G4. The consent holder shall maintain a Community Liaison Group (CLG). The CLG shall act as a forum for consultation and liaison with mana whenua and the community and be used as a vehicle to provide information regarding the Featherston Wastewater Treatment Plant (FWWTP). More specifically the CLG shall be used to inform its members on:

a) The performance of the FWWTP relative to the conditions of this consent, including details from the Annual Monitoring Report

b) The results of wastewater monitoring, receiving water quality monitoring and the ecological survey as reported under the conditions of this consent as required by conditions DW6 to DW15

c) Complaints received about the operation of the FWWTP, and of any incidents, malfunctions or non-compliances as outlined in condition G19

d) Progress with upgrades in regard to condition G15

e) Improvements proposed to be made to the FWWTP, that will influence the quality of the treated wastewater

f) Progress on the Future Direction Report as required by condition G23
