

South Wairarapa District Council
Featherston Ward
Electing 3 Councillors

Rebecca GRAY

My principal place of residence is in the Featherston Ward area.

Kia ora. My name is Bec and I live and work in Featherston as a community midwife, providing maternity care to the families and whānau of South Wairarapa. When I'm not catching babies, you can usually find me in the garden or with my nose in a good book.

I have a keen interest in community focused policy and ethical governance, and believe strongly in local representation. I believe that an effective council is one that looks forward with clever and responsible planning, whilst also looking back at our heritage and protecting what makes Featherston so special. Given the opportunity, I will bring professionalism, empathy, integrity and honesty to this role. I would also bring a strong academic background, as I hold a Masters of Midwifery with a research specialisation. I look forward to representing our community and building a resilient Featherston with you all.
