

WAIRARAPA HEALTHY HOMES COMMITTEE REPORT 17 MAY 2012

There is currently a very heavy volume of enquiries for the Warm Up New Zealand Project. The local Energy Smart Wairarapa providers are working 7 days a week to get through all the installs and assessments. There are 10 houses to do before the end of June.

DHB referrals are low. There has been excellent feedback since SWDC placed an advert in the Rates Newsletter. Suggested that Carterton could put it in their newsletter too.

Chair Bob Francis indicated he will speak to SWDC Submission on behalf of Healthy Homes to secure the grant of \$12,000 for this worthwhile community project.

WAIRARAPA LIBRARY SERVICE MEETING 28 MAY 2012

These meetings are progressing well with input from all participants. Shirley is very pleased to be offering Books to Babies. Hopefully Lionesses will provide a Grant. A letter was received requesting that the Featherston Library be increased in size. This has come in as a Submission to the LTP as well. The Martinborough Yarns in Barns event was very successful. Both Sshirley and Ewan are on the organising committee. The main focus on the meeting was the Librarians report re the Library Management System with the National Library (Kotui) being the preferred option. Report and recommendation to go to Council.
