

Submissions Summary (Not Consulted on)

No.	Pgs	Name of Submitter	Wish to be heard?	Officer	Summary of Submission	Officer Comments	Councillor notes
1	1-6	Wairarapa Racing Club	Yes	Jennie	EC&C: Requests an annual grant of \$5,000 over the next 3 years to enable further development of the Country Music Festival by attracting class acts. Festival dates for 2019 are 11-13 January.	Await Grant decisions 16/05/2018	
2	7	Graeme Scarr		Lawrence	Storm water: Requests that the storm water drain at the bottom of Daniel St is fixed as it doesn't have the capacity to handle large amounts of rain, causing flooding back up to Jellicoe St and right around their house (including under the house).	This has been logged as needing attention and will be investigated by our contractors.	
3	8-23	NZ Memorial Museum		Jennie	EC&C: Requests funding to develop a NZ War Memorial Museum in Le Quesnoy. Offers the possibility to Council to allocate their donation to fund a specific part of the project e.g. maisonettes refurbishment (roof, plumbing...). A specific amount hasn't been requested, but to date local authorities have contributed \$30,000.	Await Grant decisions 16/05/2018	
4	24-25	Ted Ward, Greytown Trails Trust		Helen	Amenities: Requests 3 lots of bags and 3 doggie poo bins placed at the Cotter Street entrance, 1/2 way along the trail and at the Woodside entrance of the Greytown-Woodside trail.	Around \$3.5k to purchase and install, and \$2k/year to service. Would be helpful to have the additional \$2k/year added to parks and reserves operating budget, but could probably squeeze it out of existing (HM)	
5	26-27	John Whitby		Tim	Land Transport: Requests a seal extension to part of Ruakokoputuna Road due to new lifestyle properties and increased logging traffic creating dust. Notes Mba Dark Sky project will increase tourist numbers and an astronomy centre is being developed at the property and optics equipment is sensitive to dust. Dust would be detrimental to further development.	A 10 year plan for seal extension needs to be developed, to enable improvements works to fall within the subsidised works. Ruakokoputuna is currently a logging route.	
6	28-31	NZ Motor Caravan Association		Mark	Land Transport/Amenities: Would like to work with Council on infrastructure development and strategic policy planning to support responsible motor caravanning Requests LTP includes recognition, resourcing and prioritisation for public dump station facilities built to NZS 5465:2001 specifications, along with free/low cost refuse and recycling facilities for visitors	LTP consultation topic re infrastructure for visitors included this type of expenditure, would be good to work with NZMCA to obtain co-funding from them to assist with this roll out.	
6	28-31	NZ Motor Caravan Association		Paul	Resource Management: Requests the LTP include sufficient resourcing to initiate an integrated freedom camping management regime, which may require a comprehensive review of rules, policies and bylaws	this review is not planned, however we will continue to work with NZMCA as able.	
6	28-31	NZ Motor Caravan Association		Helen	Governance: Requests that the LTP explicitly recognises the value of the NZMCA Motorhome Friendly Scheme	The Motorhome Friendly Scheme is a partnership between the NZ Motor Caravan Association and participating local bodies. The requirements to be a motorhome friendly town are : A legally-compliant Freedom Camping bylaw A public dump station, Council owned Access to potable water at Dump station site Refuse and recycling facilities Access to medical facilities A general shopping area for groceries A vehicle service centre At the moment, Featherston is our only motorhome-friendly designated town (HM)	
7	32-59	Greg Rzesniowiecki		Paul	Governance: Requests Council formally support the 23 principles offered by Alfred de Zayas in his paper to the UNHRC (A/HRC/37/63) in which he highlights the need to apply human rights principles systematically and uniformly to all entities and endeavours	Noted	
7	32-59	Greg Rzesniowiecki		Paul	Governance: Urges Council to endorse the model trade and investment treaty process offered in the www.dontdoit.nz petition.	Noted	
7	32-59	Greg Rzesniowiecki		Paul	Governance: Urges council to support the Local Government (four well-beings) Amendment Bill which amends the LGA 2002 to reinstate references to social, economic, environmental, and cultural well-being.	Noted, this will be considered at the time submissions are called, or supported via a general Local Government New Zealand submission	
7	32-59	Greg Rzesniowiecki		Paul	Governance: Urges readers to read and consider Kate Raworth's "Doughnut Economics" as a framework for thinking about economics in the 21st century given that the challenges we are facing this century are global in scale but local in solution.	Noted	
8	60-65	Featherston Heritage Complex Society		Jennie	EC&C: Requests a grant of \$2,000 towards the costs of power and other general expenses (grant application submitted)	Await Grant decisions 16/05/2018	
12	73-80	Martinborough Colonial Museum	Yes	Jennie	EC&C: Requests a grant of \$5,000 over the 3 LTP years to be used for insurance, security, cleaning and minor interior maintenance and repairs.	Await Grant decisions 16/05/2018	

Submissions Summary (Not Consulted on)

No.	Pgs	Name of Submitter	Wish to be heard?	Officer	Summary of Submission	Officer Comments	Councillor notes
12	73-80	Martinborough Colonial Museum	Yes	Helen	Amenities: Requests maintenance of the Mba Colonial Museum building; fixing of a minor leak is being undertaken by Museum; requests a commercial building wash	Routine maintenance tasks - such requests should be made directly to officers rather than made as AP/LTP submissions. Will add building wash to planned works pre-summer 2018/19 and check whether there are any outstanding maintenance issues(HM)	
13	81-83	Katie Rees	No	Tim	Land Transport: Requests increases in number of footpaths and cycleways, roads around vineyards are busy and not safe to take children walking/biking in that part of town. Requests a track around the outskirts of the urban zone joining with those in place.	Assign to Community Board as part of the footpath priority works	
14	84-86	Grant Plumbley	No	Lawrence	Solid Waste: The recycling/recovery station - would like to see evidence of its popularity and success from the Wgtn one at the Sth Coast	Note: possibly Lake Ferry centre? Not clear what the issue is here.	
19	96-97	Owen Rippey		Lawrence	Solid waste: My household rubbish is collected 1km from my residence	Noted, This is possibly due to it not being on the urban rubbish route and an allowance council has made to enable others to access the service. Happy to discuss any individual issues.	
20	98-99	RA Lind		Helen	Amenities: Would like doggy bags distributed in areas within the town belts to keep environment more pleasant	Not clear what is meant by "town belts" - submitter is from Martinborough so presume he is meaning areas around the vineyards, like Puruatanga Road, also Ferry Road? Cost for dispenser poles is around \$420 each plus cost of installation - additional would be budget required for this as we would need to apply it across all three towns. Also note that currently dispenser poles are only in the three dog parks, and refilled by by-laws officers. A large number of additional poles would have resourcing implications for the by-laws team, or for parks and reserves if the responsibility for refilling was shifted there (HM)	
21	100	Jim Law		Tim	Land Transport: Would like Whakatotomoto at least to the Te Rata Rd turnoff) and Te Rata Roads sealed for health reasons (residents and stock) and due to increasing tourist traffic.	A 10 year plan for seal extension needs to be developed, to enable improvements works to fall within the subsidised works. Very rural roads with minor subdivision has occurred on Whakatotomoto Rd	
24	105-106	Roberts		Paul	General: Council should undertake customer service training for consents (building, health, licencing) officers. SWDC has a bad name for being obstructive rather than constructive and helpful.	Noted, we regularly monitor feedback and review issues as they arise.	
26	109-113	Charlie Ives, Regional Tourism NZ	No	Jennie	EC&C: Tourism injects \$69m into SW economy and provides jobs. SWDC needs to invest in major events to be competitive with other regions and to realise economic and social benefit. RTNZ requests that SWDC maintains tourism funding at current levels at a minimum or preferably increase resourcing in line with their aspirational marketing strategies	Noted. Council plans to continue to fund Destination Wairarapa and this funding is included in the draft LTP budgets.	
28	117-132	Martinborough Dark Sky Society	No	P&E Manager	Resource Management: Urge Council to adopt already established outdoor lighting policies and practices in order to reduce light pollution while providing sufficient light for outdoor activities for public and private properties	Noted	
28	117-132	Martinborough Dark Sky Society	No	P&E Manager	Resource Management: Alerts Council to cultural risks due to degradation of night sky, specifically in relation to article two of the Treaty of Waitangi. Believes the night sky is taonga and therefore protected under the treaty agreement.	Noted	
28	117-132	Martinborough Dark Sky Society	No	Jennie	Resource Management: Concerns of light pollution are: protection of learning and cultural aspects, potential health issues due to disruption of circadian rhythms, disruption to native wildlife behaviour.	Noted, Council have ensured street lighting in our towns meets the criteria for dark sky reserve.	
28	117-132	Martinborough Dark Sky Society	No	Jennie	EC&C: Notes that members are investing in astronomy observation domes and telescopes, a local dark sky friendly sticker initiative, connecting with other reserves and liaising internationally and with community about associated initiatives.	Noted	
28	117-132	Martinborough Dark Sky Society	No	Jennie	EC&C: Requests funding for the Dark Sky initiative so progress can continue.	Await Grant decisions 16/05/2018 (two grant applications \$25 K& \$5,400)	
30	135-136	Rosie Collins	Yes	Tim	Amenities: Requests that cycle lanes are developed alongside the roads in Martinborough for safety and enjoyment reasons e.g. like Hawkes Bay. Does not believe reducing the speed limit is the answer.	Assign to Community Board as part of the footpath priority works	
31	137-149	Wairarapa Arts Festival Trust	Yes	Jennie	EC&C: Requests \$10,000 toward the Kokomai Creative Festival, Wairarapa.	Await Grant decisions 16/05/2018	

Submissions Summary (Not Consulted on)

No.	Pgs	Name of Submitter	Wish to be heard?	Officer	Summary of Submission	Officer Comments	Councillor notes
32	150-152	Mike Armour	No	Tim	Storm Water: Pg 13 of Consultation Document notes that kerb and channel are important part of storm water system. Has raised issue of flooding at the corner of Dublin and Sackville Streets in Martinborough fails to meet the stated objective. Photos and video from 10 April show this is a problem. Water congregates and doesn't run freely. Recent repairs to curb did little to improve situation	This issue has been noted and officers will investigate and come up with a solution. Any flooding should be reported to Council as soon as possible and will be attended to as part of our ongoing work in the district.	
33	153-154	Ed Martin	TBC	Helen/Tim	Amenities: (Youth Development): Requests a bike park be developed at the former Ponatahi pine plantation. Will draw visitors to district and provide a growth and development outlet for youth. Notes: May only cost \$10k for earth moving and signs. Carpark exists. Trail fund and McGarry Foundation have grants to facilitate this kind of development. WWI memorial oaks could be enjoyed, picnic area developed.	Ponatahi pine plantation is to be replanted this winter, but establishment of tracks could be looked at as part of this programme - would need to be planned fairly soon to fit into planting programme. Officers support the idea and recommend that Martinborough Community Board work with interested parties and officers to develop the proposal and seek funding (HM/TL)	
35	157-159	Conor Kershaw, P&K Mba	No	Mark	Roading: Need a clearer cycle strategy. Replicate Hawkes Bay model.	Cycle strategy is in draft and being coordinated regionally through the regional trails committee. The local urban lane is to be painted in conjunction with NZTA.	
35	157-159	Conor Kershaw, P&K Mba	No	P&E Manager	Resource Management: The rental shortage needs to be addressed and it needs to be Council led. Can't get long-term rentals for staff. Needs to be options for new land being developed to be medium density with the ability to place covenants on it to ensure that it is either owner occupied or long term rental.	Concerns noted. Councils Plan effectiveness and monitoring work which will feed into a District Plan review would cover the housing density. Housing density would also be addressed in a Spatial Planning Process.	
36	160-162	Michael & Karen Anne Cronshaw	No	Tim	Storm Water: Clean the storm water drains in Mba to prevent surface flooding	Routine sump cleaning is undertaken	
40	169-175	Tim Wood & Shelley Des Forges	No	Helen	Amenities: Requests that SWDC accepts that the block of trees on One Tree Domain is detrimental to the best use of natural resources within Fstn and/or is negatively impacting upon the wellbeing of a proportion of the Community and; SWDC commits to reducing the height and density of the trees to improve the natural light to the floor of the domain, local families and improve the aesthetics of the domain	Agreed that the trees in the domain need some work and that this requires planning and specialist advice to ensure the best outcomes for both the trees and the properties affected by them. Allow additional \$5k for properties and reserves operating budget to develop plan including costs with a view to coming back to the AP 2019/20 with funding request (HM)	
41	176-177	Jocelyn Konig		Jennie	EC&C: Believes that the FCB is cutting funding to the Fstn Information Centre which is short sighted as tourism is increasing and it is the first one from over the 'hill'.	Noted and noted that request for Council funding has been received from FTN Information centre.	
42	178-181	Featherston Information Centre		Jennie	EC&C: Requests that SWDC fund the Fstn Information Centre phone line.	Await Grant decisions 16/05/2018	
43	182-183	Guy Walmsley		P&E Manager	Resource Management: Need more housing for seasonal workers and permanent staff	Concerns noted. Councils Plan effectiveness and monitoring work which will feed into a District Plan review would cover worker accommodation. Worker accommodation could also be addressed in a Spatial Planning Process.	
44	184-185	Lynette McCarthy/ Carol Keltie Roy/Jim White		P&E Manager	Resource Management: Notes that Martinborough is different and wants to keep it this way	Noted	
45	186-187	Alex Clark		Jennie	General: Requests Council push GWRC to fund a decent train service from Mstn-Hutt. Need to get cars off road	Funding of train service is responsibility of GWRC rather than Council. Council continues to lobby GWRC and central government regarding the urgent need to upgrade the Wairarapa train service and will continue to do so until the funding has been approved and upgrades completed.	
49	194	Jack Millar		Helen	Amenities (Youth Development): Requests a mountain bike park be developed in the South Wairarapa (specifically Fstn).	Refer response to submission 40 above - a site has been identified in Martinborough (HM)	
50	195-196	Liz Mellish		Lawrence	Wastewater: Would like to see a staged development with new ponds and appropriate treatment before the second stage of disposal is agreed with residents, with disposal to Fstn golf club as an opportunity. Land at Murphys Line could be sold to provide for first stage of development	Residents will have an opportunity to give feedback to the WW to land project as part of the public consultation process.	

