2017 0 Do it too
- A resource/recovery centre is a great idea as some things are not worth selling but tricky to
- 77 Nov 26 2017 0 dispose of, especially bulky items
- If it was easier to use the recycling centre located at the landfill this would make a huge difference.  
Currently to use this service on a weekend it involves queuing with all the people waiting to use the
- 78 Nov 26 2017 0 landfill and what could be a simple process takes a very long time so many people do not bother.
- 79 Nov 26 2017 0 Please put recycling bins in the towns
- Provide a facility for drop-off and pick-up of reusable items! Anyone who remembers the free collection days for rubbish will know how much was recycled before it was officially collected for
- 80 Nov 25 2017 1 landfill.
- 81 Nov 25 2017 1 A big change in how food and other items are packaged in shops
- 82 Nov 25 2017 1 Allow 24/7 access to recycling depo, current hours are a joke.
- the volume of waste to landfill is not the biggest problem it is the waste that is not going to landfill
- 83 Nov 25 2017 0 that is costing us and the environment.make packing useful .say make landfill liners out of it
- 84 Nov 24 2017 0 reduce cheap crappy imports. Who wants to have a used item if you can buy it new for very little.

Are you talking to businesses? We need you to talk to them to get them on board to reduce waste. Veges do not need to be wrapped in plastic, put on a polystyrene tray, then wrapped in more plastic!!! talk to fresh choice and all the other supermarkets about that PLEASE. Takeaway

- 85 Nov 24 2017 0 joints, please talk to them to encourage them to use biodegradable containers.
- 86 Nov 24 2017 0 All the items on the previous list would be cool to be able to reuse through a transfer station
- 87 Nov 24 2017 1 just that it is essential that it becomes an everyday lifestyle
- 88 Nov 24 2017 1 Education. Lots of it & often
- Keep charges to an absolute minimum to encourage correct use of landfill and avoid roadside
- 89 Nov 23 2017 0 dumping or expecting Op Shops/Salvation Army to dump on behalf of other Sports!
- 90 Nov 23 2017 0 Separate everything for recycle or for people to buy
- Bring back small amount money in exchange for bottles etc to encourage young people to recycle, rather than through out widow and waste. Put a small \$ per item and there would be no
- 91 Nov 22 2017 1 waste.
- have a hazardous material collection. I was completely shocked when I was told to throw my
- 92 Nov 22 2017 0 batteries out in the rubbish!
- "fix it" centres where you can take items and learn how to repair them rather than throwing them
- 93 Nov 22 2017 0 out
- 94 Nov 22 2017 0 That would be a fantastic idea to have a Resource/Recovery centre.
- 95 Nov 22 2017 0 N/a
- Please can you consider putting a recycling depot in the Opaki area. Much more recycling will get
- 96 Nov 22 2017 0 done if this option was available in our area.
- Encourage people to take their green garden waste
- 97 Nov 22 2017 0 to the land fill, not trees etc, perhaps weigh the trailers?
- I went into my local council office to enquire after biodegradable dog poo bags as these had been mentioned in an article regarding boomerang bags only to be told that the council don't sell them - they also told me the council bags that go in the landfill were not biodegradable either. This is very
- 98 Nov 22 2017 0 disappointing
- Encourage worm farming at schools and kindies. Food waste collection from businesses like
- 99 Nov 22 2017 0 restaurants.
- 100 Nov 22 2017 0 Make the area plastic bag free. Either paper sacks for road side waste or wheely bins.
- 101 Nov 22 2017 0 cant think at the moment
- 102 Nov 22 2017 0 Why not a set up like Wanaka. This survey didnt give you multiple options. Too limited.
- Have the facility to recycle plastic bags - ie shopping bags and vegetable bags obtained from the
- 103 Nov 22 2017 0 supermarket.
- 104 Nov 22 2017 1 More zero waste infomercials and promotions across all media
- 105 Nov 21 2017 1 Run publicity campaign, display some examples of poor waste disposal/recycling.

