PETITION

"Cap Rates for South Wairarapa: Cap 2025/26 Rate Increase at 3%

Principal Petitioner: Leah Hawkins SWfuturefocus@gmail.com 0274262286

We, the concerned ratepayers of South Wairarapa, petition the South Wairarapa District Council (SWDC). We are deeply concerned about the excessive Council rates increases that are putting financial pressure on local households and businesses that have exceeded national levels, with some rate payers facing 100% increases. As the Council plans for the future, we urge them to consider the following demands:

Specific Goals: Cap the 2025/26 rate increase at 3%, ensuring affordable and sustainable rates.

Desired Outcome:

1. - Operational Efficiency: Conduct a thorough review of Council operations to maintain total operating expenditure in FY 2026 at or close to the previous year's levels. Implement efficient budgeting and cost-saving measures
2. Priority Projects: Prioritise essential capital projects, including: - Improved wastewater treatment - Enhanced water supply quality - Road maintenance within an affordable and clearly-stated capital expenditure program for FY 2026-2028
3. Financial Security: Provide transparent and accountable financial management. Ensure the Mayor, Councillor's, and Local Governance Team to commit to supporting the financial security of local households and businesses, and fostering growth in the local economy.

By addressing these concerns, we aim to create a more sustainable and equitable financial future for South Wairarapa.

Sign this petition to urge SWDC to: - Cap the 2025/26 rate increase at 3%. -Adopt responsible financial management practices. - Protect our community's financial and economic stability.

Signatories: This petition is open to all concerned ratepayers, residents, and businesses within the South Wairarapa District.
Petition end date: 14 November 2024

PETITION

"Cap Rates for South Wairarapa: Cap 2025/26 Rate Increase at 3%

Principal Petitioner: Leah Hawkins SWfuturefocus@gmail.com 0274262286

We, the concerned ratepayers of South Wairarapa, petition the South Wairarapa District Council (SWDC). We are deeply concerned about the excessive Council rates increases that are putting financial pressure on local households and businesses that have exceeded national levels, with some rate payers facing 100% increases. As the Council plans for the future, we urge them to consider the following demands:

Specific Goals: Cap the 2025/26 rate increase at 3%, ensuring affordable and sustainable rates.

Desired Outcome:

1. - Operational Efficiency: Conduct a thorough review of Council operations to maintain total operating expenditure in FY 2026 at or close to the previous year's levels. Implement efficient budgeting and cost-saving measures
2. Priority Projects: Prioritise essential capital projects, including: - Improved wastewater treatment - Enhanced water supply quality - Road maintenance within an affordable and clearly-stated capital expenditure program for FY 2026-2028
3. Financial Security: Provide transparent and accountable financial management. Ensure the Mayor, Councillor's, and Local Governance Team to commit to supporting the financial security of local households and businesses, and fostering growth in the local economy.

By addressing these concerns, we aim to create a more sustainable and equitable financial future for South Wairarapa.

- Sign this petition to urge SWDC to: - Cap the 2025/26 rate increase at 3%. -Adopt responsible financial management practices.
- Protect our community's financial and economic stability.

Signatories: This petition is open to all concerned ratepayers, residents, and businesses within the South Wairarapa District.
Petition end date: 14 November 2024

1. - Operational Efficiency: Conduct a thorough review of Council operations to maintain total operating expenditure in FY 2026 at or close to the previous year's levels. Implement efficient budgeting and cost-saving measures
2. Priority Projects: Prioritise essential capital projects, including: - Improved wastewater treatment - Enhanced water supply quality - Road maintenance within an affordable and clearly-stated capital expenditure program for FY 2026-2028
3. Financial Security: Provide transparent and accountable financial management. Ensure the Mayor, Councillor's, and Local Governance Team to commit to supporting the financial security of local households and businesses, and fostering growth in the local economy.

By addressing these concerns, we aim to create a more sustainable and equitable financial future for South Wairarapa.

Sign this petition to urge SWDC to: - Cap the 2025/26 rate increase at 3%. -Adopt responsible financial management practices. - Protect our community's financial and economic stability.

Signatories: This petition is open to all concerned ratepayers, residents, and businesses within the South Wairarapa District.
Petition end date: 14 November 2024

PETITION

"Cap Rates for South Wairarapa: Cap 2025/26 Rate Increase at 3%

Principal Petitioner: Leah Hawkins SWfuturefocus@gmail.com 0274262286

We, the concerned ratepayers of South Wairarapa, petition the South Wairarapa District Council (SWDC). We are deeply concerned about the excessive Council rates increases that are putting financial pressure on local households and businesses that have exceeded national levels, with some rate payers facing 100% increases. As the Council plans for the future, we urge them to consider the following demands:

Specific Goals: Cap the 2025/26 rate increase at 3%, ensuring affordable and sustainable rates.

Desired Outcome:

1. - Operational Efficiency: Conduct a thorough review of Council operations to maintain total operating expenditure in FY 2026 at or close to the previous year's levels. Implement efficient budgeting and cost-saving measures
2. Priority Projects: Prioritise essential capital projects, including: - Improved wastewater treatment - Enhanced water supply quality - Road maintenance within an affordable and clearly-stated capital expenditure program for FY 2026-2028
3. Financial Security: Provide transparent and accountable financial management. Ensure the Mayor, Councillor's, and Local Governance Team to commit to supporting the financial security of local households and businesses, and fostering growth in the local economy.

By addressing these concerns, we aim to create a more sustainable and equitable financial future for South Wairarapa.

Sign this petition to urge SWDC to: - Cap the 2025/26 rate increase at 3%. -Adopt responsible financial management practices. - Protect our community's financial and economic stability.

Signatories: This petition is open to all concerned ratepayers, residents, and businesses within the South Wairarapa District.

PETITION

Cap the 2025/26 Rates Increase at 3%

PETITION TO SOUTH WAIRARAPA DISTRICT COUNCIL FROM SOUTH WAIRARAPA RATEPAYERS & RESIDENTS

We are deeply concerned about excessive SWDC rates increases that are putting financial pressure on local households and businesses.

As SWDC plans for the future, we urge it to consider the following demands:

Cap the 2025/26 rates increase at 3%, ensuring affordable and sustainable rates.