Submissions Summary (Not Consulted on)

No.	Pgs	Name of Submitter	Wish to be heard?	Officer	Summary of Submission	Officer Comments	Councillor notes
50	195-196	Liz Mellish		Tim	Land Transport: The continual drain on resources through NZTA has been an ongoing and costly exercise for many years and will continue to do so until a better long term solution is found. This effect of tourism using that road to Ngawi has not been well understood and whilst a flash point of even more serious issue is the Wairarapa side of the Remutaka Hill Road. It is not obvious to ratepayers that any thought for this issue has been made by Council and unless real effort to address this matter we will see the number of tourist drop. I wish you to note that emergency frequently used weekend is undertaken by Featherston volunteers and Council has done little to understand the effect of this negligence has had on those stalwarts who turn out for accidents every week.	Council continues to have a very positive working relationship with NZTA who manage the State highways including the Remataka hill road. We lobby them for improvements to our roads on an ongoing basis and will continue to do so.	
50	195-196	Liz Mellish		Paul	General: Requests Council address the limited Police presence in South Wairarapa	We continue to discuss policing matters at the appropriate levels.	
50	195-196	Liz Mellish		Paul	General: Requests a culture change from no to how can we help you achieve your goals. Requests councillors seek culture change to improve outcomes in South Wairarapa.	Noted	
50	195-196	Liz Mellish		Jennie	General: Requests Council support the 3 marae in the area as they provide water for fires, community facilities and have agreements to support the community in the event of a civil defence emergency	Noted and sees that local maraes have submitted for funding. SWDC contributes to WREMO funding which would cover the civil defence emergency funding. Discussions are already occurring on this at a regional level.	
50	195-196	Liz Mellish		Paul	General: Consider a Maori ward for SWDC	Noted	
50	195-196	Liz Mellish		Paul	General: Need all staff and councillors especially senior staff trained in te reo and pronunciation of Maori words	Noted	
50	195-196	Liz Mellish		Tim	Land Transport: Requests road signs are updated from Rimutaka to Remutaka	Will liaise with NZTA as most signs are SH 2	
50	195-196	Liz Mellish		Paul	General: Council should hold meetings later in day or evenings to make it easier for people to attend/stand for Council roles SWDC needs to unite the three towns SWDC needs to have more consultation in places other than MBA e.g. submission hearings in each town	Comments noted. Informal discussions have been held.	
50	195-196	Liz Mellish		P&E Manager	Resource Management: Freedom campers need to have designated areas.	There are designated areas for freedom campers in SW.	
51	197-199	Bruce Farley	No	Jennie	Water Conservation: Option 2; Oppose any further Council investment in the large water storage project underway. No solid data on who will be paying, how it will be reticulated, and how water will be used. Doubts it will go ahead.	Noted, Council will be considering whether or not to invest further in Wairarapa Water and will take all submissions on this topic into account.	
55	206-207	Les Roberts	Yes	Jennie	General: Believes the views of tangata whenua and the fact that they played a key role in developing the LTP are not reflected in the document. Believes dual language signs is tokenism and true involvement of tangata whenua in LTP has been ignored. Requests that SWDC seek views of local iwi as to how they want to be involved in the present operations and future strategic direction of SWDC and work with them to make a plan on how this will be achieved.	Maori standing committee members were involved throughout the LTP process and continue to be included in Council decisions on an ongoing basis as part of the longstanding relationship between Council and the MSC. The MSC are our link to local iwi and hapu and their input to Council decisions and future direction is very much valued.	
57	212-215	Ann Rainford	Yes	P&E Manager	Resource Management: To build smaller houses there is an urgent need to alter the District Plan to allow smaller plot sizes. Ctn and Mstn have smaller plot sizes.	In the District Plan South Wairarapa and Carterton lot sizes are aligned at 400m ² minimum and 500m ² average (excluding access). Masterton has a 350m ² minimum lot size. Comprehensive developments are not specifically provided for in the District Plan and this would be reviewed as part of a District Plan review.	
58	216	Jack Millar		Helen	Amenities (Youth Development): Requests an upgrade to the Featherston Skate park. Offer to form a group to plan the upgrade and fundraise	[Submitter is 12 years old] Recommend that Featherston Community Board work with youth, skate park users and council officers to plan upgrades and fund-raising (HM)	
60	219-221	Alistair and Jenny Boyne	Yes	Tim	Land Transport: Requests that the Tora Bridge is repaired or replaced, the steel plate does not sit flush and has bolts sticking out the wooden railings need replacing. Engineer said it should be condemned.	Works have been identified and are programmed to stiffen the piers on the first bridge. Funding as part of NZTA Lowcost/Low Risk improvement category. Bridge will be posted for 44 tonne maximum loading before July 2018	
62	224-228	Sport NZ		Jennie	EC&C: Requests Council financially support the development of a community sport and recreation facility centre at Kuranui College to replace the College gym which is to be demolished.	This proposal will be considered in conjunction with other potential funders including Ministry of Education, Sport NZ, Greytown lands trust etc	

Submissions Summary (Not Consulted on)

No.	Pgs	Name of Submitter	Wish to be heard?	Officer	Summary of Submission	Officer Comments	Councillor notes
63	229-232	Martinborough Top 10 Holiday Park	Yes	P&E Manager	Resource Management: Support Destination Wairarapa's submission regarding 'ineligible freedom campers' and encourage SWDC to monitor and move on non-self-contained vehicles parking in non-designated areas. Existing littering laws need to be applied to freedom campers. Encourage SWDC to support holiday parks by not providing facilities for freedom campers in areas where facilities are provided by operators.	Proposal will be considered alongside other submissions regarding freedom camping.	
63	229-232	Martinborough Top 10 Holiday Park	Yes	Paul	General - Health and Safety: SWDC needs to consider health and safety obligations of people camping in SWDC designated areas. Holiday parks must provide gap of 3 metres between all vehicles and tents, same standard should be applied in SWDC designated areas. An accident or fire could cause reputation harm.	Noted, will review what can be done in this regard.	
63	229-232	Martinborough Top 10 Holiday Park	Yes	P&E Manager	Resource Management: Requests SWDC account for urgent need for affordable housing when developing Mba spatial plan.	Noted, will be part of spatial plan work.	
63	229-232	Martinborough Top 10 Holiday Park	Yes	P&E Manager	Resource Management: Requests SWDC amend the District Plan more frequently than 10-yearly intervals and that funding is set aside to conduct a review.	Noted, this will need to be discussed with MDC and CDC who are also parties to the Wairarapa Combined District Plan. The amount of work required to review the DP may make it prohibitive to be done more often.	
63	229-232	Martinborough Top 10 Holiday Park	Yes	Paul	General: SWDC's best contribution to regional economic development is to cut bureaucracy and to support private commercial developments. The district Plan needs to enable positive private investment not restrict it. The failure of the development in Featherston is disappointing.	Noted	
63	229-232	Martinborough Top 10 Holiday Park	Yes	Jennie	Rates: Support Destination Wairarapa's submission regarding the need for Air BnB to contribute and request Council rate these properties as commercial where they are available to rent for more than 60 nights a year.	Noted, Council will be completing a review of the rating system during the 2018/19 financial year and this will be one of the issues covered in that review.	
63	229-232	Martinborough Top 10 Holiday Park	Yes	P&E Manager	Resource Management: Requests Council consider the requirement for Air BnB houses to apply for resource consent for what is essentially a commercial accommodation business (more than 60 nights a year).	The District Plan allows one dwelling to be used as a homestay per certificate of title. Adverse effects of homestays in comparison to residential use could be assessed as part of a District Plan review.	
65	235-238	Martinborough Community Board	Yes	Helen	Reducing Waste: Request Council install public recycling bins alongside our rubbish bins.	This has been discussed and can be costed as an added service. Cost to purchase \$1,200 per bin plus \$667 per bin to service pa. Could install Big Belly type bins which hold 3-5 times as much, and which in the urban areas, have telemetry so they can tell the contractors they need to be emptied. The usual model for these is that they are hired by the council from the bin supplier for around \$50/week. Would still have the cost to empty which is around \$5/per empty. (Current street bins emptied 3 x week = \$667/year; so if only emptying once per week because of additional capacity then \$260/year for emptying.	
65	235-238	Martinborough Community Board	Yes	Paul	General: Request SWDC facilitate private investment and development. Feedback received that Council is becoming increasingly difficult to deal with. Requests a review of the way it works with local businesses so district remains attractive for investment.	Noted, we have been working in the communities, e.g. Martinborough Business Association on various aspects.	
65	235-238	Martinborough Community Board	Yes	Paul	Governance (P20 Supporting Docs): Supports a review of community boards terms of reference and delegations and request that they are empowered with financial and human resources.	Noted, this is planned	
65	235-238	Martinborough Community Board	Yes	Paul	Governance (P20 Supporting Docs): Requests SWDC run events prior to the next LG elections so potential candidates understand what is involved.	Noted, a comprehensive candidates booklet is available. This will be considered closer to the time.	
65	235-238	Martinborough Community Board	Yes	Helen	Amenities: Support connection of libraries to UFB and request the new Mba Library is connected in the rollout	New Martinborough Library will be connected to the best available connection through the APNK network - if UFB is available then that will be used (HM)	
65	235-238	Martinborough Community Board	Yes	Helen	Amenities (P34 Supporting Docs): Request Council allocated some of the proposed playground budget to the Waiyinga Centre playground. It should be spent equally across the district.	Funding for improvements at Featherston and Greytown playgrounds is for replacement of specific items which are now outside their useful life span and need to be replaced as soon as funds are available. Martinborough is getting a new playground as part of stage 2 of the Waiyinga Centre project, so no replacement items have been allowed for (HM)	
65	235-238	Martinborough Community Board	Yes	Tim	Land Transport (P79 Supporting Docs): Understand that budget for new footpaths as per the 17/18 AP wasn't available due to urgent road rehabilitation. Request additional footpath funding is set aside for footpath work on Texas Street as it is essential to provide safe access to the Waiyinga Centre.	Assign to Community Board as part of the footpath priority works	

Submissions Summary (Not Consulted on)

No.	Pgs	Name of Submitter	Wish to be heard?	Officer	Summary of Submission	Officer Comments	Councillor notes
65	235-238	Martinborough Community Board	Yes	Helen	Amenities: Request budget is allocated to replace the old Martinborough Cemetery fence in keeping with the fence at Considine Park.	\$7500 has been budgeted in parks and reserves capital budget 2018/19 for this purpose (HM)	
65	235-238	Martinborough Community Board	Yes	Helen	Amenities: Request funding is allocated to continue the Considine Development Plan and that development is allocated according to the Considine Park Committee's priorities	\$8500 has been budgeted in the parks and reserves capital budget 2018/19 to construct the remainder of the lime path. Additional trees to be planted, costs covered by existing operating budget (HM)	
65	235-238	Martinborough Community Board	Yes	Helen	Amenities: Requests Council allocate funds to implement the circular seating around the Boer War Memorial within the next 2 years inline with the Martinborough Square Development Plan.	Thought this had been put on hold due to Waihinga Centre developments. Will obtain prices for suitable seating and come back to AP 2019/20 for funds (HM)	
65	235-238	Martinborough Community Board	Yes	Jennie	Rates: Request Council continue to allocate funds for town beautification to be managed by the community boards	Noted - this has been included in the draft LTP.	
65	235-238	Martinborough Community Board	Yes	Mark	Land Transport: Requests Council set aside funds for on road cycle lanes on the Mba urban routes. Also request pass safely signage positioned at key points along these routes	Pass safely signs to be installed and cycle lanes to be marked on some roads.	
65	235-238	Martinborough Community Board	Yes	Helen	Amenities: Requests that the salvaged Mba Playground pergola be installed at Mba Pool before the 18/19 swimming season.	The intention is to do so however the project is not funded at the moment. Cost would be \$25K approx. Could possibly use Pain Farm funds?	
65	235-238	Martinborough Community Board	Yes	Lawrence	Water Supply: Support the removal of manganese from the Mba water supply. If the supply needs to be chlorinated, consult the community and vineyards	Noted	
65	235-238	Martinborough Community Board	Yes	P&E Manager	Resource Management: Look forward to seeing outcome of rezoning from funds allocated 17/18 year. This along with spatial plan are crucial to manage growth and the acute shortage of residential accommodation in Mba.	Noted.	
65	235-238	Martinborough Community Board	Yes	Helen	Amenities: Support bilingual signage and recommend Council consider early replacement of key signs in district.	Noted (HM)	
66	239-245	Wellington Free Ambulance	Yes	Jennie	EC&C: Requests \$1 per person in the district towards running costs (\$9,525)	Await Grant decisions 16/05/2018	
67	246	Waihinga Charitable Trust	Yes	Helen	Amenities (P34 Supporting Docs): Notes that \$390k has been fundraised for stage 2 of the Waihinga Project and requests that Council allocate some of the proposed playground budget to the new Waihinga Centre playground	Nothing is budgeted for the Waihinga Centre playground in the LTP budget at present as assumed this would be funded by Charitable Trust. Playground budgets for FTN & GTN are as follows: FTN \$25K in 2018/19 ,FTN & GTN \$60K in 2019/20 , and FTN \$80K in 2020/21 to replace fort.	
67	246	Waihinga Charitable Trust	Yes	Tim	Land Transport (P79 Supporting Docs): Understand that budget for new footpaths as per the 17/18 AP wasn't available due to urgent road rehabilitation. Request additional footpath funding is set aside for footpath work on Texas Street as it is essential to provide safe access to the Waihinga Centre.	Assign to Community Board as part of the footpath priority works	
68	247-250	Tim Lusk, Wairarapa Water	Yes	Jennie	EC&C: GWRC are contributing \$200k so investigations into water storage options can continue but this funding is contingent upon significant funding from Wairarapa councils (amount not given). Urge SWDC to meet GWRC's expectations for funding.	Noted. SWDC have not budgeted any \$ for Wairarapa Water in the 2018/19 FY at this stage.	
68	247-250	Tim Lusk, Wairarapa Water	Yes	Lawrence	Water Conservation: Would support all 4 councils leading the project in partnership with their funds used (along with funds from water users) to investigate how water storage can be integrated into providing long term security for public water, farmers and the environment.	This will need to be 3 council and GWRC initiative. The farm water issue has been outside of council and with GWRC as a whole.	
69	251-252	Les O'Donovan		Lawrence	Reducing Waste: Yes, B, C; Need recycling pickups more often. Need large item pickups (washing machine, ovens etc.)	Noted	
69	251-252	Les O'Donovan		Tim	Land Transport: Requests a footpath on Waite Street as walking on road not safe	Assign to Community Board as part of the footpath priority works	
70	253-254	Max Stevens		Lawrence	Water Conservation: With Masterton District Council installing water meters is there an opportunity to create a combined councils water conservation policy?	This would be through GWRC as water allocations across the region.	
70	253-254	Max Stevens		Paul	General: On major services the three Wairarapa councils should continue to look at combing and/or sharing policies and management skills	Noted, we do this where possible.	
72	257-258	Jan Eagle, Friends of Stella and Sarah	Yes	Lawrence	Wastewater: Infrastructure Strategy acknowledges wastewater infrastructure issues with a system built in the 60's/70's and the need for action to address gaps. Will that action be robust enough to withstand the variables of climate change and 1000 more people that urban infill schemes will deliver without discharging waste water to the Ruamahanga River?	Yes, the land area is enough to cover future demand and provision for more infrastructure is allowed for to cover growth.	