- 106 Nov 21 2017 0 Open a building or area with reusable items such a shame it disappeared from the dump
- 107 Nov 21 2017 0 Free rubbish bags  
Mountains of building waste is going in skips at all the building sites (Feist, Hartley St etc). Could
- 108 Nov 21 2017 1 be collected and used or recycled  
Green waste should be free to dump as it is sold back to us as compost anyway.
- 109 Nov 21 2017 1 Tetra paks should be able to be recycled  
maybe by starting doing that thing where people can put out their unwanted goods (furniture etc)
- 110 Nov 21 2017 0 by the gate and others can drive around pick up things they want for free
- 111 Nov 21 2017 0 Nil
- 112 Nov 21 2017 0 No  
Any recovery centre would need to be in partnership with those already operating within the
- 113 Nov 20 2017 1 township, it would be unforgivable to remove from those charities a source of funding.
- 114 Nov 20 2017 0 N/A
- 115 Nov 20 2017 0 no
- 116 Nov 20 2017 0 No  
If all recycling and composting is free I think people would use it more. Our current crate system is hard for our elderly so a wheely bin for them would be better also things get wet in the crate. I also
- 117 Nov 20 2017 0 dont understand why bubble wrap is not recyclable mine has been returned to me.  
This survey doesn't allow me to tick multiple options nor to proceed to next question if not
- 118 Nov 20 2017 0 applicable to me.  
Perhaps a column could be run in the local free paper featuring local peoples ideas for the use of
- 119 Nov 20 2017 1 recycled items. A lot of people just have no idea that items can be reused and repurposed.
- 120 Nov 20 2017 0 a decent wheelie bin service would be a start  
Having a recycling station in town or somewhere else would be good so people can get rid of
- 121 Nov 20 2017 0 excess recycling before pick up day
- 122 Nov 19 2017 0 Find out how other countries do it better - Germany?  
Business Accreditation for Low Waste. Something that could act as a marketing tool for business
- 123 Nov 19 2017 0 to show social responsibility.
- 124 Nov 19 2017 1 Use Giveaway facilities which already exist including the recent addition of Neighbourly.  
Having a "dump shop" like the "trash palace" in Porirua. Not only would it reduce waste in the land
- 125 Nov 19 2017 1 fill but it would also create new jobs and stimulate people's creativity through "up-cycling"
- 126 Nov 19 2017 0 companies that produce plastic should be responsible for its disposal (like in parts of Europe)  
I'd like to see periodic collection of hard garbage ie larger items no longer required in a household,
- 127 Nov 18 2017 1 put out for collection by either other town folk taking it or appropriate collector.

- I think there needs to be a staffed recycle centre on site at the land fill open to the public. A
- 128 Nov 18 2017 0 community orientated service to encourage awareness of the issue of reducing waste.
- 129 Nov 18 2017 0 A centre at the Transfer station would be good, convenient.
- Tyres, oil, paints, timber to be recycled. Clothing bins & linen bins for reuse. teach people how to
- 130 Nov 18 2017 1 upcycle in the community, eg: tyre gardens & furniture
- Having a look at other NZ initiatives, like Raglan, Resource Centre in Whanganui etc . Get the community buy in and help, like the Boomerang Bags crew. Green up the local events by having recycling bins for plastic and cans next to the regular bin. These will probably need a volunteer stationed by them to start, but people will catch on. Have a council run sustainability stand at
- 131 Nov 18 2017 0 events, AMP Show etc. Make yourselves and the issue visible.
- 132 Nov 16 2017 0 let people take stuff at no charge that you have at your recycle yard and reuse it if they want.
- 133 Nov 16 2017 0 Penalties to obvious reciverous wasters
- Please, no more plastic bags at the supermarkets. Sometimes I see people using a dozen or
- 134 Nov 16 2017 0 more bags for each trip. If there was a cheap (\$1 to \$2) reusable option it might catch on quicker.
- 135 Nov 16 2017 1 rural areas pay rates and have minimal disposal facility
- Maybe have large skips at the tip face like they do in other places, where people can throw and seperate their waste as they unload. Of course then you need to ensure that each skip then has somewhere to go on to. E.g steel, wood, building materials. Maybe those who can't afford wood in the winter could have access to the wood pile for free. Those looking for bits and pieces for small building projects could have free aces to that. This would reduce what going in to the landfill and reducing waste. Definatly a reuse place for reusable househols items. Education, teaching schools and kids about the importance of this stuff, taking then to the landfill, showing then,
- 136 Nov 16 2017 1 aligning to the curriculum.
- 137 Nov 16 2017 0 kerbside inorganic collection by public
- make it easier for people to get things fixed. theres a big movement out there at the minute of people who dont want to buy a new kettle but just want the old one fixed of course there are lots of others who just want new! make it easy and cheap for people. unfortunately people dont want to spend money on recycling as they think its a waste, hense we have to many people just dumping
- 138 Nov 16 2017 0 rubbish around town
- 139 Nov 16 2017 0 No
- Other ideas include public recycling bins as well as rubbish bins, no incentive to recycle when out
- 140 Nov 15 2017 0 and about.
- 141 Nov 15 2017 1 reuse / recycle / maybe a small incentive such as a small annual % of your rates (under 5%)
- 142 Nov 13 2017 1 coordinate with groups such as Colgate,tetracycle so people can recycle more things

increase the dumping fee for people who have mixed loads to encourage them to stop and recycle on the way to the tip face

143 Nov 13 2017 0

144 Nov 13 2017 0 Having free dumping services

Make it clearer on what can/cannot be recycled. Workshops on how to reduce, reuse and recycle.