1. - Operational Efficiency: Conduct a thorough review of Council operations to maintain total operating expenditure in FY 2026 at or close to the previous year's levels. Implement efficient budgeting and cost-saving measures
2. Priority Projects: Prioritise essential capital projects, including: Improved wastewater treatment; Enhanced water supply quality; Road maintenance within an affordable and clearly-stated capital expenditure program for FY 2026-2028
3. Financial Security: Provide transparent and accountable financial management. Ensure the Mayor, Councillors and Local Governance Team to commit to supporting the financial security of local households and businesses, and fostering growth in the local economy.

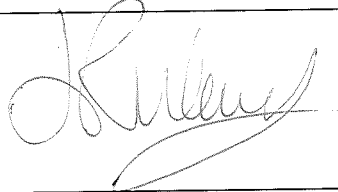

Petition organiser: Leah Hawkins

Signatories: This petition is open to all concerned ratepayers, residents, and businesses within the South Wairarapa District.

PETITION

Cap the 2025/26 Rates Increase at 3%

PETITION TO SOUTH WAIRARAPA DISTRICT COUNCIL FROM SOUTH WAITRARAPA RATEPAYERS & RESIDENTS

We are deeply concerned about excessive SWDC rates increases that are putting financial pressure on local households and businesses.

As SWDC plans for the future, we urge it to consider the following demands:

Cap the 2025/26 rates increase at 3%, ensuring affordable and sustainable rates.

1. - Operational Efficiency: Conduct a thorough review of Council operations to maintain total operating expenditure in FY 2026 at or close to the previous year's levels. Implement efficient budgeting and cost-saving measures
2. Priority Projects: Prioritise essential capital projects, including: Improved wastewater treatment; Enhanced water supply quality; Road maintenance within an affordable and clearly-stated capital expenditure program for FY 2026-2028
3. Financial Security: Provide transparent and accountable financial management. Ensure the Mayor, Councillors and Local Governance Team to commit to supporting the financial security of local households and businesses, and fostering growth in the local economy.

Petition organiser: Leah Hawkins

Signatories: This petition is open to all concerned ratepayers, residents, and businesses within the South Wairarapa District.

Rates are too high and unaffordable

Melody Krebs, Martinborough (2024-10-16)

I pay rates and they are too high.

Lisa Ireland, Martinborough (2024-10-16)

Because our rates increased by 100% this year and is unsustainable.

Marty Trow, Wairarapa (2024-10-16)

My rates have increased by 100% this year which is unrealistic and unaffordable.

Alison Trow, Martinborough (2024-10-16)

The continued escalation in rates is unsustainable. The increases are far higher than the cost of living increase and increases of other councils. Combined with no change in the quality of services leaves many questioning the value SWDC provides for rate payers.

Simon Cartwright, Martinborough (2024-10-16)

It is becoming unaffordable to own my own home in the SWD, continued rate rises that are in the double digits each year, salaries & cost of living are not equaling the escalation in these huge increases & most often as a community we are not seeing these additional costs improving our infrastructure etc.

Megan Barham , Martinborough (2024-10-16)

In order to stop excessive rates increases and stop putting high financial pressure on households and businesses, South Wairarapa District Council must undertake a thorough review of its operating expenditure and its budgeting practices. This review must occur as part of the current long term planning process and it must lead to substantial spending restraint in 2025-26. The Council will confirm for ratepayers and residents that it is serious and genuine about achieving restraint — restraint without any significant cutting of public services — by committing itself to an average increase in 2025-26 rates of no more than 3%.

Martin Freeth, Martinborough (2024-10-16)

Our rates are already astronomical and increasing them will force my retired parents to sell their home as they just can't afford them on a pension... and it's hard enough for a working family.

Trinity Shaw, Martinborough (2024-10-16)

It's getting beyond a joke trying to afford this.

Michelle Swanson, Martinborough (2024-10-16)

The cost of living is outpacing the rise in income levels.

Tom de Groen, Martinborough (2024-10-16)

100% rate rise over the last few years is unacceptable

Megan Pentecost , Martinborough (2024-10-16)

I want to be able to continue to afford to live in my home but the way the rates are going no one will be able to afford to live in the South Wairarapa.

Donna Bennett , Wellington (2024-10-16)

Disgruntled with the poor management of our council.

Dave Shepherd, Martinborough (2024-10-16)

The rates increases are no
Longer sustainable

Amanda Goodman, Martinborough (2024-10-17)

Rates high increase

Tony Stephenson , Martinborough (2024-10-17)

I want to know I can afford to live here in the upcoming 5 years!

Jade Kiel, Martinborough (2024-10-17)

The rates are extremely expensive at present and need capping

Nat Golding, Martinborough (2024-10-17)

I'm signing because the rates increases aren't right !

Shane Colton , Martinborough (2024-10-17)

The SWDC should be made to fix the mistakes of 30 years of ineptitude running things in our region. Water and sewerage infrastructure and the roads have been severely neglected over the previous 30 years and now it has come time for the council to fix these issues. The SWDC has consistently put the cost of these things onto ratepayers and yet never made an effort to get these things up to code within their budget. Usually when a Corporation is losing money, they slash employees, slash frilly spending, slash reckless decision making to save their shareholders from bearing the cost of their mistakes! It is way past due for our council to show some respect for their shareholders and do the same. If they do not take action to save their shareholders more costs, we the people will make sure that they are held to account and culpability for their actions is bought to bear.

Andy Hocquard, Martinborough (2024-10-17)

The rate increases in South Wairarapa over the past several years are truly shocking. Again, the recent revaluation is outrageous, particularly as the services provided by the Council have declined in quality and are barely maintained at a basic level. We are being charged exorbitant amounts for substandard services, with significant water issues still unresolved. Our quality of life has not improved—quite the opposite. We, as families and businesses, are being burdened from all sides, at a time when the cost of living is already so high. It's absolutely unacceptable. Thank you.

Anne Boyle, Martinborough (2024-10-17)

A pensioner ratepayer who's struggling financially

Kay Martin, Featherston (2024-10-17)

The council has not considered individuals financial positions and the ability to service imposed premiums that they can not negotiate. Eg look for alternative supplier and remove unwanted services.