Submissions Summary (Not Consulted on)

No.	Pgs	Name of Submitter	Wish to be heard?	Officer	Summary of Submission	Officer Comments	Councillor notes
73	259-275	Destination Wairarapa	Yes	Jennie	Rates: Given the significant investment Council makes in tourism, Destination Wairarapa would encourage Council to consider applying a commercial rate to whole of house Air BnB properties which are not currently paying a commercial rate or participating in their industry through membership of their RTO.	Noted, Council will be completing a review of the rating system during the 2018/19 financial year and this will be one of the issues covered in that review.	
73	259-275	Destination Wairarapa	Yes	Paul	General: Given the limited capacity Council has for investment in events, Destination Wairarapa would encourage the 3 district council's to consider engaging a professional to find the commercial sponsorship necessary to take the region's top events to the next level and be among the country's top events	Noted, 3 Councils currently working with GWRC and WREDA on a Wairarapa Economic Development plan, will await the outcome of that - June/July 2018.	
73	259-275	Destination Wairarapa	Yes	P&E Manager	Resource Management: Requests that the 3 Wairarapa councils separately and severally have the opportunity to control ineligible freedom camping before it becomes a problem in the Wairarapa. DW encourages Council to consider implementing a plan of monitoring and enforcement of freedom camping in the Wairarapa. Notes campers parked behind Mba Library using free wifi and that Wairarapa has a wide very accessible land mass (compared to Queenstown)	Noted.	
73	259-275	Destination Wairarapa	Yes	Jennie	EC&C: Destination Wairarapa asks that continued funding of Destination Wairarapa please be included to ensure the ongoing promotion of Wairarapa and ultimately maximise the economic benefits of tourism and that closer engagement with Destination Wairarapa from Council departments to ensure tourism is considered in <u>works and decisions</u>	Noted. SWDC have budgeted \$130K for Destination Wairarapa in the 2018/19 FY and for future years in the LTP draft budgets.	
73	259-275	Destination Wairarapa	Yes	Paul	General: Would like to see the Masterton District Council's Draft Cycle Strategy include something as simple as 'when doing road work on defined race routes, a surface conducive to road cycle racing will be applied'. Notes that Wairarapa was the preferred region for holding cycling events...until another region decided to capitalize on the benefits and apply the investment needed The Wairarapa councils need to recognise the significant international exposure these events provide	Noted	
73	259-275	Destination Wairarapa	Yes	Paul	General: DW provides a submission on the Draft Rural Trails Network Plan which connects various Masterton areas via cycle trails. Submission not summarised as <u>MDC specific</u> .	Noted, we continue to support cycling	
73	259-275	Destination Wairarapa	Yes	Paul	General: Supports the Wairarapa Cycling Stakeholder Group's submission to the LTP's. Specifically: employment of a cycling coordinator for the whole of the Wairarapa, signage for safe cycling routes, the STTT vision of become a grade 1 trail ride and therefore the need for Underhill Rd in Fstn and Gtn to have the speed <u>reduced to 80km or lower per hour</u>	Noted	
75	279-280	Jim Hedley	yes	Jennie	Rates: Many of Council's functions benefit urban people, Council should fund the public good portions of those functions at the full 30% of UAGC allowed excluding wastewater and rubbish. Governance, leadership-advocacy, public protection, community development and libraries should also be covered by a UAGC.	Noted, Council will be completing a review of the rating system during the 2018/19 financial year and this will be one of the issues covered in that review.	
76	282-287	Tracey Shepherd, YETE	Yes	Jennie	EC&C: Requests Council increase its support of YETE from \$5,000 to \$10,000pa which is a level consistent with the other Wairarapa councils and will enable <u>extension of initiatives in the South Wairarapa</u> .	Await Grant decisions 16/05/2018	
77	288-289	Ellen Blake	No	Tim	Land Transport: Improve footpaths to a good standard and ensure they are on both sides of all new subdivisions. Prefer asphalt as it is more flexible and not so hard.	(NZS 4404 Land development and Subdivision Engineering)requires footpaths on one side for developments up to 20 lots and both sides for over 20 lots. Concrete has a longer life so is the preferred surface.	
77	288-289	Ellen Blake	No	Helen	Amenities: Provide more seats	Location of seats is unclear from submission but as it comes straight after the footpath request, assume that submitter is asking for more seats on footpaths. Footpath seating can only be installed on berms where there is sufficient space to meet the required footpath width as well as a seat. Cost per seat \$1200-\$1500 installed. Residents are welcome to suggest specific locations where they believe seats would be helpful, especially for the elderly, then we will consider on a case-by-case basis. Residents are also welcome to fund or part-fund seats as memorial seats (HM)	

Submissions Summary (Not Consulted on)

No.	Pgs	Name of Submitter	Wish to be heard?	Officer	Summary of Submission	Officer Comments	Councillor notes
78	291-295	John Rhodes	Yes	Lawrence	Reducing Waste: The LTP must state annual goals, expressed in tonnes for waste reduction rather than say it wants an unspecified reduction. A letter from officers stated the goal was to reduce waste to landfill by a third by 2026 - this isn't enough.	Noted The reduction to landfill is a goal however arbitrary targets would be difficult to achieve. Reduction in any amount is positive, however volumes are growing annually. The consultation has raised cost as a primary issue. The goal of the regional WMMP is reduction of solid waste by 1/3.	
78	291-295	John Rhodes	Yes	Lawrence	Reducing Waste: Requests Council work with retailers and their chains to stop plastic packaging around products	This is underway and some agreements reached.	
78	291-295	John Rhodes	Yes	Lawrence	Reducing Waste: Requests council work with local wine growers to use standard bottles which can be 'reused' rather than 'recycled', and install a central washing plant. <u>Would reduce glass and enhance our image</u>	This will be passed to the waste minimisation officer to look into.	
78	291-295	John Rhodes	Yes	Lawrence	Reducing Waste: What I should do with a dead mercury-containing compact fluorescent lamp. It's hazardous waste, for which the only advice on the SWDC website applies to commercial and industrial properties. The website tells me nothing about the recommended disposal method for tins of lead-based paint in my garage. <u>What do I do with these?</u>	These will need to go to an approved wellington disposal site for hazardous material.	
78	291-295	John Rhodes	Yes	Lawrence	Reducing Waste: When will the waste management sections of the SWDC website be updated to refer to waste rather than rubbish or refuse?	When done in conjunction with the three councils to standardise the approach to waste across the region.	
78	291-295	John Rhodes	Yes	Lawrence	Reducing Waste: Until we eliminate plastic bags, they continue to be part of our District's waste stream. The Earthcare brochure on the SWDC website says that plastic film is not accepted for recycling. A while ago plastic bags could be taken to transfer stations, but I understand that this is no longer the case. Please, what is the present situation? Should we be stockpiling waste plastic film until SWDC has a new arrangement in place? And what negotiations are happening between SWDC and South Wairarapa retailers, especially supermarkets, to eliminate plastic packaging (both film and other types) at source?	Discussions are taking place at a Wellington regional level with major retailers for plastic bags.	
79	296-300	Cobblestones Museum	Yes	Jennie	EC&C: Requests \$15,000 for the next 3 years to assist with the operating costs of the museum, and the maintenance and upgrade of the 6 heritage listed buildings and facilities (if the grant needs to be used for a project this can be accommodated)	Await Grant decisions 16/05/2018	
80	301-302	Trish Higginson	Yes	Paul	General: The Council should start to engage and listen to the community	We will be reviewing our communications requirements this year, and will consider all aspects as part of this review.	
81	303	Jill Greathead, Volunteering Wairarapa	Yes	Helen	EC&C: Proposing to trial the Volunteering Manawatu model in the Wairarapa and run volunteer pop-ups in Wairarapa library locations outside Masterton. Wairarapa Library Service already approached and the service will run from 10-12 on Fridays from mid year to the end of the year. A review will be conducted. No funding is needed this year as a grant from Nikau Foundation to cover costs of setting up in South Wairarapa has been given.	Noted (HM)	
84	309-312	Daryl Sykes		Mark	Disappointed there is no provision for a formal disaster recovery plan in the LTP for the district given our vulnerability to natural events and our reliability on SH2 access to the district. The LTP needs to address recovery, coordination and community involvement.	This is being dealt with through WREMO and ongoing development of disaster readiness	
84	309-312	Daryl Sykes		Jennie	Rates/General: Given the rising age of residents, this should be a major consideration for Council when consolidating the LTP. In favour of investing in infrastructure maintenance and development while enabling community arts/culture. Notes rural/urban divide is challenging. Council must be transparent and accountable. Does not believe council has a social responsibility role, central govt should provide this service. Social housing/services are not issues for Council to resolve with rate income.	Noted, Council will be completing a review of the rating system during the 2018/19 financial year and this will be one of the issues covered in that review.	
84	309-312	Daryl Sykes		Paul	General: Concerned at what appears to be an imbalance of investment in the three towns. Negative publicity around SWDC decision making needs to be resolved promptly. If Fstn Square is typical of councils vision and commitment to Fstn then urgent attention needs to be given to planning and development procedures and standards.	The majority of investment is by private investors. The Featherston square project arose following consultation with the Featherston Community. Over the longer term there is not an imbalance between the three towns.	
86	316-328	John O'Connell, Kuranui Board of Trustees	Yes	Jennie	EC&C: Requests Council makes provision for a Community Gym to be developed at Kuranui College as a South Wairarapa community facility.	This proposal will be considered in conjunction with other potential funders including Ministry of Education, Sport NZ, Greytown lands trust etc	

Submissions Summary (Not Consulted on)

No.	Pgs	Name of Submitter	Wish to be heard?	Officer	Summary of Submission	Officer Comments	Councillor notes
86	316-328	John O'Connell, Kuranui Board of Trustees	Yes	Jennie	EC&C: Requests Council commits to investigating the feasibility of a sports hub with facilities located on or near Kuranui College	This proposal will be considered in conjunction with other potential funders including Ministry of Education, Sport NZ, Greytown lands trust etc	
86	316-328	John O'Connell, Kuranui Board of Trustees	Yes	Jennie	EC&C: Requests Council captures that the Community Gym concept is a new opportunity and this may enable the existing provision in 2021 and 2023 (for increased playing fields in Greytown) to be brought forward should the development of a sporting hub make progress faster than initially anticipated	Noted, the location of the future sports grounds will be part of the spatial plan work if it goes ahead. This proposed use of the funding will be considered as part of the spatial plan. (Might be cheaper than buying new land ourselves?)	
87	329-331	Catherine Holley	No	Helen Mark/Tim	Amenities: Requests money allocated for maintaining cycle trail between Fstn and Cross Creek, better maintenance of green spaces in Fstn (Cherry Tree Park, Domain, Barr Brown Bush Reserve and path opposite Police Station on Daniel Street); removal of the train mosaic in Fstn, demolition or moral of the Fstn Town Square to make room for commercial development.	See comment un 91 & 92 re maintenance of Cross Creek cycle trail. Maintenance of green spaces in Featherston - we do the best we can with the money we have got. Working with St Theresa's School re Barr Brown Bush and also looking at other options to do a tidy up in there. Removal of train mosaic - original artist not interested in repairing it, so we have been looking for an artist who might. Chair of FCB would like to see it shifted to footpath outside Fell Museum, so leaving her to drive that for the time being (HM)	
91	340-341	Cheryl Galloway	No	Tim	Land Transport: Maintaining the cycle path to Cross Creek should be included in the LTP. So many cyclists go through Fstn, and well maintained path is essential for residents (walkers and cyclists)	Funded under Roothing budget NZTA works Category 124, Cycle Path Maintenance and category 121 Environmental maintenance.	
92	342-344	David Kleinjan	No	Tim	Land Transport: Maintaining the cycle path to Cross Creek should be included in the LTP. So many cyclists go through Fstn, and well maintained path is essential for residents (walkers and cyclists)	Funded under Roothing budget NZTA works Category 124, Cycle Path Maintenance and category 121 Environmental maintenance.	
92	342-344	David Kleinjan	No	Mark	Amenities: No mention of cycling in LTP, but there is a cycling boom around country/world. Locals are using bikes more often for transport. Current initiatives are: Huri Huri, Woodside trail, Bridge over Tauherenikau, upgrade to Remutaka Rail Trail, Western Lake Rd, Fstn School considering skills tract, Mba cycle tourism.	Support of cycle trails is mentioned in the LTP and there are a number of submissions on this subject which will be considered. The developer has engaged The Traffic Design Group (TDG) to advise on any specific design requirements and the necessary road marking for the West/Balfour/Pierce/South Streets intersection	
93	345-347	Chris Miller	No	Helen	Amenities: There is outstanding work in Fstn on footpaths and trails. The path in the park on Daniel Street needs attention, notes more people using this space than town square. Given visitors using this space, be good to get it upgraded (relocate some of the unused paving stones from Town Square??) Path along Johnson St Domain needs attention, it fills with puddles that don't drain.	Off road carpark not funded under roading budgets, if approved it would be unsubsidised works. (MA) Budgeted (\$25k) for 2018/19 to upgrade Johnston St path to a more permanent surface with better access for wheelchairs. Path in Daniel St to be addressed as routine maintenance (HM)	
93	345-347	Chris Miller	No	Paul	Resource management: Believes Council staff and residents are frustrated with the District Plan and abiding by rules. E.g.. Carparks, shop signs on streets. We need to work out how to change these things (e.g. District Plans) so that everyone can benefit; businesses, residents happy, opportunities not lost etc. would like to see some deliberation on how to do this, more genuine consultation, short term investment worth it in long term	The Wairarapa Combined District Plan review will commence shortly. The rules in the plan were consulted on very widely across the Wairarapa, and the rules set were robustly debated.	
94	348-349	Card Reserve Artificial Trust	Yes	Helen	Amenities: Seeks an expansion of parking alongside the stadium, which may require the removal of the fence as the surface on the road side of the stadium is hard	Budgeted in LTP over 3 years to create carparking along Underhill Road for the full length of Card Reserve with kerb and channel - approx \$160k over 3 years to complete (HM)	
94	348-349	Card Reserve Artificial Trust	Yes	Helen	Amenities: Seeking access to the stadium so can use the toilets while at the turf.	In progress, awaiting pricing from builders with a view to completing work before end of June 2018 (HM)	
94	348-349	Card Reserve Artificial Trust	Yes	Helen	Amenities: Requests a working party with Council be setup to address landscaping the area beside the road and drain in a manner that fits in with turf surface management	Noted. Formal working party not required; officers will liaise directly with CRAFT and the Card Reserve User Group (HM)	
94	348-349	Card Reserve Artificial Trust	Yes	Helen	Amenities: Noted these requests have been asked and agreed on many occasions and ask that they are addressed to complement the top class facility provided at no cost to Council and is used by tennis, hockey, soccer and basketball throughout the year.	Note - SWDC is aware of the good use made of the turf by sports groups and of the work done by CRAFT, including fund-raising to replace the turf, as this is not something Council could have funded (HM)	
95	350-355	Wairarapa Road Safety Council	Yes	Jennie	EC&C: Requests \$5,000 to contribute to the Wairarapa community Driver Menor Programme. The programme is designed to address barriers disadvantaged learner drivers in the 16-24 age group face.	Await Grant decisions 16/05/2018	