145 Nov 13 2017 0 Educate on what happens to our recycling.

146 Nov 13 2017 0 No

Unfortunately this survey will not provide good data as it will not allow multiple entries where these are clearly relevant, such as questions 13 and 19.

148 Nov 12 2017 0 POLYSTYRENE DROP OFF

149 Nov 12 2017 0 Local flea markets

1. Consider hosting a continuous eDay event (see <http://www.eday.org.nz/> though it seems discontinued years ago).

2. Include wider range of e-waste in the scope of the programme, i.e.

- Computer, laptops, tablets and their accessories

- Cameras, mobile phones

- Printers

- General consumable: cables, batteries, light bulbs/tubes, CD/DVD (CD-R/CD-RW/DVD-R/DVD-RW)

150 Nov 11 2017 0 - Company electric/electronic instrument

A bit off subject; but reducing waste at source is a vital part of the reduce, reuse, recycle process.

Single use plastic bags, other plastic, excess packaging all should be minimised and/or removed

151 Nov 11 2017 0 from the system.

152 Nov 11 2017 0 Stop buying

Bad plastic bags have working bees to make items out of recycled items and sell them or give to

153 Nov 11 2017 1 the needy

154 Nov 10 2017 0 No

155 Nov 10 2017 0 No

156 Nov 10 2017 0 Encouraging less plastic packaging in food shops.

157 Nov 10 2017 0 na

Educate and encourage retailers to reduce packaging.

Target a campaign to visitors to the area

158 Nov 10 2017 0 Extend the pet waste containers to other areas

- 159 Nov 10 2017 0 Expand the types of items able to be dropped off, i.e. battery recycling at Dalefield Rd. Also expand the facility to enable drop off of items that may be useful to others rather than dumped in general waste.
- 160 Nov 10 2017 0 Educate us. We need to be informed on how to reduce waste, how to recycle and most of all we need options for EFFECTIVE recycling. Thanks
- 161 Nov 10 2017 0 Allow people to dump and remove what they see as treasures
- 162 Nov 10 2017 0 Make art/sculptures around the district from reused waste.  
have regular collections or be able to drop them off and let others have access to them if they need them
- 163 Nov 10 2017 1 This is a noble cause but you also need to gather ideas to reduce reuseable waste being dumped at road ends, river banks etc.
- 164 Nov 10 2017 1
- 165 Nov 10 2017 0 An area for house demolition/renovation items to be placed and repurposed or purchased at affordable prices...ie wood, windows, frames, chicken wire, bricks, corrugated iron etc...  
Fun, educational workshops and more encouragement and promotion of local businesses that make efforts to reduce their waste. If there is a way to record weekly/monthly waste deposits into the local landfills and keep track of it on social media or local newspapers it would be cool, so people could see if/when efforts are paying off
- 166 Nov 10 2017 0 Resource recovery areas at the transfer stations would be great. Even just a covered area where people can leave items that might have some reuse value would be a low cost option. Having an active recovery programme would be really good too but comes at a bit of cost. Some transfer stations have a recovery system with a little bit of cost recovery by charging minimal prices for items but these prices need to be low to encourage use. A free service would encourage more reuse.
- 167 Nov 10 2017 0 We are working hard to reduce use of single use plastic. A wheelie bin rather than a plastic bag for waste collection would be good.
- 168 Nov 10 2017 0 Get a collection for soft plastics going with these people: <http://www.recycling.kiwi.nz/solutions/soft-plastics> - they do Hutt/Welly/Kapiti, but not Wairarapa. Supermarkets and Warehouse are on board as collection points- needs council to get behind transport from collection to Wellington. Even better: commit to buying the products created from soft plastic re-use (bollards, outdoor furniture etc) so that instead of shipping it all to Oz, they can build a business case for processing in NZ.
- 169 Nov 09 2017 1 I would be so up for being involved in a plastic recycling workshop space in Featherston. Look at 'precious plastics' to see their shipping container workspaces - free plans are provided and it would be an amazing project for our town!
- 170 Nov 09 2017 0