Jan Stephenson, Martinborough (2024-10-17)

I have paid for double services for over 20 years, yes I have 2 dwellings but not two lots of services....and we use less than a single allocation anyway even with 2 dwellings

Jocelyn Swain, Martinborough (2024-10-17)

Because i've seen people be kicked out of their homes due to these dramatic rate increases. Personally it is also financially crippling tbh with having a small family.

Katrina Keogh, FEATHERSTON (2024-10-17)

I am signing because I am worried about the long term viability of the region if this council continue to run with financial imprudence

Rachael McGuckian, Martinborough (2024-10-17)

If rates continue to increase at this trajectory people will have no choice but to look else where to reside...and if the population declines....that's not good!

Kev Rickey , Wairarapa (2024-10-17)

it's so un affordable and will get worse of this happens.

Leanne Luxford, Featherston (2024-10-17)

I am signing this petition because residents cannot afford to pay higher rates. We believe the council are spending money on unnecessary projects and are being wasteful. Most importantly they are killing our businesses and community by not resolving the waste water issues. The pause on new consents means our building business will be forced out of Martinborough as we are unable to undertake new developments in the town.

Margaret Kennedy, Martinborough (2024-10-17)

I can't afford to live here anymore. I live rural and I feel that I get nothing for my money.

Sharon Garrett, Tauherenikau Rd3 (2024-10-17)

Rates in SWDC are ridiculous with no reasonable upgrades or benefit to the residents.

Anna Foreman, Greytown (2024-10-17)

The current rises over the last few years are unsustainable and I fail to see much basic infrastructure maintenance that could justify such excessive increases.

Dennis Page, Greytown (2024-10-17)

Council has been taking the piss to long

Monte Watren, Martinborough (2024-10-17)

Our rates have increased by over 100% in the past few years. It's getting ridiculous!

Loni Hansen, Martinborough (2024-10-17)

I'm alarmed at the Rates increases and lack of transparency.

Tania Williamson, Martinborough (2024-10-17)

I am appalled with our 40% increase this year; based solely on moving from land to capital value. This is NOT the fair way to

Philippa Evernden, Martinborough (2024-10-17)

I am signing because my rates have gone up 335% since I moved here in 2017. This is appalling for one rural household - one dwelling only - that receives no support - no roads - no footpaths - I don't use rubbish collection - I catch and use my own water - what do I get for my 335% increase??

Heather Murohy, Featherston (2024-10-17)

This is terrible. Focus on what is important and necessary.

Carlene George, Martinborough (2024-10-17)

I am sick of the rate increase. Also the continued waste of money spending. The fact you did not spend on infrastructure over years you disappointed all ratepayers. You have stopped all development in Martinborough due to your lack of investment in Infrastructure. You have absolutely destroyed our community moving forward in the future

☐☐

☐☐

♀

☐☐

♀

Sharon Hunter, Martinborough (2024-10-17)

I agree with the mentioned demands.

Patrick Ginnane, Featherston (2024-10-17)

The rates are ridiculous

Aaron Sanson, Featherston (2024-10-17)

They are out of control!

Shawn Brown, Martinborough (2024-10-17)

We are a retired couple who are now finding the level of rates in Martinborough unaffordable. SWDC have effectively destroyed our retirement planning.

Roger Fraser, Martinborough (2024-10-17)

Because the Rates increase is higher than anywhere in the country and put simply it's going to kill our community.

Leanne Schou , Martinborough (2024-10-17)

I'm signing as my rates have increased 100% over the last 3 years and I can not

afford another 30% or greater increase next year

Jessica Thomas, Martinborough (2024-10-17)

I totally believe in this petition, what they are asking, looking after the financial wellbeing of our residents, better financial decisions by our Council. PLEASE

Jan Beck, Martinborough (2024-10-17)

Rates are already too high. I believe that Too much money is wasted on stuff that is not core council or ratepayers responsibility or is used unwisely.

Robyn McKeown, Martinborough (2024-10-17)

Rats in SWDC are out of control and not sustainable.

David McLachlan, Featherston (2024-10-17)

The increases are unjustified and not based on accurate information

Di Lusk, Martinborough (2024-10-17)

We moved to Martinborough in March 2024, our rates were at that time were \$7836.22.

The rates ncrease to the current year is \$16737.

Totally unsustainable.

The footprint of the house has not changed

After many emails with a totally incompetent Mayor, we are disillusioned, hugely

disappointed at the lack of transparency and now stuck in a lovely town the SWDC seem intent on killing.

Leigh McCathie, Martinborough (2024-10-17)

The rate increases are too high we need to cap spending by the council

Geoffrey Backhouse, Martinborough (2024-10-17)

The rates on my 2 bedroom unit are off the clock.

Carmel Yardley, Greymouth (2024-10-17)

It's becoming unaffordable for people to continue to live in Martinborough with the amount the rates currently are, let alone more rises.

There have been numerous cost cutting items from the council, including the mowing of berms ceasing, amongst other things.

Melinda Coleman, Martinborough (2024-10-17)

R.T.Clark

Robert Clark, Martinborough (2024-10-17)

I don't believe the increases are fair

Leah MacKenzie, Martinborough (2024-10-18)

Our rates are already astronomical

Barry Bradley, Greytown (2024-10-18)

Since buying my house in 2020 our rates have tripled

Claire McIntosh Phillips, Martinborough (2024-10-18)

I would like to see our rates spent more wisely.

Alison Payne, Martinborough (2024-10-18)

I'm concerned about the excessive rate increase and it will soon become far too expensive to live in rural NZ if they continue to increase with little improvement to infrastructure & proper planning for growth.

Hillary Palmer, Greytown (2024-10-18)

Matt Otter.

Matt Otter, Featherston (2024-10-18)

I have family in that area and enough is enough.

Sue Callaghan Sue Callaghan, Masterton (2024-10-18)

The rate increases are not sustainable

Sam Thomas , Martinborough (2024-10-18)

I don't want an increase like I have had over the last 2 years!!

Steve Prescott, Martinborough (2024-10-18)

Rapidly rising rates and not much to show for it.

Rachael Prout, Martinborough (2024-10-18)

I'm signing because although I rent my house I empathise with the community at large at the rising rates cost. And I agree with everything pertaining to this petition.