Submissions Summary (Not Consulted on)

No.	Pgs	Name of Submitter	Wish to be heard?	Officer	Summary of Submission	Officer Comments	Councillor notes
96	356-357	Alan Maxwell, Wairarapa Whanau Trust	Yes	Jennie	EC&C: Notes the Trust achievements and links to reduction in graffiti and vandalism, and progress in fitting out building on Boundary Rd band youth education undertaken and future goals. To maintain success requests annual grant of \$23,380 and notes that further opportunities exist to develop the Boundary Rd site with Council assistance	Await Grant decisions 16/05/2018	
96	356-357	Alan Maxwell, Wairarapa Whanau Trust	Yes	Jennie	EC&C: Notes part of the grant could be supported by a rates rebate	The property occupied by the Whanua Trust is owned by the Office of Treaty settlements. The Trust does qualify for a reduction in rates due to their community work, would need to ensure OTS pass these savings on to the Trust as tenants. (\$675 pa approx). Suggest Trust talks to OTS about whether they would pass on the savings	
98	371-374	Featherston ANZAC Club	Yes	Helen	Amenities: Would like Anzac Hall to be marketed to make the complex self sustaining and would like commitment from council to complete improvements to have a fully functioning conference Centre in use 80% of the time.	The purpose for which Council currently operates Anzac Hall is as a basic town hall, albeit one with a significant historic heritage. A much higher level of resourcing is called for to operate an event/conference centre, and as Carterton's experience with their Events Centre has demonstrated, Wairarapa as a whole, let alone Featherston, does not have a large enough population base to sustain such a centre. (HM)	
98	371-374	Featherston ANZAC Club	Yes	Helen	Amenities: The Anzac Hall complex's mains power, power boards and wiring needs to be upgraded urgently as a safety issue. Currently heating systems can be operated at the same time without crashing the power supply. The Club asks to be involved in determining additional power point placement and the design of the entire power network	The Amenities operations budget request includes \$100k for the upgrade of the building's electrical system in 2019/20. The Club will be consulted as appropriate. (HM)	
98	371-374	Featherston ANZAC Club	Yes	Helen	Amenities: Requests Council establish a comprehensive annual maintenance plan for the whole Anzac Complex, the Anzac Club will assist. Borer have been noted and Club asks that they be treated as a top priority, the Club believes the fire equipment is not up to standard	Historically council has not put resources into asset management planning for its buildings. Maintenance work is carried out as required, and maintenance concerns should be reported to officers as they arise. The borer will be addressed as an operational matter. The fire equipment is regularly tested to meet current standards - more specific information is required as to why the Club believes it is "not up to standard" (HM)	
98	371-374	Featherston ANZAC Club	Yes	Helen	Amenities: Requests the men's urinals are replaced with flushing urinals as there is no water running through the existing ones, they are not effective, smell and are not hygienic	The major cause of the smell was in fact decades of urine on the floor which had leaked through and permeated the concrete floor - this was remedied during the 2016 refurbishment. Waterless urinals are not ideal in a building with intermittent occupancy but maintenance and cleaning staff make a big effort to keep them hygienic. Replacement would require additional funding - this could be costed for the AP 2019/20 (HM)	
98	371-374	Featherston ANZAC Club	Yes	Helen	Amenities: Both toilet areas in Kiwi Hall are in appalling condition and need total replacement urgently. The Club would like to work with Council on the design to ensure heritage authenticity is maintained.	No funding provision for toilet upgrades has been made in Amenities budget for LTP. Will look at costs and come back to AP 2019/20. The Club will be consulted as appropriate (HM)	
98	371-374	Featherston ANZAC Club	Yes	Helen	Amenities: The steps of the main outside entrance to Kiwi Hall are dangerous and need to be upgraded as a H&S matter urgently.	The Amenities capital budget includes a request for \$65,000 in 2018/19 to upgrade the main hall ramp and the supper room stairs and railings. If this is funded, the main hall ramp could be deferred in favour of spending the money on replace the Kiwi Hall stairs and railings (HM)	
98	371-374	Featherston ANZAC Club	Yes	Helen	Amenities: The kitchen supporting the Anzac and Kiwi Halls and Supper Room is not able to fulfil its purpose and needs a total redesign and refurbishment as a top priority. The Club is willing to allocate substantial funding to assist this refurbishment	The kitchen is adequate for its purpose as the kitchen for a low-use town hall. (HM)	
98	371-374	Featherston ANZAC Club	Yes	Helen	Amenities: Requests installation of high-mounted heat pumps in the Supper Room as there is no heating or cooling available.	No funding provision for heating/cooling for the Supper Room has been made in Amenities budget for LTP. Will look at costs and come back to AP 2019/20, however no additional electrical equipment will be able to be installed until after the completion of the proposed electrical upgrade in 2019/20 (HM)	
98	371-374	Featherston ANZAC Club	Yes	Helen	Amenities: Requests WiFi facilities in all rooms of the Anzac Hall	No funding provision for wi-fi has been made in the Amenities budget for LTP, and it is debatable whether there is sufficient demand, given the current use, for the provision of wi-fi. Wi-fi is only available in the Greytown Town Centre and will also be in the Wainganga Centre because the libraries are located in those buildings and the wi-fi is provided through the public library wi-fi network (HM)	

Submissions Summary (Not Consulted on)

No.	Pgs	Name of Submitter	Wish to be heard?	Officer	Summary of Submission	Officer Comments	Councillor notes
98	371-374	Featherston ANZAC Club	Yes	Helen	Amenities: In the 19/20 Year will be seeking a professional sound system in Kiwi Hall and built-in datascreens and projectors in Anzac Hall and the Supper Room. The Club are funding and installing a sound system in Anzac Hall and datascreen and projector to Kiwi Hall. In recognition of commitment would like council to match the commitment.	The Anzac Club will of course seek the approval of council through officers before carrying out any work in the hall. No funding provision has been made for costs associated with audio-visual systems in the LTP budget (HM)	
101	378-383	Mike Gray	Yes	Paul	EC&C: Requests Council adopt the Public Participation and Engagement framework of the International Association for Public Participation (IAPP) and its incorporation in all types of community/public interaction with appropriate Council policy developed to support it.	Noted, a review of communications will be undertaken this year and will inform policy and practice.	
101	378-383	Mike Gray	Yes	Tim	Land Transport: Requests Council provide alternative access to the Tararua Junction so not all traffic is channelled through West Street. Suggests reopening South Street and reconfigure the junction of Bidwills Cutting and SH2	The developer has engaged The Traffic Design Group (TDG) to advise on any specific design requirements and the necessary road marking for the West/Balfour/Pierce/South Streets intersection	
102	386-392	Greytown Cricket Club	Yes	Helen	Amenities/EC&C: Requests Council assistance to help fund the cost of cricket block refurbishment/reestablishment (6 wickets x \$6,000) and contribution towards the purchase of a mobile trailer cover so covers can easily be placed on/off the blocks (\$12k-\$15k). The total amount requested is \$50,000, the Club can help out with labour where possible to reduce this amount.	No funding provision has been made for the LTP budget for such costs. This request should be treated as a funding request, and the Club is encouraged to seek other sources of funding to contribute to these costs. Paul indicated this might be able to come out of Development contributions.	
103	393	Greytown Little Theatre	Yes	Jennie	General: Requests that the LTP recognise the contribution that arts, culture and heritage enhance the well-being of our broader community within our district. Supports the initiative of 'enhancing the lives of the younger people who live in our district'	Noted, SWDC do support the arts and culture through various grants and initiatives and have budgeted for this in the LTP.	
103	393	Greytown Little Theatre	Yes	Tim	Land Transport: Requests Council make provision to fund the car parking that will be required on the southern side of the proposed new GLT building for use by GLT, Rail Heritage and other community groups in precinct. Suggests over 18/19 and 19/20 years	Off road carpark not funded under roading budgets, if approved it would be unsubsidised works. May be able to come out of Development contributions. Cost \$36K to \$50K depending on choice of surface for car parks	
104	Follows 393 - unmarked	Fab Feathy	Yes	Paul	EC&C: Requests Council invest into community-led development in Fstn to support work done by community and work together to sustain resourcing of this development into the future. Requests active participation of Council staff attending forums like South Wairarapa Community Network and meeting regularly with Fab Feathy facilitator	We are happy to consider options for involvement, these of course will need to be balanced with district wide imperatives. The Featherston Community Board should also be involved.	
104	Follows 393 - unmarked	Fab Feathy	Yes	Jennie	EC&C: Requests Council work with Fab Feathy to be sustainable over the duration of the LTP after funding finishes from DIA in 5 years time. Requests staff funding support from 2023 onwards	Noted and encourages Fab Feathy to submit a grant application to the 2021 LTP and 2023 Annual plan.	
105	441-445	Mike Gray and Greytown residents	Yes	Lawrence	Storm water Drainage: Requests Council implement recommendations of Eastern consulting Engineers in their Greytown Storm water Management Plan of June 97, in particular Council should take over maintenance responsibilities of the drains. Notes a submission was made to the 15/25 LTP and provides Councils response in submission. Request arises due to flooding, particularly in public areas but effects it is having on private property owners.	A report is to be developed on the water races and in particular siltation and changes in the urban areas that may cause greater issues. Recommendations will be reviewed once complete. Council may consider taking on the maintenance of the GTN water races and bringing in a targeted rate as part of hte rating review to be carried out in 2018/19.	
105	441-445	Mike Gray and Greytown residents	Yes	Tim	Storm water Drainage: Requests council undertake regular on-site maintenance monitoring processes by Council staff.	Noted	
105	441-445	Mike Gray and Greytown residents	Yes	Lawrence	Storm water Drainage: Requests council have programmed investment in the network as per the Easter Consulting Report	A report is to be developed on the water races and in particular siltation and changes in the urban areas that may cause greater issues. Recommendations will be reviewed once complete.	
105	441-445	Mike Gray and Greytown residents	Yes	Lawrence	Storm water Drainage: Requests council have clearly defined time lines for the upgrade investment needed	A report is to be developed on the water races and in particular siltation and changes in the urban areas that may cause greater issues. Recommendations will be reviewed once complete.	

Submissions Summary (Not Consulted on)

No.	Pgs	Name of Submitter	Wish to be heard?	Officer	Summary of Submission	Officer Comments	Councillor notes
107	448-450	Barbara Wilson	No	Helen	Amenities: Requests additional water taps, particularly of the older parts of the cemetery. Needs a chapel or something similar so families can sit down. It needs to be better looked after and lawns mowed regular, maybe flowers, a list of those who are buried there on Council's website. Notes damaged graves and suggests a Friends of Fstn Cemetery group is formed	Attempts have been made in the past to establish a Friends Group but there has been no support from the community to date except from the Featherston Lionesses who are working towards providing a shelter. There are explicit standards for mowing and maintenance of the cemetery in council's parks and reserves contract and officers regularly monitor the contractor's performance. However there is a tension between idealistic standards and cost which means that contract standards are of necessity something of a compromise to keep costs down. Work has started to make the death register information available via the internet, with the intention of this being in place by the end of 2019. Will look at costs of placing additional taps, but this is likely to be logistically difficult within the ground of a cemetery of this age (HM)	
109	453-464	Wairarapa Catchment Communities/Pukaha to Palliser	?	Jennie	EC&C: Requests \$25,000 for 3 years to fund a Project Coordinator and Coordination and Facilitation Manager plus operating costs and support. Balance of costs are expected to be met by other funders and industry organisations. A collaboration to address current and future environmental, economic, social and cultural challenges in the Wairarapa supported by leadership in local communities, town and country through facilitation and an aligned agency, community and industry framework. Seek support to create a new organisation that can govern, focus and deliver on these opportunities.	Await Grant decisions 16/05/2018	
111	467	Graeme Gray	Yes	P&E Manager	Resource Management: Requests Council urgently initiate the process for a review of residential lot sizes mandated by the District Plan, in particular the minimum residential lot size of 500sq metres is considered too big and a constraint to the development of 'mixed use' developments. Sizes should be the same as Carterton.	The residential zones minimum lot size is 400m ² with a minimum average lot size of 500m ² (excluding access). This is the same as Carterton. Masterton has a 350m ² minimum. This means that if a property is subdivided into two lots, a 400m ² section would need to be balanced by a 600m ² section. When access is taken into account a property needs to be approximately 1,100m ² to meet the subdivision standards. A corner site would need to be 1,000m ² . Councils Plan effectiveness and monitoring work which will feed into a District Plan review would cover the housing density. Housing density would also be addressed in a Spatial Planning Process.	
112	468-470	Chris Hodson	Yes	Tim	Land Transport: In Mayor's letter emphasis on development improvement which is supported, but in respect of roads nowhere suggestion of improvement only maintenance. Cornering, width above all sealing should be programmed and a list of roads needing improvement and priority should be prepared to reduce accidents and save lives. Roading is a primary function of Council and one of the few where community and charitable assistance can't be expected	Improvement road works are carried out annually as part of maintenance and renewal works. A programme is developed to support NZTA Low Risk/Low cost work category funding request.	
113	471-473	Helen Forlong, Tarureka Estate	Yes	Jennie	Rates: Concerned being taxed too much for sewer. Owns a wedding venue which has on avg 30 weddings a year and has 9 toilets total and 1 in cottage where she lives. Venue toilets not used very much. Is there a calculation which assesses the rates for toilets when they are only used occasionally? Feels a cost of \$500 per toilet is too high as not in use 7 days a week. 7 toilets only used .3% of the hours paid for, 2 toilets are used 14% of the hours paid for. Blanket policy is discouraging. Suggest increasing everyone's rates slightly or have different rates for businesses not operating full hours.	Noted, Council will be completing a review of the rating system during the 2018/19 financial year and this could be one of the issues covered in that review.	
114	474-483	Tourism Industry Aotearoa	?	Jennie	General: Requests Council ensure the LTP accurately reflects the infrastructure needs of tourism	Noted, additional funding set aside to increase infrastructure for visitors.	
114	474-483	Tourism Industry Aotearoa	?	Paul	General: Suggests Council coordinate with Central Government and industry partners on infrastructure projects submitted to the Regional Growth Fund	Noted, this work is being done at present.	
114	474-483	Tourism Industry Aotearoa	?	Paul	General: Suggests Council apply to the Tourism Infrastructure Fund for projects like new carparks, toilets and visitor facilities	Successful application already made.	
114	474-483	Tourism Industry Aotearoa	?	Jennie	EC&C: Requests Council promote the benefits of tourism in the region to the local community	Note, Council does this by supporting Destination Wairarapa and other initiatives such as the increased infrastructure for visitors.	
114	474-483	Tourism Industry Aotearoa	?	P&E Manager	Resource Management: Requests Council ensure freedom camping is effectively managed in the region	Noted.	