- Opshop at the rubbish dump. Swap days for ppl to get rid of bigger items or ewaste. For example. Currently Looking for a table to cut the legs down and frame the edges. So if someone had a table with a broken leg... It would be ideal! One mans rubbish is another mans treasure. All the
- 171 Nov 09 2017 0 steampunk people are always looking for bits to embellish their creations!
- 172 Nov 09 2017 0 Educate people more! Look what other countries are doing; ie Norway, Sweden, Germany.....
- 173 Nov 09 2017 0 Make the local shops go plastic bag free  
set up a drop off point. Have a recycling day where people can bring stuff to Carterton tip (only
- 174 Nov 09 2017 0 recycling!) and not get charges
- 175 Nov 09 2017 0 A space at the transfer station where people can leave things for other would be helpful
- 176 Nov 09 2017 0 Urgent need for a tip side recovery centre
- Support Boomerang Bags as it helps people think about waste minimisation. Educate kids who
- 177 Nov 09 2017 0 educate parents. Separate/recycle bins on the main street to make it really visible & mainstream. Provide three separate wheelie bins (as in other areas) - glass and cans in one, paper in another and the third one general refuse which can't be recycled. Collection of wheelie bins is staggered - General refuse collected twice a month, glass/cans and paper collected once a month. Works well
- 178 Nov 09 2017 0 in other places.  
Each town needs a place to reduce or reuse reusable waste. A plastic shredding system at the Transfer stations. A second hand clothing collection to go to local op shops. A place to share
- 179 Nov 09 2017 0 information and ideas on how to reduce, reuse and recycle.  
encourage local retailers to cut back/stop handing out plastic bags. provide a letterbox sticker to
- 180 Nov 09 2017 0 each household to reduce unaddressed advertising (and reduce waste paper)  
make the area more user friendly. signs clearer and more obvious. Someone helpful to direct to the appropriate place even maybe to help trailer phobic people to back their trailer so as to not take up more space than needed. If the hours were more reasonable people may not rush in and dump where ever 2hours a day( when I am scared of the huge trucks) and sundays for two hours.
- 181 Nov 09 2017 0 Really!!! Not everyone goes to church.  
Have a shop that sells used product for \$2. It then doesn't get stuck in the shop for months and it's a quick turn over of product
- 182 Nov 09 2017 0 I'm a manager of a store but I'd be happy to manage this kind of store if you're looking ??  
this questionnaire only allows single answers when some questions are multiple answers. e.g e-
- 183 Nov 09 2017 0 waste  
A dump shop where goods that are thrown away at the dump are sold at cheap prices or given to
- 184 Nov 09 2017 0 people in need. profits given back to running of the shop  
Further (or begin) subsidising the Wairarapa Thrift Stores to increase their profile.  
I think they could actually become a drawcard for the Wairarapa. In terms of Wellingtonians
- 185 Nov 09 2017 1 coming over to fossick through the thrift stores for bargains/antiques.

- 186 Nov 09 2017 1 Anything that will reduce rates.  
Encourage recovery/reuse as much as possible. If someone can use it then it is not waste
- 187 Nov 09 2017 1 anymore.
- 188 Nov 09 2017 1 find out from schools and businesses what items they could re use or recycle
- 189 Nov 09 2017 1 We need to be doing as much as we can.
- 190 Nov 09 2017 1 Recycle where possible  
A larger transfer station which accepts more item than the current one. Less restrictive opening hours. Why do we not recycle batteries or at least dispose of them rather than just putting them in
- 191 Nov 09 2017 1 the landfill?
- 192 Nov 08 2017 0 It would need to be affordable  
I have three worm farms, two compost bins and three huge compost wooden crates. I throw out very little -- meat scraps and inorganic waste. But large items are very hard for me to get rid of as I only have a tiny car. I feel I do my bit but it would be wonderful if it were possible to dispose of bigger old items once or twice a year, such as old hedge clippers and other appliances, big bits of old furniture etc that are too hard for me to take to the transfer station without hiring a truck and
- 193 Nov 08 2017 1 labour to do it for me.
- 194 Nov 07 2017 1 Reward people for doing it rather than charging them for it  
Stop calling it waste. If it's reusable then call it a resource. Education. House the resource centre
- 195 Nov 07 2017 1 in the middle of town, not at the landfill / transfer station.
- 196 Nov 07 2017 1 take a course in survey writing :)  
Main street location and primary school where you can recycle. And education about recycling.  
Like can you recycle all plastic or does it need a triangle. Social media and a little of local
- 197 Nov 07 2017 0 newspapers