Pauline Cumming , Martinborough, (2024-10-18)

After the recent rating review where Council voted to change the rating process from land value to capital value, resulting in my neighbor up the road rates increasing by 87%, a Councillor then highlighted at a recent Council meeting, which was captured by the media "that she didn't know what she was voting for at the time" this is relating to the rate change! Many ratepayers rates have gone up dramatically. South Wairarapa Residents have been subject to steep rate increases in the last 5 or so years, 1 increase at nearly 20% this followed by another at 29%. These type of increases show that SWDC have little understanding of long term planning. In addition, SWDC have not demonstrated any kind of inhouse operational cost savings or reduction of operational spend, there has been various new positions created recently suggesting that SWDC are continuing to operate in ignorance of the current cost of living crisis! This Council actually requires a

Commissioner take over as it is completely incompetent!!!

Lee Carter, Greytown (2024-10-18)

If rates carry on going up at the rate they are we won't be in business in 10 years time and neither will many others, my rates bill is bigger then my mortgage and that's worrying, council needs to get back to basics.

Rod Sutherland , Featherston (2024-10-18)

The rate rises we are seeing each year are unsustainable

Josie Bidwill, Martinborough (2024-10-19)

Ongoing excessive spending by the council, lack of focus on priorities, and laziness with ratepayer funds. And because their policies and ineptitude are decimating our community.

Jane Austin , Martinborough (2024-10-19)

Yes

Diane Taal, Martinborough (2024-10-19)

I cannot afford another increase, I'm am a solo mum w a mortgage, I work full time and struggling financially as it is.

Louise Henderson, Martinborough (2024-10-19)

I'm a concern ratepayer

Michael Holtham, Longbush (2024-10-19)

Rates hikes over the last few years are not substantial

Karen Dyer, Martinborough (2024-10-19)

I agree completely with the points made in the petition

Mac Beggs, Martinborough (2024-10-20)

Rates bill per week is unsustainable relative to income. It is simply unaffordable as a low income resident.

Melissa Young, Martinborough (2024-10-20)

The ratepayers of the South Wairarapa District are not receiving value for money from their annual rate payment. The CEO is employing too many staff and making no effort to cut costs.

Warren Woodgyer, Greytown (2024-10-21)

Sick of huge increases in our Rates. We are on a fixed income and does the Council not realise there is a cost of living crisis. They seem to have blinkers on and cloth ears when it comes to

Listening to ratepayers.

Leanne Woodgyer, Greytown (2024-10-21)

The rate rises have become a challenge to pay. They have risen over 90% in five years. They must be capped and the rural people given a reprieve from the rise.

Claire Bleakley, Featherston (2024-10-21)

I have a small business at home which is attached to my house and they are now charging a suip rate and two health cert and each year water when i started I got a resource consent and paid for parking and signs . This will force me to close. I have been in business for 22 years here . It is a needle in a hay stack as alot of businesses are not getting one which is not right , It is not fair which it is not o.k

Gail Wilson, Martinborough (2024-10-21)

The increases incurred this year have been out of step with the value of services received. Given the ongoing situation with infrastructure in the region it is untenable for rates increases to be a factor in paying for the upgrades. Central government needs to step in to make the rating system more equitable around the country and support infrastructure upgrades.

Karen Stephens, Martinborough (2024-10-22)

I want to buy a house but rates making it unaffordable

Neeidee Kerrison , Martinborough (2024-10-22)

I am signing this because of the exorbitant increase in rates and the lack of consultation and transparency

Elizabeth Paterson , Martinborough (2024-10-22)

I'm sick of out of control spending and rates increases by this current Council

Andrea Lloyd, Martinborough (2024-10-22)

Rates increases should be tied to inflation (more or less) and not double digit increases every year. Soon enough the rates will become so significantly expensive that we might see people leaving our region because of it

Dylan Romanos, Martinborough (2024-10-22)

I'm signing because rates should be a payment for services, NOT a tax for benefit of the wider community (as CE Janice Smith declared to a public gathering recently). As many ratepayers around the country say " Stick to the essential services"

Adrian Tyler, Dyerville (2024-10-23)

Rates increases are beyond CPI and out of control, placing significant stress on financial resources resulting in reduced spending and investment in the region.

Christopher Bransgrove, Martinborough (2024-10-23)

Agree there needs to be a cap on increases to hold council to account in its

expenditure. All increases over the past 9 years have been well in excess of inflation and services have reduced. Ratepayers can no longer sustain (if they ever could) increases at the rate they have been and is out of control.

Graeme Locke, Martinborough (2024-10-24)

The rates increases are unaffordable and a real concern that if they continue to increase at this rate we may not be able to stay at our property when we retire onto Nat Super. Very very poor management of the finances and future infrastructure SWD. Communication is below par Councillors remember who voted you in !!!!

Leanne Griffith, Lake ferry (2024-10-24)

My rates have now more than doubled in three years, and SWDC needs to reduce spending (incl grants) on projects that are not core functions of council and get back to the basics.

Council rubbish bags have gone from \$1 to \$5, but we still pay for rubbish collection in our rates, talk about double dipping.

Rates should be evenly spread across ratepayers, not taxing those who have invested in their own homes more. The rate increases are becoming nothing more than an envy tax to fund council incompetence.

Paris McLaughlin, FEATHERSTON, FEATHERSTON (2024-10-24)

As noted, rates are becoming unsustainable and there needs to be a back-to-basics approach. Water (waste, storm and drinking), roading, maintenance of existing infrastructure, and allowing for housing and business growth should be the only priorities. Anything else can be paid for by communities if they want it, not the council via rating.

Steve Dunstan, Greytown (2024-10-24)

The rates are becoming unaffordable! The Council is dysfunctional.

Mariana Garner, Wellington (2024-10-24)

I believe the rates demands have gotten out of hand and have become unaffordable for alot of the towns' residents. Central government needs to step up and help out.

Annette Castle, Martinborough (2024-10-24)

Years of underinvestment have seen us in the last 5 years pay dramatically for catching up.

Emma McDougall, Featherston (2024-10-25)

I own 2 properties in south wairarapa

David Benfell, Whangaimoana (2024-10-25)

I am signing because I fully support the ideals of this petition

Lynda Saint-Merat, Greytown (2024-10-25)

I support the petition

David Simpson, Greytown (2024-10-25)

It's too expensive the council is out of control

Jim Clark, Martinborough (2024-10-25)

The SW district council have proved they don't deserve our rates as successive council have done nothing to plan for or develop the water and sewerage the problem has been known for decades. The disgraceful Pain Estate dumping idea is an example of their ineptitude. The growth of council has not improved productivity just ew cars and staff.