Submissions Summary (Not Consulted on)

No.	Pgs	Name of Submitter	Wish to be heard?	Officer	Summary of Submission	Officer Comments	Councillor notes
114	474-483	Tourism Industry Aotearoa	?	Paul	EC&C: Requests Council (or our appropriate agency) sign-up to the Tourism Sustainability Commitment (TSC) and actively promote the TSC to your local tourism operators	Will discuss with Destination Wairarapa	
114	474-483	Tourism Industry Aotearoa	?	Paul	EC&C: Requests Council support the tourism sustainability goal through positive policy and regulatory settings and funding	Will discuss with Destination Wairarapa	
114	474-483	Tourism Industry Aotearoa	?	Paul	EC&C: Requests Council recognise the economic value of your environmental assets to tourism	Will discuss with Destination Wairarapa	
114	474-483	Tourism Industry Aotearoa	?	Jennie	Rates: Discourages tourist specific tax saying tourists pay their way on entering the country and contribute to the local economy	Noted, Council will be completing a review of the rating system during the 2018/19 financial year and this will be one of the issues covered in that review.	
114	474-483	Tourism Industry Aotearoa	?	Paul	General: Requests the opportunity to participate further in any follow-up process, including any formal meetings, to ensure that potential impacts on tourism are adequately represented	Noted, will discuss with Destination Wairarapa	
114	474-483	Tourism Industry Aotearoa	?	Paul	EC&C: Cites the following as tourism priorities for local governments: Destination Management, Infrastructure Facilitation, Events programming, Measuring visitor satisfaction, Off-peak marketing, Regional development and tourism, Enabling airport and port facility development, Sustainable tourism positioning	Noted, will discuss with Destination Wairarapa	
115	484-488	Community Networks Wairarapa Inc	No	Jennie	EC&C: Requests \$1,500 to support the Networks to continue to hold 8 meetings a year in the South Wairarapa and to support the Networks to grow and develop membership across the South Wairarapa, including a specific focus on increasing participation among groups based in Greytown and Martinborough and rurally.	Await Grant decisions 16/05/2018	
116	489-493	Featherston Community Centre	Yes	Jennie	EC&C: Requests \$15,000 to assist the Centre keep the doors open to the community and the building maintained. Notes it is difficult to secure funding for operational requirements and those organisations that do fund are providing less and less. Money would be used for rates, and building and ground maintenance.	Await Grant decisions 16/05/2018	
117	494-514	Connecting Communities Wairarapa	Yes	Jennie	General: Notes the LTP is on physical infrastructure and requests it is updated to have a greater focus on community development to achieve the 5 outcomes. Supports all community outcomes and activity goals, but notes level of EC&C spending is 2.17% of total spend and queries how that will achieve stated community outcomes and how much funding is allocated to outcomes over the period of the LTP	Noted, due to central government and regional government regulations, costs of compliance for infrastructure are high at present (water and wastewater) which restricts the amount of funding available for a small Council to spend in this area. Will keep this in mind for future years if/when IS compliance costs reduce to enable this. Some ratepayers see this type of spending as outside Council's remit and would prefer to see lower rates rather than increased spending in this area, however Council does regard this as part of their role in making our communities a place where people can thrive.	
117	494-514	Connecting Communities Wairarapa	Yes	Jennie	General: Requests Council reconsider the LTP budget allocation to release additional multi-year grant funding for community development activities.	Noted, Council believes it is more prudent to allocate grant funding on an annual basis for most entities. This enables more flexibility for budgets in future years to enable us to meet any urgent expenditure that might arise and enable us to minimise rates spikes due to unanticipated necessary expenditure e.g. to meet new central government legislation	
117	494-514	Connecting Communities Wairarapa	Yes	Jennie	General: Requests greater clarity is provided regarding projects for 2019/20 and beyond (pg 28 of supporting documents) to ensure visibility over pipeline projects and the efficient use of ratepayer funding	Continue work on promoting and enhancing the district - this is the topic being consulted on as part of the LTP process which is planned to commence in the 2018/19 financial year and continue into the following years.	
117	494-514	Connecting Communities Wairarapa	Yes	Jennie	EC&C: Requests \$16,810 to pay the rent for an office in the Featherston Community Centre and to place a social services coordinator dedicated to South Wairarapa residents at the Community Centre for a minimum of 16 hours per week.	Await Grant decisions 16/05/2018	
117	494-514	Connecting Communities Wairarapa	Yes	Jennie	EC&C: Requests \$37,375 to fund a South Wairarapa Neighbourhood Support Coordinator and resources for a .5 FTE. Coordinator currently employed 9 hrs/week ending 30 June 18. Requests multi-year funding be considered	Await Grant decisions 16/05/2018	
117	494-514	Connecting Communities Wairarapa	Yes	Jennie	EC&C: Requests \$1,500 to help fund the Wairarapa Youth Council and strengthen participation from youth in South Wairarapa and to provide support for Wairarapa youth focused events. Requests multi-year funding be considered	Await Grant decisions 16/05/2018	

Submissions Summary (Not Consulted on)

No.	Pgs	Name of Submitter	Wish to be heard?	Officer	Summary of Submission	Officer Comments	Councillor notes
118	515-540	Wairarapa VOICE	Yes	Paul	EC&C: Requests Council evaluate the return on its funding of WREDA and act accordingly	Noted	
118	515-540	Wairarapa VOICE	Yes	Jennie	EC&C: Requests Council identify how it could cooperate to develop value propositions for the economic development of Wairarapa and mobilise them through coordination and extension of economic development activity	SWDC are working with the other Wairarapa Councils, GWRC and WREDA on an economic development plan for the region which will incorporate this including an action plan.	
118	515-540	Wairarapa VOICE	Yes	Jennie	EC&C: Request that the 3 Wairarapa councils investigate the opportunities for standardising and simplifying service delivery where there are benefits to do so and allocate resource to make the changes during the 19/20 planning year	The three Councils do this on an ongoing basis and where there are opportunities to streamline processes or work together we do this. The solid waste contract is an example of the three Councils working together to reduce the cost to ratenavers.	
118	515-540	Wairarapa VOICE	Yes	Paul	Governance: Requests Council improve the effectiveness of consultation on plans and proposed policy changes and adopt the Better Practice Guide (included in submission), take innovate action in enterprise and economic development and undertake efficient and effective service delivery	Noted, we will be reviewing communications this year and will consider this aspect.	
119	541-544	Greytown Sport and Leisure	Yes	Helen	Amenities/EC&C: Supports Kuranui Board of Trustees proposal for a joint project to provide a community sports hub with an artificial turf which will have the potential to offer the capacity of four traditional turfs. It is Council's responsibility to ensure the current facilities are the most efficient way to support sports and leisure activities for all rate-payers, a centralised hub could be a better way forward to manage and share resources for the benefit of all three communities.	This submission is part of GSLS support for option 1 youth training and development \$75,000. If this goes ahead, the issues with the current sports facilities in Greytown (including the over-capacity of the winter sportsfields) could be considered, however the reality is that additional land is required which Council is not currently able to support (HM)	
120	545-552	Para Kore Marae Incorporated	Yes	Jennie	General: Recommend the plan acknowledges tangata whenua as kaitiaki of the land and waterways and the special interest Maori have in protecting the environment from pollution from landfills and littering for future generations	Maori standing committee members were involved throughout the LTP process and continue to be included in Council decisions on an ongoing basis as part of the longstanding relationship between Council and the MSC. The MSC are our link to local iwi and their input to Council decisions and future direction is very much valued	
120	545-552	Para Kore Marae Incorporated	Yes	Helen	Amenities: Supports Council's desire to increase visibility of Te Reo Maori and requests that new/replacements signs all be bilingual. Has bilingual signage that can be sourced.	Noted, and as agreed with Maori Standing Committee, new and replacement signs will be considered for bilingual text where possible (HM)	
120	545-552	Para Kore Marae Incorporated	Yes	Jennie	EC&C: Requests Council consider Para Kore in LTP considerations, several councils refer to their waste education programme in their plan.	Noted, will pass on to waste minimisation coordinator. MSC has had some contact with Para Kore	
120	545-552	Para Kore Marae Incorporated	Yes	Jennie	EC&C: Are working with Wairarapa iwi to have Para Kore kaiaraha available in Wairarapa and to deliver to interested marae, kohanga reo, kura, community organisations and workplaces and requests \$2,000 for the next 3 years to make this possible. An application has been lodged for Waste Minimisation funding and if successful would be looking for Council financial support from 2019-2021.	Await Grant decisions 16/05/2018	
120	545-552	Para Kore Marae Incorporated	Yes	Lawrence	Solid Waste: Note there is no soft plastic recycling services in region and recommend this be addressed	This is being looked at as a Wellington region with major retailers and supermarkets.	
121	553-556	Claire Bleakley	Yes	Helen	Amenities: Requests Council owned public places are sprayed with non chemical pesticide sprays, especially glyphosate based herbicides. Natural alternatives are available.	Officers reported to Council through the Infrastructure and Planning Working Party in late 2015 on Council's use of glyphosate. While natural alternatives are available, they are still not cost-effective or efficient for councils to use on large areas such as road reserves, parks and reserves and cemeteries. SWDC's use of this herbicide on Council land is likely to be at a very low level in comparison to the use on farms and vineyards in the south Wairarapa. SWDC's contractors have robust mechanisms to comply with hazardous substances legislation, protect their staff and minimise potential exposure to members of the public. Unless or until the New Zealand Environmental Protection Agency reassesses glyphosate, and cost-effective alternatives are available, SWDC will continue to use glyphosate, while keeping in mind that a future aim should be to reduce reliance on toxic agrichemicals (HM)	
122	557-558	Marcus Harvey	No	Tim	Storm water: Requests funding is allowed to address flooding from storm water systems not coping; particularly across Wakefield and Johnston Streets in Fstn (approach roads to Railway Station) as it is dangerous in morning darkness	Noted for maintenance cycle regime.	

Submissions Summary (Not Consulted on)

No.	Pgs	Name of Submitter	Wish to be heard?	Officer	Summary of Submission	Officer Comments	Councillor notes
123	559-564	Featherston Community Board	Yes	Helen	Amenities: Requests footbridges across the drain from Harrison Street West. Toilets need to be accessible during sporting events	Will look into costs of providing foot bridges across the drain on Harrison St West however some care would be required with design so they couldn't be used to take motorbikes onto the reserve. As part of event application process, officers liaise with event organisers to determine whether the toilets need to be opened up for the duration of each specific event. There is no budget to keep them open all day every day. (HM)	
123	559-564	Featherston Community Board	Yes	Helen	Amenities: Requests repair of leaks, holes in walls of basketball court, access to toilets for outside groups, and building painted inside and out in sports stadium. Notes the building has potential to be used for club rooms for clubs who do not have them.	No leaks have been reported to officers - all leaks assumed to have been fixed by the replacement of the roof in 2016. We are looking for a suitable replacement wall lining for the main stadium - early indications are that this will require additional funding rather than being able to be done out of existing operating funds. Will come back to AP 2019/20 with budget request for this and painting the building. Note that the building was constructed with an exterior that did not require a paint finish, and that painting it will create ongoing maintenance costs in future (HM)	
123	559-564	Featherston Community Board	Yes	Helen	Amenities: Pool water heating system needs replacing, toddler pool needs a sunshade, fence needs to be more attractive.	Replacement pool water system is being researched and priced. Toddler pool sunshade was in 2018/19 AP submissions and is being progressed in 2018. Noted that fence is not attractive, however the higher priority is prevention of unauthorised access to the pool, including the ability of community/police patrols to be able to see through it into the pool complex (HM)	
123	559-564	Featherston Community Board	Yes	Lawrence/Helen	Solid Waste: Need separate recycling bins for all of council buildings and amenities as well as along streets. Bins and emptying need to be worked into contracts in a meaningful and robust way. Believe most people will use the bins properly once provided	This needs to be developed and costed over all areas as a contract addition and ratified by council. Suggest that the board put the recommendation to council. See answer to 65 for costings	
123	559-564	Featherston Community Board	Yes	Helen	Amenities: References submission and response from Council about referring Fstn Library extension to the LTP discussions and about it being an earthquake prone building requiring remedial work. Notes issues not addressed and limited space for computers, children's programmes and can't accommodate groups wanting to use the space. The service centre has few resources to assist patrons during busy periods such as rates and dog registrations. Requests that the WLS, users and staff are consulted on a way to expand the library within the first year of this LTP so budgets can be prepared.	Not costed for this LTP, however the building is no longer regarded as earthquake prone. Issues about space and staffing are noted. Recommend provision of up to \$10k for consult to review design/layout and possible extension of building as well as community consultation (HM)	
123	559-564	Featherston Community Board	Yes	Helen	Land Transport: Requests that the Fstn street flag brackets are replaced, from original 21 now only 8 with the FlagTrax system so flag installation becomes free. Some renewal of flags and brackets could then be managed by the FCB. Estimated cost is \$13,500, could be sourced from beautification fund after 1 July 17, however an audit is required on poles to check what brackets are required. Brackets require replacing every 2-3 years. Other notes as per submission	\$13,500 per town is indicative budget for replacement of street flag brackets with FlagTrax-style system. This type of system is recommended as flags can be changed by a person standing on the ground rather than requiring costly work by contractor with a cherry picker. Officers support the proposed change and use of beautification budget for the bulk of the cost, however suggest additional funds be provided in Amenities Capital budget to meet half the cost for each town so that residue of beautification budget is available to purchase the replacement flags that will be required (HM)	
123	559-564	Featherston Community Board	Yes	Mark	Land Transport: Requests the cycle network around Featherston is properly maintained and extended. Supports a review of the network to determine and prioritise extent, repair status and gaps, allocation of resources to fix issues	Maps are being developed for the community boards and available July. With now funding available from NZTA the criteria will need to be looked at more stringently. Proposal for region-wide cycling coordinator and website would cover this off if approved.	
123	559-564	Featherston Community Board	Yes	Helen	General: Supports the submissions of Mr Wood and Ms Des Forges and Fstn ANZAC Club.	Noted	
124	565-567	Living Streets Aotearoa	Yes	Tim	Land Transport: Have successfully lobbied government for a funding assistance rate for footpath maintenance, should relieve pressure on Council budgets and allow increased spending on pedestrian infrastructure with a matched council contribution. Also available a walk and cycle activity class for new initiatives to support more walkable places. International standard for measuring walking (www.measuring-walking.org)	Assign to Community Board as part of the footpath priority works	
124	565-567	Living Streets Aotearoa	Yes	Jennie	EC&C: Support youth grants that allow for appropriate initiatives that support young people walking to school, school travel programmes, youth training, development and recreation grants	Noted	

Submissions Summary (Not Consulted on)

No.	Pgs	Name of Submitter	Wish to be heard?	Officer	Summary of Submission	Officer Comments	Councillor notes
124	565-567	Living Streets Aotearoa	Yes	Tim	Land Transport: Requests speed reduction outside schools to 30km/hr. Support <u>reduction in speed on all roads.</u>	School speed zones of 40km/hr are being implemented	
124	565-567	Living Streets Aotearoa	Yes	Tim	Land Transport: In light of extra funding requests footpaths are smooth and all intersections have drop-down kerbs which all have tactile markings for vision impaired people. Walkways should be upgraded and more public seating provided	Assign to Community Board as part of the footpath priority works	
124	565-567	Living Streets Aotearoa	Yes	Tim	Land Transport: Requests all subdivisions have footpaths on both sides of the road that are at least 1.8m in width	NZS 4404 Land development and Subdivision Engineering requires footpaths on one side for developments upto 20 lots and both sides for over 20 lots. Concrete <u>has a longer life so is the preferred surface.</u>	
124	565-567	Living Streets Aotearoa	Yes	Tim	Land Transport: Requests the Infrastructure Plan adjusted to bring forward and take advantage of extra funding to allow footpath developments	Assign to Community Board as part of the footpath priority works	
124	565-567	Living Streets Aotearoa	Yes	Tim	Land Transport: Requests dedicated pedestrian footpath along the east side of East Street, Greytown near Greytown School to improve safety of children walking to school	Assign to Community Board as part of the footpath priority works	
124	565-567	Living Streets Aotearoa	Yes	Tim	Land Transport: Requests improvements to pedestrian crossings across SH2 similar <u>to the raised crossing in Carterton to improve safety.</u>	SWDC to liaise with NZTA	
124	565-567	Living Streets Aotearoa	Yes	Tim	General: Supports public transport use and improvements to shelters, seating, timetable info etc. as well as promotion of these services	SWDC offices are looking at speed limits as part on Government mandate in conjunction with NZTA and neighbouring Councils. An engagement and <u>consultation package is being developed.</u>	
125	568-576	Wairarapa Trails Advisory Group	Yes	Jennie	EC&C: The joint Wairarapa council's group requests \$49,000 per annum for a regional resource to support cycling in the Wairarapa (SWDC share is \$11,368).	The submission states that the website will be managed by the coordinator, branding is Huri Huri. (Note there is no grant request from Huri Huri this year). A Wgtn Regional cycle coordinator is in the budget (\$3k), funded by all regional councils.	
125	568-576	Wairarapa Trails Advisory Group	Yes	Mark	Amenities: Requests support of one 'umbrella' organisation to lead and develop the a brand for recreational trail development - in the form of a re-focused and <u>expanded Five Towns Trail Trust</u>	Noted This can be pursued through the combined council via the advisory group.	
125	568-576	Wairarapa Trails Advisory Group	Yes	Mark	EC&C: Requests funding for the development of a 'one stop' shop website for all aspects of cycling in the region using the established Huri Huri brand (no amount <u>provided</u>)	Noted This can be pursued through the combined council via the advisory group. Cost of managing the website not stated in submission.	
126	577-579	Paul Harris	No	Tim	Land Transport: Requests Council reduce the 70kph speed limits in Mba immediately due to increases in traffic flow, cyclists and pedestrians and no cycle lanes and no footpath beyond Ferry Road. Believes the speed limits along Jellicoe Streets are dangerous and do not take into account volume, nature of the traffic. Suggest the 50kph zone should extend to teh intersection of Jellicoe St and White Rock Rd and the 70kph zone should include the transfer station turnoff There should be limed footpath/cycle track from Ferry Road at least to Campbell Drive	SWDC officers are looking at speed limits as part on Government mandate in conjunction with NZTA nad neighbouring Councils. An engagement and consultation package is being developed.	
127	580-583	Dave Shepherd	Yes	Tim	Land Transport: Cycle tourism has grown and incidents have been observed along the SH53/Kitchener St, Princess St, Huangarua, Puruatanga, Martins Rd and tributaries of unsafe cycling behaviour, non-observance of road rules and failure to wear helmets (even though they are issued them and signed a statement saying <u>they will wear them</u>)	Road rule compliance is a NZ Police enforcement issue. Wairarapa Road Safety Committee will discuss this issue.	
127	580-583	Dave Shepherd	Yes	Tim	Land Transport: Requests speed limits on above roads are reduced to deal with the above.	SWDC officers are looking at speed limits as part on Government mandate in conjunction with NZTA nad neighbouring Councils. An engagemnt and consultation <u>package is being developed.</u>	
127	580-583	Dave Shepherd	Yes	Tim	Land Transport: Requests the above roads are widened to the same width as Princess Street to incorporate a solid shoulder.	Road widths will be addressed as part of the speed limit review. Generally the <u>wider the road is faster road users go.</u>	
127	580-583	Dave Shepherd	Yes	Tim	Land Transport: Requests signage warning of cycle traffic along the wine trail route	Share the road signage is being investigated district wide.	
127	580-583	Dave Shepherd	Yes	Tim	Land Transport: Requests collaboration with cycle tourism operators and accomodation providers who hire bikes to ensure cycle tourists are using the road <u>ways lawfully</u>	Assign to MCB	
127	580-583	Dave Shepherd	Yes	Tim	Land Transport: Requests signage warning of heavy farm and vineyard machinery traffic along the wine trail route.	Signage will only be installed to meet MOTSAM (manual of traffic signs and markings - i.e. NZTA rules) to avoid a over cluttering of signs.	

Submissions Summary (Not Consulted on)

No.	Pgs	Name of Submitter	Wish to be heard?	Officer	Summary of Submission	Officer Comments	Councillor notes
127	580-583	Dave Shepherd	Yes	Tim	Land Transport: Requests signage at every winery/cellar door in town reinforcing road rules, speed limits, cycle safety and compulsory helmet use.	This should be a action by the Vineyards at the Cellar Door exits as being a responsible host	
128	584-586	Janine Price	No	Paul	General: Disappointed with mismanagement of Fstn development. Feel Council overlooked Fstn time and again. Fstn sad sight full of condemned buildings and empty lots. Council should be ashamed of neglect, something has to change	Council does not "overlook" any areas and has a consistant approach to all areas. Local Authorities have no power to intervene in the state of private buildings unless they are dangerous, or empty lots (apart from the lots we own). Council <u>does not neglect the areas it can control.</u>	
129	587-595	Regional Public Health	Yes	Mark	General: Commends Council for investing in infrastructure that protects health and wellbeing of our communities in an adverse event and notes it is important to work together to build resilient infrastructure and communities through collaborative emergency planning and response. Look forward to increase collaboration on emergency preparedness and management.	Noted, this is covered in our AMPs and infrastructure strategy.	
129	587-595	Regional Public Health	Yes	Jennie	General Support bilingual signage approach	Noted	
129	587-595	Regional Public Health	Yes	Lawrence	Water Supply: Note possible changes to drinking water regulation however capital expenditure not scheduled until 2028, encourages Council to ensure adequate resources are available to achieve full compliance with standards	Budgeted expenditure relating to Havelock report is in 2021 and 2022 not 2028.	
129	587-595	Regional Public Health	Yes	Helen	Amenities: Requests investment to make Greytown memorial Park drinking supply fully compliant with NZ water standards and help meet demand of growing community	Officers not aware that Greytown drinking fountain (and also the Featherston ones, which are the same) are not fully compliant with NZ water standards and <u>will investigate (HM)</u>	
129	587-595	Regional Public Health	Yes	Paul	General: Small councils rely on use of contractors which is less efficient and sustainable than a regional collaborative approach. Encourages collaboration between Wgtn/Wairarapa councils	We are in regular contact with Wellington Water, and in particular have been discussing purchasing options. Our curent delivery contracts do not expire for another two years and we will consider all options as part of the S17A review.	
129	587-595	Regional Public Health	Yes	Mark	General: note a lot of ground work undertaken in preparing the LTP, are happy to participate in early direction setting discussions. Please add to database of community and agency consultation stakeholders (offers support in areas of emergency management, 3 waters, housing quality, public and active transoport, community development, healthy food environments)	Noted, SWDC will look to work with RPH wherever possible in these areas. GMCS met with RPH staff during the LTP process and discussed issues the LTP would be covering.	
130	596	Graeme Thomson		Russell	Resource Management: Requests that limitations are placed on the intrusion of housing and lifestyle developments into productive farm, horticulture and viticulture land.	The District Plan provides for a limited amount of housing within the rural zones. The rural (special) zone is more restrictive and encompasses areas such as; the land determined most suitable for viticulture around Martinborough; flood zones; land near municipal infrastructure such as wastewater treatment ponds and transfer stations. Council is undertaking a District Plan monitoring and effectiveness program. The findings of this, and any spatial planning process, could cover rural development and feed into the District Plan review process.	
130	596	Graeme Thomson		Russell	Resource Management: Requests that Council promote more densely populated village centres in the 3 towns (e.g. terraced properties or apartments) and the District Plan is changed to provide for a specially designated central area to allow this, and within this area allow modified planning requirements	The District Plan does not expressly provide for intensive residential development. Council is undertaking a District Plan monitoring and effectiveness program. The findings of this, and any spatial planning process, could cover the need for more intensive residential development and feed into the District Plan review process.	
131	597-600	Clive Paton		Tim	Land Transport: Cycle tourism has grown and incidents have been observed along the SH53/Kitchener St, Princess St, Huangarua, Puruatanga, Martins Rd and tributaries of unsafe cycling behaviour, non-observance of road rules and failure to wear helmets (even though they are issued them and signed a statement saying <u>they will wear them</u>)	Road rule compliance is a NZ Police enforcement issue. Wairarapa Road Safety Committee will discuss this issue.	
131	597-600	Clive Paton		Tim	Land Transport: Requests speed limits on above roads are reduced to deal with the above.	SWDC officers are looking at speed limits as part on Government mandate in conjunction with NZTA and neighbouring Councils. An engagement and <u>consultation package is being developed.</u>	
131	597-600	Clive Paton		Tim	Land Transport: Requests the above roads are widened to the same width as Princess Street to incorporate a solid shoulder.	Road widths will be addressed as part of the speed limit review. Generally the <u>wider the road is, the faster road users go.</u>	
131	597-600	Clive Paton		Tim	Land Transport: Requests signage warning of cycle traffic along the wine trail route	Share the road signage is being investigated district wide.	
131	597-600	Clive Paton		Tim	Land Transport: Requests collaboration with cycle tourism operators and accommodation providers who hire bikes to ensure cycle tourists are using the road <u>ways lawfully</u>	Assign to MCB. District wide cycling coordinator may be able to assist (?)	

Submissions Summary (Not Consulted on)