Why not consider a grey water plan where the water could be used to irrigate the golf course or farmland. Grenache Gifl Course does this very successfully. Nelson council has developed a process which uses the water rather than SW dump onto land or into the river.

Nicola Warren, Lake Ferry (2024-10-26)

Recent increases have been excessive and it is not sustainable.

Angela King, Wellington (2024-10-26)

Our household can not afford to keep sustaining such huge increases. Also we were trying to get my elderly in laws to move here from Hawke's Bay so they were nearer to family but they can not build and they were appalled at the cost of our rates and how that would impact their lifestyle (which is definitely not lavish) and also not having Wharekaka anymore was a concern.

Roger Castle , Martinborough (2024-10-26)

The rates have doubled in the last 4 years. It's becoming unsustainable, especially as we get less and less for the money.

Susan Thompson , Martinborough (2024-10-26)

Rates rises have got out of hand. The number of employees at the council has risen 50% in the last 5 years for no benefit. If this was a private sector business, shareholders would be calling for change. As rate payers we are shareholders in the council and we're calling for change!

Mark Trotter, Martinborough (2024-10-26)

Had enough of rates rises, a lack of services provided, and also a gutful of councils not being held accountable for dumb decisions.

Stefan Lang, Featherston (2024-10-26)

The rates increases are unsustainable, and we as rural get none of the services our rates are supporting water, rubbish, footpath, etc etc. We can't use the free swimming pools or libraries as we work full time and these are closed after hours. We feel as though we are funding urban living the rates we pay do not reflect the services available to us.

Bronwyn Hall, Featherston (2024-10-26)

I am a rate payer for our home in Martinborough and rates have gone up at an

unsustainable rate.

Janine Hutchinson, Edinburgh (2024-10-26)

My wife Sue and I are on the pension and we are finding it difficult to meet the over 100% increase in our rates that we are now facing, and still buy food, pay for electricity etc, not quite what we expected moving to a rural town! SWDC, first and foremost, have a 'Duty of Care' to the community to ensure that all people from all walks of life can afford to live comfortably in their own home and have sufficient money left over for good food and other essentials. These huge increases in our rates without consultation are; to say the least, perfidious!

George & Sue Watterson, Featherston (2024-10-26)

I want the SWDC to reform their operations so that they spend rates and other income solely on core infrastructure and stick to a budget that is not increased by more than 3% in the next financial year.

Karen Krogh, Martinborough (2024-10-26)

rates is ridiculous especially as a rural rate payer I get very little for my rates the council needs to cap costs and do the basics well. The continuous significant increases over the last few years needs to stop

Gareth Hudson, Martinborough (2024-10-27)

The rates are at a level now that even those well off, let alone those not, are struggling with the amount that needs to be paid to the council and I feel there is not much to show for the amount of rates we all pay. There are definitely things in

the councils budget that they could cut to bring the increases down.

Tayla McGillicuddy, Featherston (2024-10-28)

We can not afford to keep increasing rates in the current financial climate. Pay rises are not keeping up with spiraling costs. Capping rate increases to a sensible percentage will help everyone.

Gemma Wilkie, Martinborough (2024-10-28)

Rates are getting out of control.

Paige Hudson, Featherston (2024-10-28)

Rates are out of control.....

Gavin REDMOND, Martinborough (2024-10-29)

I agree

shayne hammond, Martinborough (2024-10-29)

Council need a hugh over hall and need to cut their running expenses by at least 20% .At present they are In la la land

Trevor Petersen, Martinborough (2024-10-29)

Rates are spiraling out of control..

Nathan Fenwick, Martinborough (2024-10-29)

Because of the excessive rates increases

John Dudley, Wellington, New Zealand (2024-10-29)

Rate increases have been excessive. In particular the method of changing for water. One connection to the property boundary should only attract one fixed charge. Not based on the number of SUIPs. Let the meter take care of consumption.

Rick Thompson, Wellington (2024-10-29)

The Rates are becoming far too high and we cannot afford to have any higher Rates Rise again.

Leonie Stephenson, Martinborough (2024-10-29)

Disatisfied with continuing and unreasonable increases in our rates.

Seamus O'Sullivan, Greytown (2024-10-29)

I am paying too much already!!

Whitney Griffiths, Martinborough (2024-10-29)

I believe we could all make a change, but a petition won't be enough!
We should all stop paying our rates until the council understand our frustration and start making some drastic changes such as stop increasing the rates, work on our water issues...
Thanks Lea!

Pierce BOYLE, Martinborough (2024-10-29)

We have had exponential increases of rates with no ammenities provided to us being rural

Claire Cross, Martinborough (2024-10-29)

I am sick of rate rises

Craig Pope, Martinborough (2024-10-29)

I endorse the reasons for this petition.

Jane Cooke, Martinborough (2024-10-29)

The rates increases have caused significant financial burden for our family

Felicity Donaldson, Greytown (2024-10-29)

I'm a ratepayer and it's become ridiculous and simply a rip off.

Martin Thomas, Featherston (2024-10-29)

Our rates that apply to our farming operation need to be sustainable, our last increase certainly was not and we see nothing extra in our rural community.

Tim Loe, Kahutara (2024-10-29)

High rates

Wayne Macdonald, Greytown (2024-10-29)

Because I'm sick of increasing bills

Paul Bucknell, Greytown (2024-10-29)

I'm signing because I see and hear the struggles families are experiencing to keep on top of rising costs, rates surprises being one. The rural homeowners and farmers are finding living in this area unsustainable.

Easy to calculate: less residents, less income to SWC.

Pauline Donaldson , Greytown (2024-10-29)

I'm sick of the SWDC continually hiking rates because they have not put money aside, wasting rates fighting ratepayers (Pain Farm) being inefficient and not trying to reduce their staffing or spending by 10%

Hooson Chris, Martinborough (2024-10-30)

An increase is crazy, they are expensive enough already

Claire Murphy-Klempel, Martinborough (2024-10-30)

The rates have gone through the roof. I know of people who this is causing a great amount of stress for.

Zoey Sinclair, Carterton (2024-10-30)

My family and friends can't afford these increases and it has put my rent up.