No.	Pgs	Name of Submitter	Wish to be heard?	Officer	Summary of Submission	Officer Comments	Councillor notes
131	597-600	Clive Paton		Tim	Land Transport: Requests signage warning of heavy farm and vineyard machinery traffic along the wine trail route.	Signage will only be installed to meet MOTSAM (manual of traffic signs and markings) which is an NZTA legislative requirement to avoid a over-cluttering of signs.	
131	597-600	Clive Paton		Tim	Land Transport: Requests signage at every winery/cellar door in town reinforcing road rules, speed limits, cycle safety and compulsory helmet use.	This should be a action by the Vineyards at the Cellar Door exits by being a responsible host	
132	601-602	Ian Abbott	No	Shane	Public Protection: There needs to be funds to ensure animal facilities such as pounds are of acceptable and humane standards.	The LTP budget includes funds for a new dog pound in FTN.	
134	605-606	Pauline Hedley		Tim	Land Transport: I would like to see NO PASSING signs put up either side of the Waihenga Bridge into Martinborough. It's dangerous for all the traffic including cyclists - the double yellow lines mean nothing to traffic these days, All bike/cycles should have bells on them if they are riding on public roads.	SWDC to liaise with NZTA	
134	605-606	Pauline Hedley		Helen	Amenities: Get rid of the shoes hanging in the Mba Library they are dirty and a hazard they do not pertain to an event or display	Will be addressed with Branch Librarian (HM)	
137	611-646	Co-Design Architects Ltd	Yes 14 May	Russell	Future development: Option 1, see submission summary of suggestions is: Explore a sustainable and lively urban form for future Greytown, Preserve Heritage, Preserve Orchards in GTN development area, Develop a thriving town centre; See <u>submission for detail of a lively town centre concept</u>	Council is undertaking a District Plan monitoring and effectiveness programme. The findings of this, and any spatial planning process, could cover urban form and feed into the District Plan review process.	
138	647-648	Robert Petelin	Yes 15 May	Russell	I was not impressed on the answer of the question to improve the timing of consent from 20 working days to something more reasonable in line with other council your reply was FLAT NO	Council staff work to the statutory timeframes in the RMA and consents are processed as quickly as possible with the resources available. The 2017 amendments to the RMA now require some consents to be processed in 10 working days. Increasing staff levels with associated cost would reduce timeframes	
138	647-648	Robert Petelin	Yes 15 May	Suzanne	Governance: Requests a copy of all submissions	Will be provided.	
139	649-650	Pete Roberts		Russell	Future Development: Does spatial planning mean that the commercial zone that Featherston Town Square is on will be considered for re-development so that the whole site could become a viable business proposition.	Spatial planning is not directly linked to redevelopment of this site. Spatial planning could assess the provisions of the District Plan's commercial zone.	
140	651-652	Lesley Christian		Helen	Amenities: Featherston Library is too small. Join up with the old court house building to double the space.	Issues about space and staffing are in this and other submissions are noted. Recommend provision of up to \$10k for consult to review design/layout and possible extension of building as well as community consultation (HM)	
141	653-654	Anastacia Kirk		Paul	General: News that the proposed development beside the town square (not utilised/dead space) will not go ahead. Business should be encouraged here in Featherston given its slow progress compared to other towns in the South Wairarapa. Very disappointing that Council have not found a way to make it work.	Noted, we continue to work on the issues (easements) and other rights over that property that have prevented development. There is quite a lot of interest in the site from other private investors.	
142	655-656	Jan Stephen		Jennie	General: I think undertaking an LTP for SWDC is a waste of time and money. I voted to merge the 3 councils of the Wairarapa, and I wish this had happened. <u>Shortsighted decision.</u>	Noted, SWDC are required by law to produce an LTP every three years, the decision regarding the amalgamation was voted on by the public and outside SWDC's control.	
143	657-659	Renze Bijke		Paul	General: The plan that you have put together for South Wairarapa is not bad; it's terrible! How can I help how can I be constructive? 1. When your plan highlights the fact that for the next 30 years you are going to find it nearly impossible to manage and move forward with basic infrastructure. 2. Apart from your organisation's housekeeping; you have no ideas for the future of our towns. There are more creative and influential people living in Featherston than ever before; they have ideas. Plus when Victoria's Architecture students make a project of re-designing Featherston's public domain none of the council took any of their good ideas and made them happen - Go back to it! 3. Your work culture is restrictive and dry. The most constructive idea if we will ever achieve a great place is to dissolve your entire Council Members, staff, processes and policies. Those starting again fresh with who wants to make a great and are willing to take risks and find exceptions to the rule.	Our infrastructure plan for water and wastewater has modelled requirements out to 2106, and we have a comprehensive plan for all our assets for at least the next 30 years. This includes the construction and delivery of treated wastewater to land, of which we have in the order of \$12M capex remaining. By having our infrastructural asset plans in place and understood, we can look at enhancing the district with spatial planning, youth development, marketing the district and providing sports coordination. All aimed at making South Wairarapa a great place to live.	
144	660	Council		Jennie	EC&C: Council submit to the LTP process to budget for Mayor Napier's attendance at the 75th Anniversary Commemorations to be held in Cowra, Australia in August 2019. From Council meeting 4.4.2018	LTP Budget to be updated to reflect this.	

Submissions Summary (Not Consulted on)

No.	Pgs	Name of Submitter	Wish to be heard?	Officer	Summary of Submission	Officer Comments	Councillor notes
144	660	Council		Jennie	EC&C: Council would like to submit to the LTP process to budget for up to two councillors plus the Mayor to attend the Local Government conference in future years. From Council meeting 4.4.2018	LTP Budget to be updated to reflect this.	
145	661-663	Jill Thomas		Lawrence	Rates: Based on info in LTP document, estimated surplus of \$5,659,459 covers estimated cost of \$588,000 for new wastewater in Gtn with large sum for rest of district.	Spending is required in all areas of the District and timing varies between the towns. Officers ensure the priority work is completed first.	
145	661-663	Jill Thomas		Jennie	Rates: estimations on increased rates for 2018/19 year are way out.	The CD includes both the overall percentage rates increase and examples of individual rates increases for a range of different properties. Due to the complex nature of rates calculations, the impact on individual ratepayers will vary.	
145	661-663	Jill Thomas		Tim	Land Transport: North Road should be widened and foot path added. Same applies to Wood Street up to Mole Street corner - equally as much vehicular/foot traffic. <u>This would be expensive.</u>	Estimates done for North Rd and Wood Street. North St is on hold until land acquisition is completed. Wood Street is part of the GDA and will happen if <u>subdivision goes ahead.</u>	
145	661-663	Jill Thomas		Helen	Amenities: Wheels Park for GTN - Council should explore purchasing or leasing property on the North-west corner of Mole and Wood Street - ample room, not many neighbours close to CBD.	Council has put aside land for proposed skate park in Pierce St (HM), Kuranui College Hub submission suggested siting the skate park at the College.	
145	661-663	Jill Thomas		Tim	Land Transport: Remedial work on footpaths needs to be done before any new work is completed.	The last 3 years we have focused on resurfacing existing footpaths to remove hazards, with the only new paths being constructed this year being small sections infilling.	
145	661-663	Jill Thomas		Jennie	Rates: No further borrowing of monies. Rateable base is increasing each year.	Noted, Council borrows to fund long term projects is Councils to spread the cost over the generations that will benefit from the capital expenditure.	
145	661-663	Jill Thomas		Jennie	Rates: You do not mention how much interest is paid out on money already borrowed, only on investments made throughout the year.	Details on interest expenditure are covered in the supporting documentation to the CD which is available on our website. The final line of the table on Page 75 shows the budgeted interest expense for each of the ten years of the LTP.	
145	661-663	Jill Thomas		Jennie	Rates: Do not borrow money on Martinborough wish list unless Martinborough ward is footing the cost.	Council's revenue and financing policy decides how expenditure will be spread amongst ratepayers. Over time this is the fairest system for all ratepayers and requires less staff time to administer therefore saving costs to ratepayers.	
146	664-665	Ed and Juliet Cooke		Jennie	Rates: Depreciation vs Maintenance funding. Surely council puts money away for future maintenance/renewal to avoid major events impacting rates.	Yes Council does put funds away in reserves for future expenditure. A summary of reserves can be found on page 81 of the supporting documentation to the CD.	
146	664-665	Ed and Juliet Cooke		Russell	Resource management: Requests Council take ownership and Sustain and exercise guardianship of Greytown's best horticultural soils. Intensify subdivision in Westec subdivision, leave the orchards to grow fruit not houses.	The development and subdivision provisions of the District Plan do not expressly differentiate soil quality in the rural zone around Greytown. Council is undertaking a District Plan monitoring and effectiveness programme. The findings of this, and any spatial planning process, could cover development in the rural zone (including the need to protect highly fertile soils) and feed into the District Plan review process. The land in the Greytown Future Development Area was rezoned residential in the Wairarapa Combined District Plan when notified in 2006 (operative 2011).	
147	666-670	Wings over Wairarapa Community Trust	Yes	Jennie	EC&C: \$10,000 for contribution to Operation of 20th Celebration of the Air Show February 2019.	Await Grant decisions 16/05/2018	
148	671-675	Fell Locomotive museum	No	Jennie	EC&C: \$2,000.00 to upgrade toilets in Museum, plus normal \$2,000 for operating costs	Await Grant decisions 16/05/2018	

Submissions Summary (Not Consulted on)

No.	Pgs	Name of Submitter	Wish to be heard?	Officer	Summary of Submission	Officer Comments	Councillor notes
149	676	Indigo Freya	No	Paul	Governance: Find cost effective ways to enable more input to community board meetings -(perhaps making agenda more public, allowing 2 mins per speaker without prior requirements.)	All SW district libraries and the Council office have a copy of the agenda for public viewing. The agenda is also available on Councils website before the meeting. The standing orders adopted are what has been devised from an expert panel to manage the process and meet LGA requirements in the best possible way. Officers don't recommend a change. To our knowledge there are only a handful of instances where speakers have been declined, and most of these were due to the time allocated being full. The chair has the power to waive the prior notice requirements, the discretion to decline to hear a speaker repeating the same views, and to permit extra speakers thereby reducing the time for all speakers at that meeting to 3 mins.	
151	715-725	Federated Farmers	Yes 15 May	Jennie	Rates: Report levels of UAGC utilisation compared to 30% legislative maximum. Fully utilise UAGC mechanism at 30% to provide equity between ratepayers. Governance should be fully funded by UAGC so equal benefit is matched by equal contribution.	Noted, Council will be completing a review of the rating system during the 2018/19 financial year and this will be one of the issues covered in that review.	
151	715-725	Federated Farmers	Yes 15 May	Jennie	Rates: FF pleased that cents in the dollar struck for rural differential has reduced.	Noted	
151	715-725	Federated Farmers	Yes 15 May	Jennie	Rates: Council should utilise targeted rates to fund 100% of sewerage/water supply/Amenities/refuse collection.	Noted, Council will be completing a review of the rating system during the 2018/19 financial year and this will be one of the issues covered in that review.	
151	715-725	Federated Farmers	Yes 15 May	Jennie	Rates: Suggests rates remission to provide relief for revalued farms where value disproportionately higher due to unrealised subdivision/development potential.	This would not be consistent with our rating policy. Percentage increases for residential properties were higher than for rural properties so they could also make this argument. QV carry out the revaluations each year and are independent of Council. The valuations are one factor that influences the rate bill to each ratepayer. We are carrying out a review of our rating system in the coming financial year so will add this to the list of issues to be considered.	
151	715-725	Federated Farmers	Yes 15 May	Paul	Public Protection: Rural dogs/rural general rate should not subsidise urban dog control/Pound etc	The LTP funding for a dog pound is provided by a 70% proportion from dog registrations and 30% from the general rural rate. For the past two years, approximately 30% of dogs impounded have been rural dogs. It should also be noted that large stock attacks are typically due to rural dogs and these situations are more likely to lead to prolonged impounded for these dogs.	
151	715-725	Federated Farmers	Yes 15 May	Jennie	Rates: Hybrid funding model to fund roads - district wide targeted uniform charge plus existing land value general rate.	Noted, Council will be completing a review of the rating system during the 2018/19 financial year and this will be one of the issues covered in that review.	
152	726-728	Dale Fanning	No	Paul	General: Investment needs to be spread evenly. Featherston Town Centre is a joke. Council should work to solution, not drive investors out of town. Leadership not shown in dealing with incompetence and bungling.	The majority of investment is by private investors. The Featherston square project arose following consultation with the Featherston Community. Over the longer term there is not an imbalance between the three towns. There has been quite a lot of interest from other private investors since the initial developer withdrew his project	
153	729-732	Daniel Willmott	No	Paul	General: Seems to be an "old boys club" style of operating in SWDC at senior levels where significant decisions being made behind closed doors. Bullying managerial style. Featherston community being held back by SWDC as millions pumped into Greytown and Martinborough.	Council does not hold back any areas and has a consistent approach to all areas of the District. The majority of investment in GTN and MBA has been by private investors. Council decisions are made in open meetings and consultation is carried out with the community as required.	
154	733-739	Wellington Culinary Events Trust	No	Paul	Amenities: Make South Wairarapa a great place to live. Provide a great village experience to encourage more residents and visitors.	Noted, the spatial plan will assist with this.	
154	733-739	Wellington Culinary Events Trust	No	Shane	Public Protection: Remove unnecessary administrative and bureaucratic barriers.	SWDC commits to making licensing processes as efficient as possible with the resources available. All legal requirements are followed to ensure the best outcome for the customer, ratepayer and Council.	
154	733-739	Wellington Culinary Events Trust	No	Tim	Land Transport: Undertake projects that focus on resilience of infrastructure, roading and transport.	Noted	
154	733-739	Wellington Culinary Events Trust	No	Jennie	EC&C: Promote and support economic growth of South Wairarapa food and beverage producers and suppliers	Noted	
154	733-739	Wellington Culinary Events Trust	No	Jennie	EC&C: Encourage SW food and beverage industry to take part in Wellington on a Plate etc.	This is not seen as part of Council's role. Individual business owners are welcome to enter Wellington on a plate if they choose to.	

Submissions Summary (Not Consulted on)

No.	Pgs	Name of Submitter	Wish to be heard?	Officer	Summary of Submission	Officer Comments	Councillor notes
155	740-743	Mandy Smith	YES	Russell	future growth and development: Consideration of zoning for low-cost housing for workers in Martinborough, smaller sections for retirees, weekenders, less restriction of subdivision, more infill, appropriately set up freedom camping areas. 20-30 year plan not appropriate.	The District Plan does not expressly provide for intensive residential development. Council is undertaking a District Plan monitoring and effectiveness programme. The findings of this, and any spatial planning process, could investigate whether the residential provisions in the District Plan are meeting the communities needs and feed into the District Plan review process. Council does have designated change freedom camping areas.	
155	740-743	Mandy Smith	YES	Jennie	Rates: Want more information about why council is proposing the split in percentage increase between rural and urban ratepayers.. We do not support an imbalance in the increase in rural ratepayers having to pay more. Arguments about geographical spread and high roading costs is a tired argument given increase in tourism. We expect deeper analysis into this.	No change in split between rural and urban ratepayers is proposed. Our rating system is consistent with previous years.	
156	744-746	Greytown Trust lands	YES	Jennie	EC&C: Requests an immediate commitment by the Council to partner with relevant stakeholders in assisting Kuaranui College Board of Trustees through provision of resource (financial or otherwise) to investigate the feasibility of developing a shared use sports facility on Kuranui College grounds. A contingent commitment to support Board of Trustees development, preparation and presentation of a business case to the Ministry of Education and potential capital funding providers.	Noted, will be considered alongside submission from Kuranui College Board of Trustees.	
157	747-750	Greater Wellington Regional Council		Lawrence	Water Supply: GW exploring ways to ensure greater certainty of water supply for Wairarapa - envisages developing a water supply scheme comprised of multiple water storage locations with distribution through network of rivers and piping - could serve each town's future drinking water needs. Next step includes partnering with Wairarapa Councils to consider how water storage is best integrated to provide long-term security for public water supply, farmers and environment.	Noted, Council looks forward to being part of these discussions.	
157	747-750	Greater Wellington Regional Council		Mark	Infrastructure General: GW supports approach to managing infrastructure assets based on need, condition and importance., backed by robust understanding of state of assets and ongoing assessment. GW supports Council's allocation of funding in wastewater management and water supply upgrades. Council should include funds for stormwater consenting and monitoring processes required by the proposed Natural Resources Plan.	Funds have been allocated for consents	
157	747-750	Greater Wellington Regional Council		Mark	Public Protection: WREMO supports Council's ongoing commitment to civil defence preparedness and regional emergency management and ongoing investment to ensure the reliability and resilience of existing and future infrastructure	Noted	
157	747-750	Greater Wellington Regional Council		Jennie	EC&C: GW supports aim of maximising future opportunities for growth, economic development and employment for SW residents. GW has committed staff and \$50,000 to development of Wairarapa Economic Development Strategy(WEDS). GW asks that Council set aside sufficient resources including budget to contribute to development and implementation of WEDS.	Council are committed to being part of the GW economic development project and contributing via staff involvement in the process. To date there have not been any requests for further funding on top of what is already contributed to WREDA, so nothing has been budgeted.	
157	747-750	Greater Wellington Regional Council		Tim	Land Transport: GW supports the renewal and extension of footpaths and development of cycle strategy. This work contributes to the objective in the Regional Land Transport Plan 2015 of an attractive and safe walking and cycling network.	Noted	
158	751-752	Vicky Alexander	No	Jennie	General: You comment that the median age of residents is predicted to rise to 49 years by 2043, and that over time you expect to have more residents with fixed incomes who may not be able to absorb cost increases. The current median age in Featherston would appear to be higher than 49 and it is already difficult to fund council's wish items. Your Long Term District Plan is a Council wish list but it does NOT incorporate ratepayers' wishes	We have involved residents including Community board members and Maori standing committee members in the preparation of the LTP and this consultation process is another way for us to gather information on what our residents would like to see in the LTP. We are grateful for the feedback received from residents who have taken the time to make a submission.	
160	755-764	Sport Wellington	YES	Jennie	General: Sport Wellington supports the new community outcomes as articulated in your consultation document. We believe that sport and recreation can play a part in achieving many of these outcomes.	Noted	

Submissions Summary (Not Consulted on)

No.	Pgs	Name of Submitter	Wish to be heard?	Officer	Summary of Submission	Officer Comments	Councillor notes
160	755-764	Sport Wellington	YES	Helen	Amenities: Advocates for greater collaboration across the region in development and provision of sport and active recreation. Working towards building a more collaborative regional approach to sport and active recreation provision and development through implementing <i>Living Well</i> , the regional sport and active recreation strategy, in partnership with key stakeholders including councils.	Noted. Council currently is not resourced at a level which allows for much time to be involved in regional sport approach/strategy (HM)	
161	765-778	Toimata Foundation/Enviroschools	YES	Jennie	EC&C: Enviroschools acknowledges support from SWDC since 2006 and requests SWDC continues to support by providing continued funding that enables the gradual increasing demand for new schools and ECE to join the programme over <u>next ten years where necessary.</u>	Noted	
161	765-778	Toimata Foundation/Enviroschools	YES	Jennie	EC&C: Requests SWDC sign and support the joint Wairarapa Councils' Memorandum of Understanding with Enviroschools.	Noted -We believe this has already been signed. Will follow up.	
161	765-778	Enviroschools/Toimata Foundation	YES	Jennie	EC&C: \$11,200.00 for delivery of Enviroschools programme in South Wairarapa, including services of an Enviroschools facilitator to support schools and ECE.	Will be considered with other grants 16/5/2018	
162	779	Campbell Moon	No	Adrian	Public Protection: Woodburner consents take 20 days at SWDC and only 72 hours at CDC - why can't SWDC do them in 72 hours.	Consent times reflect on the quality of information supplied. The fireplace consent generally will only take a few days at SWDC if all information is supplied.	
163	780-784	Martine Bijker	Yes	Paul	General: Need cultural change in SWDC to meet vision and mission statements. Operational organisation is failing Featherstonians - long term systemic failure. Poor decisions, lack of transparency, failure to consult as required by law, abysmal communication	Council does not hold back any areas and has a consistent approach to all areas of the District. The majority of investment in GTN and MBA has been by private investors. Council decisions are made in open meetings and consultation is <u>carried out with the community as required.</u>	
163	780-784	Martine Bijker	Yes	Paul	General: Featherston Town Centre left underdeveloped for years with inability to deal effectively with John Broeren, murky land swap with Trusthouse, use of prime commercial land for unwanted town square	Local Authorities have no power to intervene in the state of private buildings unless they are dangerous, or empty lots (apart from the lots we own). Council does not neglect the areas it can control. The town centre was completed after <u>consultation with the community</u>	
163	780-784	Martine Bijker	Yes	Paul	General: Why such high turnover in Planning and Environment team? Council organisation is inflexible and overly officious. Good people have been ground down by it and left to work elsewhere. Why has that been allowed to happen by council leadership	Staff working in Planning and Environment team are typically tertiary qualified professionals. SWDC has recently been attracting applications from recently graduated students travelling from afar to work at SWDC. This reflects the NZ <u>wide skills shortages in these professions.</u>	
165	789-797	Maori Standing Committee	YES	Paul	EC&C: As Māori make up roughly 15% of a 10,000 people population, we consider 15% (\$63,095) of what is spent in terms of Economic, Cultural and Community Development should be allocated to kaupapa Māori. See: Community Partnerships (proactive communities, strong families, proud identity and voice, Driven by community for community, wellbeing for all ages), Best Care & Use of Natural Resources (telling unique local stories of valuable places and spaces, sustainable/guardianship/kaitiakitanga), Best Care and use of Assets and Infrastructure (Multi use spaces and trails). Healthy and economically secure people, educated and knowledgeable people, vibrant and strong communities, sustainable South Wairarapa.	Notes, MSC and Marae Grant applications will be considered alongside other funding requests.	
165	789-797	Maori Standing Committee	YES	Jennie	Rates: Recommend that Council reviews its rating of our 3 marae	Noted, Council will be completing a review of the rating system during the 2018/19 financial year and this will be one of the issues covered in that review.	
165	789-797	Maori Standing Committee	YES	Jennie	EC&C: Recommend that Council set aside \$10,000 per annum per marae for <u>maintenance/upkeep purposes.</u>	Await Grant decisions 16/05/2018	
165	789-797	Maori Standing Committee	YES	Paul	EC&C: Recommend that Committee and Council work together to develop and establish marae based workshops in Te Reo, Mau Rākau, Kaitiakitanga, Rāanga and <u>other cultural practices.</u>	Noted, MSC and Marae Grant applications will be considered alongside other funding requests.	
165	789-797	Maori Standing Committee	YES	Jennie	EC&C: Recommend that Council allocate \$15,000 per annum to support marae based education programmes/events with a view to establishing or supporting an <u>established education institute here in South Wairarapa.</u>	Await Grant decisions 16/05/2018	
165	789-797	Maori Standing Committee	YES	Paul	General: It is time our marae and hapū, through the Maori Standing Committee, receive meaningful support to ensure the autonomy we were promised in Te Tiriti o Waitangi. It is within Council's best interests to enable tangata whenua to manage <u>their own future.</u>	Noted the input from the MSC and Maori members of Council is acknowledged and appreciated.	

Submissions Summary (Not Consulted on)

No.	Pgs	Name of Submitter	Wish to be heard?	Officer	Summary of Submission	Officer Comments	Councillor notes
166	798-800	Papawai Marae	YES	Russell	Resource Management: We would like to be in the consultation around the bilingual signage that is proposed. A great start would be the correct spelling of "PAH Road". It is culturally inappropriate and should be set to the correct spelling of PA Road.	An application to correct the spelling of "Pah" Road could be made to Council. Corrections to road names are provided in Council's Policy on Naming of Public Roads, Private Roads and Rights-of-Way. The Policy requires a "significant majority" of support from residents and owners along the road.	
167	801-806	Hau Ariki Marae	YES	Jennie	EC&C: Grant Application for \$27,000. \$5000 for 3 years of Matariki annual community event commencing 2019 and rates rebates and \$12,000 for erection of the Waharoa (Marae Entrance).	Await Grant decisions 16/05/2018	
168	807-809	Emma Waddington	No	Paul	General: Document smacks of tokenism towards biculturalism. Street signs is not biculturalism. Active participation with the Maori Standing Committee, the local maraes and a proven effort to engage with both needs to be established. Very disappointed in council response to biculturalism in spite of electing some great Maori representatives last election, in spite of the Maori Standing Committee, in spite of the great maraes I cannot see their voice in your plan.	Noted, MSC and Marae Grant applications will be considered alongside other funding requests.	
169	810-812	John and Jennifer Grey	No	Paul	General: Would like Council to be helpful rather than officious and obstructive. From repeated experience SWDC has a culture of "no, you can't" rather than "how can we help make this work to the benefit of the community"	Noted, we regularly monitor feedback and review issues as they arise.	
169	810-812	John and Jennifer Grey	No	Paul	General: Council staff have quoted NZTA regulations as being the obstacle, when on enquiry at NZTA this has proven not to be the case. Council also quotes Combined District Plan as a reason for decisions when, using the same district plan CDC and MDC regularly make very different decisions.	Acknowledge that whilst we have a combined District plan there can be varying interpretations of parts of the plan and we will work with MDC and CDC to minimise this as part of the upcoming DP review.	
169	810-812	John and Jennifer Grey	No	Russell	Resource Management: one of SWDC's responses to the possibility of making a resource consent application being "you can, but don't bother because it won't be granted." Even for things that have little or no impact on others and which are given consent by the other Councils under the same District Plan.	Council staff provide advice on the District Plan and resource consent process. If officers consider that an application would be unlikely to be granted then this is communicated to the applicant to ensure they are aware of this. Note - this relates to a conversation with Jennifer Grey regarding placing a sign remote from her shop (in its previous position) by the War Memorial in Fox Street. To avoid Jennifer going to the effort and expense of what officers thought was a futile application the message was that granting consent to such an application would not be approved so in the officers opinion it would be best not to apply. It appears the tone and words have been mis-quoted here. Jennifer raised the conversation with the GMPE at the time and he previously addressed this.	
171	816-907	Heritage NZ		Russell	Resource Management: Highlights the importance of continued partial waiving of reserve contributions and rates rebates where cultural heritage is conserved or enhanced or remission of consent fees for work undertaken on heritage buildings	Council does not currently offer rebates on reserve contributions where cultural heritage is preserved. Council is undertaking a District Plan monitoring and effectiveness programme. The findings of this, could include a cost benefit analysis of subsidising heritage protection and feed into the District Plan review process and Council policy. The Masterton District Council provides the owners of listed buildings with \$50.00 per year towards maintenance, free resource consents, and 1 hours free consult with a heritage architect	
171	816-907	Heritage NZ		Russell	Resource Management: well care for history heritage fundamental to creating a vibrant region that draws people and fosters local identity	The District Plan provisions protect the heritage value of specifically listed buildings and within the heritage precinct areas.	
171	816-907	Heritage NZ		Russell	Resource Management: Suggest incentive funding for conservation works on historic buildings be provided to owners. Notes some will be subject to revised earthquake strengthening requirements. Encourages council to set aside money for heritage incentive fund.	Council does not currently offer rebates on reserve contributions where cultural heritage is preserved. Council is undertaking a District Plan monitoring and effectiveness programem. The findings of this, could include a cost benefit analysis of subsidising heritage protection and feed into the District Plan review process and Council policy. The Masterton District Council provides the owners of listed buildings with \$50.00 per year towards maintenance, free resource consents, and 1 hours free consult with a heritage architect. There will be considerable costs to property owners to earthquake strengthen historic buildings. The owners of buildings which are listed as heritage items or within heritage precincts do not have an automatic right to replace old buildings with new ones. Council has no plans to subsidise earthquake strengthening of buildings and considers this is a ratepayer expense.	

Submissions Summary (Not Consulted on)

No.	Pgs	Name of Submitter	Wish to be heard?	Officer	Summary of Submission	Officer Comments	Councillor notes
171	816-907	Heritage NZ		Russell	Public Protection: Suggests one possible incentive to promote the protection of historic heritage is the provision of specialist advice to building owners, exemptions to select district plan provisions (e.g. parking requirements). Advocates for a range of initiatives. Attached to submission is Heritage NZ's incentives for Historic Heritage Toolkit	HNZ's toolkit for heritage protection could be assessed to form part of the District Plan review. Note that existing buildings used for permitted activities in the commercial zone are exempt from meeting the parking standards.	
172	908-910	Featherston Ratepayers and Residents	Yes	Jennie	Policies: Noted that changes to policies were not highlighted, nor was the policy support for the changes and the impact explained	As the changes to policies were relatively minor this year, a summary was not required in the CD and this was agreed with audit. There is a summary of the changes to policies in the supporting documentation on page 88.	
172	908-910	Featherston Ratepayers and Residents	Yes	Jennie	General: There is concern about proposals in plan for only a population increase of 1,000 over 10 years. Need to be planning to increase core services now. It would be preferred that Council seek to lower the impact of upgrading wastewater facilities in this LTP by focusing on core services not entailing a rating increase for the next 3 years.	The estimated population increase for the District is summarised on page 11 of the supporting documentation and shows an increase of 2,933 from 2013 to 2043. This projection was prepared by consultants who specialise in population projections. Council have minimised the impact of the cost of upgrading wastewater facilities by spreading the costs over the life of the assets, recognising that they will benefit both current and future generations. Request to focus on core services is noted.	
173	911-912	Wairarapa Chamber of Commerce	Yes	Jennie	EC&C: Encourages Council to place support behind the Wairarapa regional airport and to explore further solutions for the district's transport infrastructure given that it is struggling to meet increasing demands by the growing Wairarapa economy.	Council continues to lobby central Government and GWRC regarding transport issues for the Wairarapa and their impact on the economy. The three Wairarapa Councils are working with WREDA and GWRC on an economic development strategy and lobbying for improvements to both rail and air transport options will be part of this work	
174	913-919	Featherston Booktown	Yes	Jennie	EC&C: Requests \$8,000 to help pay for presenters to the Featherston Booktown Festival (speaking fees, accommodation and travel costs) on the 11-13 May 18.	Remission on hire charges received for hire period. \$500 received from FCB - Await grant decisions 16/05/2018	
176	922-923	Waiwaste	Yes	Lawrence	Reducing Waste: Currently Masterton based, wants to develop branches in South Wairarapa and Carterton. Over next 3 years wants to register as Inc Society, employ coordinator, increase food donors, increase number and variety of food recipient groups, increase number of volunteers, secure premises, coordinate with Love Food Hate Waste, raise awareness of food waste and poverty, purchase vehicle, fundraise, develop a community and schools programme. We contribute to your priorities by minimising waste going to landfills.	Noted, will pass on to waste minimisation coordinator.	
180	932-936	Aratoi	Yes	Jennie	EC&C: Requests \$45,000 for annual operating budgeting purposes	Await Grant decisions 16/05/2018	
181	937-945	Safer Community Trust		Jennie	EC&C: Requests \$10,500 to deliver a proactive parent course and the development of an online Social Services Directory to be managed by WSCT and accessible to all individuals within this region	Await Grant decisions 16/05/2018