Katrina Scoble, Martinborough (2024-10-30)

I support the petition. I agree wholeheartedly that rates in the South Wairarapa District need to be capped at an affordable and sustainable level. I also agree with the need for the Council to adopt responsible financial management practices which appear to have been lacking for some time.

Lorna Janne Fulcher, MARTINBOROUGH (2024-10-30)

As a retailer we cannot afford our rent to increase.

Shontelle Coley, Martinborough (2024-10-30)

As already stated, rates can't just keep climbing its unaffordable

Sheryal Todd, Greytown (2024-10-30)

Our rates continue to go up and up, and we live rurally.

Christina Cater, Martinborough (2024-10-30)

I am not happy that the rates do not match the services available in Martinborough.

Amanda Draper, Masterton (2024-10-30)

We need to amalgamate with another Wairarapa or other Wairarapa councils. It's crazy to try to pay for the infrastructure needed with such a tiny population.

Nicola Newell, Martinborough (2024-10-30)

It's bullshit, where do I start!!? People with money and influence but not much sense makes decisions based on whatever they decided makes their job relevant in council, not all but some. I have gained nothing but have invested seeing little return. Don't live in town but seeing properties flooded by storm water drains

☐☐

♀

300% increase in rates not acceptable aroha nui to the OG locals that have enough to deal with...

Vanessa Barriball, Martinborough (2024-10-30)

The rate increase is ridiculous especially for us who live rurally. We get nothing rurally for our rates-poor grading of our road-it should be sealed with all the traffic

on it, no water supply, no sewerage, no culvert maintenance, power cuts every month nearly, no rubbish removal. What's the point?the people living out of town will be subsidising the people in town

Hans Pretorius, Martinborough (2024-10-30)

Yes. Farming rates. Which are huge

Georgina lutyens Lutyens, Martinborough (2024-10-30)

The price of rates is unsustainable for us to stay. We just can't afford it.

Jane Chirnside , Featherston (2024-10-30)

It is a joke, how high rates are in Martinborough.

Carolina Vargas-Gonzalez, Martinborough (2024-10-30)

You are making the cost of living, which is already crazy, even harder for people to obtain

Nadia White , Martinborough (2024-10-30)

Don't w at rates to increase

Aaron Donges, Martinborough (2024-10-30)

Our rates are already excessively higher than most small towns and people simply can't afford another hike in rates.

James Loe , Martinborough (2024-10-31)

The increases to date have been massive and yet there is no noticeable progress on the main issues.

Lynette Cherry, Martinborough (2024-10-31)

Rates too high

Andrew Harvey, Greytown (2024-10-31)

As a rural ratepayer, the continual huge increases in rates are unsustainable and unjustified - over 70% in two years.

Kirsty Bennett, Martinborough (2024-10-31)

The current situation is placing undue pressure on local families who are already struggling in a difficult economy. The council needs to diversify its income streams or pull back on current projects in order to take pressure off its constituents. Or better still amalgamate with Carterton and Masterton for one regional council body, minimising overheads and maximising opportunities to recruit senior level officials who are highly competent and experienced in their positions. There is no accountability for continually being a TA in the highest rates rises nationally and I question the previous years project prioritisation given the significant failures in core infrastructure.

Rochelle Connell, Featherston (2024-10-31)

The council needs to stop with the rates increases, im paying over \$100 a week

Leroy Austin, Featherston (2024-10-31)

Over spending by swdc
Excessive rate increase year on year

John Pearce, Kahutara (2024-10-31)

Our rates went up 90%
We are due to retire and don't know how we can afford these kinds of increases

Diane Howe, South Wairarapa (2024-10-31)

Council have been paying way to much for likes of roading possum control the list goes on everybody screws the council cause they can and we cant sustain it any more we cant afford our rates \$20.000 a year wtf

Lois Mcavoy , Martinborough (2024-10-31)

Concern for lack of financial integrity in determination of what matters most for the wellbeing of our community given we have limited financial resources.

Duncan Dempsey, Martinborough (2024-10-31)

I'm signing because this system of rating is unfair and unsustainable for the people who live in the South Wairarapa

Jennie Cohen, Masterton (2024-10-31)

The cost of living is hard enough without local body councils having unfair expectations to pass on excessive spending to their ratepayers without achieving the basic infrastructure needs of our community.

Scott Madden, Martinborough (2024-11-01)

Rates are becoming unaffordable with the current rises with no accountability from the SWDC on their spending.

Lynaire Taylor , Featherston (2024-11-01)

A 300% increase is ridiculous and unmanageable

Melissa Jones, Martinborough (2024-11-01)

I live on a fixed income which doesn't match the ever increasing rate rise. It has to stop.

David Meatyard, Martinborough (2024-11-01)

The rates are tight for us and we work. For sole earner families or beneficiaries the rates would be unaffordable.

The rates not only affect owners, they will also have a domino effect for renters.

Poverty is real

Kirstene Saba , Featherston (2024-11-02)

These increases are ridiculous....no one is earning anymore than last year. And yet I have to find souch extra

If my land value goes up that's for my benefit. How is this able to be used as a rate increase?

I am rural and it ridiculous what I'm getting charged for

William Farley, Greytown (2024-11-02)

Ridiculous rate rises

Sue Rickey, Martinborough (2024-11-02)

Our rates have gone up we do not get rubbish, water, or any amenities. Except for a road that has so many holes etc!!

Alison Tipler, Martinborough (2024-11-02)

We live rurally on a poorly maintained gravel road , we have our own water and septic and watched our rates increase about 80% in the last 3 years - for nothing as far as we ard concerned.

Merryn Kennedy , Greytown (2024-11-03)

Swdc rate increased are justified or fair!

Ariel Codde, Featherston (2024-11-04)

I agree rates should be capped

Sue Simpson, Sth Wairarapa (2024-11-05)

We moved to our current rural address three years ago. We have seen a decline in services and two phenomenal increases in our rates. While I understand the burden of old and failing infrastructure there must be a better way to address this without putting this huge and ever increasing financial burden on households. I agree wholeheartedly with a sensible spending approach at this time.

Anna Maria Buckley, Martinborough (2024-11-05)

The rate hikes are ridiculously expensive, unnecessary (we get pretty much nothing for our rates rurally!!) and just plain greedy (and not just for my household!!), and I will not be able to cover them to live/run my business here for much longer.

Barbara Jackson, Featherston (2024-11-05)

I don't want rates

Nick Hewitt, Martinborough (2024-11-05)

Rates are to high.

Stephanie Phillips, Featherston (2024-11-05)

I'm an x Martinborough person, born & breed there.

My mum still lives there so still have a lot to do with Martinborough.

I feel for the elderly as they will not cope with this outrage increase of town rates

Diane Harris, Hawera Taranaki (2024-11-05)

Rates are out of control. People can't afford to pay them and where is all the money going the place is a shambles!

Rachel Hall, Greytown (2024-11-05)

I think it's unfair and unsustainable especially for the retired ..

Nicky Hard, Greytown (2024-11-05)

A large portion of my friends own homes in Martinborough and the impacts of rates hikes on them is appalling to me.

Georgina Manning, Wellington (2024-11-05)

Increasing rates with no sign of improvement in service is wrong. How about councils concentrate on providing basic services (water, refuse, roads, planning and consents) to a high standard and keep the 'fluffy duck' initiatives to a minimum.

Simon Hoskins, Martinborough (2024-11-06)

My view is in line with those of this petition.

Randal Warner, Martinborough (2024-11-06)

The rises are too much to budget.

Martina Kershaw, Greytown (2024-11-06)

This is important.

Becs Reilly, Martinborough (2024-11-06)

Our rates just keep going up. We fund our own water, septic, rubbish collection. The road to our place is poorly maintained. There is no recycling collection or rubbish collection out our way.

Jessica Terry, Featherston (2024-11-07)

The rates are far to high and increasing!

Megan Coulson, Greytown (2024-11-07)

Do not want to have our rates any higher it's killing the town people cannot afford to live here

Nicholle Hawkins, Martinborough (2024-11-07)

We are getting driven out by rate increases

Ryan Sewell, Martinborough (2024-11-07)

I believe in the petition. Rates are getting almost out of reach for residents of the town and it cant be validated.

Anna Johnston, Martinborough (2024-11-07)

Want yo know more about the long term plan

Glen Schofer, Martinborough (2024-11-07)

Rates are going up

Tracey Phelps, Martinborough (2024-11-07)

We pay all this money on rates yet it's not even safe to drink the water from town supply.

Russell Farrell , Martinborough (2024-11-07)

I'm signing this as the rates have got way out of control

Wihone Beverly, Martinborough (2024-11-07)

The continued escalation of revenue from ratepayers is untenable

Robert Hunter, Martinborough (2024-11-07)

I am signing because the level of rates increases is out of control, is becoming very difficult for ratepayers to pay and is having a very detrimental in-house prices in our area evidenced by a recent report highlighting a 39% decline from the high. Some houses on our market are for sale because of cost of ownership.

Graeme Talbot, Martinborough (2024-11-07)

I'm sick of increases and especially with nothing to show for it.

Scarlett Boyle, Featherston (2024-11-07)

I want the rate increase capped at 3% or less

Jenny Horsley , Martinborough (2024-11-07)

It's unsustainable, given the cost of everything else atm and the limited services we get for the rates.

Britt Benn, Martinborough (2024-11-07)

The rates are absolutely ridiculous and feels completely out of touch with the rest of the country. I feel the council are taking the absolute Mickey and taking advantage. Money spent on a water feature that can't be used in summer when it's most needed , yet available in winter is just silly. The world is feeling this strain of inflation, but to increase our rates again almist this hard time and have done for

the past few years is a slap in the face. It results in lack of trust in our council. We need to fix this problem!!!!

TeAta Hawkins, Martinborough (2024-11-07)

I feel our rates have already been increased too much in the last 3 years. Give us a wee break ☹☹

Beverley Gay, Martinborough (2024-11-07)

My rates are too expensive for a pensioner

Margaret Fletcher , Featherston (2024-11-07)

I need SWDC to adopt financial responsibility and proper planning and I cannot afford the increases we've seen over the past couple of years.

Matt Connelly, Martinborough (2024-11-07)

I have a family member who is in distress regarding the rates increase. She now can't afford to eat decent food.

Stephanie Cole, Hamilton (2024-11-07)

Rate inflations are already out of control

Jordan Sutherland, Martinborough (2024-11-07)

The rates are getting out of control and it won't be long at this rate it will be too expensive to live here and if your rural life style blocks it's an even bigger joke

Matt Hawthorn, Featherston (2024-11-07)

Because I want to one day buy a house but with rates like this it will be impossible

Fiona Beattie, Martinborough (2024-11-07)

I am concerned with the increase in rates

Meagan Parker, Martinborough (2024-11-07)

I am a SWD ratepayer

Lynnette McManaway, 5771 (2024-11-07)

The level of increase in the rates these last 3 years and more cannot continue - it's unaffordable for so many. How does the Council expect people to keep absorbing increases of 20% plus year on year? The Council needs to implement savings and focus on its core services.

Judith Whiting, Greytown (2024-11-08)

Our rates have gone up hugely in the last few years and it's not sustainable.

Melissa Da Souza, Martinborough (2024-11-08)

The increases are too much and unsustainable.

James Waugh, Martinborough (2024-11-08)

I would like our rates capped. The increases in recent years have been very high and I don't think the council are being fiscally responsible.

Sally Morison, Martinborough (2024-11-08)

I'm signing because I agree with the petition.

Lorraine (Lu) Little, Martinborough (2024-11-10)

We have just bought a house and sold one in Auckland and are so astounded and upset how

High the rates are and worse, how much they keep going up and not justified!

Anna Hewitt, Martinborough (2024-11-10)

The lack of apparent budgeting and fiscal responsibility towards ratepayers.

Stuart Campbell, Martinborough (2024-11-10)

Rates are not commensurate with outcomes forthcoming from the SWDC.

William Watterson, Featherston (2024-11-11)

We pay rates for what? And to increase them and we get shit roads, pay to have to have our rubbish removed and we have to mow our berms. Ridiculous.

Peter Cummings , Martinborough (2024-11-11)

The increases are ridiculous. Clawing back mis spent funds over the previous decade.

Inadequate maintenance and improvements which have halted the development of the SW. Resulting in a smaller projected rates pool, increasing costs for all existing households.

We live rurally, private road, private sceptic, private water collection, private power connection. No curbside rubbish collection.

We receive no assistance or help from the SWDC in any way.

Whilst our Rates skyrocket every year. I'm considering just not paying the increase.

Rhys Doesburg, Martinborough (2024-11-11)

Because the rate increases have been phenomenal these last five years, makes one wonder if living here is worth it!

Anne Rightford, Greytown (2024-11-11)

The rates have become outrageous.

Pensioners and young families who are paying a mortgage are struggling.

Martin Connelly said he wouldn't put the rates up if he got onto council... what a joke.

Carol-Ann Stark, Featherston (2024-11-11)

Rates on a property we own have increased significantly for the 24-25 year

Susan Doesburg , Greytown (2024-11-11)

The rate increases are beyond being reasonable and realistic, Councillors not listening to the people

Sue Death, Featherston (2024-11-12)

Rates are putting a huge strain on households and net resetting

Derek Anderton, Morison Bush (2024-11-12)

In support of all SWD ratepayers..

Rachel Burt, Greytown (2024-11-12)

It is criminal and getting ridiculous! People cannot afford to live here and we are being ripped off!

Skye Marshall, Martinborough (2024-11-12)

Bloody rip off

Vanesa Barriball, Martinborough (2024-11-12)

The council have more issues to solve than bugging residents about rates, have a look at the main street for a start.

callum calderwood, Martinborough (2024-11-12)

The current rates increases are not sustainable and we require fiscal review and greater transparency

Grant PLUMBLEY , Martinborough (2024-11-12)

Rates continue to rise and the infrastructure isnt being sorted out. The leaks in the roads are unacceptable, time for the council to cut excess fat and get back to what they are there for.

Anna Schofer, Martinborough (2024-11-12)

Increases have been excessive and funds mismanaged

Nick Blundell, Martinborough (2024-11-12)

Rates are becoming unaffordable. If the Council keeps on increasing them by large amounts they will drive rate payers out of the area, it's just not sustainable.

Judy Byers, Greytown (2024-11-12)

I agree that the recent yearly rates increases can't continue unchecked as they are unsustainable for the community.

Paul Leahy, Martinborough (2024-11-12)

I'm signing because the rates costs are becoming prohibitive in Martinborough both in turns of owning a property and developing either it or a business. In addition, increasing water costs will be coming to the region.

Louise Johnstone, Martinborough (2024-11-12)

Rates are ridiculous. We live rurally and have been nailed by rates increases the past few years and have nothing to show for it. We provide our own water, gas and septec; have no street lights, often have to drive on gravel roads and still get hit hard with increases.

Michelle Ford, Martinborough (2024-11-12)

The South Wairarapa is a vibrant and innovative community that we are fortunate to be a part of. Rates are a significant household cost along with insurances. We need to be confident that our rates spend supports community aspirations

Sue Gasquoine, Auckland (2024-11-13)

Because in 10 years time a large chunk of the population won't be able to afford to live in martinborough

Matt Blaikie, Paraparaumu (2024-11-13)

The rates are horrific

Trace Higgins, Martinborough (2024-11-13)

Rates are getting too excessive

Mark Shrimpton, Wellington (2024-11-13)

I'm signing because the rates have increased beyond the means of many residents yet the Council is not working effectively and efficiently to do the work they have been elected to do.

Rolene Watson , Martinborough (2024-11-13)

In 14 years as a ratepayer our rates have gone up by 300% . Our water still does not meet National Standards and our wastewater system is an ongoing and neglected problem which is stunting any hope of growth in the South Wairarapa

Clem Beck, Martinborough (2024-11-13)

We have faced a 100% rates rise as we have a second dwelling on our property to house our whānau. My husband and I are both retired and this raise has put more financial hardship on us.

Elizabeth Love , Pirinoa (2024-11-13)

Rates are well and truly out of control. I live in Martinborough full time with a young family and have a mortgage plus these rates on top I can't afford to live like we do. As far as I see nothing gets done and all our rate money is wasted on some stupid

keyboard warriors that don't understand reality. Less people in the SWDC the better! Wake up!

Matthew Sims, Martinborough (2024-11-13)

Outrageous unsustainable rate increases with minimal accountability

Dave Coyle, Martinborough (2024-11-13)

Rate increases need to be capped - just not sustainable.

Priscilla Clark, Martinborough (2024-11-13)

I couldn't believe that our rates nearly doubled this year. Over and above what I would expect is reasonable.

Lauren Langford, Martinborough (2024-11-13)

The rate increases are ridiculous, especially for rural where almost no services are provided

Hayley Bartholomaeus, Martinborough (2024-11-13)

Year on year rates rises are getting out of hand and there seems to be no extra return for the extra money gathered.

Tim Bourne, Martinborough (2024-11-13)

It's got unaffordable

Ana May Gudsell, Martinborough (2024-11-13)

Council should be reviewing its internal operating expenses and working to a budget, just like the average household does.

The Reserve Bank has a target range for inflation of 1-3%. Perhaps a "target" of 3 % rather than a cap, but at least something to aim for. Otherwise where is the incentive to save money internally, and what are the criteria that "non essential" expense decisions are measured against?

I also think that the LTP/AP consultation questions have been poorly worded, or done so as to achieve a pre-determined outcome. They should be reviewed by an independent external party before finalising.

Chris Webley, Martinborough (2024-11-13)

I am dissatisfied with the massive rate increases over the past three years and cannot see what council has delivered in that time. This level of rates is unsustainable.

There is no clear statement of what will be done in 2025, 2026 or reporting to rate payers on what has been completed against planned activities.

The lack of a pedestrian footpath on Dublin Street from Sackville Street to Regent Street remains a Health and Safety concern and there is no plan for doing this work.

Michael Armour, Martinborough (2024-11-14)

I do not accept the rate raises are acceptable

Grant Kinnear, Martinborough (2024-11-14)

I am concerned about the financial hardship these excessive rate increases are causing the ratepayers of the South Wairarapa district.

Vicki Vines , Greytown (2024-11-15)

Rates increases have got out of hand and are not justified.

Abigail Rowe, Tora (2024-11-18)

Rates are too high

Guy Elworthy, Tora (2024-11-18)

Rates are getting out of hand

Gordon tyer, martinborough (2024-11-18)
